SEPTEMBER 27, 1985

One of the more pleasing bits of news to come out of the nation's capital lately is Congressman Stenholm's announcement this week that he is co-sponsoring with Jack Kemp a legislative bill requiring tougher dealings with child pornography offenders.

This is another occasion for us of the 17th district to be proud of our representative. His part in this proposal is another indication of his integrity. It's customary for him to take a stand on the side of basic Christianity and Americanism.

Identified as the Child Abuse Victim's Rights Act of 1985, the bill mandates harsher penalties for criminals who sexually abuse children. It includes a clause for mandatory life sentence or death sentence in kidnapping offenses involving the murder of a minor.

This definitely applies to some of the cases which have been in the news lately. Several of the victims were children. Moreover, they were found dead with evidence of sexual molestation.

Up to this point, the bill only emphasizes a law already on the books. The crime of murder deserves capital punishment whether or not a sex crime is involved.

However, there's another part to the bill. Along with the death sentence section, the bill imposes mandatory minimum sentences of not less than five years and up to 25 years for second violators of child pornography statutes.

Apparently, this is intended to put more teeth in a law we already have, but unfortunately it omits the penalty for first offenders.

In that respect, the bill appears to be inadequate. It seems to be lenient considering the multiple heinous crimes of degrading a child morally and socially and imposing on it a lifetime memory of shame. In addition, there's an agonizing two-way separation, a torture of parents as well as child as long as the separation lasts, and the fact that the bitter memories remain even after reunion.

On the basis of making the punishment fit the crime, it seems that the damage inflicted on a surviving porno victim child and its parents is a horrible crime, only slightly less than when death is involved. This may seem like harsh judgment to a considerable number of lenient-leaning people. But is it, really? Is it out of line with the opinion of the greatest of all judges; Referring to one who scandalizes a child, He judged that "it would be better for such a person to have a millstone tied around his neck and cast into the sea." And He was talking only about an immoral influence on a child. What would he say about the degrading influence of modern porno and associated crime?

It's hard to understand how contemporary law justifies its penalty for pornography. Does it assume that a comparatively lenient punishment is adequate? If so, how about the grief and mental damage to child and parent? Does that compare with a few years in prison and possible early parole?

As it looks from here, the prime consideration on this issue is to assess a penalty which tends to prevent the crime, regardless of the lenient element which complains that the punishment is too severe.

In answer we can say that the idea of adequate punishment doesn't really count in this issue. Anyone can avoid the severe punishment just by avoiding the crime.

The same principle applies in all crime. There would be lots less of it if modern society assessed penalty to prevent the crime instead of imposing just a matching punishment.

THIS POWER CRANE is in the process of exchanging a pair of 6,000 gallon storage tanks for two others of the same size at the AMPI plant. All the units are stainless but the retaining tanks are some 40 years older and headed for an overhaul. The replacements, like new, are transferred from the AMPI plant at Sulphur Springs. The tanks are used for storage of skim whey, which results when whey from cheesemaking is separated from remaining butterfat.

11th graders take test

Eleventh graders of Muenster Public School, along with those of every other public school in the state, are scheduled next Tuesday and Wednesday, Oct. 1 and 2, to take the Texas Education Assessment of Minimum Skills test. English is the Tuesday subject and math the Wednesday subject. Test time for both days is 8 a.m.

This test, included in the new law passed by last year's legislature to upgrade educational standards of the state, must be

passed to qualify for high school graduation. A student who fails will have another chance in May. If necessary, a student has two more opportunities to pass this exit level test during his or her senior year.

Even more opportunity for graduation is offered. If the student fails the four tests of junior and senior years and has completed the other work required for graduation, he or she may try again, and receive the diploma if successful.

Vandals demolish stage at pavilion

A portable stage that has been provided by the Chamber of Commerce for various events, such as Christmas display and programs at the park pavilion, has been badly damaged by vandals.

Gary Fisher said it was to be used on Sept. 13 for a fifth quarter gathering, sponsored by the First Baptist Church, but was abandoned when the party was transferred to the church because of a rainstorm.

The stage was not returned promptly to storage as planned,

and the next time seen five of its 4 by 8 plywood panels were demolished. Counting cost of panels and paint and labor, the damage was estimated at \$250.

The Chamber, eager to know who are the culprits, has offered a reward of \$500 for information leading to the arrest and conviction of the guilty persons. Anyone who has information is urged to contact the Chamber or Muenster police.

The damage was done between Sept. 13 and Sept. 26.

Location switched for jr. high game

Locations of Muenster Jr. High's football games have been swapped for dates of Sept. 26 and Oct. 31. It means that the Muenster Jr. high team will be at Bryson Thursday and will host Bryson on Oct. 31. Meanwhile, the JV Hornets will play as scheduled Thursday, Sept. 26, at Chico.

Two commercial jobs head community's current building

Two commercial projects head the community's current building activity. At the east city limit on Highway 82 BJ Contractors has started a building for Urban Endres which will have four locations.

One of those spots will be used by First Texas Saving, now occupying the temporary building near Main on the highway, the lease on which will expire soon. Endres will have his office in one location and the remaining locations are available for office, retail store or whatever. It's a brick veneered 120 x 40 building due to be finished by January 1. Other specifications will be told when it is finished.

Another job is the nearly completed expansion and improvement at Bayer's Kolonialwaren. It increases space about 30 percent by adding 75 x 16 feet at the west side of the former 75 X 35 structure. Other exterior changes include moving the entrance from north to east side to shut out the

winter wind and replacing the former door with a bay window. Also addition to the wall design plus a mansard roof trim presents a traditional German look. And there's a drive-in window at the west side.

The additional space was divided between store and bakery, each now using about half of the total space. The store is rearranged for shopping convenience with shelves at eye level. Other particulars will be included soon with an opening announcement.

Other building activity of the area is residential. A new home for the Larry Grewings south of the city park will have three bedrooms, two baths, a double garage, central heat and cool and brick veneer. It's about half finished.

The John Bartushs are on a major enlargement job which includes two bedrooms, two baths, a dining room and a utility room.

Don Knauf is building at Lind-

say. It's a three bedroom, 2 bath structure with single garage, central air conditioning and heating and brick.

Also at Lindsay Lisa Bezner is building on similar specifications: three bedrooms, two baths, central heat and air, single garage and brick.

James Eckart is winterproofing with overall insulation and siding and finishing with an over all paint job.

And Jerry Balthrop has a new home under way at Rosston. It includes three bedrooms, two baths, central heat and cool and brick veneer.

The Pat Hennigans are remodeling their kitchen and bath and following with a complete inside paint project.

And two cabanas are under construction at swim pools for Steve Grewing and Mrs. Marcie Klement. Also Willie Wimmers are building a 15 x 25 foot roof over their patio.

Muenster, too, feels the quake

Apparently Muenster was included, though very slightly, in the minor earthquake reported last week in the areas of Valley View, Era,, Mountain Springs and Pilot Point.

Two local people have reported disturbances which they believe to be caused by a quake. Most definite was that at the home of Glenn and Jeannie Hess. She says curtains ruffled and light fixtures swayed and her child whimpered and asked "what was that." She thought of a sonic boom but thought the noise was more of a

rumbling. Something more was a crack in the concrete driveway, which neither she or Glenn could remember being there before.

Also, Margie Starke felt a movement of her chair while she was writing at the kitchen table. She also heard a faint clatter of cupboard dishes and heard a noise like the rushing river water in the movies.

Mrs. Roger Taylor reveals a similar experience. She felt a dressing table quiver while hearing a faint rumbling noise.

Another person thought she felt

movement of the chair she was using but would not say she was certain.

There were no other reports, and inquiries at the city hall did not reveal any others who were aware of any sign of the quake. If there were others the Enterprise would be glad to hear from them.

However, there are hearsay reports from CCC students that tremors were felt there, also a Troconna man's statement the movement was felt there.

Homecoming set for MHS exes

It's homecoming time at Muenster Public School with some of the activities already in the past.

It got underway Wednesday night when the weekly CCD Mass was made a part of the observance and featured a special liturgy appropriate to the occasion. Participants in the ceremony included candidates for homecoming queen and princesses, along with their escorts and members of the Hornet team. That event was followed by a bonfire and pep rally at the home of David and Joan Walterscheid.

The balance of the celebration is scheduled for Friday, beginning with a parade at 6 p.m. from the Ben Franklin parking lot. It will include the Hornet band, princesses, queen candidates, cheerleaders and any others who

care to join them.

Next on the program is a Hornet band concert starting at 7:35.

Game time is 8 p.m. with Hornets taking on the Cowboys of Bryson. Predictions favor Muenster, based on the records of 3-0 for the Hornets and 0-3 for the Cowboys.

Formalities of presenting the royal party and naming and crowning the queen will be held at halftime. The queen will receive her crown from Kim Eldred, her royal highness of 1984. After coronation, the remaining candidates join princesses as members of the royal party.

The princesses are Stephanie Bynum, freshman; Michelle Monday, sophomore; and Kristi Pagel, junior. The four queen candidates are seniors Julie Fisher, Connie

Klement, Dolle Pagel and Deann Walterscheid. Their escorts are grads of 85 Rodney Hess, Cory Klement, Neal Flusche, Craig Monday, Keith Klement, Jay Mollenkopf, Ronnie Fisher and Joe Hennigan.

Last event of the day is a dance after the football game in the VFW Hall. It's a love-fund benefit to help defray medical expenses of Lindsay's Shelly Long, who was severely injured in a car accident.

And that's not all. A continuation of homecoming awaits classes of 1970 and 1980, who will have reunions the next day. Exes of '70 will be hosted by Kathy and Clifford Sicking starting at 6 p.m. Those of '80 will gather at the home of Kim and Kenny Felderhoff at 7 p.m.

State Capitol Highlight

AUSTIN — Did he promise back in '82 to lower utility rates or didn't he?

Governor Mark White says he didn't. But several opponents and the Texas Republican Party say White came awfully close to it back in 1982 when he was campaigning against GOP incumbent Bill Clements.

Last week in Beaumont, it was a group of loyal Texas Democrats who wanted to know the answer from White himself. Beaumont residents pay higher electric rates, and citizens hit hard by an economic slump there, asked White about the issue at a press conference.

The question came from a group of more than 40 black ministers, and White's own reply was: "Some people say I promised to lower rates - I didn't."

He went on to promise he would sign a bill making the Public Utilities Commission an elected board. He appoints it now.

White Misled Public?

Two Republican foes, Kent Hance and Tom Loeffler, are campaigning now against White's record on utility rates.

And old foe Bill Clements, now running again, said utilities was a "phony issue" when White brought it up in the last weeks of the campaign.

White was saying he would eliminate the automatic fuel adjustment charge on utility bills. Whether he actually said the elimination would lower rates is still a mystery.

Clements says White deliberately misled the public by suggesting he could lower utility bills.

White Defends Issue

White's foes were angered and they vowed then to keep the issue alive, just as White hoped it would go away quickly.

Only days after the election and before he took office, White began denying publicly that he had ever promised to lower rates. He has had to deny it ever since.

This summer, he went so far as to include his own little message in thousands of mailed utility bills in the Houston area where rates stabilized.

Price Of A Barrel

The Republicans wouldn't let him get away with that, either. Texas GOP treasurer Rob Mosbacher said White was playing it both ways by denying he had made the promise, then trying to take credit for rates which actually were depressed by a lower cost of oil.

Was White going to take responsibility for rate increases if the price of oil went up? Mosbacher asked.

Speaking of the price of oil, Texas may be facing another tax increase if the price of oil is lowered further, as OPEC officials have indicated will happen.

Tax Issue Remains

That's another issue Republicans hope to keep on the table to hound Mark White, and it won't be hard to do if another tax increase looms in the future.

White won't deny that one campaign promise he made was no new taxes. Republicans plastered his record on billboards around the state while he was trying to raise taxes weeks after taking office.

But White answered it was time to raise taxes and pressed on to call the famous special session which also passed the "no pass, no play" rule and other public school reforms.

Last session, the Legislature approved the barest bones budget in state history, and White forced the new indigent health care bill in another special session.

Now a study released last week indicates taxes may have to be raised to fund that program. The tax issues never, never go away.

Bill Messer Retires

State Rep. Bill Messer, the powerful Calendars chairman from Belton, rocked the House last week by announcing he will retire from the Legislature.

Largely unknown outside his district, Messer is one of the most powerful House members and was a top candidate for Speaker to replace his old friend Gib Lewis. But Lewis told Messer he will run again and Messer decided to put his energies elsewhere.

Short Takes

Eugene R. Haney, a Republican insurance agent, won the District 140 House seat in north Houston vacated by now-Sen. Gene Green.

Rep. Milton Fox, R-Houston, who says he has been running since July, will officially become a candidate for the Railroad Commission this week.

State Comptroller Bob Bullock's tax enforcement officers seized \$187,000 in cash, bank accounts and other assets from three delinquent Houston taxpayers.

Farabee favors transfer of prison gang leaders

State Senator Ray Farabee (D-Wichita Falls) has urged adoption of a constitutional amendment authorizing the Department of Corrections to transfer prison gang leaders to institutions in other states.

Farabee said, "Present law does not allow us to deal with prison violence by simply ridding ourselves of those causing it. The adoption of Proposition 6 on Nov. 5 will allow us to do so."

Farabee stated that the amendment will allow Texas to take advantage of the Interstate Corrections Compact, a little-known

federal law that permits states to enter into agreements between themselves for the transfer of inmates to institutions in member states.

"Gang problems did not begin in Texas, nor are they unique to us. Other states adopting the compact have used it successfully as a tool in breaking up gangs and dispersing their leaders," Farabee said.

While noting his support for harsher laws against inmate violence, Farabee observed that the core problem is with the leaders. "We can pass tougher

laws against the murderers, but leaders will still be in a position to order more killings unless we act against them directly," he stated. Farabee went on to note that transfers out-of-state also could be used for other compelling reasons, such as protecting inmates threatened with violence or placing inmates closer to families or needed medical facilities.

He said, "The compact can be used either for humanitarian or punitive purposes. It will not solve the violence problem, but its adoption will give TDC a valuable correctional tool."

VFW plans annual benefit

Plans for their annual big benefit, a bake sale for cancer aid and research, were completed at the September meeting of the VFW Ladies Auxiliary of Muenster.

Members set the date for Friday, Oct. 18, and the time for 10:30 a.m. at Fischer's and Hofbauer's. Home-baked items will be on sale until the supply runs out. Members signed the schedule for work hours. In lieu of baking, a donation of \$8.00 per member to the fund was suggested.

Anticipating the holiday season, the Auxiliary also planned "In lieu of Christmas cards" again for December. Donations to this project will go to the Heart Fund and local relief or charities.

In other business, the membership voted to comply with September's participation program by sending the required amount, from treasury funds, to fulfill the annual hospital fund.

Also to concentrate on membership. Dues cards will be mailed this month. Members also voted to send a donation to the Muenster Volunteer Fire Dept. for needed equipment. They also accepted the membership transfer of Clara Wilde from Gainesville.

A document was on display, confirming the inscription of four deceased veterans' names in the Memorial Chapel at Austin, through a donation made by the Auxiliary in July. The document honored the memory of Archie Hess, Henry Pels Jr. (Curley),

Rody Klement and Leo Hesse. Accompanying the document were keys to the chapel for their widows, Mmes. Lulu Hess, Regina Pels, Marcie Klement and Ethel Hesse.

Frances Bayer conducted the business meeting and the opening ritual. Laujuana Klement, secretary, read minutes of the August meeting and official communications, including a reminder of the Midwinter Roundup in San Antonio. Rose Hudspeth gave the treasurer's report. Linda Knabe volunteered as refreshment hostess for October.

After adjournment, Bonnie Hess and Armella Cler served pickup foods to 24 members present. Peggy Walterscheid won the door prize.

Mike Black authors law handbook

MIKE BLACK

Mike Black, a former Gainesville police officer, and son of Mrs. Dorothy Black of Myra,

has written a book entitled "The Texas Landlord/Tenant Law Handbook."

It was introduced to the Dallas/Ft. Worth area when it was featured this past weekend at the real estate seminar conducted by the American Congress on Real Estate.

Black was also invited to be a guest speaker at the seminar by Robert Allen, author of the best seller "Creating Wealth."

The "Texas Landlord/Tenant Law Handbook" is designed to be a procedure manual for Texas landlords with chapters on eviction process, landlord's lien, legal remedies and rent lease

agreements.

It also contains blank forms which can be used by the landlord including simple one-page rent and lease agreements. A lengthy tenant's rights chapter contains information on everything from discrimination to getting repairs made.

Sales of the book have already exceeded supply, but more are being printed and can be obtained by mailing \$6.95 to Mike Black, Rt. 1 Box 44-B-3, Grapevine, Texas 76051. The books are also available at Hofbauer's and Bayer's Kolonialwaren.

Questions may be referred to Terry Krebs, 665-7173 or Dorothy Black 736-2242.

Six couples complete safe driving course

Six couples have completed the most recent courses in safe driving taught by Mrs. Alice Hellman, including one couple from Bowie. The 55 Alive/Mature Driving classes were taught at night as a courtesy to employed persons unable to attend during the day.

A premium reduction in insurance is provided for successful completion of the state-approved driver improvement courses. Since 1979, more than 270,000 older drivers have completed 55 Alive/Mature Driving to date.

The safe driving program is sponsored by AARP, the American Association of Retired Persons. Its Volunteer Corps includes 2400 instructors, among them is Mrs. Hellman.

Mrs. Daryl Ferber hosts Muenster Garden Club September 13

Mrs. Daryl Ferber was hostess to the Muenster Garden Club for the meeting held Friday, Sept. 13 at 10 a.m. Thirteen members attended and welcomed one guest, Mrs. Thelma Dill.

Mrs. Sue Endres presented the program. She is a National Life Judge, a past district director of garden clubs, and she conducted a workshop on Club Officers and Committee Chairmen and their duties.

The Muenster Garden Club has presented seven books of a series "People and the Environment" to the Muenster Public School and to Sacred Heart School. The club also voted to have a horticulture show on Nov. 9 this year. Mrs. Eileen Luke is chairman.

Mrs. Marie Endres told

members that a horticulture specimen and a design arrangement will be brought to each meeting by a member of the club. September's arrangement was brought and discussed by Sue Endres.

The next meeting will be held on Friday, Oct. 11 at 10 a.m. in the home of Mrs. Angela Antonetti. A program on "Interior Gardening" will be led by Mike Kaspar of the Wonderland Home and Garden Center, South Lake, Texas. Mr. Kaspar is also a former

director of the Dallas Civic Garden Center.

NOTICE! TELEPHONE SUBSCRIBERS

We'd like to make sure you are aware of a recent change in the state tax structure that will affect your telephone bill. Effective Oct. 1, 1985, most telephone services - except basic local service - will be subject to state sales tax. The Legislature's action in making some services subject to sales tax is a response to the many basic changes taking place in the telecommunications industry. The application of sales tax to these services replaces a state gross receipts tax. Affected telephone services will include intrastate long distance, touch tone, custom calling services, and directory assistance calls. Sales tax will be assessed on all taxable charges and the amount of tax will appear on your bill. If you would like more specific information about the sales tax, please call your local telephone company business office. (Muenster 759-2251) (Valley View).

Mathews Photographers

MONICA HARTMAN and Jon LeBrasseur have chosen Saturday, Oct. 26, for their wedding day. Their engagement and approaching marriage have been announced by her parents, Alvin and Joan Hartman. The future groom is the son of Clayton and Fern LeBrasseur of Wells, Michigan. The Nuptial Mass will be celebrated at 5 p.m. in Sacred Heart Church by Father Victor Gillespie O.S.B. Attendants at the wedding will be Laurie Walterscheid, Rhonda Hartman, Sharlene Hartman, Dick LeBrasseur, Kenny Hartman and Bobby Hartman. The bride-elect is a graduate of Sacred Heart High School and Grayson County College and is employed by Gerald M. Graham, DDS. LeBrasseur is a graduate of Lake Superior College and North Texas State University. He is athletic director and coach at Sacred Heart High School. The couple will be at home in Muenster.

The wedding of Vatoni Carol Dill and Scott Allan Selby was held in Forestburg United Methodist Church on Saturday, Sept. 21 at 5 p.m.

The bride is the daughter of Mr. and Mrs. Jack C. Dill of Forestburg and the groom is the son of Pat Selby of Era and Wayne Selby of Gainesville.

Vatoni is a graduate of Forestburg High School and North Texas State University. She is a tax consultant employed by Deloitte, Haskins and Sells of Dallas. Scott is a graduate of Era High and is employed by Peterbilt of Denton.

Officiating for the wedding and traditional double ring ceremony was Rev. Chris Allen, pastor of Forestburg United Methodist Church. Assisting was Rev. Paul Blanchard, pastor of Era United Methodist Church who read from Scripture, 1 Corinthians 13 preceding exchange of vows, and from Genesis following the ceremony. He also led the congregation in a prayer.

The church held special significance because the bride's parents were married there and all members of her family hold membership there.

The bride was given in marriage by her father. She was wearing a white silk organza wedding gown designed by Mori Lee. The moulded bodice featured a high neckline with yoke of English net encircled with French Alencon lace sprinkled with pearls, and a ruffle of Chantilly lace. The full bishop sleeves were gathered and attached to wide self-fabric cuffs overlaid with laces. The waist was encircled with re-embroidered lace and sprinkled with pearls. From the waist a full skirt was attached, falling to slipper length and flowing into a chapel train. The skirt and train were accented with a tier of silk organza bordered with Chantilly and re-embroidered laces. She completed her attire with an illusion veil and a matching lace headpiece; and carried a bridal bouquet of gardenias and roses.

For sentiment and tradition she wore her Grandmother Dill's wedding ring and her Grandmother Jackson's pearl earrings.

Attendants

Leann Hays of Forestburg, was maid of honor. Lisa Parum of Grand Prairie and Pam Edwards of Forestburg, were bridesmaids. All are friends of the bride. They wore wine taffeta gowns designed by Mori Lee. The bodice had a fluted, one-shoulder neckline. A full skirt fell from the waist to slipper length. Each girl carried a

long stemmed rose colored rose.

Keisha Dill and Britany Dill, nieces of the bride were flower girls. Brady Dill, nephew of the bride was ring bearer.

Danny Bentley was the groom's best man. Michael Selby and Greg Selby, both brothers of the groom were groomsmen. John Erwin and Alan Spears, friends of the groom were ushers. All are of Era.

Keith Dill and Kody Dill, nephews of the bride were candlelighters.

Wedding music was presented by pianist Johnny Dill, cousin of the bride. Mary Hays sang "Evergreen." Willy Sandusky and Mary Hays sang "To Me" and David Taylor sang "The Lord's Prayer."

A reception followed in the New Community Center. Carla Evans, a friend of the bride was at the guest book.

The bride's table, covered with white lace over white, held the three tiered white wedding cake over a wine colored lighted fountain encircled with lighted votive candles. It was decorated by Betty Rose Walterscheid with white doves and mauve and wine flowers.

The groom's table, covered with white lace over a wine colored cloth, held the chocolate groom's cake and the silver coffee service. Arrangements of wine and mauve carnations were table centerpieces.

Debra Dill and Beth Dill, bride's sisters-in-law served the wedding cake. Sabra Robertson, bride's friend served mauve colored punch from the crystal service. Kim Selby, groom's sister-in-law and Becky Matthews, a friend served at the groom's table.

After a wedding trip to the Bahamas the couple will be at home in Denton.

The rehearsal dinner was given by the groom's parents at K-Bob's Steak House in Gainesville on Sept. 20. Two showers honored the bride-elect. One was hosted by the Forestburg community on Sept. 7 and the other by the Era community on Sept. 8.

Forestburg News

by Myrt Denham

To begin with this week, I wish to make several points clear to everyone. I write this column for the Forestburg Community - to keep everyone informed on the "comings, goings and doings" of the area plus community events, past, present and future. No partiality will be shown to any one person, group or event. I try, to the best of my ability, to write the truth as I understand it and can determine it - even if it is only to help bring certain conditions "to light" that are for the betterment of ANY given situation - whatever it may be. There has never, ever been any intent to "belittle" or "bemean" any one person or group. However, if exception has been or is taken - then I am very sorry indeed. Thus in the future I intend to proceed as in the past.

On Friday, Oct. 11, at 7 p.m. the Forestburg WBAP Community Services Club (former Homemakers Club) is sponsoring a Potluck Supper at the new Community Center. They will furnish the meat and drinks - you are asked to bring a vegetable, salad, dessert or casserole - as you wish. Everyone is urged to attend!

Thursday, Nov. 21, is the date for the first annual COMMUNITY Thanksgiving Supper sponsored by the WBAP Community Service Club in the new Community Center. The festivities will start at 7 p.m. There is NO CHARGE for this supper as it is for the folks of the community. You will be asked to bring food - come visit and enjoy a thankful evening with friends and neighbors. So mark your calendars and make your plans to attend. More information on this event will be forthcoming.

Mr. and Mrs. Paul Putnam and daughter Linda and her children and Bonita Barnett visited with Mr. and Mrs. Roy Maples in Dallas the weekend of Sept. 14-15.

David Wait of Abernathy spent Monday and Tuesday visiting with the Dale Hudspeth family.

Kenneth Woods was up in

Wichita Falls Wednesday night, Sept. 18, for a meeting with Senator Ray Farabee. There were five or six other county Farm Bureau presidents present for a very interesting and informative meeting.

COMMENT
This week's comment comes from a different source - Perryman Denham. It goes thus:

All the problems we have been having in our school lately reminds me of my school days and my dad's. I will comment on him first. He graduated from the University of Texas in Pharmacy. Quite an accomplishment for a country boy in that day and age. When he finished college there were no employers waiting to hire him. He took a temporary job as a school teacher. (School teachers please NOTE). His salary was \$30 per month, he had approximately 60 students - from beginners through high school. He walked two miles to school and carried a can of drinking water for the students to last the day. He arrived early to clean the one-room school and cut wood to heat it. He kept an elm club leaned up against his desk for discipline. You may wonder how he could teach 60 students - he didn't - the big ones served as teacher's assistants for the younger ones on down the line.

There are still a few of those one room school students around and they are now paying the taxes to pay modern teachers their salary. Those students went out in the world to make doctors, lawyers, and were successful in other fields, just as they do today.

I graduated from Forestburg in 1935. We had well over 300 students and not as many teachers as we have to teach 120 now. Since World War II, we have slowly lost students and gained teachers and

taxes. A school teacher, who taught at Forestburg back in those days, was heard to remark, "My goodness, when I was teaching here you could have hired 40 school teachers for what they are paying the present superintendent." Different times, different age - yes - but not that different. Maybe that is the right way - but from the actions and comments of the local citizenry, I believe we are of the same opinion.

Tigers dump Wildcats

The Tigers put their second impressive win of the season on the record last week by outscoring Callisburg's AA Wildcats 28-14. They had upset the highly respected Valley View Eagles 7-0 a week before and lost 13-12 to Era in their opener.

Their latest success can be credited to a combination of super playing on their part, including alertness and hustle in recovering six Callisburg fumbles. After the game Coach Virgil Henscheid expressed his pleasure in just a few words: "I have nothing to say but praise."

The first period was scoreless, however it was not lacking in action. Near midway the visitors passed 69 yards to pay dirt but the play was penalized for clipping. Moments later Tolbert stepped off 49 yards to the SH 36 and the gain was lost in John Nasche's interception.

Next big play was a Wildcat interception fumbled on the same play and recovered by Nasche. And shortly after Casey Houtchens recovered a Wildcat fumble on the Tiger 40.

A 45 yard romp by Kevin Switzer put SH only 15 yards away but the Tigers lost possession by failing on the next series, and Wildcats took over on their own 8.

That was the starting point of the first score. Callisburg made the 92 yards in nine plays with benefit of 15 on a pass interference penalty and a 45 yard pass, Williams to Tolbert. Gilbreath powered over from the 3 and ran for a 2 point PTA. The count was 8-0 at 7:57.

Sacred Heart started its first TD

moments later as Glenn Reiter recovered a fumble on the 29. Kevin Switzer gained 13 on the next three tries, Scott Taylor gained 5 and Switzer powered through for the remaining 11. A pass for PAT failed. The Tigers trailed 8-6 at 4:55.

Wildcats used the remaining time storming 70 yards in a quickie drive of 13 plays. Included were passes of 8, 13 and 10 yards and runs of 10 and 11. Tolbert scored on a 6 yard end run. A pass for extra points failed. The visitors led 14-6 at intermission.

SH started the second half with Nasche's recovery of a fumble in the first series, and Tigers were 37 yards away. Six plays including five by Switzer—one for 23 yards—made the distance. Switzer scored and ran for the double bonus. The score was 14-14 at 8:30.

SH made its next start after visitors punted on first series. With 49 to go Switzer gained 17 on a screen pass. Taylor got loose two plays later on a good fake and went to pay dirt, but penalties on both teams—a clip and a late hit—put the ball on the 9.

A fumble by Switzer followed by Craig Voth's recovery gave SH another chance at the 9. Two plays later Taylor scored from the 2. The PAT kick was blocked. SH led 20-14.

Callisburg started the fourth period with a drive from its 34 and

went to the Tiger 6 on 8 plays with help of a pass interference ruling and 10 yards in penalty, but fumbled to Craig Voth at the 9. So the Tigers started their last score with 91 yards to go. They used 11 plays losing 10 yards on penalties. Big gains were 21 yards by Switzer and a scoring pass. Taylor to Voth, for 39 yards. A pass to Voth on a fake kick added 2. SH led 28-14 at 3:58.

Wildcats used the remaining time on a strong drive that was stopped by Tiger defense just before the end. It started 73 yards away and used 8 tries in going to the 2, but the next series gained only 1. A pass blocked by Hennigan on fourth down was the main stopper. Tolbert scooped it up for a final effort but did not reach the goal.

Standouts were Switzer with 186 yards and 2 TDs on 28 carries, Junior Tolbert 139 on 14 carries and Monty Gilbreath with 99 on 22 carries. Also Craig Voth with a touchdown and bonus points and two fumble recoveries.

Callisburg kids beat Cubs 22-6

Sacred Heart Cubs were 22 to 6 losers last week in a one-sided contest with the future Wildcats of Callisburg. The hosts, with a clear advantage in size and numbers, had no problems in outclassing the SH youngsters.

They started early after the Cubs had to punt on first possession. Callisburg needed only 30 yards and made it in four plays.

Again S H had to kick; after which the Callisburg kids failed on a fourth down try. Then it was the Cubs' turn. A pass from Steve Koelzer to Pete Abbott went 22 yards up the middle for a touchdown. An extra point attempt failed, leaving the score at 6-6.

After the next kickoff the young Wildcats punted on first series, the Cubs completed one series and lost possession on an interception. Then they recovered a Callisburg fumble. Terry Felderhoff made the recovery. Next, Callisburg intercepted but the play was nullified by a roughing-the-passer ruling and Cubs retained possession at the 26. From there they gained to the 5 before being stopped.

The turnovers continued into the second half. Terry Felderhoff recovered for S H, made a first down and kicked which was fumbled. Tony Grewing recovered. Next, S H lost possession on an interception. The Little Wildcats then made their second TD on a 19-yard sweep and ran for two more points.

Next score came shortly. After kickoff, the Cubs lost yardage on a busted play and lost the ball on another. That was on the 18 yard line and four plays were enough for the TD. The 2-point PAT effort was good.

Muenster juniors nudge Windthorst

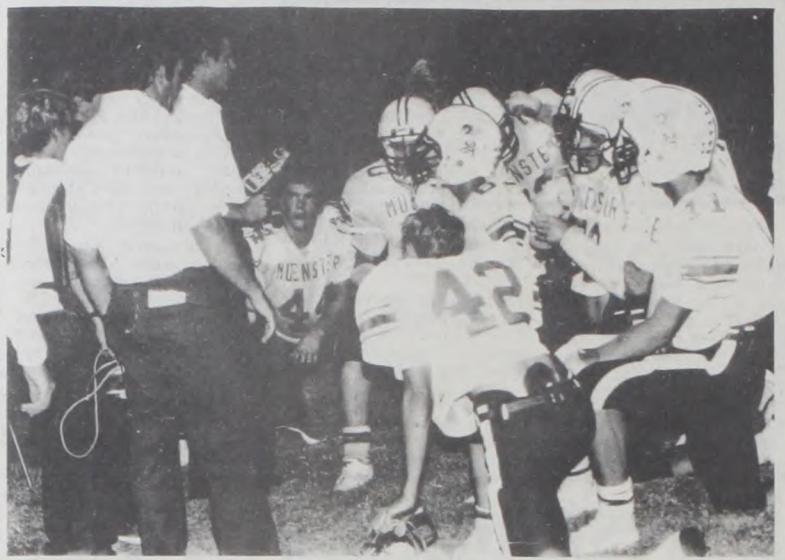

Muenster's junior high boys started their football season on a pleasing note last week with a 14-0 win over the juniors of Windthorst.

They started it on first possession receiving the kickoff on their 30 and returning it 10 yards to the 40. From there they drove steadily to pay dirt, Donny Boydston making the last 8 on a sweep. A 2 point PAT upped the score to 8-0.

The future Trojans made a fine comeback for some 55 yards but lost possession inside the 10 yard line as a fourth down effort fell short.

One big play in the second half added Muenster's next score. Windthorst punted near its goal line and James Hennigan fielded it for a 40 yard return to pay dirt.

Over all, the game was a pleasing opener for the boys, according to Coach Sims. Their defense was generally good whereas offense was spotty as a number of gains were wasted on faulty execution and busted plays. All of the boys got into the game.

HORNETS TAKE A timeout with their coaches during their game with the Windthorst Trojans. Coaches are Dewey Sims and Charles Meurer, and identifiable players are Drue Bynum 44, Mark Hennigan 42, Gary Grewing 63, Shawn Flusche 32 and John Eldred 11.

Hornets wallop Trojans 47-0

Muenster Hornets enjoyed their third shutout of the season last Friday by rolling over Windthorst's Trojans 47 to 0. The game was one sided all the way except in the scoreless first period. However the second period yielded 14 and the third a whopping 27.

Coach Sims said he was highly pleased by the boys' continued improvement on offense and especially on defense, but he's hoping to see fewer fumbles and better passing. Over all, he thinks they keep looking better.

About the only action in the scoreless first quarter was a Hornet fumble on second series and a TD on a 50 yard screen pass nullified by a penalty.

Hornets got going in the second, and the first payoff was Shawn Flusche's 13 yard scoring run followed by his kick for extra point. The next one followed a blocked punt by Gary Grewing and claimed by Johnny Eldred on the 5. Ryan Klement cashed in with a quarterback sneak with 40 seconds until the half, and Flusche's kick upped the count to 14.

The third was the most productive for MHS. With 55 to go after kickoff, Flusche made 21 and Eldred made the remaining 34. The Trojans blocked the kick for the extra point.

Grewing's recovery of a fumble put the Hornets back in business at the Trojan 25 and nine plays from there were enough. Klement's sneak made the last 4. Flusche's PAT upped the count to 27-0 at 8:55.

Another quickie followed. After kickoff Windthorst had to punt. A late hit penalty on the return gave MHS possession 43 yards away where Drue Bynum broke away on a scoring sprint. Another PAT point upped the count to 34-0.

Then Trojans stalled on first series and Bynum's runback of the punt reached midfield. On third play from there Cheaney gained 20 to pay dirt, and Flusche's kick upped the score to 41-0.

The final score followed Windthorst's punt ending its first series. Bynum drifted right with the help of fine blocks and made the last 40

with fancy footwork followed by a sprint. The return covered 75 yards. Flusche's PAT upped the score to 47-0.

Leading gainers for Muenster were Eldred with 96 yards on 10 carries and Flusche with 95 on 14 carries. Also Bynum made 61 on 4 carries and the classic punt return of 75 yards. Others who figured in the toting were Darren Cheaney and Ryan Klement. All of the lineman looked fine, especially on defense where they held Windthorst losses about equal to its gains.

No players were hurt, however Ronnie Trubenbach missed his second game as the result of an early season leg injury. He's expected back for the next game.

JV Hornets blasted by Callisburg kids

J V Hornets of Muenster High ran into trouble at Callisburg last week by a count of 32-0. The JV Wildcats, made up mostly of juniors, had a clear advantage in size, experience and depth over the MHS freshmen.

The difference showed especially in the first half when the hosts ran wild and scored four of their touchdowns. Two of the TDs were made on big runs and one on a big pass.

Things were better in the second half after the odds were evened somewhat by entry of several Wildcat Youngsters into the game. Hornet defense improved accordingly, allowing the hosts only one more touchdown.

Regardless of score, Coach Charles Meurer was pleased with his boys, saying they did fine while being so definitely outclassed, and they gained experience that should be helpful later. The game was their second loss of the season. They lost their opener to Nocona JV.

The Texas Agricultural Extension Service is cooperating with the Internal Revenue Service in offering 39 Tax Practitioner Workshops across the state. Twenty-five General Workshops will be held in all major Texas cities. The General Workshops nearest our county are in Dallas - No.1 on November 11-12, and No.2 on December 12-13; and in Fort Worth on November 14-15. There will also be 14 Advanced Workshops offered in major cities. The Tax Practitioner educational program has been highly successful. Last year about 3,200 people participated in this statewide series. These practitioners reported filing more than 535,000 tax returns.

The following marketing update and information is supplied by Extension Economists Edward Smith and Ronald Knutson.

1985 FARM BILL UPDATE
The House Agriculture Committee approved a 1985 Farm Bill on September 10, 1985. The Bill differs from earlier drafts primarily in two ways. First, the farm legislation would last five years through 1990 instead of the customary four. Second, for producers of wheat and feed grains, the bill includes an option through which producers would vote in a referendum whether or not to implement voluntary acreage controls. Complying producers under this option would get price support loans at a minimum of \$4.50/bushel for wheat, and \$3.25/bushel for corn. The producer would be issued a marketing certificate, based on average production and base acreage, which would be needed before he could sell his commodity for domestic use. Uncertainty

production would have to be fed to livestock on the farm or marketed for export at world prices. The Farm Bill is expected to be debated before the full House next week. The Senate Agriculture Committee is in the process of writing its 1985 Farm Bill. The final details, no doubt, will be hammered out in conference committee.

WHEAT UPDATE
Wheat prices continue to feel pressure from abundant available supplies and a sagging export market. In general, wheat producers around the nation did not participate as heavily in the 1985 Wheat Programs as market forces were indicating. As a result, the wheat market is still reflecting sub-loan prices. Eventually price will need to rebound to draw loan eligible wheat to the market. The question is can the rebound occur before Southern Hemisphere production cuts off export dependent price expansion? That is doubtful. Watch the

1985 Farm Bill development. Short term (one or two years) price outlook will be impacted significantly by price support levels determined in the bill.

FEED GRAINS-PRICES CRIPPLED BY RECORD PRODUCTION
Texas corn and sorghum prices have plummeted in areas where

harvest is finished. Sorghum prices have knocked the bottom out of price support levels. The reasons, lack of participation in the 1985 Feed Grain program and inadequate storage. The High Plains should fare somewhat better than the rest of Texas. Farm program participation is higher, there is adequate storage, and they depend less on export markets. The net loan should support prices in this region. The net loan should hold for another reason, heavy participation in farm programs in the Midwest may tie up corn supplies and prevent heavy importation into the feedlots. Again, as with wheat, 1986 price outlook is very dependent on what Congress does with the 1985 Farm Bill.
