## Hornets sting Nocona, 21-6

### Unveil tough running attack

The Muenster Hornets had the look of a high-powered engine on a cold morning as they won their first outing 21-6 over an inexperienced Nocona squad here Friday night.

They roared and sputtered, but the power was obviously there.

Muenster dominated Nocona, but it took two fourth-quarter touchdowns to nail down the victory as the Hornets stopped themselves with three fumbles and an interception. A powerful MHS ground game amassed 338 yards — more than twice what Nocona's entire offense was able to generate.

"I felt like we'd have a good running game," coach Leonard Peters said this week. "We've got some big, experienced backs and a good line in front of them. That's been our biggest asset the past three years."

Senior Ronnie Fisher, who missed most of last season after an early injury, came back with a vengeance as he rushed for 129 yards on 27 carries. Leslye Wells, who was out about half the season last year, also came back strong, carrying the ball 16 times for 116 yards.

Fisher got the first touchdown early in the second quarter on a three-yard run. The score capped a 56-yard drive that began when Ronnie Trubenbach jumped on a fumbled ball after sophomore

Andy Burnette flattened Nocona quarterback Kyle Reynolds. It took the Hornets eight plays to reach paydirt, and Neal Flusche's extra-point kick made it 7-0.

Nocona only managed one first down in the first half, that coming on a 12-yard pass play in the second quarter. But Muenster missed a couple of scoring oppor-

Midway through the third quarter Nocona's Reynolds found flanker Chris Womack open downfield for a 58-yard bomb, and followed that with a 19-yard strike to running back Neal Walker to set up the team's only score of the night.

For many years the American public has been concerned about Social Security with its two-fold problem of ever increasing benefits to keep pace with the growing population of senior citizens as well as further benefit increases to adjust for constantly increasing cost of living.

On the other side of the problem is the increasing tax burden on wage earners and employers to provide the funds for Social Security. Even so the system is often in a financial strain, and those who pay into it have doubts whether anything will be there for them when they reach the beneficiary age.

In addition to the system's economic insecurity and the burden on those paying in, there's the disappointment of a poor return on the basis of investment. It's been calculated many times that a worker's benefit after paying the SS tax for the usual length of time is far less than would be realized from a normal saving account.

With this fact in mind it's been proposed that the system be converted to the more profitable way, but apparently too many problems were encountered. For instance, how to break from our system to another and how to compensate the person who is entitled to benefits from both systems. Also how to assure that a person who transfers out of SS will remain in the other system and provide for his or her future and not become a welfare case.

Well, it seems something is being done about a solution. As told in Human Events, a young Kansan, Jim Van Slyke, Republican candidate for Congress, is campaigning on a proposal to phase out the government social security system and replace it with mandatory Individual Retirement Accounts. The man won big on that issue in his primary and is regarded as a strong prospect in the general election.

The proposal is based on plans developed by the Heritage Foundation, the Freeman Institute and

## Precinct four buys two trucks

Bill Gray of Gainesville sold two trucks to Cooke County precinct four Monday despite a slight oversight in the bidding process.

The price was left off Gray's bid.

The bid, it was later learned by phone, was for \$22,800 for a 1977 International truck and a 1973 Cummings truck. The only other bid received in response to the

county's advertisement was from Gordon Paul of Gainesville, who quoted a price of \$23,200 for one truck — a 1979 GMC.

Precinct four commissioner Robert Bayer was in a dilemma after the bids were opened, as Gray had told him what the price would be on his two trucks and he knew it was considerably lower than the only other bid.

The commissioners discussed

briefly whether they should contact Gray or reject both bids and re-advertise — a process that would have taken another couple of weeks. They decided to call Gray and give him an opportunity to put his price on the bid sheet even though the bid deadline had been 10 a.m. Monday.

After Gray was contacted and the price confirmed, he was awarded the contract.

## Players ready new act

### Butterfield Stage season starts next Thursday

The stage is set for a memorable year for Gainesville and Cooke County's community theatre group, the Butterfield Stage Players.

With a solid lineup of players and an enthusiastic group of workers, the players have become a Cooke County tradition in just four years. But this year, they've entered a new dimension by hiring a managing director to guide the season's activities.

Jim Fielder, who has been active in the theatre for over a year, accepted the job over the summer at the board's request. He will direct and co-star in the group's first production, Noel Coward's "Private Lives," which opens Thursday night for a three-weekend run.

"This will be the first play I've directed here," Fielder says. "One of the things a managing director has to do is fill the gaps when they come up, and we didn't get

another director lined up in time. Then the actor who was going to play one of the characters moved, so I got that job too."

"Private Lives" will begin at 7:30 p.m. Thursday (September 20), kicking off the community theatre's fifth season. Tickets are available at the box office from 2 to 6 p.m., and season tickets may be purchased for \$11 at the Chamber of Commerce office in Gainesville or from any board member.

Most performances are sellouts, so it's a good idea to get tickets in advance.

Fielder, a native of Whitesboro, moved back to this area in 1972 after 25 years in San Diego, California. He is a design draftsman at National Supply Co., but his involvement in theatre has consumed enough of his free hours to certify him as a professional.

After being drafted in 1964, Fielder took his talent to the

military stage in San Francisco as a production of "Damn Yankees." After returning to civilian life, he produced, directed or acted in more than 40 plays in San Diego, including "The Man Who Came to Dinner" and such Shakespearean classics as "Hamlet," "Othello," "Macbeth," and "The Taming of the Shrew."

"Private Lives" is a worthy object of his directorial skills as he makes his Butterfield Stage debut.

"It's a fascinating, funny play," Fielder says. "This is the first Noel Coward play we've produced here, and it happens to be the last production Richard Burton did on Broadway before his death."

The play involves four characters — newlyweds Elliot and Sybil Chase, and Victor and Amanda Prynne. Elliot and Amanda were formerly married, and as the play

Dr. Dick Powell, a Gainesville dentist, will portray Elliot on the stage, with Callisburg High School drama teacher Lynette Kirk acting the part of Amanda. Elaine English, a travel consultant in Gainesville, will play Sybil and Fielder will play Victor.

Thursday will be the first of nine performances set for September 20-22, 27-29 and October 4-6.

### Going strong at five

The fact that the Butterfield Stage Players are still going strong as they enter their fifth season is a marvel, after early predictions that the group would not last. They have become noted for the professional quality of their productions and the enthusiasm of their members.

Rodger Boyce, director of

public relations at Cooke County College, was instrumental in starting the group here after he was appointed to the Cooke County Arts Council in 1979. Boyce had been involved in theatre activities in Denton before coming to Gainesville, and his knowledge and enthusiasm helped spark the creation of the Butterfield Stage Players.

Boyce directed the first production, "Plaza Suite," on May 1, 1980, after the group secured permission to use the old Carnegie library building at Main and Denton. The building, which was built in 1914, was remodelled with help from Weber Aircraft, Gainesville Construction Co. and Parker Electric, and the top floor still serves as the theatre group's home stage.

"A lot of people didn't think we'd last five years," Fielder says. "We're really happy with the support we've gotten from the community and from the whole area. The audiences come from all over

Cooke County, Denton, Dallas and Fort Worth."

While the seats out front are usually full, Fielder says the group does need more involvement behind the scenes in the form of directors, actors, set builders and stage hands.

"We had hoped to increase the season to five shows this year, but we don't have enough people for tryouts," he says. "We want people from all over to be involved in this thing. The more people we can get to try out for the plays, the better they'll be."

"Maybe we can all get on stage and get over our jitters together."

The rest of the 1984-85 season includes two other plays and possibly a musical next spring in conjunction with Cooke County College's music department.

Tryouts for the second production, "Bell, Book and Candle," will begin around the first of October, according to Fielder. The play was a popular movie in the early 60's with Jimmy Stewart, Kim Novak and Jack Lemmon, and should be another hit for the Butterfield Stage Players. It will run November 15-17, 22-23 and 29-December 1.

The third show, "Vanities," a comedy with a three-woman cast, will go on stage the last weekend in February and run through the first two weekends in March. The

musical, which is still tentative, will go in late April with Glenn Wilson of CCC directing the music and Dick Powell directing the actors.

"People talk about the fact that they see the same faces up on the stage year after year," Fielder says. "That's sometimes true, but not because we want it that way — we want other people to get involved. It's a community theatre, and the whole community is welcome to participate."

Currently serving on the board of directors are Bill Harris, president; Fielder, vice-president; Janet Morris, treasurer; Linda Richey, secretary; and members Dick Powell, Melanie Henry, Jere Klement, Serena Wright, Robert Barclay and Rodger Boyce. New directors will be elected in October.

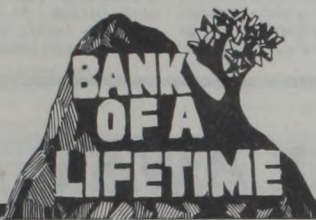

Season tickets for the three plays are \$11 - a 25 percent saving over buying tickets for the individual plays. Those wishing season tickets may purchase them at the box office, at the Chamber office, or simply by sending a check to the Butterfield Stage Players, P.O. Box 251, Gainesville, 76240.

On opening night Thursday, the players will host a "Champagne Gala" to celebrate the start of their season, with all patrons invited.

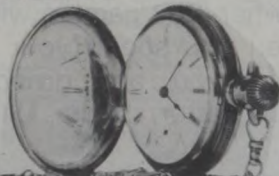

It looks like a very good year.

## Blood drive short; collects 79 pints

Dropping below their quota of 100 pints and the community's usual donation, the people of Muenster and neighboring areas gave 79 pints at last Wednesday's semi annual blood collection. Eighty two donors reported but 3 could not be accepted because of physical condition.

Nevertheless the collection is regarded adequate except for emergency demand and is appreciated by the Red Cross blood center of Wichita Falls which serves a wide area of North Texas and South Oklahoma. The program makes it possible for Muenster Hospital patients and residents of the Muenster Hospital District to receive transfusions at reduced cost. Since blood is donated it is free to the patient, the only cost being for processing, storing, transporting, transfusing, etc.

Included in the 79 donors were eleven gallon donors, five of them

having completed multiple gallons in this drive. Jim Roark leads the list with eight gallons. Wilfred Bindel has given four gallons; Bernice Sicking, Allen Sicking and Mark Klement, each two gallons. Those who completed their first gallon are Leona Hess, Betty Felderhoff, Thomas Felderhoff, Henreitta Fisch, Diane Grewing and Gilbert Knabe.

Local people who helped the Red Cross personnel with the collection were the following nurses and technicians: Aileen Cler, Lillian Appel, Robert LaCoe, Joan Walterscheid, Florence Fisher, Gwen Carroll, Herman Carroll and Linda Walterscheid; also Sacred Heart Student Council members Laura Flusche, Sandra Walterscheid, Steven Schmitt, Carmen Daugherty, Amy Henschel, Sally Stoffels, Connie Bayer, LeAnn Mollenkopf and Gail Fisher; and Carolyn Bayer, Carol Henschel and Rita Pels.

The city of Muenster has received a check in the amount of \$6,570.59 from State Comptroller Bob Bullock as its rebate from city sales taxes collected here through the period ending August 24, 1984. The amount increases the

year's rebates to \$79,612.76, a gain of 11.35 percent over this time last year. Total rebates by the state for this period were \$52.4 million to 990 cities.

Checks to other cities of this area along with the year's totals to date and the percentage of gain or loss since 1983, were reported as follows.

Gainesville \$53,825, to date \$661,884, up 9.41 percent; Lindsay \$2,610, to date \$35,091, down 7.01 percent; Valley View, \$549, to date \$5,908, up 17.72 percent; Sanger \$2,685, to date \$44,434, up 28.87 percent; Pilot Point \$4,939, to date \$60,833, up 34.52 percent; Whitesboro, \$7,625, to date \$99,464, up 14.38 percent; Bowie \$30,471, to date \$305,633, up 4.03 percent; Nocona \$9,261, to date \$115,650, up 9.01 percent; Saint Jo \$986, to date \$15,194, up 4.62 percent.

# WITH AVERAGE BILLING, YOUR ELECTRIC BILL WILL BE ABOUT THE SAME EACH MONTH.

Everyone knows electric bills go up and down throughout the year. Some months they're low. Some months they're higher, depending on how much electricity you use.

But for most of us there aren't any highs and lows in our monthly income. It's pretty much the same from month to month. So, balancing the monthly budget can be a problem.

Well, Texas Power and Light Company has an answer. It's the

Average Billing Plan. And each month after you join, you'll pay an average of your monthly electric bills over the past twelve months. No more ups and downs.

Of course, you're still paying for all the electricity you use. But with average billing, your electric bills will be about the same each month. So budgeting will be that much easier.

If you want to know more about our Average Billing Plan, call your local TP&L office today.

## Hornets win opener here

### Continued from front page

Reynolds capped the drive early in the fourth quarter by sneaking over from the three yard line, but a try for the two-point conversion failed and Muenster still led, 7-6.

After that score, the gears finally meshed for the Hornets and Fisher and Wells powered a 60-yard drive downfield with Fisher again scoring from the three yard line. Flusche's kick made it 14-6.

On their first play after the kickoff, Nocona fumbled and Muenster's Darren Walterscheid recovered to put the Hornets back in business at the Nocona 20.

After three fruitless cracks at the line, quarterback Johnny Eldred went to the air and connected with Burnette on his only successful pass of the night, a 19-yard touchdown strike. Again Flusche's kick was true and the final score was on the board.

### Enthusiasm high for Hornets

Peters was pleased with the performance overall, although he noted the usual first-game mistakes in the way of fumbles and an occasional defensive breakdown.

"I expected some of that," Peters said. "Really, we didn't

have as much as I thought we would."

"The biggest plus was our aggressiveness," he added. "We just hustled from one end of the field to the other on every play, for four quarters. I've never seen our kids just get out there and knock people around like that and sustain it for a whole game."

Peters cited center Joe Pagel, who played his first game at that difficult position Friday night after switching from tight end. The 165-lb. sophomore "did an exceptional job" anchoring the line, according to the coach.

Peters also praised guard Tim Fleeman and tackle Ronnie Trubenbach on the offensive line, noting that Trubenbach played despite a 24-hour bug that had him sick most of the day.

"Defensively, it was just a good team effort," he said. "With the kind of defense we play, that's what you have to have. The interior linemen did a good job of keeping the linebackers free, and they filled the gaps."

Senior linebacker Neal Flusche led the squad in tackles with 18, including a touchdown-saving tackle on the Indians' long pass play that was "a super individual

effort" according to Peters.

"He was just all over the field," Peters said. "He shouldn't have even been anywhere near that play, but he just got out there and made the tackle. He had a tremendous game."

### Masonic Home Saturday

The Hornets will be trying to overcome a few mistakes and improve their technique when they travel to face Masonic Home Saturday in Fort Worth.

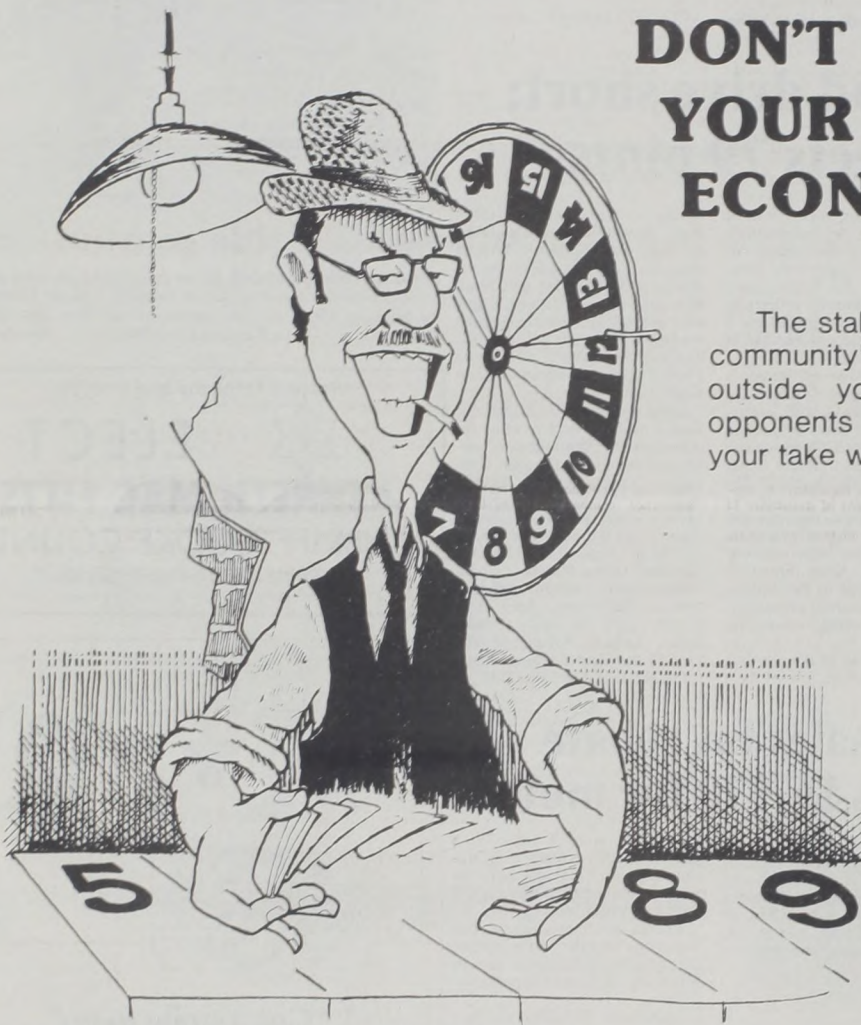

"Masonic Home is a young, small football team," Peters said. "They lost about six of their good kids from last year, so they're inexperienced — but they're also going to be aggressive and proud. That pride can go a long way in this league."

Masonic Home lost a 28-6 decision to Collinsville in their opener Friday.

They run a wishbone offense, with a talented sophomore quarterback calling the signals.

"I still feel like our passing game is going to come around," Peters said. "The ball was taking off in the wind the other night — it was a tough night to try to do much passing. As the passing game gets better, it's going to make us a better football team."

# Fitts announces for office of sheriff

My name is Kenneth Mac Fitts and I would like to announce my candidacy for sheriff of Cooke County. I reside on West Highway 82 with my wife and two sons, Billy and Robin. My wife, the former Benelle Dishman, is employed by the Texas Department of Human Resources. I attend the Temple Baptist Church.

I am 38 years old. I was born and raised in Cooke County. I am the son of Gladys Fitts and the late M.C. Fitts. I attended the local public schools and graduated from Gainesville High School in 1964. I graduated from Cooke County College in 1979 with an Associate of Applied Science Degree in Law Enforcement.

I was employed as a deputy sheriff for the Cooke County Sheriff Dept. for over nine years. During that time, I obtained my Basic and Intermediate Certificates from the Texas Commission on Law Enforcement Standards and Education. I also attended various F.B.I. and Dept. of Public Safety schools and have a total of 320 classroom hours in law enforcement. I have received certificates for training in Nar-

cotics, Civil Procedure, Accident Investigation, Defensive Tactics, Firearms, Jail Procedures, Handling of Juveniles, and Police Administration at a Supervisory Level. I also have experience working with juveniles through the Texas Youth Council.

For the past seven years, I have been employed in private business. I have heard the complaints of businessmen, farmers, ranchers, and the general public, and I earnestly believe that the residents of Cooke County deserve more law enforcement for the tax dollars that they are spending. With my past experience as a deputy sheriff, education in law enforcement, and common sense I can better serve the needs of Cooke County. If elected to the office of Sheriff, I pledge to enforce the law fairly and honestly throughout the county.

I cordially solicit your vote on the Republican ticket in the upcoming General Election on November 6, 1984.

# Tickets on sale for Pancake supper

Tickets are on sale now for the Muenster Kiwanis Club's pancake supper, slated prior to the MHS homecoming game a week from Friday night.

The supper, an all-you-can-eat affair featuring pancakes, biscuits, sausage, bacon, milk and coffee, will be held in the Muenster High School cafeteria from 4:30 to 7:30 p.m. September 21, according to publicity chairman Gary Fisher.

Tickets, which can be obtained from any club member or purchased at the door, are \$2.50 for adults and \$1.50 for children.

Jerry Bynum and Ken McDougle are in charge of the event, which may become an annual project of the newly-formed organization.

All funds from the pancake supper will be used to support the club's projects in the community

during the coming year, according to publicity chairman Gary Fisher.

Among the projects scheduled are fingerprinting of school-age children in coordination with "Operation Child Find," purchasing playground equipment for local schools, donations to local libraries, completion of the small park downtown and continuing support for deprived, needy and handicapped children.

"The Kiwanis club's national motto is 'We Build,'" Fisher said. "The Muenster club is working toward that goal whether it involves building young minds through donations to the three local libraries, or helping build young bodies with donations for playground equipment at the schools and parks."

"We invite everyone to help us toward our goal with attendance at the pancake supper," he added.

# Screening clinic set

A hypertension and diabetes screening clinic will be held in Muenster Wednesday, September 19 at the Sacred Heart Community Center meeting room.

The clinic will run from 9:30 a.m. to noon and 1 p.m. to 4 p.m.

The screenings will be performed by a public health nurse at no charge to the participants, under the sponsorship of the Texas Department of Health.

Since each of these diseases can prove to be fatal or cause other health problems, each adult should visit his or her private physician or the public health clinic on a regular basis.

# Electric Co-op slates agriculture day

Cooke County Electric Cooperative has scheduled an

agriculture information day for Tuesday at their building on highway 82 east of Muenster.

According to customer relations director Gene Davenport, the meeting will be of interest to everyone and all are invited to attend.

"Cooke County College's Role in Agriculture - Farming and Ranching," will be the subject of the first discussion beginning at 9:30 a.m. in the CCEC auditorium. T.J. (Tommy) Davidson, department and division director at Cooke County College, will lead the discussion of curricula and services the college has to offer in the field of agriculture.

The discussion will touch on soil testing, hay analysis and activities at the experiment station. Davidson will also talk about the

college's Beef Cattle Evaluation Center and what is taking place at that facility.

"The Availability and Dependability of Electric Power" will be the topic of another discussion, led by F.M. (Frank) Bushnell, Jr., executive assistant and manager of the public relations division of Brazos Electric Power Cooperative.

Bushnell will speak on the availability and dependability of

power produced and delivered to Cooke County Electric Cooperative for distribution to its member-customers.

Finally, Dr. Otha B. Sober of the Texas Agricultural Experiment Station at Montague will discuss "Planting and Caring for Home Orchards."

That talk will include advice on site selection and preparation, variety selection and planting and care of an orchard.

OF PROPOSED  
**CONSTITUTIONAL AMENDMENTS**  
GENERAL ELECTION  
NOVEMBER 6, 1984

## PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 29 proposes a constitutional amendment that provides to state-chartered banks the same rights and privileges that are or may be granted to national banks of the United States domiciled in this state. For example, if national banks become authorized to maintain branch offices, this amendment would extend the same privilege to state banks.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide state banks the same rights and privileges as national banks."

education which are not included in The University of Texas or Texas A&M University Systems and, therefore, not eligible to participate in the Permanent University Fund bonding program. The amount of this appropriation could be adjusted every five years by a 1/2 vote of the Legislature, but could not be adjusted in such a way as to affect outstanding bonding indebtedness.

Each institution of higher education that is eligible to participate (i.e., those institutions of higher education outside The University of Texas and Texas A&M University Systems) would be authorized to expend directly its share (such share to be determined pursuant to an equitable formula) of the \$100 million appropriation for the purposes of acquiring land, constructing and equipping buildings or other permanent improvements, major repair and rehabilitation of other permanent buildings or improvements, and acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials. Additionally, each institution would be authorized to issue bonds backed by a pledge of up to 50% of its share of the \$100 million annual appropriation for the purpose of land acquisition, new construction, and major repair and rehabilitation projects.

Except in the case of fire or natural disaster and in other extraordinary cases, verified by a two-thirds vote of each house of the legislature, all institutions of higher education would be precluded from receiving appropriations of general revenue funds for the purposes of land acquisition, new construction, and major repair and rehabilitation projects.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to create from general revenue a special higher education assistance fund for construction and related activities, to restructure the Permanent University Fund, and to increase the number of institutions eligible to benefit from the Permanent University Fund."

## PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 65 proposes a constitutional amendment which authorizes the legislature to provide for the payment of assistance to the surviving dependent parents, brothers, and sisters of officers, employees and agents of the state or its political subdivisions, including members of organized volunteer fire departments and members of organized police reserve or auxiliary units authorized to make arrests, who die in the course of performing hazardous official duties. Payments to surviving spouses and dependent children of agencies and institutions of higher

## PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 20 proposes a constitutional amendment which abolishes the office of county treasurer in Bexar and Collin counties if a majority of the voters in each of those counties vote in favor of abolishing the office of county treasurer in a local election to be held on the issue. All the powers, duties, and functions of the office of county treasurer in each of these counties will be transferred to the county clerk.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to abolish the office of county treasurer in Bexar and Collin counties."

## PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 22 proposes a constitutional amendment which provides a new method of filling a vacancy in the office of Lieutenant Governor. The amendment requires the President pro tempore of the Senate to call together the committee of the whole Senate within 30 days after a vacancy occurs in the office of Lieutenant Governor. The committee would be required to elect one of its members to perform the duties of the Lieutenant Governor until the next general election. This individual would continue his duties as Senator at the same time that he performs the Lieutenant Governor's duties. If the Senator who is elected ceases to be a Senator before the next general election, another Senator must be elected according to the above procedure to perform the Lieutenant Governor's duties. The President pro tempore would be required to perform the Lieutenant Governor's duties pending the election of one of its members by the committee of the whole Senate.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the state senate to fill a vacancy in the office of lieutenant governor."

## PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 73 proposes a constitutional amendment that permits the use of public funds and credit for payment of premiums on non-assessable life, health, or accident insurance policies and annuity contracts issued by a mutual insurance company authorized to do business in this state. The constitutional prohibition against a grant of public money to an individual, association, or corporation or against becoming a stockholder in a corporation, association, or company has limited life and health group policies of political subdivisions to non-mutual insurance companies. The amendment would permit mutual insurance companies to bid for those policies.

The proposed constitutional amendment will appear on the ballot as follows: The constitutional amendment to permit use of public funds and credit for payment of premiums on certain insurance contracts of mutual insurance companies authorized to do business in Texas."

## PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment to change the membership of the State Commission on Judicial Conduct to include one Judge of a Municipal Court and one Judge of a County Court at Law, who shall be selected at large and appointed by the Supreme Court with the advice and consent of the Senate.

The amendment also provides additional grounds for removal from office of judges or justices of Texas courts, and provides additional disciplinary actions that could be taken in lieu of removal or censure. The amendment would extend the Commission's disciplinary authority to masters, magistrates, and retired or former judges who hear cases by designation. The amendment creates a tribunal to review recommendations of the State Commission on Judicial Conduct for removal or retirement of a judge or justice. The review tribunal would be composed of seven (7) Justices or Judges of the Courts of Appeals selected by lot by the Chief Justice of the Supreme Court. The amendment also provides for appeal of the review tribunal's decision to the Supreme Court of Texas and grants an accused judge the right to discovery of evidence.

The proposition will appear on the ballot as follows: The constitutional amendment relating to the membership of the State Commission on Judicial Conduct and the authority and procedure to discipline active judges, certain retired and former judges, and certain masters and magistrates of the courts."

## PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment which increases the per diem of members of the Legislature. The amount of per diem allowed during a calendar year would be equal to the maximum amount set in federal income tax statutes as of January 1 of that same year as a deduction for ordinary and necessary business expenses incurred by a state legislator. Current per diem is \$30; the maximum deduction is now \$75.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide a per diem for members of the legislature equal to the maximum daily amount allowed by federal law as a deduction for ordinary and necessary business expenses incurred by a state legislator."

## Descendants of Chris Walter meet

A reunion of descendants of Christopher Walter and Anna (Stefel) Walter, in the planning stage for more than a year, culminated in a family gathering attended by more than 350 on Sunday, September 2 in Muenster.

Locally, direct descendants of the pioneers are members of the Anton and Louisa (Walter) Doerr family, the Frank and Rosa (Walter) Martin family, the August and Mary (Walter) Reiter family and the John and Susanna (Tracht) Walter family, all represented at the reunion. Other pioneer members were Joe and Maggie (Walter) Reiter who left no descendants. The sixth member of that family was Sister Rita Walter, who became a nun, a registered nurse and an X-ray technician in Duluth, Minnesota. She was noted as one of the pioneer users of a Pacemaker and enjoyed telling great-nieces and great-nephews that she was a guinea pig in experiments with the Pacemaker.

Also telling about Muenster's earliest days, even before the community was organized as a parish, was Anton Doerr, the elder, who lived in Gainesville as a child. He told of being a Mass server, and coming to Muenster with a priest from Gainesville who celebrated Mass occasionally for the earliest inhabitants.

Held at noon in the Community Center, the day began with guests serving themselves from long tables burdened with the bountiful meal of covered dishes brought by those attending.

Preceding the meal, guests were registered by Dolores Vrla of Dallas and Paula Reiter of Era. They provided name plates for guests listing their ancestral line.

For many, it was the opportunity to meet relatives seen only rarely or possibly never before. All were asked to complete family group sheets for purposes of historical reference.

The registration table held pictures of Christopher Walter and his wife, Anna (Stefel) Walter, and the Coats of Arms for the Walter family and John Reiter family. Christopher Walter came to America from Germany as a young man. He was born in Alsace-Lorraine.

The afternoon was spent meeting, visiting, getting reacquainted, viewing old pictures and family keepsakes and mementos.

Joe Walter of Gainesville showed slides made in 1969 when

he visited the Christopher Walter ancestral home in Germany. Other family members who have visited the home are Rose Hofbauer, Larry and Roberta Hofbauer; and Peggy (Walter) Abeln when she was a student in Germany.

No complete list of guests is available because many did not sign the registry. Among those from a distance whose names are included are Jeff and Sandra Richeson of Watauga; John and Diane Walter of San Antonio; Rodney, Libby, Matt and Bill Walter of Farmers Branch; Mike, Joyce, Colleen, Michael and Maureen Walter of Duncanville; and the David Walters of Arlington.

Mrs. Richard Martin and family, and Mrs. Linda Potet and family all of Fort Worth; Irene Martin; Mike and Joyce Higgins and Ed and Sisie Martin, all of Dallas; Randy and Marilyn Bayer of Grapevine.

Donna and Don Glover of Dallas; Larry and Roberta Hofbauer of Rice; B.J., Dolores and Brenda Swirczynski and Mr. and Mrs. Jeff Lewis and Angela all of Mineral Wells; John V. Walter of Dallas, Mr. and Mrs. Claude Walter and family of McKinney, Mr. and Mrs. T.W. Corcoran and family of Gainesville.

Charles and Una Reiter of San Antonio; Dolores Vrla and Cory and Nikki of Dallas; Butch Vrla of Keller; Mike and Sonja Dodds of The Colony; the Larry Reiters of Dallas, Sister Lillian Marie Reiter of Jonesboro, Arkansas; Al Reiter of San Antonio; Mrs. Charlie Reiter of Kerrville.

Mr. and Mrs. Anton Doerr, Clem and Marie Doerr, John and Betty Doerr all of Cleburne; Donna Hoedebeck of San Antonio; Lucy Reiter of Hawley; Donald and Joyce Reed and Brian, Kenneth, Steven and Gerald of Texarkana.

Jim and Nita Knauf of Artesia, New Mexico; Mark and Gloria Sprencel of Perrin; Bill and Mary Black of San Antonio; Larry and Stephanie Reiter of Dallas; Robbie and Mike Coffman of Denton; Jack and Mary Reiter and Melanie and Mindy of Lancaster; Lee Maxwell.

Joe and Anna Walter, Mary Joe and Bill Graham and Misty Graham all of Gainesville; Mr. and Mrs. Kyle Graham, and Kirk Graham of Allen; Trey Chapman of Richardson; Dianne and Keith Clegg and family, Sam and Peggy Sparkman and family all of Gainesville.

Joining them was a large number of relatives from Muenster, Myra and Lindsay, to swell the crowd to over 350. Many said: "The reunion was fantastic. We are looking forward to the next one."

Bernice Sicking, a member of the Cooke County Historical Society and a great-granddaughter of Christopher Walter and also of John Reiter, originated plans for this, the first joint reunion, although both sides of the families have held many reunions in the past, separately.

## WINTERPROOF YOUR HOME

Winterproofing your home is a key factor in your energy conservation program. Making sure your home is properly insulated is important in reducing heat loss. There are many ways to improve your windows and doors to reduce heat loss.

A great deal of heat is lost through cracks and openings. This type of heat loss is called infiltration. Caulking and weatherstripping are two of the most cost-effective ways to stop infiltration.

Where does your home need to be caulked? Check for cracks around door and window frames. Caulk around any opening into the house.

For more energy conservation tips, contact your Member Services Department.

# Walters tour Europe

A month-long vacation trip by Oscar and Agnes Walter took them first to New Jersey to visit a daughter and family, Rosemary and John A. Becker and two sons Charles and Danny of Long Branch.

The Walters were met at the Newark Airport by the Beckers and visited with them for a week. Mr. and Mrs. Becker then accompanied her parents on a European tour for several weeks, departing from JFK Airport and landing in Shannon, Ireland for refueling and shopping.

Their destination was Frankfurt Germany where they began their tour by car.

In Altenstadt they visited a granddaughter and her husband, Kelly and Paul Kiesel. He is stationed with the military in Friedburg, Germany.

Together they visited some old castles in the area and enjoyed traditional German hospitality and food.

In Cologne they saw the magnificent cathedral of Cologne, where repair and restoration still continues since WW II. They were also guests of Mrs. Oscar Walter's relatives in the Walterscheid relationship, especially second cousins the Erich, Alfred, Heinrich and Johann Walterscheid families.

In Nussbach they were guests of

Becker kin, the Franz Benz family.

Their sightseeing tour continued through the Black Forest and into the beautiful scenery of the Alps. They saw Germany's highest waterfall, visited Heidelberg, drove through Switzerland, appreciating its great scenery. They drove through tunnel after tunnel and reached the Mediterranean Sea. Scenic drives were unforgettable, they said.

Sightseeing in Florence, Italy was impressive. They walked along the Tiber River. In Rome highlights of the tour were especially memorable, viewing historic areas, seeing the Coliseum, visiting Vatican City, attending Mass and Vespers in St. Peter's Basilica and hearing the beautiful music.

On Aug. 15 the Beckers and Walters took a tour bus to Castel Gondolfo, the papal summer home. They received the papal

blessing when Pope John Paul II addressed the crowds from a balcony, greeting them in several languages.

Before leaving Rome, they also enjoyed shopping tours. Their return through Switzerland was by a different route, permitting added scenic drives. In Germany they again visited with the Kieselers before departing from Frankfurt.

The Walters remained in New Jersey with the Beckers for a week and returned to Texas on Aug. 25. At DFW they were met by the Rodney Walters of Dallas and the John Hoberers of Lindsay. The next day they were the honor guests at a welcome-home dinner given by their children and grandchildren in the home of Alice and C.J. Hellman in Lindsay.

Mrs. Hoberer is now in Germany where she is visiting her daughter and son-in-law, Kelly and Paul Kiesel.

# Saint Jo runs to win

Kevin Reeves ran the opening kickoff back 85 yards to spark Saint Jo to a 12-7 win over Savoy in their season opener Friday night.

Reeves almost didn't get a chance to handle the ball, as Savoy's first kickoff rolled out of bounds at the Panthers' 35 yard line and it was a tough decision to turn down the field position and make them kick it over.

"We thought about just taking the ball there, but we had been working on the wall all week long and we decided to make them kick it again so we could at least give it a try," coach Steve Qualls said. "I'm sure glad we tried it."

The second kickoff was a beauty, as Reeves fielded it on his own 15. The "wall" developed, however, and a key block by Ronnie Hale opened up a hole down the left sideline, giving the 158-lb. senior running back clear sailing to the end zone.

The extra-point attempt was blocked. Saint Jo kicked off and held Savoy on the next series of downs, getting the ball back on their own 40 to start their second touchdown drive.

After an unsuccessful crack at the line, Reeves took the ball from quarterback Donald Castle for a dive play and found clear sailing

60 yards into the end zone. The two-point conversion attempt was no good, but the Panthers had a 12-0 lead and that turned out to be enough.

"The early scores gave us good confidence," Qualls said. "We really started out the game fired up, although I think we sort of let down after that. Savoy certainly didn't give up — they came back and moved the ball well on us the rest of the game. We were able to shut them down when it counted, though."

A 60-yard punt return with 45 seconds left to play in the half gave Savoy their only score of the evening, with the PAT kick making it 12-7 at intermission.

"They had four scoring opportunities inside our 20, but we shut them down," Qualls said. "Really, they ran wild on us between the 20's."

Reeves was the workhorse for the Panthers, carrying the ball 17 times for 140 yards and scoring both touchdowns. He was also two-for-two in the passing department for 50 yards, while Castle was two-for-nine for 22 yards.

In addition, Reeves punted five times for a respectable 37-yard average.

Saint Jo had seven first downs to Savoy's 10, and both teams lost

two fumbles. The Panthers had 227 yards of offense altogether.

"The fact that they scored on a punt runback is a big worry of ours," Qualls said. "We were already concerned about specialty teams, and that's what we're working on this week."

### Gunter next on schedule

The Panthers are preparing for Gunter, who will come to Saint Jo Friday night as both teams look for their second wins of the young season.

Gunter downed Aubrey 19-7 Friday night.

"They didn't do anything fancy against Aubrey," Qualls said. "They just went straight at them and wore them down. They trailed for three quarters, but came back to win."

Gunter boasts a big (220 lbs.) fullback and an excellent group of linebackers, but tends to be weak in the line and the defensive secondary.

"The teams are pretty equal," Qualls said. "It should be a close, tough football game."

Qualls noted senior running back Andy Sappington, who hurt an ankle in pre-season play, should be back in the lineup for Friday night's contest, giving a boost to the offense.

Gametime at Saint Jo is 8 p.m.

# Pottsboro downs C'burg, 15-0

The Callisburg Wildcats fell victim to the ball-control offense of Pottsboro in their opener Friday night, dropping it by a score of 15-0.

Pottsboro's execution, plus the 197-yard heroics of halfback John Hill, combined with some key turnovers and mistakes by Callisburg to shut out the Wildcats.

According to Wildcat head coach Gary Utsler, "it's a credit to our defense that the score wasn't higher, as much as they had the ball."

"Pottsboro's not as strong as they've been in the past, but they executed real well," Utsler said. "We absolutely could not stop their off-tackle-power play — we tried everything short of putting 13 or 14 guys on the field."

Hill's 197 yards came on 33 carries, as his team controlled the ball almost totally. Callisburg could manage just 122 yards of offense, with Bobby Harrison rushing for 48 and Bruce Peterson gaining 38.

"We moved the ball fairly well

at times," Utsler said, "but we dropped a pass in a critical situation, fumbled the ball, got intercepted — mistakes prevented us from scoring."

Four lost fumbles and three interceptions helped kill Wildcat drives, Utsler said.

### Nocona next on schedule

The Wildcats will face Nocona Friday at Nocona, looking for

Callisburg	Pottsboro
6 first downs	11
105 yds. rushing	232
17 yds. passing	52
122 total yds.	284
1/12/3 passing	3/13/0
3/43 punts/av.	3/31
5/4 fumb./lost	3/3

their first win against the Indians, who fell to Muenster 21-6 here last week.

"We're going to try to work on our execution and cut down on mistakes," Utsler said. "We're going to run the sweep on them a

little bit, as Muenster did, and work on our passing game."

Utsler said he also plans some personnel changes on defense to "try and shore up some gaps."

On personnel change one tap for Callisburg will be the return of starting quarterback Clint Hollandsworth, who went out with a slight knee injury in pre-season scrimmage play. The six-foot senior has the doctor's go-ahead to play Friday night, and should provide some needed experience in the Callisburg backfield.

Standouts on defense against Pottsboro were David Marshall with 16 tackles and Bruce Peterson with 13. David Weaver was also cited for his play at defensive end.

On offense, Utsler said Junior quarterback Keith Williams played well for his first varsity start, and cited running back Bobby Harrison, guard Mark Pethel and center Darren Baucum for strong contributions.

# Waterfowl seasons adopted

The Texas Parks and Wildlife Commission has adopted dates and bag limits for hunting waterfowl during the 1984-85 hunting seasons.

Meeting in Austin August 29, the commission approved an extended hunting season for snow, blue and Ross' geese in the eastern portion of the state and added two species of tree ducks as legal game birds for the upcoming season.

The hunting season for "light" geese (snow, blue, Ross') east of U.S. Highway 81 will be Nov. 3, 1984, through Jan. 27, 1985.

The season for dark geese (Canada, black brant, white-fronted) in that region will be Nov. 3-11, 1984, and Nov. 19, 1984, through Jan. 20, 1985.

Daily bag limits east of Highway 81 are unchanged from last year, five light geese and one Canada or black and one white-fronted goose. Possession limit is twice the daily bag limit.

West of Highway 81, the season for all goose species is Oct. 30, 1984, through Jan. 20, 1985. Daily bag limit is five geese, not to include more than two dark geese. Possession limit is 10, not to include more than four dark geese.

Duck seasons for 1984-85 are basically unchanged from last year, with a three-segment split season in most of the state, with

the exception of the High Plains Mallard Management Unit in West Texas.

In the High Plains area, the duck season is Oct. 30, 1984, through Jan. 20, 1985. In the remainder of the state the season is Nov. 3-11; Nov. 19-25, 1984; and Dec. 8, 1984, through Jan. 20, 1985.

The 100-point system of duck bag limits remains unchanged from last year, except that black-bellied whistling (tree) ducks and fulvous whistling ducks have been added as 70-point birds.

Shooting hours are 30 minutes before sunrise to sunset statewide, except sunrise to sunset for the Sept. 15-23 teal season.

# 24K Ranch has high standards

## Busy calving season on tap

Life on the farm may be "kinda laid-back," according to the song, but life on the ranch can get pretty hectic sometimes.

Especially when it's calf season. The 24K Ranch, located between Muenster and Gainesville just north of highway 82, will be a beehive of activity through February as foreman Jeff Serna and sons Andy and Eddie work with the largest number of first-calf heifers they've ever had — 95 or so.

The ranch, with 4,300 acres in all, is one of Cooke County's last remaining areas of native grassland. It supports a herd of more than 700 Hereford and Hereford-Brahman crossbred cattle, in addition to Apaloosa and quarterhorses, peacocks, turkeys, pheasants, quail, ducks and geese too numerous to count.

It is a unique operation in many respects.

First, there is the herd. 24K's cattle drew nationwide attention several months ago when a calf was born there after being transplanted into its mother in the embryo stage. Calf and mother are running around now on the ranch as part of the herd, but the embryo-transplant birth was a first for cattle breeders.

Perhaps more important are the people who run the show. Jeff Serna has been foreman of what is now 24K East for 18 years, raising nine children on the ranch. Two of the boys — Andy, 27, and Eddie, 24, still work here, and the three operate the place virtually by themselves. They don't make cowboys any better.

The owner, geologist Starkey Wilson, bought his first bit of Cooke County land in 1981, when he purchased the original Campbell Ranch — now 24K West. Later, he bought the old Wiesman place, a farm on the far west side, and on January 1 of '83 he became owner of Elbridge Campbell's ranch, now 24K East.

Campbell's ranch had been settled in 1870 by the Ball family, who moved to the area from Missouri. It was one of the earliest cattle ranches in the county, and

24K remains the biggest.

"It's basically a native grass pasture," Wilson says. "The grass is strong and well-watered — it's just a fine cattle operation."

Wilson has injected new life into the place since he purchased it. Although Dallas-born and raised, he has always loved the outdoors and ranching, and comes to the Cooke County ranch virtually every weekend.

"I was looking for a place that was reasonably close to Dallas and had good pasture," he says. "When I saw this place, I fell in love with it. We want to breed and develop the finest livestock we can, and we're on a good strong program now."

**Serna family essential**

Although much of the emphasis over the last few years has gone into building roads, fences and barns in addition to cattle raising, Wilson says he hopes to build a house for himself on the ranch within the next few years.

"I plan to build a main ranch house and move there permanently," he says. "I am a serious rancher. I enjoy the community and want to be a part of it."

The Sernas handle all the cattle work, most of it by horseback. Andy specializes in artificial insemination, and all three take part in the branding, vaccinating, dehorning, castrating, feeding and the multitude of other tasks associated with raising cattle. In the wintertime they feed hay and cubes and break up the ice on the pond — but this fall will be their busiest time as the herd grows with calving season.

Farming is also a part of the ranch work, handled by the Sernas and "farm consultant" Walter Bartel and his two sons, Tim and Terry. Bartel and his sons help maintain the farming equipment and work the 150 or so acres on which Wilson raises grain and hay for cattle feed.

A 100-year-old barn on 24K East was restored last year, and much of the fencing has been recently redone, after a great deal of it was washed out in the big flood of '82.

"NO PICKUP-TRUCK COWBOYS" in this shot, as Eddie, Jeff and Andy Serna pause in front of the newly-restored 100-year-old barn that is the centerpiece of the 24K Ranch east of Muenster. The three work

the ranch's herd of Hereford and Hereford-Brahman cross mostly by horseback, breaking and training their own horses in the corral.

## BUSINESS

There is a 33-acre Soil Conservation Service lake on the ranch and several other ponds where the cattle can get water.

"I love it out here," Jeff says. "There's no life like the country life — it's a lot of work, but we enjoy it."

Jeff's nine children all attended Muenster public schools. Two sons work for Tom Thumb now, Roland in Arlington and Danny in Gainesville. Diane, the oldest daughter, lives in Sherman, and another daughter, Patsy Young, lives in Thackerville.

Daughter Hilda is married to Texas Ranger pitcher Danny Darwin, and the youngest daughter,

Lisa, lives with them as a "full-time babysitter." The youngest son, Jerry, is living at home making plans to return to college.

Eddie is married, and he and his wife live at the headquarters of the East ranch near Jeff and Ruby. Andy, who is single, plans to move soon to a house on the West ranch, where he will oversee the work on that part of the spread.

All of them spend a lot of time in the saddle, working cattle the old-fashioned way.

"The Sernas are marvelous with animals," Wilson says. "They are not 'pickup-truck cowboys' — they not only ride, they break and train their horses. I depend on

them completely and they do an excellent job."

Wilson also cites the help of friendly neighbors all around, who have gone out of their way to welcome "the new kid on the block," and gives a special word of thanks to Mr. Elbridge Campbell, in whose family the ranch was well-run for more than a century.

While the primary emphasis at 24K is on cattle, there are other facets to the ranching operation.

The Sernas raise Apaloosa horses, and Wilson has recently begun raising quarterhorses on the ranch as well. There are pen-raised turkeys, pheasants, peacocks and quail on the West ranch, making it a sort of wildlife refuge, since no hunting is allowed anywhere on the 24K.

The ranch loves to play host to young people, Wilson says, working closely with 4-H and other groups on camps and projects. Music is a product of the 24K as well, as Andy and his friends get together occasionally in the lot of the barn to pick some

country tunes.

So, between pulling calves, feeding, breaking horses and farming, the Sernas are lucky to get any time off the ranch — even on Saturday night and Sunday. But they don't seem to mind.

Life on the ranch, at least at 24K, is a pretty good life.

## Sister celebrates

Class observes birthday for teacher

Sister Ferdinand celebrated a birthday Friday, September 7th.

Her actual birthday was Sunday September 9th, however to enjoy her birthday with her first grade class she celebrated Friday.

During the class break, the children enjoyed cupcakes and sang songs. Suckers were given to the students as favors.

Also during break, the teachers were treated to cake to help Sister celebrate. The cake and cupcakes were compliments of Mrs. Jean Arendt.

Three of Sister's students have also celebrated birthdays since school began. These include Janet Pearson, Grant Williams and Zack Schumacher.

Sister Ferdinand reports that all of her first graders are enjoying school, and with four weeks of school already gone by her students are making much progress.

## Knight JV squad wins opening game

Playing at home on Thursday, the JV Knights won their first game by defeating S&S JV 12-6.

With 9:08 left in the second quarter, the Knights scored when Wolfe carried the ball over from the eight yard line. The try for the extra point failed.

On the ensuing kick off, an S&S

player raced 80 yards for a TD and the game was tied at 6-6.

With time running out in the first half, the Knights scored again. Quarterback Danny Wolfe ran the first three yards for the TD. The pass for the extra point fell incomplete to leave the score at 12-6, the final margin.

# “Unique environment” presents hazards Week emphasizes farm safety

Special emphasis is needed to bring down deaths and serious injuries which occur in the unique environment of farms and ranches across Texas and the nation, says Dr. Gary S. Nelson, safety specialist with the Texas Agricultural Extension Service and vice president for agriculture, Texas Safety Association.

Governor Mark White has issued a proclamation declaring Sept. 16-22 as Farm and Ranch Safety Week in Texas.

A statewide campaign to inform rural residents about accident prevention will be sponsored by the Texas Safety Association, Texas Agricultural Extension Service, Texas Farm Bureau, Future Farmers and Future Homemakers and the Young Farmers of Texas.

“The rural work environment is unique in a number of ways,” Nelson points out. “Each unit has its own hazard potential based on the type of heavy machinery used, topographical features and

ground cover. In addition, the independent farmer or rancher does not have the benefit of structured safety training and safety guidelines that are present in the urban corporate environment.”

Agriculture has the highest level of general stress among U.S. occupations, according to medical experts. That stressful environment includes uncertain weather conditions, disease and pest control, and fluctuating economic conditions, notes Nelson.

In this stressful environment the farmer and rancher operates a variety of sophisticated machinery with moving parts. Stressful conditions that divert an operator's attention away from such machinery can contribute.

“Individual farmers and ranchers can make a conscious effort to manage for safety and health for themselves and for their labor force, which often includes their families,” emphasizes Nelson. “With the educational materials

and expertise available from various rural-oriented organizations, they can develop safety procedures and management to fit their own particular operations.

“While resources for safety are available, it is up to the individual farmer and rancher to tap those resources for the safety and productivity of his own operations,” Nelson notes.

### Feeder cattle market looks strong for fall

A strong feeder cattle market this fall could brighten the livestock picture and give U.S. cattlemen a much-needed boost.

“A number of factors point toward a much better fall market for feeders,” points out Dr. Uvacek, economist in livestock marketing with the Texas Agricultural Extension Service.

“We should see prices for 600 to 700-pound feeder cattle move above fed cattle prices. That could result in \$80 to \$90 feeder calf prices — a bullish signal to most cattlemen.”

Uvacek says the following factors will likely bolster the feeder cattle market:

— the January 1 cattle inventory report showed 1 percent fewer beef cows and two percent beef replacement heifers than a year ago, resulting in a 2 percent smaller calf crop for 1984.

— the PIK grain program and drought drove feed prices upward last year, thus boosting corn plantings this year. A large corn crop could lead to lower feed prices this fall and winter and cheaper feeding costs.

— severe winter snows in the north and drought conditions in the south, particularly in Texas, have caused early marketings of feeder calves this year. The result should be light supplies coming to market in the more traditional feeder purchasing season this fall.

— continued economic gains suggest that the demand for fed beef will be healthier as fall approaches, and particularly on into 1985. That should stimulate additional interest in feeding cattle this winter.

— reduced fed beef production this fall and winter is expected from the lower number of cattle on feed. This should allow fed cattle prices and feedlot profits to improve this fall, substantially helping the demand for feeder cattle.

## County's gross sales reported

Cooke County reported gross sales of more than \$81 million during the first quarter of 1984 according to a bulletin issued by state comptroller Bob Bullock. The total of \$81,337,630 reported by 656 outlets in Cooke County is up 16 percent from last year's first quarter report of \$70,136,417. The statewide average is 13 percent, as sales throughout Texas rose from just over \$69 billion to more than \$78 billion from the first quarter of '83 to the same period in '84.
