VOLUME VII

MUENSTER, TEXAS, COOKE COUNTY, FRIDAY, FEBRUARY 26, 1943

NUMBER 14

I can realize now that I made the wrong start on this series of articles about the Field Artillery officers' school. I've exhausted my store of superlatives on subjects that were simple in comparison with the present subject. So here I'm left stranded without adequate expression.

For Gunnery is really a boog-eroo. Anything this column has said about bewilderment in Material, Motors, Administration, or Military Law goes at least double for Gunnery. Con has never been so completely befogged.

In spite of propaganda herabots that the course is set up so that the average civilian can master it, candidates stick to their contention that any but advanced artillerymen will find it mighty tough — maybe too tough. As usual, the information is dished out in the tempo of machine gun fire. That's alright if a guy keeps his ears open and his mind active — and if the instructor is speaking his language. But if he's rushing off a mess of words that have not been thoroughly oriented in a fellow's vocabulary, he gets ahead in an awful hurry. There isn't enough time to apply definitions to unfamiliar words as the lecture plunges on.

As a consequence, casualties are beginning. Last week some men joined our group after an unsuccessful struggle through three or four weeks of the subject. The group is down almost to its previous enrollment again. About three weeks hence it will be considerably below that. Some will have fallen back for another trial, some will have fallen out for keeps. This sequence of development is so consistent that it is being accepted as a general rule. The standard comment on seeing a small group is "they're through Gunnery."

The course opened bright and early Monday with a nice little pep talk reminding us that this five and one-half week stretch can be survived by 100 per cent application at class and practice periods plus intensive study every night. There was also a word of caution about falling behind. The course is so fast that catching up is practically impossible. (As far as yours truly and several others of our group are concerned, we'll learn in the next few weeks whether that statement is true.)

The pep talk also included the famous remark, "Grocery store arithmetic is all you will need." That's the standard joke. Almost every time we run into a tough problem somebody will pop off about grocery store arithmetic, or "the store I worked in was never like this."

What's actually demanded is a good deal of algebra, plane geometry and trigonometry along with advanced arithmetic. In other words, a good foundation in high school mathematics. If a person hasn't had that they'll very obligingly fix him up by throwing the complete high school course at him in two hours. Not bad as a refresher but too much for anyone who has to start from scratch.

Wanna know what makes this so bewildering? It combines all the factors involved in hitting an unseen target miles away. That's what we are getting now. Later we'll have to allow for wind, learn to spot enemy positions by sound, and other complications. The same factors make it fascinating. What a shame a guy can't have five and one half months of it, as was the case before the war forced us to step up the tempo.

For instance, it's interesting to do geometric tricks with these fancy instruments. Figuring out the exact angle that will enable a gunner to aim at some mark anywhere within sight and send his projectile to a target over the hill. Normally this involves a whole mess of angles, for the positions of target, aiming point, gun and instrument all have to be figured in. To decide which have plus values, which have minus, what relation they have to specified distances, etc., is one of the causes of many a headache the past week. There's no doubt about it, artillery is a fine science. It's a shame that anything so precise has to be applied destructively instead of constructively.

Mayor Proclaims Feb. 28-March 6th As Texas Week

PROCLAMATION DESIGNATING FEBRUARY 28 THROUGH MARCH 6 AS TEXAS WEEK

WHEREAS, the approach of Texas Independence Day and Alamo Day herald a week of deep significance and profound meaning in the minds and hearts of all Texans; and

WHEREAS, I am prompted by the patriotic members of the Forty-Second Legislature, as expressed in Senate Concurrent Resolution Number Eight, and by my own feelings of love, loyalty, and patriotism toward my State;

NOW THEREFORE, I, Ben Seyler, Mayor of the City of Muenster, Texas, do hereby proclaim the week of February 28 through March 6, 1943 as

TEXAS WEEK

I urge all citizens of this municipality and of Texas to observe Texas Week in an appropriate manner. No one of us will fail to cherish the rich heritage which our founders and forefathers prepared for us of this generation.

During this week let us make much of the spiritual values of our history and of our traditions. Let us dedicate our lives afresh to ideals of statesmanship, character, leadership, and service. Let us make it possible, as did our forebears, for our own and for future generations to enjoy liberty as of conscience, of speech, of the press, of worship, of public assembly, and all the other liberties which we cherish.

In this critical hour when democracy, even civilization itself, is at stake, it is more than ever fitting to commemorate the glorious deeds of those who laid the cornerstone of the Texas Empire. Let us prove ourselves not unworthy of the incomparable heritage left to us by pioneers and martyrs.

What they fought for in the past we are determined to hold. Remember Goliath! Remember the Alamo, REMEMBER PEARL HARBOR.

IN TESTIMONY WHEREOF, I have hereunto signed my name officially and caused the Seal of my office to be impressed hereon at Muenster, Texas, this 23rd day of February, A.D. 1943.

BEN SEYLER
Mayor of Muenster, Texas

Junior-Senior Banquet At Sacred Heart High Is Outstanding Affair

The first formal Junior-Senior banquet of Sacred Heart High school took place in the school auditorium Monday evening, February 22, at 7:30 o'clock. Rev. Richard Evedl was toastmaster and Rev. Thomas Buegler was guest speaker. Miss Mary Wiedemann, instructor of shorthand, was a special guest, and parents of the juniors and seniors were honor guests.

A beautifully colorful scene was presented as the guests filed into the candlelit banquet hall. The large U-shaped table was artistically decorated, stressing the class colors of blue and white. The three colors were combined to give the setting a touch of the patriotic theme. In keeping with the day on which the affair was held,

A large, tiered wooden candelabra holding red, white and blue candles, flanked with fern, finished with a large bow of red tulle, centered the three sides of the tables. Red roses in bud vases and single red and white candles completed the center table decorations. Red rose nut cups containing mints and menu-program cards completed the decorations on the table and ferns and red geraniums were used profusely in adorning the hall.

An interesting program was rendered during the course of the banquet. Frank Hennigan, vice president of the Junior-Senior club gave the welcome address, to which Harold Luke, president, responded.

A musical program, presented by the seniors and juniors included a four-voiced selection by Misses Gladys Wilde, Juanita Weinzapfel, Lucille Wimmer and Harold Luke, with Miss Alma Marie Luke playing the piano accompaniment.

Miss Weinzapfel rendered a violin solo, for which her mother played the piano accompaniment, and a vocal solo, "A Perfect Day" sung by Miss Gladys Wilde with Miss Weinzapfel at the piano brought the program to a close.

Father Thomas delivered the main address. It was eloquently given, and spiced with bright humor. After the final blessing the National Anthem was sung by the assemblage.

The delicious three-course menu was served by the sophomore class. Mothers of the members prepared the meal.

Local Representatives Attend Perrin-Howze Red Cross Council Meet

Mesdames J. M. Weinzapfel, M. J. Endres, Jim Cook, and G. H. Hellman from this city attended a meeting of the Perrin-Howze Council at Gainesville last Tuesday. Approximately 125 Red Cross representatives from Dallas, Grayson, Montague, Denton and Cooke counties were present at the session in the hospital area at Camp Howze. This was the regular February meeting of the council.

Representatives gave reports of services and made new pledges for cooperation and assistance.

The meeting began shortly after 11 a.m. and recessed at 1 o'clock for a luncheon served in the medical officer's mess at the hospital. Col. J. P. Wheeler, Camp Howze commander, and Col. W. S. Caffee, hospital commander at the camp, welcomed those present. A brief session, during which organizations present pledged various items and services, was held following the luncheon.

Mrs. Rosina Klement, who suffered a sinking spell recently is reported back to normal this week. She is Muenster's oldest resident and will be 91 years old in March. She has been bed-fast for the past several years at the home of her son, Frank Klement.

HENRY LUKE BUYS RED CHAIN STORE; ARMY CALLS ROHMER

Henry J. Luke this week closed a deal with Ed Rohmer making him the new owner and manager of the Red Chain Feed Store in this city. Rohmer sold the business preparatory to entry in the armed forces.

Luke, who also owns and operates a lumber yard on the same lot, now has both his businesses "under one roof," so to speak.

The Red Chain store opened here in October, 1940, with Ed Rohmer and Walter Becker as partners. In February, 1942, Becker entered the army and since that time Rohmer operated the business by himself.

Mr. Luke stated that he will carry on at the store in the same manner as heretofore and that he will offer the same courteous service, quality feeds, expert grinding, etc., and conduct the business, in general, as it has been conducted in the past. He also plans a few improvements and repairs for greater and more efficient service. Until closing the deal with Rohmer, Luke had been in charge of a lumber yard at Camp Howze, from which position he resigned to take personal charge of his duties. Assistants to help him with the work had not been announced Tuesday.

Twenty Dozen Cookies

Members of Muenster's Civic League and Garden Club baked twenty dozen cookies and one large three-layer cake for soldiers at Camp Howze, last Saturday. The confections were placed in the USO club rooms for the soldiers to enjoy on Sunday. Mrs. Jim Cook, defense committee chairman, was in charge of the details.

Muenster's Red Cross Quota \$500

Drive For War Fund Campaign Will Get Underway March 8th

Committee chairmen for the Red Cross war fund campaign to be conducted in Cooke county, beginning March 8, met in Gainesville Monday evening and heard W. C. Robinson, war fund drive chairman, explain details of the campaign.

At that time the county quota of \$10,000 was divided as follows: Gainesville, \$6,500; Muenster, \$500; Valley View and Era, each \$375; Myra, \$150; Lindsay \$200; Callisburg, \$175; Dexter \$100; rural school districts, \$1,625.

Mr. Robinson urged committee chairmen to impress upon persons they ask to solicit funds, the importance of giving their time to such a worthy cause, pointing out that millions of men have left their families, their jobs and businesses and are giving their lives in the defense of their country. He said the Red Cross will give aid to these men and their families.

In Muenster Mrs. G. H. Hellman is chairman of the drive. She will be assisted by Mrs. Jim Cook and G. H. Hellman. A complete canvass will be made, not only of city residents, but also of persons who reside in the country.

MUENSTER GETS 20 PER CENT CUT ON GOOD FIRE LOSS RECORD

AUSTIN, Feb. 20—A good fire record credit of 20 percent will apply to fire insurance premiums on policies written in Muenster for 12-months beginning March 1, it was announced today by Marvin Hall, State Fire Insurance Commissioner. This will result in a direct saving on fire insurance as 20 per cent of the normal premium will be deducted on policies written after the effective date.

The 20 percent credit will result in an estimated saving of \$703 on fire insurance costs for Muenster policyholders during the next year. The estimate is based on fire insurance premium payments in 1942. A 20 per cent credit has been in effect for the past year.

The fire record for a city or town is determined by a fixed ratio between losses and premiums figured on a five-year average. The maximum good fire record credit is 25 per cent. The maximum charge (or penalty) for heavy losses is 15 per cent.

Hall explained that the fire record credit is not to be confused with the key rate for a city or town. The key rate, he pointed out, is determined among other things, by the type and quality of fire fighting equipment and water facilities, as well as the adoption of fire prevention measures.

Gardening Is Topic At Girls' 4-H Club Meeting

Members of the local girls' 4-H club met Tuesday morning at the Sacred Heart school for a program of "Gardening." Appearing as speakers were Misses Philomine Felderhoff and Rose Marie Becker who discussed garden vegetables and gave lists of planting dates.

Miss Mary Evelyn Seyler, president, was in charge of the business session, and Miss LaVetta Martin was elected secretary to replace Miss Allene Swirczynski who moved to Dallas recently. Later a recreational period was enjoyed during which Misses Rosa Lee and Cora Lee Fuhrmann offered vocal selections.

Fifty-six members and Sponsor Miss Olivia Stock were present.

OPA Names Point Values Of Food Items

Three Cans Each Month Is Average Allowance

Processed Vegetables And Fruits Reduced By Over 50 Per Cent

The Office of Price Administration announced Sunday the ration values of canned foods. These are so stringent they will reduce consumption of these products to less than one-half the amount used by the average American family during 1941-42.

Severity of the new point rationing plan as applied to most canned and processed foods is such that the individual ration of 48 points a month, per person, will permit, for instance, the purchase of only one can each of peas and tomatoes in the No. 1 size and one No. 2½ size can of peaches.

Effective March 1

The new rationing program becomes effective March 1. As a preliminary to this rigid rationing, OPA on Saturday night froze sales of some 200 canned and other processed foods until the new program begins. Without warning, late Saturday night, the sales of dried beans, peas, lentils and packaged soups were frozen, and these items placed on the list of foods to be rationed.

On Monday of this week began the registration of citizens to obtain war ration book No. 2. The registration will continue during the entire week throughout the United States and some 13 million persons will register.

In Muenster the registration began Thursday and will continue on Friday and Saturday in the Public school. Cooperation has been urged by alphabetical registry.

Fruits "Cost" Most

Fruits and fruit juices will "cost" the housewife the most points, while soups are at the low end of the scale. The average value of restricted items is roughly 14 points, and therefore the householder will be limited to about three cans a person a month unless she concentrates on "cheap" items like soup.

"This means that we will be eating less than half the amount of canned and processed foods that we ate last year," Price Administrator Prentiss Brown, said. "We'll do on this scant ration, so that our fighting men and the fighting forces of our allies may have the food they need to carry on."

Baby foods were placed in a special category. Their value is one point in containers of four to five and one-half ounces, and two points for containers of five and one-half to nine ounces.

Official tables of point values will be posted in stores before rationing starts March 1. There will be no need, however, for persons to crowd around the posters, because merchants have been instructed to mark the point value of foods, either on the item itself, or on the tag or shelf where the price is shown.

BAND CONCERT AND CLOWN HAPPY JACK IN HALL TONIGHT

The Muenster Youth Band will give a concert this Friday evening in the parish hall, beginning at 8:30. Rev. Richard Evedl, director, advised Monday.

Also appearing on the program will be Happy Jack, the Clown, none other than W. H. Morrill, who has shown with a number of leading circuses. He has a bag of tricks and fun in store for his part of the show, it has been announced.

The program will be a benefit for the band and everybody is invited to attend. Admission charges will be 15 and 25 cents for children and adults, respectively.

1943 AUTO TAGS ON SALE; MUST BE ON CAR APRIL 1

You'll laugh at the little auto license tag the tax collector is going to hand you for your 1943 driving — but he'll laugh when you discover the cost!

The postage-stamp tags are more than odd, when compared with the plates you have been getting. They are used in connection with your present tags.

The new plates can be purchased at the office of Tom Hayes, tax assessor-collector, now and can be put on your car anytime after the first of March. They must be in place by April 1st.

Last, but not least, they cost the same price as in former years.

UNITED EARL FISHER, MISS VELMA EVERS

Earl Fisher, yeoman third class, stationed at the Naval Base, Dallas, and Miss Velma Evers of Amarillo, were united in marriage last Wednesday, February 17th, in rites performed at Umbarger. Rev. Father Dolje, pastor of Saint Mary's church, Umbarger, officiated at the double ring ceremony and at the nuptial high mass.

For her wedding the bride wore a lovely floor-length frock of white marquisette and lace, fashioned with a fitted bodice of the lace and a full skirt. Her fingertip veil of illusion and lace fell from a tiara of seed pearls and she carried an arm bouquet of pink roses. Her only ornament was a three-strand pearl necklace, a gift from the bridegroom.

Miss Ida Brandt of Umbarger attended the bride as maid of honor, and the bride's small sister, Miss Teresa Evers, was flower girl. Both wore dresses of blue marquisette and lace and carried arm bouquets of yellow snapdragons and white stock.

Pat Fisher of this city, brother of the groom, was best man.

Following the services dinner was served in the home of the bride's parents to the bridal party and a large number of relatives and friends. In the evening a dance honored the couple.

Joe Fisher, father of the groom, of this city, attended the rites. The newly-weds came to Muenster Thursday to visit his family and two parties honored them at the Joe Fisher home, one on Saturday evening, and the other on Sunday. Mr. and Mrs. Fisher left here Sunday evening to make their home in Dallas.

Mrs. Fisher is a daughter of Mr. and Mrs. E. J. Evers of Umbarger and prior to her marriage was employed with the Bell Telephone company at Amarillo. She attended the Umbarger schools.

Yeoman Fisher entered the Navy March 2, 1942, and has been stationed at the Dallas base since that time. He attended the local schools and Gainesville Junior college and was employed at the Muenster State Bank prior to his enlistment in the service.

In finding the Point Value of a container where contents are given in field ounces, consider the field ounce to be the same as the avoirdupois weight ounce. One pint is one pound one quart is two pounds.

The Point Value of any item weighing over four (4) pounds shall be arrived at by multiplying the number of pounds of that item by the Point Value per pound of that item as given in the "Per Pound" column. Fractions of a pound should be figured in quarter-pounds. Fractions of a quarter-pound should be figured to the next higher quarter-pound. Thus, an item weighing 4 pounds 9 ounces would be considered as weighing 4 pounds 12 ounces for the purpose of getting the Point Value of the item.

Junior-Senior Banquet

February 22, 1943! Yes it is the date which the Juniors and Seniors will never forget. Just the thought that we are the first class ever permitted to sponsor a Junior-Senior Banquet makes us feel the proudest class of Sacred Heart High.

We wish to thank all those who in any way made this, our first banquet, the success it was. Our gratitude goes first to our teachers:

To Sister Gerarda whose interest and guidance never failed us.
To Sister Geraldine who planned and carried out the table decorations with the Junior class and table service with the sophomore class.

To sister Paula for helping wherever possible.
And last but not least, to Sister Leonarda for the well-rendered musical program.

We also wish to thank the parents and friends who assisted us in any way and the mothers who helped cook and serve the main course.

On Monday February the fifteenth the Freshman-Sophomore club, under the direction of Sister Geraldine, honored the upper classmen with a Valentine party. Bunco

HOW WELL ARE YOU ACQUAINTED WITH YOURSELF?

You should know yourself better than anyone—but do you? See if you can answer these:

1. When you lay your hands palms down on a table, do your thumbs lie flat on their sides?
2. Which leg do you place on top when you cross them?
3. Which shoe do you usually put on or take off first, when dressing or undressing?
4. Do you brush your upper teeth first?
5. Your middle finger is prob-

ably your longest. Which is your longest toe?

6. Do your upper front teeth rest squarely upon your lower ones?

7. Is the distance from your shoulder to your elbow tip greater or less than the distance from your elbow tip to the end of your thumb?

8. When your arms hang down at your sides, is your thumb next your body, or away from it?

9. How many letters are here in your name?

10. Counting shoes at two, how many articles of clothing are you wearing?

Here's how right answers rate

you: 1 to 4—You must be thinking of two fellows. 5 to 8—Very good indeed. 8 to 10—That's wonderful, but with such an observation you should become a detective—and less self centered. —Ruth E. Riley.

Thoughtful

An Irishman carrying a large sack of potatoes along a lonely

road was overtaken by a man driving a team hitched to a wagon.

The driver offered Pat a lift, which he gladly accepted, but still kept the sack of potatoes on his back. The driver told him to put them down in the wagon.

"Sure," Pat replied, "I'm thankful for the lift ye give me, but I don't want ye to be burdened with the taters as well."

What You Buy With WAR BONDS

The Bofors anti-aircraft gun is designed for greater range and heavier calibre than the average anti-aircraft or rapid fire gun. They are mechanically intricate and more costly. The two-gun Bofors mount costs approximately \$98,000 while a Bofors quad-mount runs up to \$140,000.

We want our fighters to have the best equipment possible and your purchase of War Bonds will help pay for these guns, giving them an advantage over our enemies. Buy War Bonds every payday. At least ten percent of your income, or as much as you can buy will help pay the war cost, provide you with a nest egg for the future, and pay you good interest.
