VOLUME VII

MUENSTER, TEXAS, COOKE COUNTY, FRIDAY, MARCH 19, 1943

NUMBER 17

Now in the time for all doubtful gunners students to cringe. The bloody fourth is past. Scores are being tabulated. The ax is due to fall within a few days. Early next week, so they say. That's why Con feels an uncomfortable tingle at the back of his neck.

It is a feeling that is experienced especially by fellows like me who enjoyed no previous acquaintance with artillery. To us, the entire course is still so much drawn out suspense. Every day we're painfully aware that we're slipping, and hoping against odds that the instructors will not get wise to us. This situation may be the real reason for the origin of the term "ninety day wonders". Ninety days of wondering whether we'll make the grade.

I refuse to believe the rumor now afloat. As soon as we complete the bloody fourth, word comes that it's a breeze compared with the fifth. I'm beginning to suspect a deliberate plot to take the joy out of life. Sabotage, that's what it is.

In case the weather is rough, we'll find there was some truth in the rumor. It so happens that we're due for a greater percentage of outdoor periods than we have had to date. That can become very unpleasant at times, as we discovered two weeks ago, when the mercury was plunging and last Friday, when Jupiter Pluvius was acting up. Here's where our wishes clash with those of the landed gentry, including lots of friends back home. They want rain, we don't.

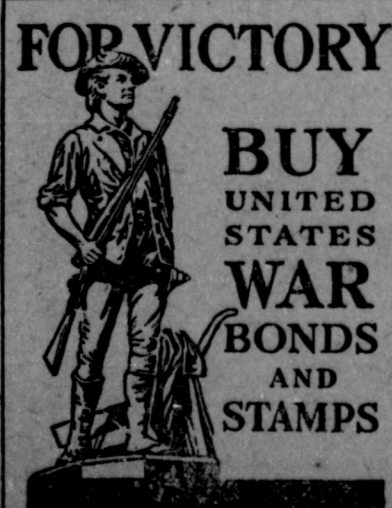

Definitely, the weather has given us trouble. And it has inspired comment on the state of Oklahoma. It recalled Will Rogers' famous quotation "If you don't like our weather, wait a minute". Another guy sees in it an explanation for the state's late entry into the union. "It took the Indians that long to talk it off on Uncle Sam". And there's one fellow who says his future hobby will be obliterating the 46th star in American flags.

For the next week and a half, to a very great extent, our job will be to apply the theories we have been exposed to. We'll spend hours and hours blasting away at those imaginary enemy concentrations. We'll go out on surveys and prepare charts to direct fire on unobserved targets. Then we'll use the data and find out precisely how far we were off the line. Fascinating stuff — if we had the time to settle down leisurely and enjoy it.

Forward observation is another phase we'll take up next week. That means crowding up as near as possible to the target area, reporting on the effect of every shot and directing fire to the proper places. It's a system that really gets results. However, it has its hazards. Observers are considered as preferred targets in the fighting zone. Even in these practice sessions it might be rather dangerous if we were not under the constant guardianship of safety officers who see to it that no shots come to our vicinity. Imagine our embarrassment if one of us should issue a wild command that would direct a shell into the midst of our little party.

Stories from Guadalcanal emphasize the growing importance of forward observation as a method of directing artillery fire. It's the only system by means of which the neutralizing barrage can be directed just over the heads of advancing troops. While the shells are popping all around, enemy troops naturally have to lie low. Then, at the pre-arranged moment, the fire is either stopped or shifted to another area and the infantry moves in before the enemy can re-organize. In theory, the idea is perfect — but tricky. Friend or foe, there's little comfort in crowding up on exploding shells. And losses from short range bursts are not unheard of. However, as an average, casualties caused by shots have been fewer than those resulting from giving the enemy ample time to get set.

We've had more opportunity to (Continued on page 4)

Mayor And Three Aldermen Will Be Chosen On April 6th

Officials of the City of Muenster will be elected April 6, it was decided at a meeting of the City Council last week.

Vacancies caused by the expiration of terms of the mayor, Ben Seyler, and three aldermen, L. A. Bernauer, Andy Hofbauer and J. A. Fisher, will be filled at the election.

As yet no announcement has been made public regarding the identity of candidates but it was specified at the meeting that all names of candidates must be submitted 10 days before the election.

COLLECTION BRINGS GENEROUS FUND FOR CEMETERY UPKEEP

Miss Mary Becker, chairman of the cemetery committee, and all members of the Civic League and Garden Club, this week extend their thanks to citizens of the community for their generous support for the upkeep of the cemetery. The contribution received in the special collection two weeks ago, was most generous.

Members of the League have mentioned that they will show their appreciation by keeping the cemetery as nice as possible.

The cemetery committee would like to offer a little information on the matter of burials. The old rule is still observed, it was stated. The organization honors the wish of those persons who desire to keep curbed graves clean and give them their special care. At the same time the League urges those who find it impossible to give this special weekly or monthly attention, to take up the curbs, so that these graves will always be kept clean and in harmony with the rest of the cemetery.

A number of people, it is reported, have expressed their desire to take up curbs, but cannot do so themselves. The League has advised that those who wish to hire his work done should get in touch with Will Henschel personally. After removal of the curb the League will take charge of the grave.

Mr. Henschel is also available for other special work such as raising sunken tomb stones, filling in with soil, painting crosses or replacing broken ones.

Members of the League invite citizens to check up on any work they might, like to have done, within the next few weeks, and advise Mr. Henschel, so that it can be done at one time. It will simplify the labor and make it less costly.

Since it is hard to keep grass trimmed around the small foot markers, the League has taken the liberty of putting them deep enough in the ground so that they will not interfere with the mower, it was announced.

Members of the League expressed themselves as being very grateful for the cooperation and help given them in the cemetery project and it is their earnest endeavor to always keep the cemetery in such a condition as to make Muenster proud of it.

Move To Washington

Mr. and Mrs. Charles Schmitt and daughters left here Wednesday for Washington, Washington, where they will make their home. Mr. Schmitt will farm 1100 acres of wheat near that city. The family moved by car and pickup, his brother, Eddie Schmitt, accompanying them to drive the latter vehicle. He will return after about a week's visit in Washington.

The farm place vacated here by the Schmitt family will be taken over by Joe Knauf.

Home For Visit

Warrant Officer Gilbert Endres is spending this week here with his parents, Mr. and Mrs. W. H. Endres and other relatives and friends. He is stationed at Fort George G. Meade, Maryland.

On Furlough

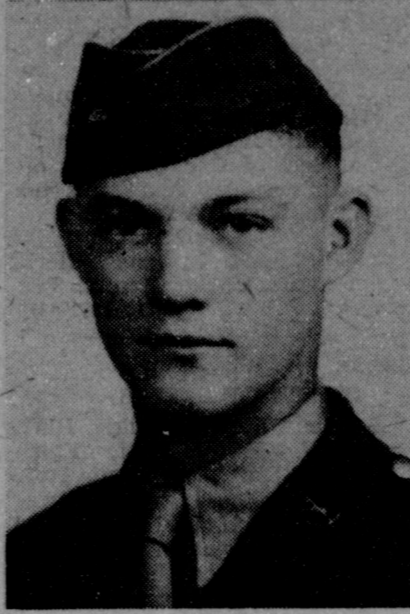

Cpl. and Mrs. Paul Yosten of San Antonio are here to spend this week of his furlough with his parents, Mr. and Mrs. Bob Yosten and other relatives. Cpl. Yosten is a cook at Camp Normoye.

Three Day Pass

Pvt. Walter Morrison, stationed at the Army Air Base, Topeka, Kansas, returned to his duties Tuesday evening after spending a three-day pass here with relatives.

ARMY COOK

Pvt. Emil Rohmer, son of Mr. and Mrs. John Rohmer, is a cook in the army. He entered the service last November and received his basic training at Camp Roberts, California, after which he was stationed at Pittsburgh, Cal., for a month. During the past week he was transferred to Seattle, Washington, where he is now awaiting further orders.

Coffee stamp No. 26 will be honored for purchase of one pound of coffee any time between March 22 and April 25. This is an increase in the coffee ration. Sugar stamp No. 12 became valid Tuesday and is good for purchase of 5 pounds of sugar any time between March 16 and May 31, inclusive.

MISS LOUISE SCHMITZ IS CITY'S FIRST TO ENROLL IN WAAC

Miss Louise Schmitz is Muenster's first young lady to become a member of the Women's Army Auxiliary Corps. She was sworn in at Dallas Thursday and was placed on reserve status. She is now at home here to await call to active duty.

Miss Schmitz, 23, is a daughter of Mr. and Mrs. H. M. Schmitz of this city. She has two brothers, Bernard and Eugene Schmitz in the Army.

"I joined the WAAC so that I could release some soldier from a non-combatant job and enable him to fight," Miss Schmitz told Col. Claude K. Rhinehart, district Army recruiting officer. She hopes to be trained for some type of electrical work in the WAAC.

Miss Schmitz is Cooke County's women's singles tennis champion of 1936, and star volleyball, basketball and soft ball player on Muenster High School teams in the same year. She graduated from the school in 1937 as valedictorian of her class.

VICTORY GARDENS ARE DISCUSSED AT GARDEN CLUB MEET

"Eat from your Victory Garden the Year Round", was an interesting subject ably discussed by Mrs. Jim Cook at the regular monthly meeting of the Civic League and Garden Club last Friday afternoon. The other speaker on the program was Mrs. Frank Kaiser, whose topic was "What to do in your flower garden this month".

Preceding the program, the business session was held with Mrs. Joe Luke, president, in charge.

One of the 18 window curtains which the club is donating to Camp Howze, for use in one of the day rooms, was on display. These were made during the week by Mesdames Jim Cook, G. H. Hellman, J. M. Weinzapfel and Misses Anna Hellman and Florentine Trubebach.

Members decided to furnish cut flowers for the chapels at Camp Howze during the spring and summer, and agreed to make cookies again for the USO Club rooms on Saturday, March 20. Twenty dozen cookies were made for the soldiers last month.

Members voted to give a ten dollar donation to the current Red Cross drive.

Sixteen members attended the session.

Fisher's Market and Grocery (this week observed its 16th anniversary. It was on Saint Patrick's day in 1927 that the business opened here. During the years it grew and expanded until today it is one of the finest to be found anywhere. It is owned and operated by the Fisher Brothers, John and Joe.

Muenster Exceeds Red Cross Quota During First Week

\$500 Goal Is Topped

Contributions Continue Coming In To Further Boost Local Figure

Muenster citizens cheerfully dug deep into their pockets in response to the Red Cross plea for contributions to its war fund campaign, and as usual, topped its quota by a generous margin.

This community's goal, in the county's drive for \$10,000 was \$500.

In the whirlwind campaign that started on March 8, Muenster again demonstrated its ability to get things done well, and although the quota was already over-subscribed by the end of the week, contributions continue to come in daily. Mrs. G. H. Hellman, local chairman, announced Tuesday.

Official figures were not available this week, since several of the solicitors had not turned in their amounts, but it was announced that the amount tabulated was well over the \$500 mark.

In going over the top this way, Muenster feels a glow of pride. This community has always topped its quotas in drives for the Red Cross and other worth-while campaigns. This year, especially, Muenster is standing behind her native sons on the far flung battle fields of the nation.

Contributions turned in during the first week to Mrs. G. H. Hellman and to Miss Barbara Harrison are listed in this edition of the Enterprise. Additional lists will be printed next week to include donations made this week and those submitted to Mrs. Jim Cook, which were not available in time to be included in this issue.

RAIN FRIDAY HELPS PLOWING CONDITIONS CROPS AND GARDENS

The long dry spell that hung over Muenster and surrounding areas was broken Friday by successive showers. One inch of precipitation was recorded and falling as it did, slowly and lightly, not one drop was wasted, the ground absorbed it all.

Oats, which appeared almost dead, is reported looking much improved, and has a chance of making a crop. Wheat, likewise benefited and pastures profited, and are offering grazing cattle new green sprouts. Victory gardens are likewise perk up after the moisture.

The rain also came as a great help to dozens of farmers who had been forced to discontinue plowing because of the excessively hard soil.

The weather resorted to a few more of its gymnastics this week. Monday afternoon was a balmy summer day with temperature of 84 degrees. At night a norther blew in, showing the mercury down 48 points. Tuesday morning readings were 36.

ST. JOSEPH FEAST TO BE OBSERVED AS PARISH HOLY DAY

In keeping with the traditional practice of observing St. Joseph's Day, March 19, as a parish holy day, the pastors announced the schedule of services applying to the day, last Sunday, as follows: 7 o'clock low mass; 9 o'clock high mass; 3 o'clock Way of the Cross, Lenten sermon, litany and benediction.

Early in the history of the Muenster colony St. Joseph was named the patron saint of this parish and his feast was set aside as a day of special commemoration.

A meeting for members of St. Joseph's Society and the Mother's Society will follow the afternoon services. It was announced.

There is an off season for nearly all flowers except blooming hydrangeas.

FARM NEWS from **FOOD FOR FREEDOM**

YOUR COUNTY AGENT TEXAS EXTENSION SERVICE

PLANT MORE POTATOES

The government has asked farmers to plant more acres of Irish potatoes this year than they did last. More potatoes are needed to meet the wartime demand for food. Lots of folks can help to grow a big crop. You don't have to plant by the acre to make your contribution count. A patch in the family garden will swell the total. . . . And larger production is what is wanted. Any family that can grow enough potatoes for its own needs renders a valuable service. People who raise their own leave more for the armed forces, for lend-lease and for those who cannot raise them.

If you haven't planted yet, be sure and get your potatoes into the ground as quickly as possible. It doesn't make any difference whether the seed pieces are planted with the eyes up, down or sideways. And to those who believe that the planets have something to do with growth, it doesn't make any difference whether the planting is done in the light or the dark of the moon.

Before planting, prepare the soil by adding fertilizer and marking off rows about three feet apart. If commercial fertilizer is used, apply one pound of 4-10-7, or 4-12-4, for each pound of seed planted. Be sure to mix it thoroughly with the soil, either by chopping it in with a hoe or stirring into the row with tillage tools. Cut the seed potatoes into pieces half the size of a hen's egg and drop about 14 inches apart in the row. A yield of about six pounds should be obtained for every pound of seed. Buy eight pounds of seed for a row one hundred feet long.

MOSAICS of Sacred Heart High

"All work and no play makes Johnny a dull boy." Someone else believes in that old adage besides the pupils. A very happy surprise was ours Tuesday afternoon when Father Thomas walked in with new playground equipment — a ball and ball for the boys and two tennis balls and a rope for the girls. We wish to express our sincere thanks to Fr. Thomas and to all, who through their cooperation, made it possible for him to obtain this equipment both for the high school and the grade school.

Soft Ball Game:

Another victory for Sacred Heart High School boys who played a return softball game with Lindsay last Thursday afternoon. The game ended with the score 13 to 9. We must admit it was a swell game and the Lindsay boys are to be congratulated for their fine team. Thanks to the girls for cheering us on to victory. We are looking forward to another game with Lindsay in the near future.

Typists Receive Awards:

We wish to congratulate Alma Marie Luke on the attaining of her 40 words a minute typing certificate and Mary Ann Reiter for her 30 words certificate. It has required diligent practice for the two and we hope that more students will receive their certificates in the near future.

Pastor Visits School:

Father Thomas visited all the classes last week at which time he gave out the report cards. He

MUESTER PUBLIC SCHOOL

So far this year students of the Public School have invested \$427.50 in war stamps. They want to reach the \$500 mark soon.

The seventh and eighth grades are practicing on a playlet to be presented for the Parent-Teachers Association. It is rumored that LaVetta and Billy Jean are such "jolly good fellows" in it.

The First Aid class had been practicing, and doing some very nice bandaging the past few weeks. Disaster almost resulted, however, when Billy Hoehn placed a tourniquet around Florentine's neck, instead of her arm.

Conservation isn't such a bad subject as was at first thought even though half the class does spell it, "Conversation" or "Consideration".

The American Literature class finds the study of the twenty century poets more interesting than it did the older ones.

Mrs. Burchfiel's English classes are hunting for 100 participles and infinitives. The 6th grade helped them with their list of prepositions.

Another list of nominations: Best athlete, Dewey Branch; for the longest eyelashes, Henry Yosten; the most mischievous, Paul Nieball; nicest teeth, Dossie Hamilton; best looking profile, J. L. Cole; biggest feet, Andy Stelzer; loudest voice, Billy Hoehn; nicest complexion, Joe Cason; curliest hair, Julius Stelzer; friendliest manner, Emmet Martin; and for the most freckles, Bill Hamilton.

Bob Steadham, who has been staying with his mother in Freemound and taking treatments in Dallas for the past several weeks, is much improved, and is now visiting his wife and daughters in Bard, N. M. He was injured last May in a fall from a horse.

Mrs. Eunah Lee Walton, Muenster beauty operator, was this week forced to take off from duty as the result of an infection on her leg. She was ordered by her physician to stay off the limb for sometime. She is spending this week in Dallas and during her absence her beauty shop is closed. Before leaving Mrs. Walton advised that if it is possible to secure an operator in Dallas the shop will be opened again with the new operator in charge.

AN EARNEST REQUEST TO EACH PERSON IN COOKE COUNTY

See that your 1943 tax rendition is made. It is absolutely necessary that this be made each year for, first the claim of homestead exemption (it can not be allowed on an unrendered sheet), and now the law does not permit the equalization board to reassess or change assessed values after the tax rolls have been approved. This can be corrected only if a true, accurate, signed rendition sheet is made each year.

On account of the war emergencies; the shortage of labor; it is impossible to get assessors to make all assessments so I am, therefore, urging all people of Cooke county for the benefit of: saving themselves substantial amount in taxes; for your homestead exemption claims and to avoid any valuations corrections from unrendered sheets, to help and cooperate with this office by coming in or seeing that your 1943 tax rendition has been made.

Any delay in taking care of this will cost you money.
