

LONG ILLNESS OF MRS. BERNAUER ENDED BY DEATH

Sick Several Years, Critically Since May

Died Last Friday, Funeral Held Monday. Aged Lady Had Lived Here Since '08

Funeral services were held from Sacred Heart church Monday morning at 9 o'clock for Mrs. Mary Bernauer, 82, who passed away at her home here Friday morning at 5:30 o'clock, following an extended illness.

Rev. L. J. Kempf, a friend of the Bernauer family for many years, came from Memphis, Tenn., to officiate at the requiem high mass and at burial in Sacred Heart cemetery. Assisting Father Kempf at the mass were Rev. Frowin Koerdt, O. S. B., sub-deacon; Rev. Francis Zimmerman, O. S. B., deacon, and Rev. Edward Devers of Decatur, master of ceremonies.

Pallbearers were Henry Bernauer, Jr., and Rupert Wernert, grandsons, and Charles, Joe, Henry and Louis Bernauer, sons of Mrs. Bernauer. Burial was under the direction of Nick Miller.

Mrs. Bernauer was born in Carlisle, Illinois, 82 years ago. On January 23, 1879, she was married to Adolph Bernauer in Saint Joseph, Tenn. They were the parents of 10 children, one of whom died in infancy.

The family moved to Muenster in 1908, and Mr. Bernauer operated a blacksmith shop here during his active life. Mr. and Mrs. Bernauer observed their golden wedding anniversary on January 23, 1929, and Mr. Bernauer passed away later in the same year.

Mrs. Bernauer was active in church work, a member of the Mothers' Society and was beloved by all who knew her. She had been in ill health for the past several years and was bed-fast since last May.

Survivors include five daughters, Mesdames Jacob Wernet, Waco; L. W. Flusche, Decatur; and Charles Reiter, Kerrville; Miss Della Bernauer, Muenster; and Miss Frances Bernauer, Memphis, Tenn.; four sons, Henry and Louis of Muenster; Joe of Panhandle and Charles of Forrest City, Arkansas. Also 24 grandchildren and seven great-grandchildren and a half brother, Casper Haverkamp, of Muenster.

Out-of-town relatives at the funeral were the following: Mr. and Mrs. L. W. Flusche and daughters, Decatur; Mr. and Mrs. Joe Bernauer of Panhandle; Charles Bernauer, Forrest City, Ark.; Henry Bernauer, Jr., Dallas; Rupert Wernet, Decatur; Miss Frances Bernauer, Memphis, Tenn.; Mr. and Mrs. Frank Haverkamp, Lindsay; Mr. and Mrs. Joe Haverkamp, Gainesville; Louis Bernauer, Sr., and son, Louis, Jr., of St. Florence, Alabama; Mrs. Ben Evers of St. Florence, Ala.; Mrs. Peter Waltz of Lawrenceburg, Tenn.; Mrs. Jacob Wernet and children, Misses Josephine and Anna Marie, of Waco, and Mrs. Charles Smatralla of West.

Among out of town friends at the funeral were Harry Maley, Mrs. Frank Green and Mrs. John Tumulty of Decatur.

EXTENDED DROUGHT BROKEN BY MORE THAN INCH OF RAIN

This community's extended dry spell was finally broken last Thursday night and again on Monday by showers that are already showing favorable results in grain fields.

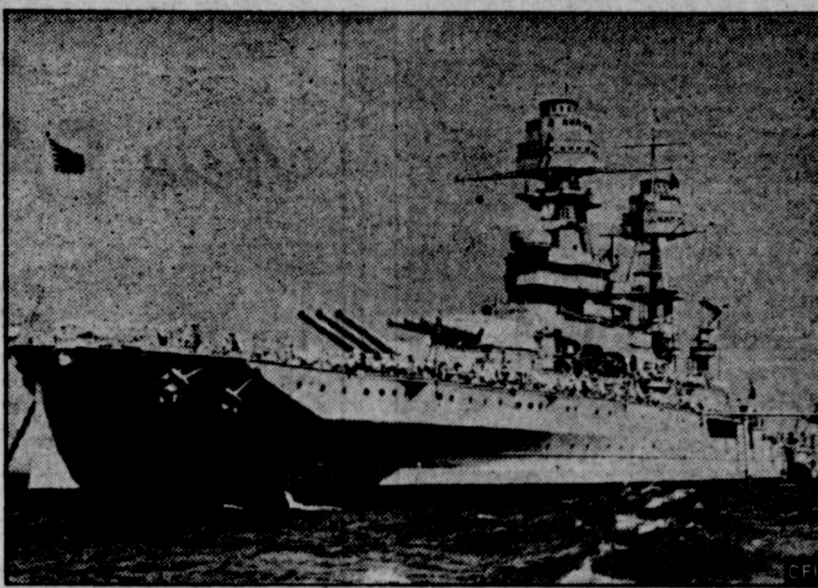

The first rain was not general but it was thorough over a great portion of the community. In the city it was gauged as three-quarters of an inch. On Monday the rain was better distributed but slightly lighter. It was gauged at five-eighths of an inch in Muenster.

WORK BEGINS THIS WEEK ON ROCK SCHOOL FOR VALLEY CREEK

A new school at Valley Creek to replace the one lost in a fire about a year ago is now under construction. According to reports early this week work had begun on the foundation.

Native rock will be used exclusively for the walls. They will be of the large flat variety laid the flat way. The project is being handled through a WPA appropriation at a total cost of about \$50,000.

U. S. FLAGSHIP ON WHICH PLOT WAS REPORTED

SAN PEDRO, Calif.—This is a view of the battleship Arizona on which all leaves of the sailors were cancelled Saturday, reportedly because of the discovery of evidence of a sabotage plot aboard the warship. Naval authorities declined to comment on a report that there had been a plan to damage the flagship, which is shown here at anchor in Los Angeles Harbor. The Arizona is Rear Admiral Russell Wilson's flagship of Battleship Division 1.

TRAGEDY IN POLAND

WARSAW, POLAND—Copyright by Julien Bryan—Julien Bryan with a ten-year-old Polish peasant girl, shown in a field outside Warsaw on September 16. It was reported that a German plane swooped low over the girl's sister and six other women while they picked potatoes in the field, and sprayed them with bullets.

MISS KLEISS HIT BY CAR, SUSTAINS ARM FRACTURE, BRUISES

Miss Lena Kleiss sustained a broken arm, several cuts and bruises and general shock when she was struck by an automobile in front of her home Saturday evening.

The accident occurred near 7 o'clock, shortly before the hour for church services. Miss Kleiss was attempting to cross the street and saw a car being driven south. Because of its slow speed she thought it would park in front of church. She noticed, a second later, that it was on its way to town and attempted to step back.

As she did, Buck Knabe, driver of the car, also turned and for a few seconds both seasawed. A car coming from the opposite direction at this time is said to have blinded Knabe as he struck Miss Kleiss. He stopped immediately to render aid. Witnesses to the accident said it was unavoidable.

Miss Kleiss was given first aid treatment by the local physician and was taken to Saint Vincent's Hospital at Sherman where she remained during the week. She is expected to return home this weekend.

FIRE PREVENTION WEEK OBSERVED BY CLEAN-UP, CHECK-UP

Muenster is cooperating with the rest of the nation this week in observing Fire Prevention week with special precautions.

As a means of reducing fire hazard a truck, furnished by the city is making a clean-up trip to take up rubbish of all sorts that might constitute a fire hazard. Citizens wishing to take advantage of the accommodation are expected to clean up their premises and leave their junk sacked or bundled at the curb.

Another precaution is an inspection tour by the fire marshal. In making a public announcement last Sunday, Mayor Seyler asked citizens to accept the inspection service in the spirit it is intended. "The marshal is not prying into private affairs," he said, "but trying to help home owners. In the interest of safety his suggestions should be followed to the letter."

MUENSTER WINS 6-3, SPLITS SERIES WITH TISHOMINGO 2 AND 2

This season's baseball rivalry between Muenster and Tishomingo ended in a tied series last Sunday as Muenster won 6 to 3 in a game much closer than the score indicates. The tension was not relieved until the last of the eighth when Gene Lehnertz drove in two men with a triple and brought the count up to 6-3.

Muenster took the lead with a single tally in the first and held it all the way, though the visitors threatened at times to step in front. In the field, Tishomingo was better, making only 2 errors compared with Muenster's 4. But in pitching it lost out. Adolph Knabe heaved all 9 innings permitting only 6 hits and two walks. Bill Adams pitched all but one ball for Tish and allowed 11 hits.

The one ball pitched by a relief man proved to be an oddity of the game. In the sixth, with two out and two on board Bill Adams swapped positions with his first baseman. The first ball pitched was wild but was recovered in time to nab the runner streaking in from third. Bill swapped for his old position the next inning and finished the game.

Tish had its old group of pre-Muensterites in the lineup Sunday. There were three Hoedebeck brothers, two Adams brothers, and Otto Walterscheid.

LOCAL NEWS BRIEFS

Miss Mary Hirschy left Saturday for Dallas to spend several days with her sister, Miss Josephine Hirschy.

Mr. and Mrs. Fred Glover announce the birth of a son at the local clinic Saturday.

Al Walterscheid is carrying his left arm in a cast since he chipped the bone at the elbow last Friday.

Ernest Wolf, small son of Mr. and Mrs. Henry Wolf, sustained a fractured right arm in a fall from a swing last week.

Mr. and Mrs. Andrew Hacker announce the birth of a son, Frank, Saturday. Mrs. Hacker is the former Miss Annie Sicking.

Mrs. J. S. Myrick left Friday to spend several weeks visiting with relatives in Austin, Sherman, Dallas and Houston.

George Mollenkopf and family moved Tuesday into the house vacated by Mr. and Mrs. Bob Swirczynski.

Mrs. William Walterscheid and daughter, Miss Irene, and Mrs. John Hartman spent Friday and Saturday in Norman, Okla., with the John Henscheid family.

Paul Russell, young son of Mr. and Mrs. W. C. Russell, is recovering nicely from an appendicitis operation performed at the Gainesville hospital last Thursday.

Dr. and Mrs. E. W. Laake of Dallas visited here briefly Sunday afternoon at the stock home. They were enroute to Wichita Falls to attend an annual Kiwanis convention.

Mr. and Mrs. Barney Voth and daughters, Miss Gertrude and Mrs. Albert Kubis of Lindsay, spent Sunday at Justin as the guests of Mr. and Mrs. Joe Voth.

Mr. and Mrs. Fred Hennigan are the parents of a daughter, Joan Carolyn, born Friday morning. Mr. and

CITY CEMENTING WELL TO SHUT OFF FLOW OF SURFACE WATER

A cementing job to shut off surface water began Tuesday morning as the final task in completing the city's recently drilled water well. The work is being done because of hardness caused by mineral salts in upper sand levels and also because of a possibility that pollution from the surface may creep down beside the casing to the water sand.

Perforating the casing at a higher sand level after the lower sand failed to produce an adequate volume of water is responsible for the additional work. When first drilled cement was set above the lower sand, but the higher sand, which was topped later, was not protected in that way.

Special holes are being drilled to a depth of about 235 feet beside the well casing. The plan is to force cement around the casing through those holes rather than to pull the pump and cut the casing.

Mesdames John Mosman, J. W. Hess and John Fisher attended the diocesan retreat for women at Dallas Friday, Saturday and Sunday.

14 GIRLS ENTERED IN RACE FOR TITLE OF MISS MUENSTER

A contest sponsored by the young ladies' society of the parish to determine who will have the honor of being Miss Muenster at the Golden Jubilee celebration was instituted last Sunday night at the community gathering in the parish hall. Fourteen names appear on the list of entries.

The contest is held in connection with a campaign to sell badges for the jubilee, the proceeds of which are placed in the jubilee fund. No definite price is set for the badge but each penny paid entitles the donor to one vote for his favorite.

About a week before the celebration day the two leading entries will be permitted to continue the race and all others will be eliminated. Maids of honor are to be selected from the group of entries.

Miss Muenster and her attendants will play a conspicuous part in the celebration. She will be crowned queen at a program on the evening of Nov. 22, lead a procession to church the following morning and occupy a place of honor during services. A group picture with names of the queen and her court will be included in the history of the parish.

Contest entries at the present time are Misses Hilda Becker, Louise Felderhoff, Dorothy Fette, Lillian Fisher, Betty Hartman, Mathilda Hoengig, Eilfreda Luke, Marie Trubensbach, Gertrude Voth, Irene Walterscheid, Olivia Walterscheid, Josephine Wilde, Josephine Yosten, and Mathilda Hess.

HIGHER RATES FOR TELEPHONE SERVICE BECOME EFFECTIVE

Effective this month the service rate of the Muenster Telephone Co. is increased from the traditional 75 cents a month to \$1.00 for residence phones and \$1.50 for business phones. The change, adopted in a meeting of September 30, was made known in a general letter to patrons last week.

Unavoidable expense in recent extensive alterations made the increase necessary, the letter explained. Some of that expense represents numerous wire and pole replacements and the balance represents construction of a metallic system wherever phone lines are parallel with the recently installed rural electrification line.

HOLIDAY PROCLAIMED FOR COLUMBUS DAY

Officially, Columbus Day is a holiday at Muenster this year. A proclamation to that effect was announced by Mayor Ben Seyler at a community gathering in the parish hall Sunday night.

The holiday spirit was not apparent, however, during the day; rather it seemed to wait for the annual K of C observance in the evening. Only the bank and post office suspended business and both schools declared a holiday.

The Catholic Daughters of America will meet this Friday evening in the K of C hall at 7:30 o'clock. Mrs. M. J. Endres, grand regent, announced that the earlier hour for the business session will be in effect during the winter months.

Most Progressive Period In Community's History

Industrial, Commercial and Domestic Interests Profit By Widespread Trend Toward Improvement

Muenster is now in the midst of the most progressive period of its history. A building program that has been in effect almost constantly since the first of the year is approaching boom proportions in industrial, commercial and domestic fields.

Cracking Unit at Refinery
Headlining the list is the Muenster Refining Company now following a long series of improvements with a cracking unit, its greatest improvement. For two weeks men who can be spared from production activity have been working at preliminary changes, foundations, etc., preparatory to actual installation of the cracking unit. The refinery will enjoy a large increase in business as a result of the addition.

REA Line Extension
Several commercial enterprises are stepping to the front with important improvements. Within the next few months the Cooke County Electric Cooperative Association will construct ninety miles of line as extensions of the present system. Surveying has been in progress since September 1, plans and specifications are completed, the building contract is due to be closed soon and construction can begin as early as November 1. Though extensions will be made outside the community they constitute expansions of a locally organized system.

Bank Building
A sturdy, attractive bank building is likewise expected to be under construction within the next few weeks. J. W. Meurer, president, disclosed this week that the final drafting of plans is in progress, and they should be available any day. After that bids will be secured and the contract let promptly. Meurer added that he is anxious to avoid any further delay in order to be handicapped as little as possible by winter weather.

The bank will occupy its present location on Main. It will have a front of cut stone designed according to modern architectural standards with a considerable use of ornamental glass. The back and sides will be of brick. The inside is to feature attractive modern design, a central heating system, and arrangement for an air conditioning unit.

Wild Filling Station
A filling station at Main and the highway, on the lot now occupied by the Roberg home is definitely announced as another business venture. When selling to J. B. Wilde last week, Mrs. Roberg agreed to give up the location within three months. Wilde will begin building immediately after the Robergs move.

FMA Store, Enterprise
Two buildings are being checked off the list as completed this week. The FMA Store, a 64 x 64 brick structure with elaborate front of plate glass, structural glass, and glass block and correspondingly attractive interior, is equal, and possibly superior, to any grocery-market of Cooke County. It occupies the

(Continued on page 6)

THEO WALTERSCHEID SHOWS IMPROVEMENT IN CRITICAL ILLNESS

After spending almost a week in a very critical condition Theo Walterscheid was reported Wednesday as being considerably improved and almost past the crisis. He is in St. Vincent's Hospital, Sherman, with a severe case of pleurisy contracted early last week.

At times on Sunday and Monday attendants were inclined to give up hope when the patient sank into a deep coma.

HELPS-SELFY LAUNDRY TO BE OPENED HERE ABOUT NOVEMBER 1

Announcement was made this week by S. W. Cain of Myra that he will set up a helps-selfy laundry here before November 1. He said he has completed arrangements with A. C. Stelzer for the lease of the space now occupied by the Stelzer cafe.

The move will be made after the electric co-operative moves to its new quarters and Stelzer takes up the present co-op space.

Local NEWS Briefs

Miss Catherine Seyler of Dallas spent the week-end here with relatives.

E. P. Buckley spent the week-end at Pawhuska, Okla., with his mother.

Mr. and Mrs. Gregor Stelzer were guests of her parents at Illinois Bend Sunday.

Mr. and Mrs. Lee Haverkamp and children were Sunday dinner guests of her parents at Lindsay.

Mrs. Henry Otto of Sherman spent the early part of the week here as the guest of Mrs. Joe Otto.

Mrs. A. Dulock and son, Junior, of Gainesville, were guests of her sister, Mrs. John Schmitz, this week.

We meet mall order prices on Ajax unconditional guarantee tires. H. S. Wilde, Muenster (Adv. 47)

Miss Pauline Schoech of Dallas is spending this week with her parents, Mr. and Mrs. I. A. Schoech, and family.

Mr. and Mrs. Arthur Endres of Sulphur Springs were here Thursday to visit home folks and attend the Columbus Day picnic-dance.

Paranay oil will double the life of your motor at no extra cost. H. S. Wilde, Muenster (Adv. 47).

\$100 discount on several new 1939 model John Deere tractors. H. E. Myers and Sons, Gainesville. (Adv. 47)

Leo Klempt left Monday morning for Fort Smith, Ark., where he will attend the wedding of a relative and spend several weeks visiting.

Clarence Hellman returned to Chickasha, Okla., Sunday after spending a week here with his family.

Richard Fette, left last Friday for a visit with friends and relatives in Iowa. He expects to be gone two months.

For Sale: Full blood Rhode Island Red Chickens, Tompkins strain \$1.00 each. C. L. Wilson, Saint Jo. (Adv. 47-8p)

J. B. Wilde and Ed Cler were in Dallas Tuesday for a showing of the new Chevrolets. Mr. Wilde will have the new models on display at his garage Saturday.

See us for bargains in livestock and used tractors and farm implements. H. S. Wilde, Muenster (Adv. 47.)

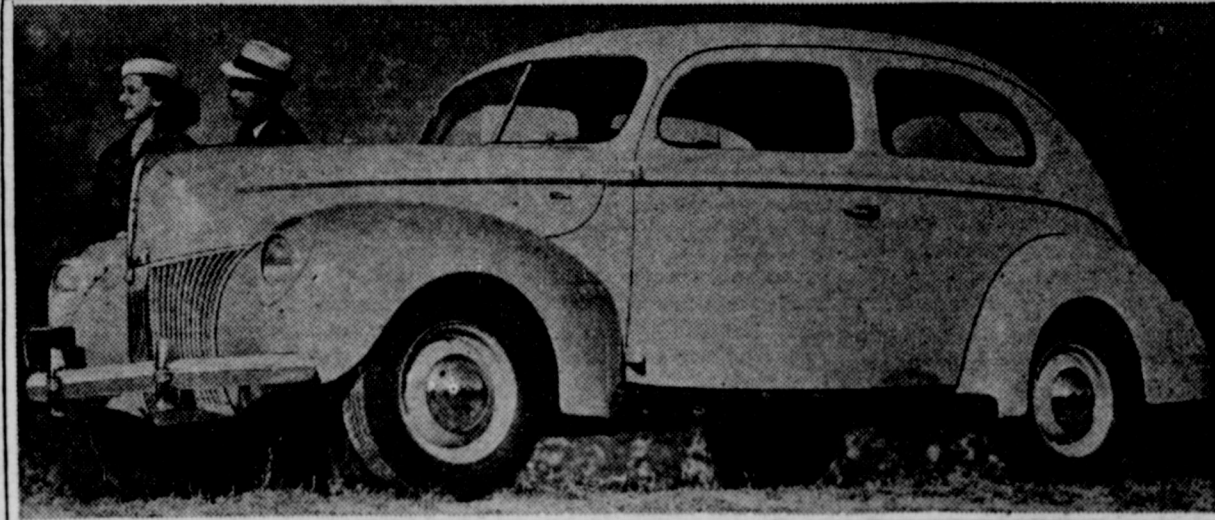

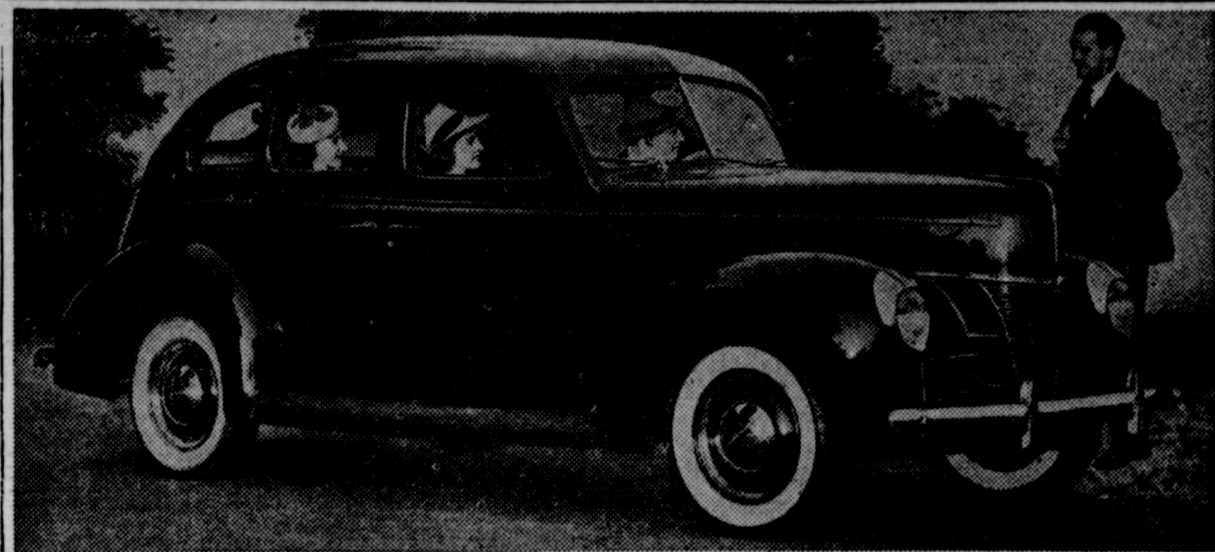

The new 1940 model Ford was officially introduced to Muenster last Friday night in a special showing at Herr Motor Company. About 250 persons were in attendance.

The children of Mrs. August Friske surprised her with a party last Wednesday evening in observance of her birthday. Ice cream and cake, brought by the guests, was served at the close of an informal social hour.

Maytag washing machines now as low as \$59.50. We also have Westinghouse washers and a complete line of Westinghouse electric equipment. H. S. Wilde, Muenster. (Adv. 47)

Mr. and Mrs. Bob Swirczynski will leave during the week-end for

Two Ford V-8 Cars for 1940 Presented

HERE are the two Ford V-8 cars presented for 1940. One is a Ford V-8 and the other a deluxe Ford V-8. Top, the deluxe Ford V-8 Fordor sedan; below, the Ford V-8 Tudor sedan. Both are big cars with graceful lines. Emphasis in interior styling is on fine appointments. Among numerous important fea-

tures are a finger-tip gearshift on the steering column, a new controlled ventilation system and Sealed-Beam headlamps for safer night driving. Two V-8 engines are available, at 85 horsepower in the deluxe, the 85 horsepower or a 60 horsepower engine in the Ford V-8 models. Cars with 85 horsepower

engine have improved spring suspension and a torsion bar ride-stabilizer. Four Ford V-8 and five deluxe body types comprise the two lines. A new business coupe as well as a coupe, Tudor sedan and Fordor sedan are available in both. There is also a deluxe convertible club coupe with automatic top standard equipment.

Mount Carmel, Ill., to make their home. They have purchased a trailer house to take with them. He will engage in oil field work.

Mr. and Mrs. Rudy Hellman and sons, Monte and Damien returned Wednesday night from their trip to the Oldsmobile factory for a new car. Returning they visited briefly with relatives in the North.

Plain and fancy sewing and alterations, Print dresses 50c, plain crepes, \$1.00, wool skirts, 75c. Mrs. E. H. Ballowe in the Mrs. Henry Schnitker home, Muenster. (Adv. pd.)

According to word received here Mr. and Mrs. Matt Stelzer and sons will be back in Muenster soon. Matt sustained a foot injury that will keep him from oil field work during the winter. The family has been in Illinois for several months.

\$375 will buy a John Deere General Purpose 10-20 tractor with lister, planter, cultivator and 8 disc one way plow. Will accept live stock as trade in and give terms on balance. H. E. Myers and Sons, Gainesville. (Adv. 47)

Mr. and Mrs. Joseph Flusche had as dinner guests Sunday Mr. and Mrs. Joe J. Neu and family, Mr. and Mrs. Raymond Zimmerer, Mrs. Lawrence Zimmerer, all of Lindsay, Mr. and Mrs. L. W. Flusche and children, Mrs. Al Flusche and children of Decatur, Mr. and Mrs. J. P. Flusche and family of Pilot Point, and Mr. and Mrs. Henry Henscheid and family.

Prices on tractors, farm implements, and All-Crop combine harvesters will rise on Oct. 25. Your order with a small down payment before that date will be accepted for future delivery. Livestock and grain taken in trade, no interest charged until after delivery. H. S. Wilde, Muenster (Adv. 47)

ENROLLMENT IN HOLY CHILDHOOD ASSOCIATION TO BE OCTOBER 17th

October 17th, next Tuesday, has been set as the date for the annual enrollment of children in the Association of the Holy Childhood. The reception was formerly held on the feast of the Holy Innocents, December 28th, but has been changed because the weather is usually bad in December, making it impossible for mothers to bring children to church at that time.

Mothers with infants and small children to be enrolled will assemble in the basement of the parochial school next Tuesday morning and march in procession to church for mass and for the blessing of the little ones.

LEAGUE AND GARDEN CLUB WILL HAVE MEETING TODAY

The Civic League and Garden Club will meet in regular monthly session this Friday afternoon at 3 o'clock in the public school.

The subject of the afternoon's program will be "Soil Analysis". Mrs. Joe Luke, as one of the speakers, will discuss "Compost." Mrs.

T. S. Myrick will speak on "Natural and Artificial Soil Foods."

Each month at the meeting a short talk will be given on the flower symbolic of that particular month. "Hops" is named for October and Miss Olivia Stock will tell something about this plant.

AFTERNOON OF QUILTING AT WIELER HOME TUESDAY

Mrs. William Wieler was hostess for a quilting party in her home last Tuesday afternoon. During the time devoted to sewing, an attractive "nine patch" design was completed. The hostess served refreshments to Mesdames Theodore Wiesman, Henry Fleitman, Frank Seyler, John Kathman, John Haverkamp, William Walterscheid, Nick Stoffies, Joe Felderhoff and John Wieler.

BIRTHDAY IS OBSERVED BY A. J. FELDERHOFF

The tenth birthday of A. J. Felderhoff was the occasion for a party Friday afternoon when a group of his classmates met at his home and

presented him with a nice assortment of gifts. The honoree's mother, Mrs. Tony

Felderhoff, served refreshments to the young guests at the close of the afternoon.

Your Health

BY GEO. W. COX, M. D.
Texas State Health Officer

AUSTIN.—On September 1, 1939, statistics from the State Health Department showed that 34 percent of the population of Texas, or 2,144,536 persons, were being protected against communicable diseases through the functions of full-time county and city health departments in 23 counties and 2 cities independent of the counties. These local health units carry out a well-balanced public health program to keep the well person well, and to further safeguard the health of individuals by reducing to a minimum the various communicable diseases rendered combatable by modern public health methods.

Public health, over a score of years, has rendered combatable such diseases as typhoid, malaria, undulant fever, tularemia, yellow fever, trichinosis, hookworm, the dysenteries, and the venereal diseases. The health of any geographically defined area, i. e., city or county, is in direct proportion to the amount of energy and money judiciously and scientifically expended for the protection of the health of the people of that area.

Twenty-six additional counties, with a population of 476,800, are protecting the health of their respective communities by a partial full-time health service wherein nurses, trained in public health, work in collaboration with the local part-time health officials and the medical profession under the guidance of the State Health Department.

Thus, through full-time county health units and nursing services 42 percent of the population of the State in 49 densely populated counties, and 2 cities exclusive of counties, are protecting the health of their commonwealth with the most up-to-date public health practices available. There remains 58 percent of the total Texas population, scattered over 205 counties, unprotected against diseases through any function of local health departments.

It has also been demonstrated in other states that in such counties, due, both to relative uncongestion of population, and for economic reasons, cooperative health departments set up for two or more counties will give the benefits of health work commensurate with the other counties at a relatively cheaper cost.

Establishment of local health departments in Texas' counties and cities, in collaboration with the State Health Department, the United States Public Health Service, and the Children's Bureau of the Department of Labor, has expanded over 300 percent since 1936.

The standard personnel of a local health department includes a director, a nurse, and a sanitary engineer, all trained in public health, and a clerical force, to adequately supervise in the county and the public health activities comprising communicable disease control, maternal hygiene, infant hygiene, preschool hygiene, school hygiene, sanitation of water, sewage, food, milk, and school systems, special programs adapted to the health problems of the locale, and work in tuberculosis and venereal disease control.

Persons and groups interested in securing health protection for their counties are requested to write the State Health Department for further information on the county health unit plan as operative in Texas.

THE DATE PALM

To the Arab, the Egyptian, and millions of other people, semi-civilized and cultured, the date palm is accepted as a symbol of beauty and life—beauty because it stretches its graceful fronds toward the sky as if appealing to God for aid for those who tread the desert sands and the far reaches of Africa—life because its fruit feeds millions who inhabit these inhospitable lands.

To them the date palm is a divine gift, for it serves man in many capacities.

Houses and crude habitations are built from its wood; its fibre make raiment especially adapted for the climate; its wine has special stimulating properties and lacks the aftermath usually attendant upon an alcoholic drink; its fruit feeds the hungry and is especially stimulating and body building, and when death comes to a follower of Allah, his body is wrapped in a shroud made from its bark.

No wonder the Mohammedan repeats daily as one of his prayers of gratitude, "Thanks to Allah who gives the palm."

The date palm tree is spoken of and written about in documents which saw the light of day thousands of years before the coming of Christ. It played an important part in the husbandry and the religions of early men and was the first tree on which artificial fertilization was ever practiced by the Mesopotamians, who were exceptional horticulturists and who later tried similar experiments upon the fig-tree.

History also credits these people with producing the nectarine, which is not, as some people believe, a cross between a peach and a plum, but a distinct species of fruit.

Mohammed, the founder of the Moslem religion, who lived during the years 570 and 632, and who began life as a camel driver, existed during the years of dire poverty almost exclusively on dates and water—a diet, forced by necessity upon millions of nomads of the desert to this day.

Later in life, when men rose up to call him the Prophet of God, he added to his daily menu cucumbers and camel's milk. For stimulating purposes, he drank the fresh unfermented wine of the date, made by pouring water on fresh dates and allowing to stand overnight. This drink, known through the East, is a favorite among Mohammedans still, and it is called nabidah.

Perhaps there exists nowhere a more virile, vigorous and healthy race with less creature comforts than the Arabs, and dates, fresh or dried with date wine, are their principal foods.

Dates and camel milk have all the food essentials of a complete diet. The fruit supplies sugar and minerals, with vitamins, while the milk provides the protein fat and calcium with other vitamins. Try a diet of fresh dates if you want to reduce and remain strong and healthy.

NO PLACE FOR MULE IN MODERN WARFARE

KANSAS CITY.—The Missouri mule stood firm for peace today, its whiffle-tree tied to a plow. Modern mechanized warfare heralded its passing as the army mule.

In the markets where "mule millionaires" were made 25 years ago when world war demands sent prices soaring and practically "de-muled" the Midwest, mule and horse trading today was "bearish."

Harold J. Kirkham, secretary of the Kansas City Horse & Mule Commission Co., said the war probably would depress the market further if it lasted through the winter.

"If the war hurts the cotton business," he said, "the mule market will be hurt also. The cotton crops of the South absorb 100,000 mules a year. If the English textile industry closes, as it did in 1917, the cotton business

will suffer and so will the mule business."

Kansas City is the chief source of mule supply; Memphis, Fort Worth and Atlanta are the main distribution points.

Modernization and streamlining of armies spelled the doom of the army mule, Kirkham said. Less than 200 animals were purchased during the past 12 months by the U. S. Army, he said. The last mules sold abroad were shipped to Turkey several weeks ago by Ross Brothers at Fort Worth, the animals to be used in the Turkish artillery. Seven hundred and fifty were sent on the first boatload and a similar number is due to be shipped within a few weeks.

THE MIRACLE

A clergyman traveling by train was induced to join in a game of poker by some sporting gentlemen returning from the races. After playing for a while the parson threw out one card, saying:

"I'll take one card for a miracle." The betting was brisk. Finally the holder of a full hand "saw" the parson, who calmly spread out four kings on the table.

"What did you mean by drawing one card for a miracle," he was asked.

"Well," was the reply, "I had the four kings 'pat' and it would have

Excellent Food Properly Served

Curtis Sandwich Shop

East California - Gainesville

been a miracle if I'd taken a fifth."

Each acre of commercial orchard on a farm as of January 1, 1939, adds \$1.50 to the regular AAA allowance available to the farm to be earned by terracing, planting legumes or cover crops, establishing permanent pastures or carrying out some other specified soil-building practice.

Announcing
THE NEW FORD CARS FOR 1940

22 important improvements, added to fundamental Ford features, represent the most advanced engineering in the low-price field

WHAT do the Ford cars for 1940 offer to match their brilliant new beauty? New comfort, convenience, quiet, safety—and the roomiest, richest interiors ever designed for a Ford car.

They have a host of interesting new features. Finger-Tip Gearshift on the steering post. An improved transmission, unusually easy to shift. New Controlled Ventilation. Improved shock absorbers. Softer springs, improved spring suspension and a new ride-stabilizer.*

A combination of new features makes the new cars quieter in operation. They have big, powerful hydraulic brakes. They have new Sealed-Beam Headlamps that are safer, stronger and stay bright longer. They have the famous Ford V-8 engine (85 hp in the De Luxe Ford. Choice of 85 or 60 hp in the Ford)—which blends 8-cylinder smoothness with economy.

You've never seen cars with so much performance, style and comfort at such a low price. Get acquainted. You'll enjoy the experience!

22 IMPORTANT FORD FEATURES

FOR COMFORT—More room inside. New Controlled Ventilation. New torsion bar ride-stabilizer.* Improved spring suspension.* Self-sealing shock absorbers. Two-way adjustable driver's seat. New-type resilient front seat backs. New "Floating-Edge" Seat Cushions.

FOR CONVENIENCE—New Finger-Tip Gearshift. Engine more accessible. Two-spoke steering wheel.

FOR SAFETY—Sealed-Beam Headlamps. Dual windshield wipers at base of windshield. Larger battery. Battery Condition Indicator on all models.

FOR SILENCE—Improved soundproofing. "Easy-shift" transmission. Curved disc wheels. Improved drums for big Ford hydraulic brakes.

FOR STYLE—New exterior beauty. New interior luxury. New instrument panel. *85-hp models only

Your Health

BY GEO. W. COX, M. D.
Texas State Health Officer

AUSTIN.—On September 1, 1939, statistics from the State Health Department showed that 34 percent of the population of Texas, or 2,144,536 persons, were being protected against communicable diseases through the functions of full-time county and city health departments in 23 counties and 2 cities independent of the counties. These local health units carry out a well-balanced public health program to keep the well person well, and to further safeguard the health of individuals by reducing to a minimum the various communicable diseases rendered combatable by modern public health methods.

Public health, over a score of years, has rendered combatable such diseases as typhoid, malaria, undulant fever, tuleremia, yellow fever, trichinosis, hookworm, the dysenteries, and the venereal diseases. The health of any geographically defined area, i. e., city or county, is in direct proportion to the amount of energy and money judiciously and scientifically expended for the protection of the health of the people of that area.

Twenty-six additional counties, with a population of 476,800, are protecting the health of their respective communities by a partial full-time health service wherein nurses, trained in public health, work in collaboration with the local part-time health officials and the medical profession under the guidance of the State Health Department.

Thus, through full-time county health units and nursing services 42 percent of the population of the State in 49 densely populated counties, and 2 cities exclusive of counties, are protecting the health of their commonwealth with the most up-to-date public health practices available. There remains 58 percent of the total Texas population, scattered over 205 counties, unprotected against diseases through any function of local health departments.

It has also been demonstrated in other states that in such counties, due, both to relative uncongestion of population, and for economic reasons, cooperative health departments set up for two or more counties will give the benefits of health work commensurate with the other counties at a relatively cheaper cost.

Establishment of local health departments in Texas counties and cities, in collaboration with the State Health Department, the United States Public Health Service, and the Children's Bureau of the Department of Labor, has expanded over 300 percent since 1916.

The standard personnel of a local health department includes a director, a nurse, and a sanitary engineer, all trained in public health, and a clerical force, to adequately supervise in the county and the public health activities comprising communicable disease control, maternal hygiene, infant hygiene, preschool hygiene, school hygiene, sanitation of water, sewage, food, milk, and school systems, special programs adapted to the health problems of the locale, and work in tuberculosis and venereal disease control.

Persons and groups interested in securing health protection for their counties are requested to write the State Health Department for further information on the county health unit plan as operative in Texas.

THE DATE PALM

To the Arab, the Egyptian, and millions of other people, semi-civilized and cultured, the date palm is accepted as a symbol of beauty and life—beauty because it stretches its graceful fronds toward the sky as if appealing to God for aid for those who tread the desert sands and the far reaches of Africa—life because its fruit feeds millions who inhabit these inhospitable lands.

To them the date palm is a divine gift, for it serves man in many capacities.

Houses and crude habitations are built from its wood; its fibre make raiment especially adapted for the climate; its wine has special stimulating properties and lacks the aftermath usually attendant upon an alcoholic drink; its fruit feeds the hungry and is especially stimulating and body building, and when death comes to a follower of Allah, his body is wrapped in a shroud made from its bark.

No wonder the Mohammedan repeats daily as one of his prayers of gratitude, "Thanks to Allah who gives the palm."

The date palm tree is spoken of and written about in documents which saw the light of day thousands of years before the coming of Christ. It played an important part in the husbandry and the religions of early men and was the first tree on which artificial fertilization was ever practiced by the Mesopotamians, who were exceptional horticulturists and who later tried similar experiments upon the fig-tree.

History also credits these people with producing the nectarine, which is not, as some people believe, a cross between a peach and a plum, but a distinct species of fruit.

Mohammed, the founder of the Moslem religion, who lived during the years 570 and 632, and who began life as a camel driver, existed during the years of dire poverty almost exclusively on dates and water—a diet, forced by necessity upon millions of nomads of the desert to this day.

Later in life, when men rose up to call him the Prophet of God, he added to his daily menu cucumbers and camel's milk. For stimulating purposes, he drank the fresh unfermented wine of the date, made by pouring water on fresh dates and allowing to stand overnight. This drink, known through the East, is a favorite among Mohammedans still, and it is called nabidiah.

Perhaps there exists nowhere a more virile, vigorous and healthy race with less creature comforts than the Arabs, and dates, fresh or dried with date wine, are their principal foods.

Dates and camel milk have all the food essentials of a complete diet. The fruit supplies sugar and minerals, with vitamins, while the milk provides the protein fat and calcium with other vitamins. Try a diet of fresh dates if you want to reduce and remain strong and healthy.

NO PLACE FOR MULE IN MODERN WARFARE

KANSAS CITY.—The Missouri mule stood firm for peace today, its whiffle-tree tied to a plow. Modern mechanized warfare heralded its passing as the army mule.

In the markets where "mule millionaires" were made 25 years ago when world war demands sent prices soaring and practically "de-muled" the Midwest, mule and horse trading today was "bearish."

Harold J. Kirkham, secretary of the Kansas City Horse & Mule Commission Co., said the war probably would depress the market further if it lasted through the winter.

"If the war hurts the cotton business," he said, "the mule market will be hurt also. The cotton crops of the South absorb 100,000 mules a year. If the English textile industry closes, as it did in 1917, the cotton business

will suffer and so will the mule business."

Kansas City is the chief source of mule supply; Memphis, Fort Worth and Atlanta are the main distribution points.

Modernization and streamlining of armies spelled the doom of the army mule, Kirkham said. Less than 200 animals were purchased during the past 12 months by the U. S. Army, he said. The last mules sold abroad were shipped to Turkey several weeks ago by Ross Brothers at Fort Worth, the animals to be used in the Turkish artillery. Seven hundred and fifty were sent on the first boatload and a similar number is due to be shipped within a few weeks.

THE MIRACLE

A clergyman traveling by train was induced to join in a game of poker by some sporting gentlemen returning from the races. After playing for a while the parson threw out one card, saying:

"I'll take one card for a miracle." The betting was brisk. Finally the holder of a full hand "saw" the parson, who calmly spread out four kings on the table.

"What did you mean by drawing one card for a miracle," he was asked.

"Well," was the reply, "I had the four kings 'pat' and it would have

PROGRESS EDITION

Very appropriately the Enterprise for this week could be named the Progress edition. Considering the numerous definite plans for building, along with several unofficial but fairly reliable reports, it is apparent that Muenster has reached a new peak of activity. The city is observing its jubilee year with much more than a one day pageant.

Two new business houses need only a few finishing touches. A contract is all set for the erection of a third business house and a fourth is due to follow on or about the first of the year. At the same time the city's leading industry is working on a major improvement that will soon result in a greater pay roll and a greater volume of business for the town. Rumors leaning heavily on the side of probability promise another new building soon.

Shifting from the commercial to the domestic scene, we find definite plans for at least two new homes and rumors about four more. That's only in the city. The outside community likewise contributes its quota of home improvement. And, it must be remembered, several new structures, built since the beginning of the year, also figure in the year's record of progress.

Least anyone should begin thinking that present activity is too much of a bubble, we hasten to explain that it is, to a great extent, a process of catching up with lost time. What is being done would have been justified several years ago. It is solid, based on past success as much as future prospects. The same basis would justify one or two more good business houses.

To complete the job of making up for lost time two improvements involving the general public should have early attention. An adequate sewage disposal system should be built. An adequate educational system should be developed.

For years both of these subjects have hit sore spots in the community, chiefly because each is expected to make big demands of the public purse. But, still, the facts must be faced. Health conditions here will never be satisfactory until better sanitation is provided. Educational opportunities will not be adequate until a good course is available to all children.

The wheel of progress is off to a good start. Now is the time, when it has gathered momentum, to hitch on some of the loads that used to seem too big.

COMMUNITY PEP MEETING

A community gathering in the parish hall Sunday night started the series of events that constitutes Muenster's observance of a Golden Jubilee celebration. It can best be described as a pep meeting.

Whether that meeting will serve its purpose remains to be seen during the next month. As Father Frowin mentioned, the plans are elaborate and the time is limited. But with a general whole hearted cooperation it will be possible to arrange an impressive celebration.

Actually the real work and worry has already been taken up by a small group of old reliables. They will outline a program and, whenever necessary, call for help. In the degree that their request is answered the program will come up to the desired standard.

Other details will not be under the jurisdiction of the committee. Individuals will have to take it upon themselves to enhance the town's appearance by working on their own homes or business houses. They will have to help talk up the celebration, to arouse interest of neighboring communities and distant former residents.

For two important reasons people ought to put their full support behind this celebration. Muenster is not an ordinary small town. Instead of slipping back to insignificance it has grown steadily. It enjoys the unique reputation of gaining during bad years, of thriving without federal charity. It deserves a grand party.

The other reason looks to the future. A good, impressive festival is good for a town. That fact is shown in several cases where small places, with much less to brag about than Muenster has, seemingly lifted themselves by their bootstraps after a good show. It gives visitors a good impression. More important, it arouses some sleeping enthusiasm in home folks.

Just a little more than a month from now is the big day. Will Muenster have the spunk to make it a really worth while event? That remains to be seen.

What Others Say

"TONIGHT, AT MIDNIGHT . . ."

"We hand over our Tennessee Electric properties and a \$2,800,000 tax problem tonight at midnight," said Wendell L. Willkie, president of the Commonwealth and Southern Corporation in a page advertisement, August 15, 1939, in the Chattanooga and Nashville papers.

Mr. Willkie then reviewed in a clear and forceful manner the outcome of a federal power program that has eliminated a great private electric industry in Tennessee, and \$2,800,000 in taxes which this private enterprise paid annually. He said:

"All of our facilities in Tennessee have been built with the money of many private investors. The communities never had to increase their debts to build plants and distributing systems; they never had to pay out interest on bonds issued for electric service. The savings of thousands of citizens were brought, and would continue to have been brought, into this territory to help produce more industry, more local wealth and more steady jobs.

"We have had to sell our electric properties and turn over a splendid organization to the Tennessee Valley Authority and other governmental agencies because we could not stay in business and compete with virtually tax-free and heavily-subsidized plants. We now turn over to government agencies for about four-fifths of its real value, one of the finest public utility services in this or any other country—one representing private investments of about a hundred million dollars."

In concluding his statement, Mr. Willkie said of friends and associates in Tennessee, "Our hope is they will never be required to defend a business of their own against government subsidized competition."

Mr. Willkie's company, owned by thousands of citizens, has been eliminated. It was the first to go under the federal power program that has been spread across the nation.

The most important sentence in his statement was the last, in which he expressed the hope that his friends would never be required to defend a business of their own against government subsidized competition. The force that has been set in motion to absorb the rights and interests of private citizens in power production will seek to enlarge its hold over the rights and interests in other lines of business. The Tennessee Electric Company has been a martyr to the cause of private enterprise.

Midnight, August 15, 1939, marked the end of democracy and private enterprise as we have known it for 150 years, unless the policy and the tactics that eliminated this company as a private institution, are reversed.—Exchange.

THE 'PROFIT SYSTEM' FOR GOVERNMENT

The tremendous cost of taxation to the average consumer is becoming more and more apparent. The cost of modern government is taking the bigger slice of the consumer's dollar when compared with the earnings of the investor and business.

Figures recently released by the capital stock fire insurance companies show that the proportion of the premium dollar absorbed by taxes increased 54 per cent—from 3.41 cents in 1927 to 5.28 cents in 1937. Translate this into terms of operating factors in the industry and its true importance is more readily recognized. For example, in 1937:

1. For every dollar paid to policyholders in losses, taxes paid amounted to \$12.89;
2. For every dollar paid in dividends to stockholders, \$54.77 were paid in taxes;
3. For every dollar paid in home office salaries, \$73.13 were paid in taxes;
4. For every dollar of miscellaneous expenses, including the cost of printing, advertising and maintaining the cost of organization structure, such as rating and inspection boards and bureaus and company organizations, 91 cents were spent in taxes.

Such examples are now so common the public begins to realize that the greatest beneficiary of our much misrepresented capitalistic system is government, and that the cost of government, which demands taxes, is rapidly becoming paramount in the cost of living today. It is cutting down earnings on invested life savings to the vanishing point. The "profit system" now means primarily profit for government on any earnings of consequence, instead of the individual who risks his money in an attempt to create profit and employment.—Exchange.

GOOD SENSE—OR GOLD STAR MOTHERS?

A group of aged ladies, wearing gold stars and weeping—bending over the crosses which mark the spot where their sons lie buried on foreign soil. Each year they go, utter a little prayer for future peace and return home sadder in heart than before they made the voyage. Women of that group will show you the futility of war, the sadness and heartbreak which it brings.

Thoughts of them and the many others who will suffer, should be taken into consideration before we begin our big talk about what America could do in the war. There are many men in America today who would go to war tomorrow if the government would allow it. It is men like them who cause nations to enter war—men not thinking of their families and homes, but only in terms of adventure and greed for glory.

America, with the aid of level-headedness among its citizens, can stay out of this present conflict. The general public exerts great influence on our government. If that influence contains war talk, then the government, though it may try to hold out for peace, will sooner or later, find itself declaring war. But, if we, as citizens of this nation, make a united effort to remain neutral and peaceful, our government will put forth its every effort to aid us.

True, there are many citizens who do talk and work for peace. But, on the other side of the fence are those who would jump into the struggle, caring little whether it is our fight or not. It is those who should be brought to their senses.

Human nature will continue to get us in trouble as

long as the world turns. In spite of sermons such as this, there will always be someone ready to clench a fist or grab a gun when fighting is mentioned.

And so our women will continue to suffer and grieve because of our hot-headedness. But certainly, a good object lesson in peace could be had by picturing one of our Gold Star mothers as she kneels beside a grave. Over there and weeps for something which she can never regain—something which War will continue to take away from many others like her.—Exchange.

If it were possible to pick Texas up and place it over Germany, it would cover most of that country, and would also cover a part of France, Italy, Yugo-Slavia,

Poland, Belgium, The Netherlands, and Denmark, and the Panhandle would extend into the North Sea. Granting that Germany might eventually conquer all of Central Europe, do you think that a country so small in area could ever conquer a country so large and with so many resources as the United States? We don't.

While our Constitution does guarantee free speech, it doesn't guarantee it to those who seek to overthrow the established form of government under which we live. Mayor Maury Maverick should have considered that fact before he called out police and firemen to protect a meeting of Communists in San Antonio. It begins to look like Mr. Maverick committed political suicide.

Confetti

By CON FETTE

Another one for the list of home town boys making good in the big city is Lacey Cason. Reports around here are that he's making good as an up and coming prize fighter in Dallas. Hasn't had any big time scraps yet but his record in preliminaries seems to indicate that sport fans will be hearing more from him before so long.

Confetti gets the inside story of the boy's success from a garage bull session. "For a while he worked as a paper hanger in Dallas. And the sign seems to be right for paper hangers right now—just notice how another paper hanger, in Europe, is getting along."

That's one explanation, though lots of fellows around here can offer another. Lacey can take it, and he can dish it out. As a school boy he wasn't the kind to go after trouble but he always seemed rather satisfied when trouble came after him. He's still lucky enough to be without such typical blemishes as cauliflower ears, missing teeth and flattened schnozzle.

A letter received last week asks why the Enterprise doesn't print all the news. It gave us a feeling that we weren't sufficiently on our toes, until we came to a hint that a lot of spicy gossip was escaping our notice.

Does anybody else wonder why we're not "printing all the news"? Well, suppose we happened to venture forth with items something like this: "Son of prominent man suspected of stealing chickens. Worthless sot marries spoiled brat—they're

now living off the bride's parents. Mrs. Upsnoot caught cheating at bridge party. Twenty get drunk at Miss So-and-so's party," etc., etc. Without a doubt they would soon be followed by items such as these: "Irate citizens smash newspaper office. Editor badly battered—may live."

It's not only the instinct for self preservation that prompts us to leave out gossip. Some people form opinions by what they read. Since that's the case we want to help them form good opinions. And, after all, gossip needs no publicity. Without benefit of press it can get around a lot farther than good news.

Right now the talk of the community is the Golden Jubilee celebration on Nov. 22 and 23. Muenster is getting ready to put on a birthday party that will make people for miles around sit up and take notice.

The community, and especially the city, is observing the anniversary year in another way also. The biggest building boom in the history of Muenster is in full swing. Just in case anyone doesn't believe this, let him try to hire construction men of any kind. He'll find that every carpenter has work stacked up as high as a kite.

Some of the building is about finished. We knew of more that was due to start soon. And lately there is an avalanche of reports on other construction jobs. Those of us who have been singing the home town's praise have a chance to do lots of bragging now.

The only thing Muenster has had to compare with present activity is the first oil boom. Though it was ex-

citing for a while, anybody knew that nothing permanent could be based on a bunch of rough buildings put up over night. Today's buildings are being put up for future generations.

Again we can say that one small town at least is not going to the bow wows. Others may be losing out, but not Muenster. No, siree!

FRED MOSMAN, JR.
Correspondent

Mr. and Mrs. Fred Mosman spent Sunday in Dallas with their daughter.

ter, Mrs. Charles Curran and family, and their son, Ernest, and family.

Miss Carrie Mueller returned last Wednesday from a six weeks' vacation visit. She spent the greater part of the time with her father at Missoula, Montana, and also visited with relatives and friends at Hel-

ena, Great Falls, Stevensonville and St. Ignatius, Mont. On her return trip she stopped over in Denver, Colorado, to visit.

Rev. Father Conrad visited with friends at Pilot Point Sunday.

Mr. and Mrs. Phillip Metzler visited at Muenster with Mr. and Mrs. Al Walterscheid Monday.

Paul Flusche of Corpus Christi was the guest of his mother and other relatives here last week.

A. C. Flusche and daughters, Irene and Miriam, of Denison, spent Saturday here with relatives.

Miss Katie Fuhrmann of Decatur is here to spend a week with her parents, Mr. and Mrs. Matt Fuhrmann.

Mr. and Mrs. Paul Devers are visiting here with her parents, Mr. and Mrs. Matt Fuhrmann, and at Gainesville with his father.

Mrs. Albert Kubis accompanied her parents, Mr. and Mrs. Barney Voth of Muenster, to Justin Sunday to visit with Mr. and Mrs. Joe Voth.

Miss Veronica Fuhrmann spent several days of last week here with her parents, Mr. and Mrs. Mike Fuhrmann. She will visit in Chicago with her sister, Mrs. George Hartman, before returning to Corpus Christi.

Edwin and Le Vern Blum, accompanied by Leo Mages, left Wednesday morning for their home at Defiance, Iowa, after spending eight weeks here with their uncle and aunt Mr. and Mrs. Frank Mages.

Banns of marriage were read here at Saint Peter's church Sunday for Miss Zita Flusche, daughter of Mrs. Charles Loerwald, and Alphonse Fleitman, son of Mr. and Mrs. Henry Fleitman of Muenster. The rites will take place here on the 24th. Banns were also published for Herbert Hundt, son of Mr. and Mrs. Joe Hundt, and Miss Marie Becker, daughter of Mr. and Mrs. William Becker of Muenster. The wedding will be solemnized at Muenster on the 24th.

WM. FLEITMAN HOME IS PARTY SCENE SUNDAY

Lindsay. — Mr. and Mrs. William Fleitman entertained relatives with a dinner and social afternoon at their home here Sunday.

Enjoying the affair were Messrs. and Mesdames Ben Hermes and family, Pete and Nick Block and families, Lawrence and Miss Margaret Streng of Lindsay, Mr. and Mrs. John Fleitman and sons and Mr. and Mrs. Ben Roewe and family of Myra, and the following from Muenster: Messrs. and Mesdames Henry Fleitman and daughter, Miss Irene, Al Fleitman, Frank Bindel, Joe Hoenig and their families, Mr. and Mrs. Albert Fleitman, Mrs. Joe Felderhoff and children and Mrs. William Wjel-

LINDSAY CEREMONY UNITES MISS AREND, EDWARD RAUSCHUBER

Lindsay. — Wedding rites performed here at Saint Peter's church Monday morning at 8:30 united Miss Florence Arend, daughter of Mrs. N. L. Arend, and Edward A. Rauschuber of Wichita Falls. Rev. Conrad Herda, pastor, performed the ceremony and officiated at the nuptial high mass. The church choir, assisted by Miss Regina Fuhrmann at the organ, gave the nuptial music.

The bride wore a lovely floor length frock of white satin. The dress featured a sweetheart neckline and long fitted sleeves that ended with points at the wrist. The full skirt, falling in a slight train, was attached to a fitted bodice. Her finger-tip veil of illusion fell from a wreath of valley lilies. She carried an arm bouquet of white lilies.

Miss Mary Hermes, cousin of the bride, as maid of honor, was attired in a floor length dress of American beauty satin and carried a shower bouquet of pink carnations.

Frank Rauschuber of Wichita Falls was best man for his brother.

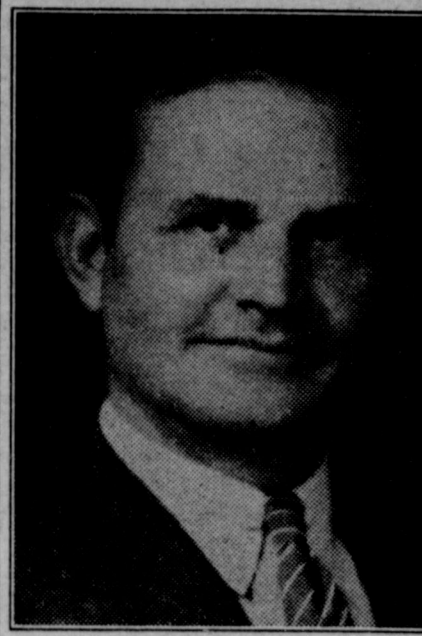

Breakfast for the bridal party was given at the home of the bride's mother following the services. It preceded the couple's departure on a wedding trip to South Texas. The bride's going away costume was a modish green and black plaid suit worn with black accessories.

When they return from their honeymoon they will make their home in Wichita Falls where Mr. Rauschuber is employed. He is the son of Mr. and Mrs. A. F. Rauschuber. He attended grade school at Mary Immaculate Academy in Wichita Falls and graduated from Wichita Falls Junior College. Mrs. Rauschuber is a graduate of the Lindsay high school.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to loosen germ laden phlegm, increase secretion and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding that you are to like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

J. B. Wilde, Chevrolet Dealer

CHEVROLET SET FOR GREATEST DEMAND IN RECENT YEARS

J. B. Wilde and Ed Cler of the local Chevrolet agency spent Tuesday, Oct. 10, at an all day meeting in Dallas conducted by members of the Chevrolet Motor Division wholesale personnel.

The heaviest last-quarter production of passenger cars in the history of Chevrolet was cited by Herschel Wilson, Dallas Zone Manager, as assurance to 1200 dealers and salesmen in this area that following announcement day, Oct. 14, the supply of cars will quickly begin to meet a pre-announcement demand which has been the greatest in recent years. Mr. Wilson made this announcement at an all day meeting of the dealer body in the Majestic Theatre and Baker Hotel where the new line for 1940 was pre-viewed.

Mr. Wilson had just returned from Detroit, where he attended Chevrolet's annual national sales convention. "On Oct. 2, passenger car assembly lines started to work on 1940 models," he reported. "They are operating on a schedule that calls for gradual acceleration toward peak capacity."

"Manufacturing plants, of course, have been in operation since mid-August producing engines, axles, sheet metal, and other sub-assemblies. Cars are in shipment this week, en route to dealers in preparation for the announcement, which will be held simultaneously in retail salesrooms throughout the country and at the National Automobile Show in New York, where as leader in sales for 1939, Chevrolet again had first choice of exhibition space."

Highlight of the dealer meeting was the debut of the 1940 car. The display bore out advance reports that the new models embody striking change. Heavy emphasis on beauty and style is apparent. Especially noticeable are the increase in size, and the complete provision

for driver and passenger comfort throughout the entire line.

Mrs. C. W. Walterscheid and

children, Otto and Miss Isabel, of Tishomingo, Okla., spent Sunday afternoon here with their daughter and sister, Mrs. John Wieler and family.

THE PIONEER SPIRIT MARCHES ON

1889--- The Founding of Muenster

1939--- The Continued Development of Muenster

The same spirit of courage and industry that brought first settlers to this community is evident today in the construction of substantial new business houses and dwellings.

Congratulations to the Muenster Enterprise and the FMA Store for adding two attractive new buildings to the town.

Thanks For The Business These Improvements Have Brought To Us.

Chevrolet has more than 175 important modern features. *On Special De Luxe and Master De Luxe Series.

GET-TOGETHER CLUB HAS OFFICER ELECTION

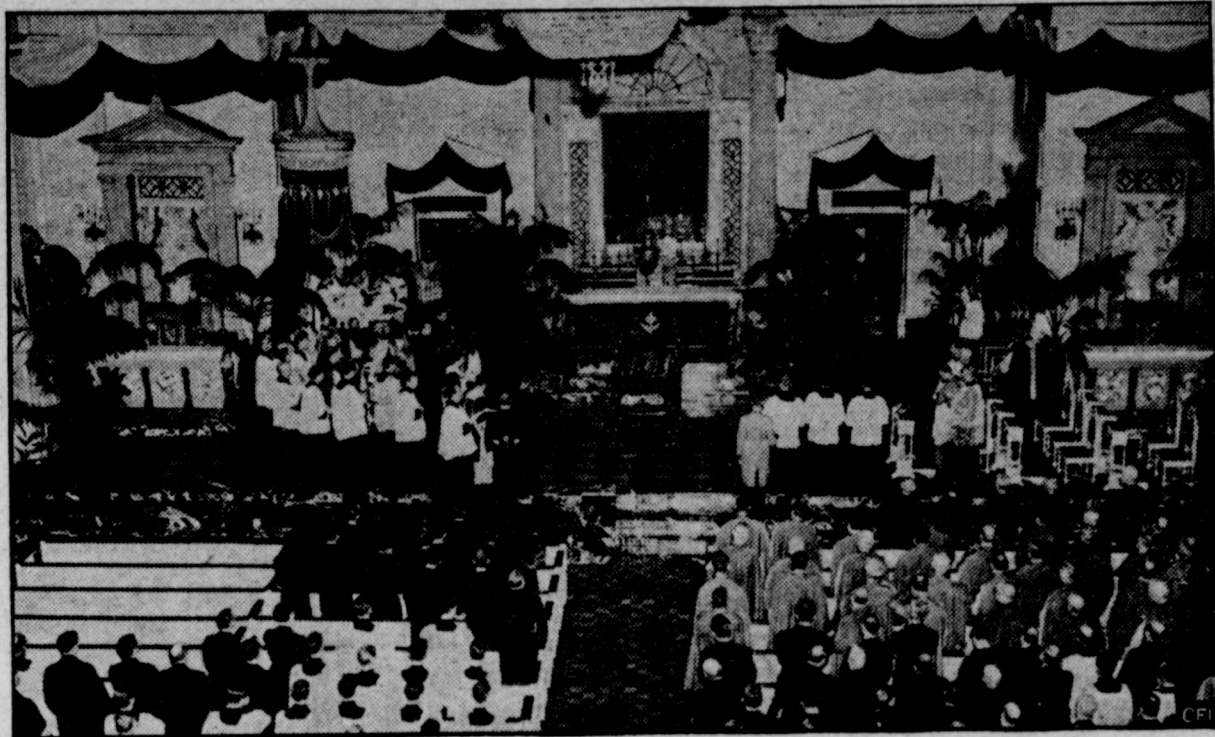

Mrs. Jake Pagel was named president of the Get-Together Club when an annual election of officers was held at the monthly meeting on the first Wednesday of the month. Other officers elected to serve for the ensuing year with Mrs. Pagel were Mrs. Joe Kathman, vice-president; Mrs. Clarence Wilson, secretary-treasurer, and Mrs. Tony Gremminger, reporter.

The meeting was held in the home of Mrs. C. M. Walterscheid on Wednesday afternoon. During the business session the group postponed their November meeting one week so as not to conflict with religious services on November 1. They will meet instead on November 8.

Birthday gifts were presented to Mesdames J. M. Weinzapfel, Joe Luke, John Wieler and John Klements, after which Miss Mildred Walterscheid, daughter of the hostess, presented a musical program of accordion and vocal selections.

The remainder of the afternoon

LAST RESTING PLACE OF CARDINAL MUNDELEIN

MÜNDELEIN, Ill.—A general view of the interment service in the Immaculate Conception Chapel at the seminary at Mundelein. The crypt into which the body of the late Cardinal George Mundelein was sealed is

six steps beneath the high altar. The interment was in marked contrast to the magnificence of the requiem which was held at the Holy Name Cathedral.

was spent in playing progressive 42. Mrs. Henry Fleitman received a pyrex oven dish as high score award and Mrs. Bill Becker was consoled with a glass pie plate.

In the late afternoon attractive refreshments were served by the hostess, assisted by Mesdames Al and Frank Walterscheid and Clem Hofbauer, to 16 members and 4 guests.

68th BIRTHDAY IS DINNER INSPIRATION

Mrs. Joseph Danglmayr was complimented on her 68th birthday Sunday, when her children and grandchildren named her as honor guest for a dinner given in her home.

The party rooms were gay with colorful flowers and the dining table was centered with a huge decorated cake.

An array of lovely remembrances were presented to the honoree.

Building Campaign--

(Continued from page 1)

location of the former store beside the cheese factory.

The Enterprise building, is built along simple lines and finished in two-tone stucco. It occupies an 80 by 45 space on First Street a block east of Main and is divided into two equally sized sections, one now occupied by the Muenster Enterprise and the other to be occupied soon by the Cooke County Electric Co-operative Association. A feature of the building is that it is set back to allow more space for parking and a bed of shrubbery.

School Building

Just before the beginning of the current school year the Muenster public school completed a new place for its home economics and manual training courses. It is a frame building situated just north of the main building and is well equipped for its special courses.

Several New Homes

Domestic construction likewise is booming. Four new houses now under way in the community are the Fuhrbach home on North Main, a rock veneered house for Hubert Felderhoff, two miles north of town, and another rock veneered house on the

Danglmayr farm 8 miles northeast of town. About 6 miles northeast Ed Hess is building a new home. J. S. Russell, a former Muenster resident, is building at Myra.

Within a month Mrs. Roberg expects to have construction under way on her new home in the east part of Muenster. Clarence Wilson, now busy helping others build, will start on his new brick home as soon as he can find time. Meanwhile Adolph Herr will move the present Wilson house to the foundation which is now being set up in the east part of Muenster. Wilson sold the house to Herr but retained his lots.

J. B. Wilde also has expressed his intention to build a house as soon as he has completed his filling station. He intends to move his present home to another part of town and keep his old location.

More Homes Expected

Reports that are unofficial but fairly reliable indicate that at least three more dwellings will go up here within a few months. Two persons have already completed their floor plans. It is also very probable that another business house will be built soon. Both the builder and the prospective tenant are known to have given it serious consideration.

Remodeling jobs are in progress all over the community and range from such minor jobs as painting and papering to general rebuilding. At the present time John Fette is well advanced in his series of interior changes and his rock veneering job. Pete Kleiss is working at roof and porch repairs. Frank Hoedebek opened business this week

in the Henry Trachta building after a general repair job. Workmen are beginning this week to construct a casket display room at Nick Miller's.

To a less intensive degree the building movement has been under way all this year. The refinery has built almost constantly since early spring. Power houses and lease dwellings followed in line with oil field progress. There were more barns and granaries than usual and several new houses. Some of the persons who built homes are J. S. Horn, John Walter, Wm. Hellman, Wm. Henschel and Martin Friske.
