OCTOBER 25, 1985

In even numbered years the state's voting public is normally very much aware of the first Tuesday in November as the date on which it will select personnel for state and local offices. In odd numbered years it's different. The attention turns to ideas rather than people, and Tuesday, November 5, is that election date.

Also, experience has shown that the voters are much less concerned with proposals than with candidates, and interest to date indicates that interest on the date will be about as scanty as usual.

That's a pity. Even though we are so much less impressed, the fact remains that policies and laws serving as guidelines are essential to government, just like the people who administer them. That's why people need to be serious about November 5. The policies and plans to be authorized by their votes will become a vital part of their government. Furthermore, it's a good idea to remember that every vote can count, and that persons and ideas often have won by a single vote.

With this thought in mind we need to think about the fourteen proposals which await our decisions, to form opinions on which will be good for us.

Judging from how much has been said and by whom the priority has to be the first and second propositions on the list, the water amendments.

Number 1 asks for authorization to issue an additional \$980 million in general obligation bonds (that is, in addition to \$600 million previously authorized) to finance water development, water quality enhancement, water conservation and flood control. All those objectives without doubt are worthy goals to strive for, and it is assumed that the state has capable people to work for them.

Proposition No. 2 is related. It would authorize the issue of \$200 million for agricultural conservation bonds.

Those two propositions alone would justify a massive march of support to the polls. We've heard lots about water shortages requiring rations of domestic and industrial supply. Also about contamination depriving some areas of their usual water supply. They have been serious and they will become more serious as populations grow. It's vital to progress, or perhaps survival, to avoid that kind of crisis. Likewise the agricultural water goal, especially regarding irrigation. It's urgent to avoid that kind of crisis.

A related thought is that possible problems concern everyone, not only those directly affected. When farms or businesses fail the damage is felt by all who had any dealings with them.

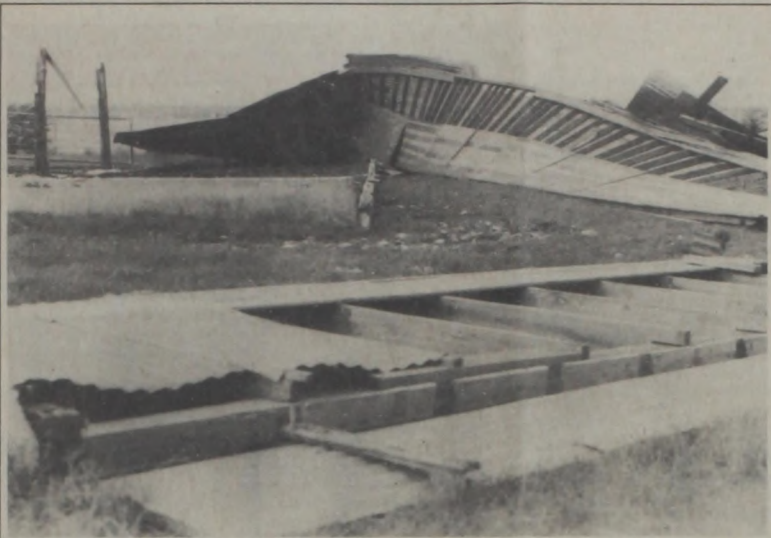

Proposition 3 would enable cities to spend public funds for replacing water lines on private property and to assess the cost against property owners. The provisions apply to residential not business property and it's intended to facilitate projects which could not be finished otherwise. It's merit is obvious.

Number 4 would permit proceeds from sale of land dedicated to the permanent school fund to be used to acquire other land for that fund. This involves simplifying administrative procedure.

Number 5 would authorize the legislature to regulate the provision of health care by hospital districts. That is, legislature would be empowered to determine the health care services a hospital district is required to provide, also requirements a patient must meet to qualify for service, and other relevant provisions necessary to regulate provision of health care.

Presently hospital districts are distinct governmental units with responsibility of providing medical and hospital care for

Storm Damage -- High wind at precisely 5:45 a.m. on Friday the 18th tore down this cattle shed on the farm of J.H. Bayer and Sons northeast of town. Clinton Bayer living nearby, can vouch for the time. He heard the crash. Debris was scattered over an area of about 200 yards. The building was almost new, replacing a barn that was destroyed on the same location in 1983.

Other nearby storm damage occurred southwest of this location. There a shed at the side of a barn was picked up and thrown over the barn, smashing the lean-to and damaging trees.

House passes five year farm crop bill

After three weeks of lengthy bipartisan debate, the U.S. House of Representatives passed a five-year farm bill by a roll call vote of 282-141.

The House version of the 1985 Farm Bill provides that for five crop years, beginning in 1986, market prices of major crops will be made more competitive by authority to link loan rates more closely to market conditions. The major crops include wheat, cotton, corn and rice.

A system of target prices would be retained. These target prices would not be cut from current levels for the 1986 and 1987 crop years. The bill also would allow 5 percent target price reductions for 1988, 1989 and 1990 crops, but these cuts could not take effect unless farmers' costs first declined by the same amount.

Obviously, the bill does not please everybody," said Congressman Charles Stenholm (D-Texas). "No farm bill ever does that, and there are still some important steps ahead before we get a final Congressional product. But this bill goes a long way in helping efficient farmers survive today's hard times while staying within the bounds of fiscal responsibility."

The Stamford Congressman said, "The House Ag Committee produced a bill which lays down a program preserving the basic income protection which farmers need in these dangerous times while taking steps toward making the market prices of American products more competitive in world markets."

This farm legislation also includes a market-oriented dairy program which moves toward reducing surplus and government costs by providing a farmer-funded diversion program which would scale back milk production or, alternatively, take entire herds out of production. Furthermore, the peanut, wool and sugar programs would continue without major changes. The bill contains a conservation section which includes new programs to protect fragile soils and wetlands for future generations and moves a substantial amount of erodible land into less intensive use.

The bill, known as H.R. 2100, reauthorizes and in some cases revises federal farm credit and

rural development programs. It also extends the Food Stamp Program for five years; the Temporary Food Assistance Program (commodities) is re-authorized for two years.

"I realize the Administration has urged and promoted drastic changes and cuts in some programs. And while I agree with the President's general principle of making farm programs more responsive to market signals and less to government policies, I disagree with their extreme approach to this goal. Until we improve the macro-economic conditions within our borders, improvement in farm country will be extremely difficult and even impossible to obtain," he said.

Time to change time

It's clock changing time again. At 2 a.m. Sunday the nation will officially discontinue Daylight Saving Time and return to Standard Time, in which noon comes in the middle of the day.

Getting back in time with the sun involves setting clocks back one hour some time during Saturday - Sunday night. Failure to do so may result in being an hour early for church service Sunday.

DST is observed six months a year in accordance with the 1966 Uniform Time Act. It becomes effective on the last Sunday of April and ends on the last Sunday of October.

Good News!

For the Lord is God; he crushes warfare, and sets his encampment among his people; he snatched me from the hands of my persecutors.

County re-elects Hartman

Members of the Cooke County Farm Bureau at their annual convention and dinner last Thursday re-elected officers and most of their directors and also received their annual report, voted on referendums, and heard a talk by Keith Garrison, state FB director.

Leonard Hartman was re-elected to continue as president, also Billy Bayer and John Hargesheimer as first and second vice presidents. Directors re-elected were Mike Bartush, Billy Bayer, Leonard Hartman, Tim Hartman, Al Trubenbach, Taylor Vestal and Harold Nortman. Also, Kenneth Sicking, Albert Zimmerer and Merle Harrison were elected to the board.

The meeting also named delegates and alternates to the FB state convention at Fort Worth December 1-4. They are Albert Zimmerer, John Hargesheimer, Taylor Vestal, Al Trubenbach, Leonard Hartman, Tim Hartman, Billy Bayer and their wives as delegates; also Murrell Harrison and Mike Bartush as alternates.

And it approved motions for a memorial donation to the church of a former director, Hugh Morgan, and to place a plaque in

the county office in memory of former directors.

As a policy issue, the members approved a resolution for a national referendum on mandatory acreage reduction.

The message from their state director, Garrison, led with support of the proposed state water program in the Nov. 5 election. The proposals are Propositions 1 and 2 authorizing the issue of \$980 million in obligation bonds for development, conservation and flood control, also \$200 million for agricultural conservation.

Garrison further opposed penalties for hiring illegal aliens for farm work, explaining that too many natives are unwilling to do the work. He said that the illegals do not take jobs from natives. Rather they do work, at lower pay, for jobs the welfare recipients do not want.

Also, the state director commended Senator Gramm for his effort to balance the budget in 5 years by reduced spending instead of increased taxing.

Another speaker was State Representative Rick Williamson. He, too, encouraged support of the proposed state water programs.

Jones resigns as CCTAD headman

The job of chief appraiser for the Cooke County Tax Appraisal District is available again. Dale Jones, who has held the position for six months, submitted his resignation Tuesday to become effective on October 23.

The resignation came shortly after a majority of the district's taxing entities in just a few weeks had turned down two proposals for the district operating budget.

The amount of the first request

was \$543,289, some 35 percent more than the budget of \$399,516 which is currently in effect. When turned down the figure was reduced to \$531,525, which was still considered excessive by a majority of the 14 taxing entities.

Jones was appointed to the position shortly after the resignation of Pat Dennis in May. He came from Bailey County where he had been chief appraiser for a year.

Receiving plaques for club awards to YHT that named Muenster as Outstanding Chapter in Area V were Janet Felderhoff, president, Pam Felderhoff secretary, Tommi Sue Meurer vice president and Joni Sturm, chapter advisor. Muenster will represent Area V at the state meeting in November.

Senate OKs Gramm budget cut

U.S. Sen. Phil Gramm won a stunning 75-to-24 victory in the U.S. Senate on his bill to balance the federal budget in 1991.

"We took the No. 1 issue in America and made it the No. 1 issue in Congress," the senator said after the vote.

A majority of both Republican and Democratic senators backed the Gramm proposal, which requires Congress and the President to cut the federal deficit by equal amounts each year until it reaches zero in 1991.

The legislation, which Gramm authored and offered as an amendment to a bill increasing the national debt ceiling, was debated for almost two weeks on the floor of the Senate, longer than any other bill in this session of Congress.

The bill caps the federal deficit at a lower level each year through 1991, when the deficit will reach zero.

If Congress and the President are unable to make the necessary adjustments in federal spending to

reach the goal each year, an automatic reduction -- across the board -- will come into effect.

"Congress will no longer be able to dodge its responsibility by condemning our children to pay the debts it is accumulating," Gramm said.

"The time has come to pay the bills and to call in the credit cards," the senator said.

The Gramm proposal now goes to the House.

Dr. George S. Benson

'Budget Busters'

We are convinced the threats posed by the massive federal budget deficits are bipartisan. They are and will hurt us all, regardless of our political party.

We fail to see why the problem should be so politicized. It is especially disturbing to see the attempts to label the deficits as "Reagan deficits."

There will, of course, always be political demagogues who will attempt to make political hay out of any problem. But these massive deficits, which will increase the national debt by a trillion dollars every five years, are everybody's problem, and we should lay aside partisanship for the good of the nation and all our citizens.

We should get on with the business of reducing the deficits by cutting federal spending and eliminate this problem, rather than using it as a political device to try to embarrass the Reagan administration.

Fundamental to this process is recognition that the budget deficits are not the responsibility of the particular administration

which happens to be in office at any particular time. It is a well known fact of government life in Washington that "the president proposes, but the Congress disposes."

In point of fact, the president is by definition only an executive, an administrator. He and his cabinet attempt to execute the programs initiated by the congress, using funds appropriated by congress.

The Constitution does not even call for a budget, let alone require the president to submit one annually.

On the other hand, the Constitution does give Congress the power to levy taxes, pay the debts, borrow money and set the appropriations of funds for the government.

The administration can spend only what the congress provides for it to spend and it must spend what they do provide. No longer can the president "impound" funds.

Although current law requires a budget from the president, congress in fact writes its own budget.

A comparison of the president's budget, which is prepared by the Office of Management and Budget, with Congress' budget resolutions will show that it is the Congress that is responsible for increasing deficits far beyond what they would have been under presidential budgets.

Ronald J. Herr, reported in an article in FARM BUREAU NEWS last year that over an eight-year period, 1977-1984, Congress increased spending over the president's budget proposal by \$145 billion. This added \$13 billion in debt interest which appeared in the 1985 budget.

In six of the eight years compared, the president's budget called for less spending than actually occurred.

We agree with Herr: "Who are our country's biggest budget busters? The same politicians who have both the budget power and the budget responsibility: the senators and representatives sitting in the Congress of the United States."

Benson is president of the National Education Program, based in Oklahoma City.

Program concerns loss of a child

Compassionate Friends is a self-help group for parents who have experienced the death of a child.

On Monday night, October 28 a group of parents from the Fort Worth Chapter of Compassionate Friends will be in Gainesville to share information about this group. The meeting will begin at 7:30 p.m. at the Texas Power and Light Company Meeting Room at 201 N. Dixon Street.

Compassionate Friends offers friendship and understanding to bereaved parents. The purposes are to promote and aid parents in the positive resolution of the grief upon the death of a child and to foster the physical and emotional health of bereaved parents and siblings.

Grief is normal. It means you loved. It is the necessary process by which we adjust our lives to the absence of our loved one. Compassionate Friends is not a

wallowing in grief but an encouragement. Good mental health is not the denial of loss but learning how to deal with it.

Compassionate Friends provides an atmosphere of acceptance and listeners who have been there and understand. The meeting on Monday night is open to parents who have experienced the loss of a child. It will be in-

formal and allow participants a chance to learn more about the Compassionate Friends Group.

The meeting on Monday is being sponsored by the Extension Service Home Economics Committee. Call Evelyn Yeatts, C.E.A. at 668-5412 if you have questions, or for more information.

many inhabitants. The district determines what health care services to provide and who qualifies as needy. A result is a wide variation among districts regarding services and eligibility, and the amendment is intended to enable the legislature to establish uniform statutory provisions.

In effect, the aim is to establish official legislative guidelines rather than have hospital districts determine their own.

Number 6 would permit state prisoners to be placed in penal facilities of other states pursuant to an interstate agreement. Its purpose is to remove selected inmates from general prison population when such action would best serve the interests of state and/or inmate. It applies principally to gang leaders, informants and other high risk inmates who are security problems.

Other proposals of the election will be reviewed here next week.

Hazel Otto and J.P. Flusche were married in Sacred Heart Church on Tuesday, Oct. 22, 1935 with Father Frowin Koerdit officiating. They observed their fiftieth anniversary on Oct. 19 with a Mass of Thanksgiving and a reception.

Flusches celebrate Fiftieth

Surrounded by their children, grandchildren, great-grandchildren, brothers, sisters, nieces and nephews and a host of friends, Mr. and Mrs. J.P. Flusche celebrated fifty years of marriage with an anniversary Mass and reception.

Father Victor Gillespie was celebrant of the anniversary Mass on Saturday, Oct. 19 at 5 p.m. and officiated for renewal of marriage vows, heard first on their wedding day by the late Father Frowin Koerdit in Sacred Heart Church on Oct. 22, 1935.

J.P. Flusche is a son of Muenster pioneers, Joseph and Mary Flusche. The former Hazel Otto is a daughter of Tony and Clara Otto. Their wedding was held early on a Tuesday morning as was the tradition during the pastorate of Father Frowin.

Hazel wore a full length white crepe gown and long net veil. She carried an arm bouquet of fresh white and yellow roses, picked that morning by her sister-in-law, Anna Mae, Mrs. Lawrence Flusche. Hazel recalled that "the roses were beautiful, and so fresh we had to shake the dew off."

Sister Leonarda was organist for their wedding music. Attendants were the bride's sister Aileen Otto Hoenig and the groom's brother, the late Andy Flusche.

For the anniversary Mass Tony Hoenig was the groom's best man, accompanying his wife to lead the entrance procession. Jack Flusche escorted his parents.

Anthony Luke provided muted organ music for the entrance with Danny Hoenig, a nephew of the honor couple as narrator.

He presented the eldest daughter Clara and her husband Julius Hermes and their children and grandchildren; Don Flusche and wife Betty and their children; David Flusche and wife Wanda, and children and grandchildren; Marge and husband Earl Clement, children and grandchild; Harold Flusche and wife Jeannine and children; Bill Flusche; Tom Flusche and wife Judy and children; Jack Flusche and wife Linda and children. They are the nine living children, 34 grandchildren and eight great-grandchildren. All were present.

Mass servers were a grandson Mark Flusche, a great-nephew Ryan Hoenig and a friend Helmut Koelzer. Ushers were grandsons Bobby Hermes, David Martin, David Flusche and Kenneth Hermes.

Providing music were Linda Flusche, Christi Klement, Lynda and Doug Yosten and Susan Metzler. Selections included "Somewhere My Love", "Ser-

vice", "Wherever You Go", "Edelweiss" and "On This Day, O Beautiful Mother." Anthony Luke was organist.

An anniversary candle, gift from sister-in-law Marie Flusche of Dallas was brought to the first pew to be lit by the honor couple in a brief ceremony, followed by blessing of their wedding rings. At the same time surprise gifts were two rosaries, each bead of a decade was a birthstone of their ten children, including a boy who died shortly after birth.

Grandchildren participated in the special liturgy. The first reading was given by Billy Martin; responsorial psalm by Carol Hermes; second reading by Carmen Flusche.

Offertory petitions were given by Travis Trachta, Jami Flusche, Dale Martin, Janel Flusche and Shawn Flusche. The Offertory procession was narrated by Laura Flusche, presenting Greg Flusche carrying a portrait of his grandparents; Michelle Trachta with a baby quilt, her grandmother's hobby; Jeff Flusche with a piece of iron, indicating his grandfather's trade and profession; Michael Flusche with a deck of cards, a favorite diversion; Stephen Hermes and Neal Flusche presenting the Offertory cruets, ciborium and Sunday offering.

Eucharistic Ministers were a daughter Clara Hermes, a son Harold Flusche, J.P.'s brother and sister-in-law Al and Leona Flusche, a nephew and niece Jerry and Evelyn Sicking and a friend Dorothy Hartman.

The recessional was "Lead Us On, O Lord" with congregational participation.

Reception

A reception with dinner for 300 guests was hosted by the couple's children. Granddaughters presided at the guest book and served the tiered anniversary cake. Daughters-in-law created a beautiful family tree with pictures of every child, grandchild and great-grandchild on the family branches, even the youngest, the five-day-old daughter of Bobby and Janet Hermes.

Preceding dinner, guests enjoyed visiting, renewing old friendships, viewing displays of treasured old family portraits, and a cocktail hour. Also displayed was a congratulatory message from the President and Nancy Reagan.

A brief after-dinner program featured a family history by Don Flusche.

Special guests were Mr. and Mrs. Bill Otto of Gainesville, who are planning their 60th wedding

anniversary this summer. Bill Otto is the sole survivor of Tony Otto's brothers and sisters. Other special guests were brothers and sisters of the honor couple, including the Lawrence Flusches, the Al Flusches, the Urban Flusches, the Lawrence Zimmerers (Marie), the Raymond Zimmerers (Magdalen), the Joe J. Neus (Ida), the Gus Lutkenhauses (Armella), the Paul Fetsches (Marcella) and Mrs. Annie Henscheid. Also Mrs. Sidney Otto, Mrs. John Otto, the Tony Hoenigs (Aileen), the Earle Ottos, the Tom Ottos, and Billie and Doc Reinart. John Otto was ill and unable to join them.

Guests attended from Denton, Arlington, Gainesville, Lindsay, Midwest City, Okla., Fort Worth, Evanston, Wyoming, Dallas, Valley View, Waco, Garland and Decatur. Special remembrances to the guests were pens with their names imprinted.

Only grandchild unable to attend was Chris Martin, son of

Marge Clement, who is stationed in Germany after graduation from West Point.

A review of their fifty years shows that the Flusches began their married life in a duplex on West 7th St. His trucking business eventually led into handling iron and developed into the present Flusche Enterprises.

Now, semi-retired and making a splendid recovery from serious illnesses that hospitalized him one month in 1983 and four months in 1984, J.P. is again able to make frequent visits "across the street" to Flusche Enterprises. Hazel's hobby is quilt-making and food-preservation, although to a lesser degree than when there were nine growing children at home.

The Flusches' long-time home is on South Main Street, since 1940, but they also own a house on North Main, near Sacred Heart Church, "where we just might consider moving when we get old," they say.

Theo Miller honored on 90th

Theo Miller celebrated his 90th birthday on Sunday, Oct. 13 surrounded by his family. For his welfare, the group attended a Mass in Sacred Heart Church at 5 p.m. on Saturday.

Sunday's celebrations began with attendance at the 9 a.m. Mass, when two of his great-granddaughters were baptized. The infants are Tiffany Lynn Richey, daughter of Todd and Brenda Richey and Chelsea Brooke Felderhoff, daughter of Billy and Kathy Felderhoff.

Immediately following the morning church service, a brunch was held in the home of Thomas and Barbara Felderhoff, celebrating Chelsea's baptism and Theo Miller's birthday.

At noon on Sunday, Herbert and Dolores Miller hosted a covered dish dinner in their home, where many of the family members attended, bringing gifts and good wishes for the important day.

Supper at 6 p.m. was served by Ervin and Carol Henscheid in their home, celebrating Tiffany's baptism and Theo's birthday.

Joining the family for the day from Arlington were Adolph (Shorty) Herr and his son Dr. Philip Herr and 10 year old son.

Theo Miller's children are Mrs. Rosabell Yosten, Mrs. Bernice Yosten, both of Fort Worth, Mrs. Marilyn Bayer of Grapevine, Ted

Miller of Sherman, and W.J. Miller, Herbert Miller, Mrs. Carol Henscheid and Mrs. Barbara Felderhoff, all of Muenster. All of the eight children were present for the festivities. Joining them were other relatives and friends from Fort Worth, Grapevine, Arlington, Sherman, Lewisville and many from the Muenster area.

Switzers celebrate birthday

Charlie and Sally Switzer and small daughter, Charlie Sue are new residents of Myra, moving from Muenster on Oct. 15 to the former Hill property which they bought. They sold their trailer home in which they had been living in Sylvan's Trailer Park.

On Oct. 8 they celebrated Charlie Sue's first birthday, inviting relatives and friends to a party and to see the home for the first time.

Guests for ice cream and birthday cake were the honoree's grandparents, Messrs. and Mmes. Charles Switzer of Muenster and Charles Sherrill of Myra; and uncles, aunts and cousins, Phil and Pauline Mullins with Marcie, Darrell and Holly; Florentine and Henry Knabe with John; Peachy Switzer, Larry Switzer all of Muenster; and Mary Ann Hill and daughters Robin Ann and Charlotte Ann of Gainesville.

Beware of Monsters,

The Nose Knows.

An aromatic chemical is added to natural gas to give it a distinct odor. One that's easy to detect. It's this distinct odor and knowing what to do when you detect it that keeps gas safe.

If you're outdoors and smell gas, you should call your local Lone Star Gas office.

If you're indoors and detect faint whiffs, check to see if a pilot light has gone out or a burner valve has been left partially open. These are corrective steps you can take yourself.

If your equipment is working properly and you still smell gas, please follow these precautions:

1. Don't switch anything electrical on or off. Don't strike a match or do anything that could cause a spark.
2. Have everyone leave immediately, leaving door open to help ventilate.
3. Go to a nearby phone and call Lone Star.

Help us keep natural gas one of the safest energies available. Use your nose. Then use your head... and follow the proper precautions.

In a very impressive closing ceremony, all attending formed a circle and were each presented a red carnation tied with a continuous red ribbon linking all members of Area V. As a closing gesture, Area V officers cut the ribbon between each person, signifying the end of Area V, and the beginning of a new era when it will become part of Region II or Region III, converting to a regional concept.

Receiving individual honors at the YHT awards luncheon in Plano on Oct. 12 were (l to r) Connie Klement who won the second place award as Outstanding Future Homemaker of Area V and Pam Dangelmayr, with the second place award as Outstanding Young Homemaker. Improving memory is program topic

Evelyn Yeatts, Cooke County Extension Agent presented the Oct. 11 program and Mrs. Clara Fuhrmann was the hostess in her home for the Lindsay Extension Homemakers Club.

Mrs. Yeatts spoke on "Improving Your Memory" telling members that there are biological, psychological and social factors involved in a person's ability to remember. She stressed that concentration, association and repetition are three basics for strengthening memory.

During a brief business meeting, members were reminded of several events scheduled in November: Crafts Sell-a-Rama Nov. 15-16; Quilt Show Nov. 8-9; both at the Gainesville Boys Club; and a Fall Festival Nov. 23 at the Gainesville Fairgrounds.

Merle Brock will present a program on "One Dish Meals" when the club holds its next meeting on Nov. 14 at 1:45 p.m. in the home of Mrs. Mildred Biffle in Lindsay.

Franciscan fraternities observe feast of patron

Secular Franciscans of Sacred Heart Parish were joined Sunday, Oct. 13 by fellow members of the fraternity of St. Peter's Parish of Lindsay, to honor the memory of St. Francis of Assisi, whose feast day was Oct. 4, by a prayer service with meditation.

The prayer service was led by Mrs. Marie Henscheid, prefect, in Sacred Heart Church at 3 p.m., with participation by members and readings by Sister Barbara Bernauer. Two favorite songs, "Peace is Flowing Like a River" and "Peace Prayer of St. Francis," were sung to open and close the ritual.

Following the church service,

the two groups went to the Community Center meeting room for a program of colored slides presented by Sister Barbara Bernauer, relating the life of St. Francis 1182-1226, and showing scenes of Assisi, Italy. Because she visited there in 1982, Sister Barbara was able to include personal references. She also gave each one attending a picture card of St. Francis with the peace prayer.

Her program was followed by a social hour, visiting and refreshments of homemade cookies and coffee. Hostesses were fraternity officers, Marie Henscheid, Romana Bayer, Ida Mae Herr and Betty Yosten.

Yostens vacation in California

Betty and Felix Yosten have returned from a three week vacation in California with their daughters and families. Their round trip tickets for the flight from DFW were 45th anniversary gifts from the three daughters.

They were house guests for a week each with Linda Yosten in Mountain View, with Gloria and

Eye level auto stop lamp now standard

You're going to see more and more cars on the highway this fall sporting an additional safety feature -- an eye-level brake light that will reduce the danger of rear-end collisions.

Transportation Secretary Elizabeth Hanford Dole, who has made safety her number one priority, said, "We expect to cut the number of rear-end collisions significantly, eliminate some 40,000 injuries and save annually an estimated \$434 million in property damages once all vehicles on the road are equipped with the third lamp."

Cars manufactured after Sept. 1, 1985, will be required to have the new rear stop lamp, which will supplement the two lower brake lights. The regulation requires the third stop lamp to be mounted on the centerline of a vehicle, between the trunk and the top of the roof, either inside or outside the rear window.

The additional lamp is the result of a new passenger car equipment regulation issued by the U.S. Department of Transportation's National Highway Traffic Safety Administration.

The new rule follows federal

research on vehicle rear lighting systems in an effort to reduce one of the most costly and common types of traffic accident. In 1984 alone, there were an estimated 3.8 million collisions in which a passenger car was struck from behind.

DOT sponsored on-the-road field studies using taxi cab fleets and nationwide telephone company cars in the research. Vehicles in the study equipped with the additional, eye-level stop lamp had 53 percent fewer braking-related rear-end accidents than vehicles without the added light.

Owners of older vehicles may equip their cars with this additional safety equipment by purchasing it from an auto supply store or from auto dealerships.

DOT cautions "do-it-yourself" installers to follow carefully the manufacturer's instructions. Proper installation will ensure that no technical complications arise when the new lamp is used.

"The sooner all vehicles are equipped with the eye-level stop lamp, the sooner all of us will benefit from this additional safety protection," Secretary Dole said.

Yours truly visited with Mrs. Gladys Barclay of Saint Jo Wed. and had lunch with her and her grandson Shane. Later in the p.m. I had a very nice visit with Rev. and Mrs. George Thompson.

Mrs. Dawson Ensey called this writer Thurs. the 17th to say she was home from Presbyterian Hospital in Dallas and to say how happy she was to be home. Mrs. Ensey told me about how much she appreciated all the cards, letters, flowers, prayers and calls she received during her long hospital stay. Mrs. Ensey spent time in the Muenster Hospital, then the Texoma Medical Center at Denison and then on to the Presbyterian Hospital in Dallas. After spending Wed. and Thurs. at home Mrs. Ensey had to go back to the Muenster Hospital. This nice lady has been and still is a very sick person.

Mrs. Billie Anderson was a patient in the Muenster Hospital from Mon. Oct. 14 to Thurs. a.m. Oct. 17. Billie, even though she is home, still has to take things easy. Joe Hunt, New Harp, is a patient in Westgate Hospital, Denton as of the later part of last week.

Mr. and Mrs. Edgel Bowerman of Indiana and Mrs. Minnie Bowerman of Nocona were Wed. Oct. 15 visitors in the Holland home. Edgel and Peggy Holland are double-cousins.

It was up real early Wed. the 16 for Kenneth and Peggy Holland - on to Nocona. They missed the bridge wash-out between Montague and Nocona by 10 minutes. From Nocona it was on up to Wichita Falls on business and shopping.

The whole Forestburg area was stunned and shocked by the sudden death of Britany J'Lynn Dill on Sunday, Oct. 13. Britany was such a dear little girl plus

being very lively, charming and happy. She will be missed ever so much by all that knew and loved her. Comment

The recent big rains have really done damage to those country roads - if that is possible - and it was possible in the Dewey area.

For one - there now is a big washed out area in the road in front of this writer's house. When cars and pickups drive over it the occupants nearly get thrown out of their vehicles - until they learn it is there. Many folks in all parts of this precinct are wondering if they have a commissioner and if they do - then just where does he have his road crew working. People from all points are saying they never ever see any of them in their part of the county.

I have said it once before and I will say it again - grading these roads just will not do the job anymore. They are too far gone. They all need a good graveling job as they are full of pot-holes, ruts, washed out places and are becoming overgrown with brush, etc. to the point when you meet someone you have to pull over to let the other person by.

We have lived at our present residence for twenty years and this is absolutely the worst condition I've ever seen these roads in since I first came to this area on visits 44 years ago.

There are many unhappy people over the bad conditions of their roads and they certainly would like to see some efforts made to remedy the situation.

Hornets scuttle Pirates by score of 28-0

On a splashy field preceded by some four inches of downpour, the Muenster Hornets muddled their way to a 28-0 defeat of Collinsville Pirates at Collinsville Friday night.

It was a complete shutout in which the hosts were held to a total of minus yardage while the Hornets made 365. The Pirates were 0 in passing and -10 in rushing.

The first score can be credited to Hornet defense. On second possession MHS made a long drive which bogged down near the goal, and the ball went over to the Pirates at the 8 yard line. On third play after that Collinsville passed at the 6. Gary Grewing intercepted and went untouched to the goal. Shawn Flusche added an extra point.

Another opportunity came quickly as the Pirates fumbled on first play after kickoff and John Eldred recovered on the 21 yard

line. Penalties fouled up the series and Flusche tried to salvage 3 points with a 30 yard field goal, but it was no good.

On the next three series Pirates had to kick, Hornets lost possession in an interception, and Pirates were stopped at the MHS 33. A screen pass from Ryan Klement to Flusche on the next play gained 41 and three plays later Klement made the last 19 for a TD. Flusche's PAT made it 14-0 at 10:11.

Two opportunities were lost in the second quarter as Muenster fumbled and Collinsville recovered on the 5 yard line, and again as Muenster fumbled on the 19.

The third period started with a steady drive of short gains plus 20 by Eldred and 10 by Drue Bynum. Eldred scored from the 2 and Flusche added an extra point.

Again the Hornets were stopped early in the fourth period when

Klement was sacked on a fourth down pass attempt, but resumed the drive as Eldred intercepted on the next play at midfield.

Seven plays from there, including a 32 yard run by Shawn Flusche and a 25 yard pass to Andy Burnette produced the fourth TD. Klement made it from the 1. Flusche's kick added a point.

Johnny Eldred led the rushing with 132 yards and a touchdown on 21 carries. Defensive standouts were Stuart Hess, Darren Walterscheid, Ronnie Trubenbach, Joe Pagel, Gary Grewing, and Damien Hellman.

SPORTS

Juniors beat Collinsville

Muenster Junior High kept its perfect record intact at 5-0 by coming from behind last week for a 20-12 win over the Collinsville juniors.

By a combination of their own big plays and Muenster mistakes the visitors scored twice in just more than the first quarter but after that the Hornets dominated.

The first TD came in second possession on a 25 yard run. After that the teams completed two series each until Bryant intercepted a screen pass and raced 65 yards to the second score. Both PAT attempts failed. The score was 12-0, Collinsville.

Next after kickoff Muenster made its third turnover, but quickly recovered a Pirate fumble in what became the turn around play. James Hennigan recovered it, and two plays later Don Boydston broke away at midfield for a TD.

After a Collinsville punt the young Hornets started a 60 yard drive. Hennigan made 12, Jerry Brawmer 22, and Brawmer's 25 yard pass to Boydston was good for the tying 12-12. Boydston's PAT made it 13-12.

Next half seemed to start fine as Hennigan went 35 to pay dirt. But it did not count. Officials charged a clip and returned the ball to the 40 instead.

Muenster got going again when Yancy Culp intercepted as the third period ended. With 85 yards to go Muenster made it in 6 first downs including 61 in 16 carries by Hennigan. Boydston's kick

made it 20-12 with 1:49 until the end.

MVP honors of the contest were shared by Hennigan and Boydston. Hennigan had more than 100 yards rushing plus good kick return yardage, a touchdown and a fumble recovery. Boydston had

two touchdowns and two bonus points along with good rushing yardage.

Meanwhile defense shut down the opponents for three quarters. Also Muenster led 12-8 in first downs and 3-1 in fumble recoveries.

Trinity Valley mauls Tigers, 28-0

Sacred Heart's Tigers had more than they could handle, lots more, when the Trojans of Trinity Valley, Fort Worth, came to do battle last Friday. The visitors had a big advantage in size, experience and depth as indicated by a roster of 36 including 11 seniors. The Tigers were lucky to come out with a loss of only 26-0. As a result the SH record is 5-2.

Trinity Valley showed its muscle on first possession grinding out 62 yards in 14 plays, including passes of 13 and 10 and runs of 12 and 15. Even so SH looked good in a goal line stand requiring three

downs for the last 4 yards. Charles Tenney made the score.

The second score came early in the second quarter after recovery of a Tiger fumble with 20 to go. Six plays made the distance and a pass to Lange made the last five. For the second time a PAT kick failed. The score was 12-0.

Following an exchange of possession, TV was on the way again, but the drive was halted by Koelzer's fumble recovery on the 8. During the remaining few minutes the Tigers fought the big boys back 22 yards to the 30.

Early in the third the Trojans

struck again on their first possession. A penalty following a punt had them 71 yards away and a break-away sprint by Tenney went all the way. The PAT by Lucas added a point.

On next possession the visitors did it again. Tigers punted to end their first possession and a big run-back gave TV a set up on the 12. Four plays reached pay dirt and Lucas added a point.

The balance of the third was uneventful except that SH completed four scattered first downs, each team lost a fumble and Sacred Heart also lost an interception.

Talk about gang tackling! This crowd of Tigers surrounds a Trinity Valley runner in last Friday's game, which unhappily became a 28-0 Sacred Heart loss. Identifiable are 5 Scott Taylor, 35 Wayne Becker, 8 John Nasche, 73 Keith Hennigan, 76 Ken Hesse, 89 Mike Adair, 58 Casey Houtchins.

17 complete CPR classes

Seventeen persons completed the two CPR classes taught recently at Muenster Memorial Hospital by Sharon Grewing, a paramedic with CCEMS and a certified American Heart Association instructor.

Classes were organized by Joan Walterscheid and sponsored by the Cooke County Emergency Medical Service.

Students were instructed in technique of one-man CPR; 2-man CPR; infant resuscitation; what to do for a choking victim, conscious and unconscious; how to administer Rescue Breathing in a breathless victim who still has a pulse, etc.

All students were taught through AHA guidelines. Handouts and booklets on CPR were studied. A lecture period and film session were followed by a prac-

tice session in the first class period. During the second class period, each student was tested on each aspect of CPR, using the manikins.

Completing the classes were Carol Frost, Laura Grewing, Carolyn Bayer, Sharon Felderhoff, Michelle Knauft, Christy Yosten, Rose Henscheid, Sug Bindel, June Bartush, Mr. and Mrs. Kenneth Bierschenk, Mr. and Mrs. Steve Klement, Claude Klement, Betty Henscheid, Janet Hess, Katie Swirczynski, Shirley Grewing and Mary Ellis.

Joan Walterscheid and Sharon Grewing have announced that there will be more classes in CPR taught at Muenster Memorial Hospital if sufficient interest is indicated. They may be contacted at Muenster Memorial Hospital or CCEMS, respectively.

CARD OF THANKS

Words cannot begin to express our sincere thanks and love for all our many wonderful friends and loved ones. Without your love, prayers, thoughtfulness and many, many acts of kindness this tragedy would have been unbearable. If you came to the house, brought food, sent flowers, came to the funeral home or to the funeral, whether you sent a card, included us in your prayers, helped with some work, telephoned or thought of us, we are so grateful. You have given us strength and courage to carry on. May God bless you all.

In time the gentle peace God gives will be greater than our sorrow.

We'll trust his grace and love will be our strength for each tomorrow.

All the family of
Britany J'Lynn Dill

We would like to take this opportunity to say "Thank You" to all who helped make our Pancake Breakfast such a success. A very special "Thank You" to Butch Fisher and our crew who did such a "Super Job".

TIA Adult Leaders
10.24-1E

Our family is grateful to all who helped our father, John Schmitz during his long illness. We express gratitude in particular to our pastors, the doctors and nurses of Muenster Memorial Hospital, the staff of St. Richard's Villa, to all who attended his funeral, said a prayer, sent spiritual or floral bouquets or sent food to our homes. All of you are very kind.

SCS urges cons. tillage

Conservation tillage is a farming method where a minimum of 30 percent ground cover is present from the previous crop after the present crop is planted. This ensures a protective cover on the soil during the critical period from harvest to planting of the next crop. The protective cover of residue can be maintained by (1) controlling weeds with chemicals and planting no-till, (2) plowing with chisels or similar equipment where the residue is not turned under, or (3) preparing a seedbed in a narrow strip and leaving vegetative cover between the strips.

Most farmers agree that conservation tillage will reduce erosion more than any one conservation practice. Other benefits are less

fuel consumption, less labor, and equivalent yields.

The planters with double disk openers are the secret to conservation tillage. They will cut through the residue without trouble.

Many farmers this past year successfully carried out conservation tillage on wheat, corn, and grain sorghum. Yields this year were better on conservation tillage than conventional tillage. Years where moisture is favorable make yields more equivalent, whereas dry years favor yields of conservation tillage.

Farmers interested in procedures necessary to carry out conservation tillage are encouraged to call on their local Soil Conservation Service office.
