## Homecoming Week is busy at Sacred Heart

Homecoming Week at Sacred Heart High School this past week was a full schedule of activities, games, celebrations, and special events for students, parents, ex-students and friends. To be honored Saturday night are graduates of 1946, '56, '66 and '76.

The halls of the high school were decorated Sunday with the Sophomore Class winning the competition. Monday afternoon, a softball tournament was held with the Senior Class coming out on top. Tuesday night was class competition in games, including football toss, sewing, penny drop, orange pass, balloon shave, egg toss and tug-o-war. Wednesday was Red and White Day, with the highlight activity, a Powder Puff game, cancelled because of the heavy rain throughout the day. It will be rescheduled next month. On Thursday, just before noon, the Queen's Court and their mothers will be honor guests at a luncheon in the Community Center. Friday, Sacred Heart will not conduct classes, so a candle-light pep rally will begin at 5 p.m. in the gym. During the rally, the Football King

will be announced. Senior King candidates are Mike Adair, Frank Hastings, Casey Houtchens, Steven Knabe and Craig Voth. Princes are freshman Tony Grewing, sophomore Darrell Dangelmayr and junior Wayne Becker.

The King's Court was nominated by the drill team and cheerleaders and the King was chosen by the student body. A hot dog supper will follow for the students under the church pavilion.

Sacred Heart grade school competed in a Homecoming poster contest, with each class submitting a poster. The fifth grade won first place.

Homecoming activities on Saturday begin with Mass in Sacred Heart Church at 5 p.m., with a special homecoming liturgy. A social and reception for all SHHS graduates will follow at the Sacred Heart Community Center.

The Homecoming football game will be played on Tiger Field Saturday night, with the Tigers vs. Valley View Eagles at 7:30 p.m. Preceding the game, the Queen's Court will be escorted across the

field by their fathers.

Crowning of the Homecoming Queen will occur at halftime with traditional formality. Senior Queen candidates are Gail Fisher, daughter of Butch and Eileen Fisher; Shari Voth, daughter of Jim and Fran Voth; Beverly Haverkmap, daughter of Lenny and Joan Haverkmap; and Sharon Henscheid, daughter of Rufus and Betty Henscheid. Homecoming Princesses are junior Shawna Grewing, daughter of Anthony and Linda Grewing; sophomore Noelle Hesse, daughter of Tom and Lucille Hesse; and freshman Amy Walterscheid, daughter of Sylvan and Teresa Mae Walterscheid.

The Queen's Court was elected by the football team and the student body will pick the Queen. The Court's escorts include Steven Knabe, Casey Houtchens, Richard Fuhrmann, Craig Voth, Nathan Bayer, Glen Swirczynski and Tony Grewing.

After the football game, The Entertainer will play for a dance at the Community Center, with snacks and set-ups available.

## Auto Show and pavilion dance set for Oct. 11 in City Park

Billed as "Autofest '86" on Saturday, Oct. 11, Muenster will appear to have stepped back in time as the streets will be filled with autos from yesteryear.

Show entrants from as far away as the Metroplex have registered to exhibit their autos. There will be no charge for entrants and no admission for access to the show in Muenster City Park.

It will be a busy day, according to Wayne Gilbert, member of the Gainesville Antique & Classic Auto Club. "We've got a parade on tap in the morning for Valley View's Sesquicentennial celebration, and we will then head to Muenster for the showing and judging in the afternoon."

Eleven different trophies will be awarded for classics ranging from "Model T's" through customized classics and specialty entries. Anyone with a vehicle which is "showable" is welcome to enter for judging. If in doubt, bring it to the front gate and speak with the registration desk. If entrants are interested in joining in on the scenic road rally, they should arrive before 11 a.m. If entrants wish to enter for the judging or show only, they should not arrive later than 2 p.m. All entrants will be eligible for a door prize drawing donated by KGAF Radio. The prize winner will be announced at approximately 5:30 p.m. when show winners are recognized and trophies awarded. The door prize is a Bossier City racing package

providing hotel, breakfasts, racing brochures and more.

Sharpen your thinking skills and take aim, for the games have great prizes awaiting winners. The 7th grade class of Sacred Heart will sponsor an auto race and the winner of each round will qualify for a drawing for a trip to Wurstfest at New Braunfels. Gregg's Chevrolet will sponsor a "Hubcap Toss." American Combat Games will let you try your skill at shooting a moon hubcap in a game called "Shoot for the Moon." Air guns launching paint pellets will be used to shoot at targets made of moon hubcaps which were popular in the '50s. Those who think they are good at horseshoes will certainly want to try Endres Motor's "U Bolt" toss. Prizes will range in value from AM/FM radios to oil changes to "gimme hats." At press time, a number of other groups were putting the final touches on games they intend to sponsor. It should be a fun afternoon.

KGAF Radio has given three different trip packages to "Autofest" planners to be used as door prizes or raffle prizes. My Girl Friday Travel Agency has also provided a trip package to Wurstfest in New Braunfels which will be used as the major prize by the 7th graders at Sacred Heart.

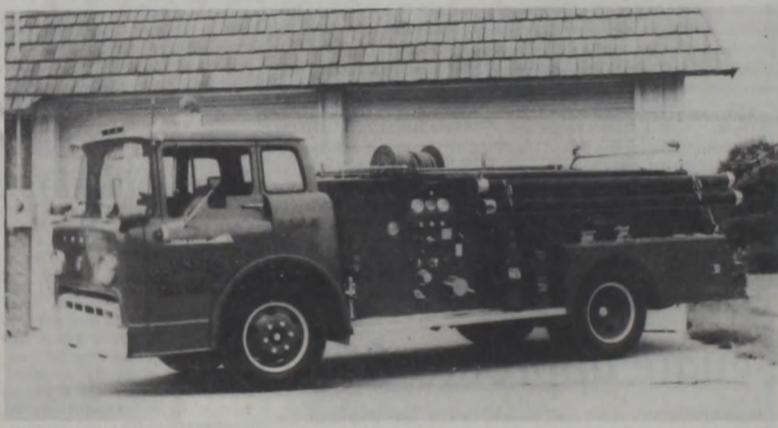

There will be plenty to eat and drink during the afternoon. Beta Kappa sorority will be selling popcorn, sweet rolls, coffee and lemonade; and the Jaycees will be

selling smoked brisket from pits located on site. H & W Meat Company expects sausage to be popular, and soda pop will be handled by the Dairy Inn. The Muenster Volunteer Fire Department will handle the beer. It should prove to be a tasteful afternoon.

An auction is planned for 7 p.m., featuring the sale of a customized and custom-painted 1968 Chevy Camaro, owned by Bryan Sicking of Bryan's Paint & Body.

And at 8 p.m., at 50s and 60s dance is scheduled under the pavilion to run until midnight. The Muenster Kiwanis Club is sponsoring the dance and will have prizes for dance and dress contests held during the evening. Pull out your poodle skirts and put your hair up in pony tails and head back into time! With all the activities planned for the evening's entertainment, everyone is sure to have a "fest"ive evening.

Either all or part of the proceeds from every concession or raffle will be donated to the fire truck fund. Your support is truly appreciated.

**THIS 1959 FIRE TRUCK/PUMPER** has been the backbone of the fire department for many years. It can pump 500 gallons of water per minute and has a 250 gallon storage tank. However, it no longer meets insurance key rate standards. Required is a new truck

with a 1,000 gallon per minute pump and 750 gallon tank. The old truck is still completely functional and firemen hope to keep it to bolster the department's capacity.

## Improvements slated for US 82 near Lindsay

A contract has been awarded by the State Department of Highways and Public Transportation to V.C.T. Paving Company of Great Bend, Kansas, for four miles of U.S. 82 from half-a-mile west of the western city limits of Lindsay to half-a-mile west of Interstate 35. The \$1,029,204.47 contract covers widening structures, adding paved shoulders, and overlaying the road

with a new asphalt surface.

Work is anticipated to begin in early November, with completion expected in midsummer of 1987.

Construction crews will work on the project one lane at a time, keeping disruption of traffic to a minimum. Motorists are urged to drive with caution through the construction areas.

## Why Autofest?

"Raising funds for the purchase of a new fire truck is our main goal," according to Monica Hess, president of the Muenster Chamber of Commerce. "There has been a growing interest in nostalgic autos from the past, and an auto show seemed like a perfect answer to the growing interest," she continued.

"You'd be surprised at the number of people interested in restoring old cars, or just seeing them in their restored glory," said Wayne Gilbert, member of Gainesville Antique & Classic Auto Club. "Our membership has been growing steadily over the past few years, and we are glad to have a local show in which we can present our collection."

## Scouting's Big Show Week

Fort Worth Mayor Bob Bolen has proclaimed the week of Oct. 13-19 as "Scouting's Big Show Week" in the city of Fort Worth.

The proclamation recognizes the Boy Scouts of America Longhorn Council's 1986 Scouting exhibition entitled "Big Show - A Salute to Texas."

Thousands of Cub Scouts, Boy Scouts and Explorers will participate in a public exhibition and demonstration of Scouting skills in Fort Worth's Amon Carter Jr. Exhibit Hall, Oct. 18.

The public can see and participate in over 350 Scout exhibits covering such subjects as survival camping, pioneering Indian crafts and weaving. Additionally, the

But why for a new fire truck?

"It's a very good cause," said Gary Fisher, "with the purchase of the new truck, everyone's fire insurance rates will be lower because we will have met a requirement set by the State Board of Insurance." "Not only will premiums be lower, but tax dollars won't have to be raised from the citizens and citizens will enjoy improved protection - and the department will have improved safety while fighting fires."

Kiwanis Club President Butch Fisher is glad to see the community behind the project. "Autofest will not only give clubs the opportunity to raise funds for the truck, but it also has the potential to bring extra revenue into town."

According to Chuck Bartush, Industrial Board Vice President, "We need every revenue source we can develop to prevent a decline in sales tax revenues like so many other towns have experienced. As long as we can develop ways of bringing in new revenue to offset those lost in the oil slump, we benefit everyone in the community without raising taxes."

So there you have it. Couple the benefits of the new truck with the economic reasoning and you have "Autofest '86." A fun day of nostalgia. Plan on taking part if you can. With your help, it will be a success everyone will enjoy.

# THE ECONOMY AND YOU

## THE MYTHOLOGY OF BUDGET CUTS

By Richard H. Fink

One of the great myths being fed to the American people is the notion that, somehow, the federal budget has been cut over the last six years. Turn on any nightly news program and you're likely to hear someone complaining that "federal cutbacks" are causing one problem or another.

This myth of federal "cutbacks" has a secondary clause that suggests that somehow spending on domestic social programs has "fallen" while spending on the military has grown and, together with federal tax cuts, "caused" the unprecedented federal deficit.

None of these propositions is true.

First of all, federal spending has grown 60 percent since 1980. So clearly, the budget has not been "cut."

Secondly, while military spending has increased over the last six years, domestic, social and welfare programs haven't been cut back. Instead, they have had their rate of increase held to the level of inflation.

In addition it is now obvious that the precious little tax relief Americans were granted in 1981 has been virtually consumed by several recent tax increases and the automatic tax hikes built into the Social Security "rescue" plan passed during Jimmy Carter's administration.

Indeed, there is evidence everywhere that federal spending is out of control, and that even the smallest, least painful sort of budget cutting hasn't been done. Some examples:

\* The federal government still maintains a \$21.5 million agency whose sole purpose is to dole out grants from Washington to the nation's museums, art galleries, and zoos. The Institute of Museum Services has been targeted by the Reagan administration for elimination because the president reasons that funding museums and art galleries can best be handled by private philanthropy. Yet because of Congress, your tax dollars are still at work (among other things, paying the Institute's director a \$68,700 per year salary). If you've not visited a local gallery or zoo lately, you ought to. You're paying for it.

\* The Export-Import Bank, a federal agency offering subsidized loans to private U.S. companies doing business overseas, will spend \$4 billion this year. Among the beneficiaries will be the communist government of Angola, which is getting \$96 million in loans and credits to develop oil reserves with Gulf Oil.

\* More money for the Soviets: \$52 million of your tax dollars will go to subsidizing grain sales to the Soviet Union this year. While we spend billions to defend ourselves against Moscow, does it make any sense to give the Russians a discount on American farm products?

Political activists like California's Tom Hayden and the Rev. Jesse Jackson continue to feed off of federal grant programs to help finance their activities. Hayden, a radical member of the SDS in the 1960's and currently the husband of actress Jane Fonda, has gotten taxpayer-funded grants to work on "housing" and "energy" projects. He has used the money to promote rent control initiatives in California cities, as well as to lobby for a federal takeover of the oil companies.

The Rev. Jesse Jackson's People United To Save Humanity (PUSH) has received similar grants. One federal grant from the Department of Education was used to print 10,000 Christmas cards bearing an autographed photo of Jackson. If you've ever wondered how Jesse Jackson gets the money to jet around the world and meet with the likes of Syrian president Hafez Assad and Cuban dictator Fidel Castro, now you know. You helped pay the tab.

Clearly, there hasn't been nearly enough budget cutting in Washington. (Richard H. Fink is President of Citizens For A Sound Economy, a 250,000 member Washington-based citizens' organization.)

## Senate approves 65

WASHINGTON - A bill co-sponsored by U.S. Sen. Phil Gramm to permit an increase in the speed limit to 65 miles per hour has won approval by the U.S. Senate.

Gramm, R-Texas, a longtime opponent of the 55 mph cap, pressed hard to allow state legislatures to increase the limit to 65 mph on interstate highways in rural areas.

"You can drive 55 miles per hour in Texas forever and still not get anywhere," he said. "And if you're driving 55 miles per hour in Texas, the likelihood is you are going to get run over."

The national 55 mph speed limit was imposed on states by the federal government during the energy crisis of the early 1970s.

During the Senate debate, however, Gramm pointed out that the gasoline shortage which prompted the original reduction in the speed limit "no longer exists."

The bill allows states "to look at the circumstances, to gauge the safety factors and to make a decision based on their own individual needs," Gramm said.

"I urge those who live in other parts of the country who want to preserve the 55 mile-an-hour speed limit to do that," he said. "But those of us who live where there are huge driving distances should be allowed to set a limit that makes sense, that we can enforce, that will be respected."

The Senate passed the bill on a vote of 56 to 36. It must now be considered by the U.S. House of Representatives.

## Fort Worth rancher heads campaign

It's not everyday that a successful businessman closes his office to work in a political campaign, but then Larry Smith is not your everyday businessman. Unlike most people, Smith does what he wants and what he thinks needs to be done. He's convinced that Texas needs a new Commissioner of Agriculture.

Smith was just as convinced about a year ago that a heretofore unknown Texas Longhorn bull should play a leading role in Texas' Sesquicentennial. With the help of the bull's unique marking, a map of Texas on his forehead, Smith almost singlehandedly parlayed him into the living trademark of the celebration.

"Bill Powers is going to be the next Texas Commissioner of

Department of Agriculture, once the most respected in the nation, has become a political proving ground for an inept, self-styled activist who puts his own personal and political ambitions before the wellbeing of Texas farmers and ranchers, who he so glibly claims to support," states Smith.

In choosing the Commissioner of Agriculture race, Smith has taken on a most formidable opponent in the well-oiled political machine of incumbent Commissioner Jim Hightower. Powers is a political unknown, who has served 17 years as executive vice-president of the Texas Poultry Association. Hightower, through a well-planned media and PR campaign, has become one of the most visible politicians in the state.

profits. Amazing when you look at the number of Texas farmers going broke. They say figures don't lie, but I guess it depends on who is doing the figuring," Smith continues.

"Texas needs Bill Powers as Commissioner of Agriculture. We need his experience, his management skills, and his marketing ability. We need his proven background in agriculture combined with his knowledge and understanding of how it affects the Texas economy and the average Texan. We need his leadership to restore confidence and respect to the Texas Department of Agriculture. And we need Bill

Powers' personal values - honesty, integrity, dedication, unselfishness and moral character to name a few," concludes Smith.

It may be hard to find room to print even a rebuttal by Powers. Nevertheless, Smith is undaunted by the prospects of a tough, uphill battle. "I wouldn't have it any other way," says Smith who methodically made a household word out of an unknown bovine and saw his picture appear in newspapers, magazines and on TV from coast to coast. "Bill Powers doesn't have a map of Texas on his forehead but he has Texas in his heart and that's good enough for me," says Smith with a grin.

LARRY SMITH and BILL POWERS

Agriculture," Smith states emphatically. "He has the background, experience and dedication to lead Texas agriculture out of the Hightower years." Smith is referring to the incumbent Commissioner, Jim Hightower, who, according to Smith, "has been only a quasi-Commissioner, more interested in grabbing headlines and promoting himself personally and politically than in serving Texas agriculture."

"There comes a time in our lives when we have to make a decision and stand up for something we believe in. Texas agriculture is in a mess because we have Hightower in Austin," he says. "Our Texas Hightower's image has been

changed from a liberal, political activist to that of a good ol' boy who wants to save the Texas family farm. His program now includes all the typical promotable policies of his predecessors. Whether Smith will be able to place a crack in Hightower's well-contrived image remains to be seen. Hightower consistently gains front-page headlines with carefully planned maneuvers that promote his image as an aggressive, inventive friend of the farmer.

"I believe in Texas and Texas agriculture," says Smith. "A strong agricultural economy is essential for Texas, the nation and the world and Texas has always been a leader. "Mr. Hightower's figures show increased sales, increased exports, and increased

## Free seminars offered by IRS

If you were among the businesspersons who filed the 563 million information returns in the Form 1099 series last year, you may be interested in the free seminars offered by the Internal Revenue Service. The seminars will cover the legal and technical requirements for filing these information returns on magnetic media.

Recent legislation required most companies to report payments of interest, dividends and broker and barter transactions on magnetic media rather than paper. For the tax year 1986, this requirement for magnetic media reporting is extended to other information returns. If you have 500 or more information returns such as the Forms 1098, 1099A, 1099MISC, 1099R, 5498, 1042S, 6248 and 8027, you must report them on magnetic media. The requirement also extends to the W-2, W-2P, and W-2G. The legislation also provides for penalty assessments against the payers who do not comply with the requirements.

MATTHEW MARTIN COTTER

## Matthew Cotter has twofold celebration

Matthew Martin Cotter, son of Dr. and Mrs. Steve Cotter of Paradise, had a twofold tenth birthday celebration. On Sept. 20, he began by winning first place in the Western Walk-Trot Equitation at the Oklahoma State Fair. This was the last show that Matt will participate in the 9-years-and-under age category.

Matt began showing his 3-year-old mare, Fly To Paradise, last March by winning his Western Equitation class at the San Antonio Stock Show. This past summer, he showed his mare in halter, showmanship and trail classes in many shows across the state and ended the show year as Reserve High Point Earner in his Western Equitation age division. Matt and Fly To Paradise were also finalists at the National Appaloosa Youth Show held in Columbus, Ohio in Walk-Trot Equitation and placed fifth in Junior Halter Mares.

Fly To Paradise was bred and raised by Matt's parents. She also finished the state show season by winning the title of Texas Junior Cutting Horse. In cutting events,

Fly To Paradise is trained and ridden by Hadley Campbell of Whitesboro. The mare will compete in several cutting futurities this fall.

On Sunday, Sept. 28, Matt entertained friends and relatives at his home in Paradise in observance of his birthday. A Mexican feast was served along with a special Mexican flan dessert made by his grandmother, Betty Kralicke. The children spent the afternoon playing and riding horses. Attending were his great-grandmother, Estelle Gravelle; grandparents, Dr. and Mrs. Martin Kralicke; Dianne Walterscheid and sons Casey and Tyler of Muenster; grandparents, Bill and Loretta Cotter, Mike and Judy Cotter and Amber and Dustin of Lewisville; Dr. Laura Pels of Coppell; Dr. and Mrs. Steve Kralicke and Travis and Robert of Grapevine; Harry and Mary Reinwald and Amelia of Irving; Kenneth and Cathy Williams and children Lance, Kimberly and Ryan of Allen; and several friends from Decatur, Paradise and Azle.

## Second graders have new friend - Daisy

Sacred Heart second graders have a new friend, Daisy, an eight-year-old, 14-foot, 130-pound python. The new friendship grew out of a class field trip last week to North Texas Automatic Transmission in Gainesville.

Daisy's owner, Tommy Nottingham, keeps her in a converted metal storage shed in the transmission garage. The building has been converted to a "house" for Daisy - complete with carpet and a heating system.

Nottingham explained that Daisy must be kept warm. If her environmental temperature should drop to 40-50 degrees, she would die. Thus, the carpeted floor and heating system.

Although Daisy's skin has a high gloss, which makes her look slimy and wet, the second graders who picked her up and handled her found her skin to be soft, smooth and dry.

Raised around small children,

Daisy is gentle and allowed the children to lift her head and tail.

According to Nottingham, Daisy's eating habits are simple. She is fed three rabbits each month.

Nottingham said he sometimes takes Daisy to his home and puts her in a bathtub full of water. A luxury Daisy is said to very much enjoy.

If well cared for, Nottingham said Daisy could live for 30 years.

One lesson Nottingham tried to impress upon Daisy's new friends is, "Never pick up snakes in the wild." Some are harmless, while others are poisonous. Children are sometimes too young and inexperienced to know the difference. "It is best," he noted, "to play it safe."

## "Book It" program at Muenster Sch.

"Book It," a National Reading Incentive Program, is being conducted at Muenster Public School Elementary, grades 1-4. The program helps teachers motivate children to read. The teacher sets minimum monthly extracurricular reading goals and rules for the class or an individual student. Participants submit written or verbal reports on each book read and the teacher indicates the students' progress on a reading chart when the book is completed.

All students that achieve the minimum monthly goal earn a free pizza award certificate good for one single-topping Personal Pan Pizza at any participating Pizza Hut Restaurant. If the student achieves the minimum goal in all five months, he or she will earn a Principal's Honor Diploma. If all the students in the class achieve the minimum goal in at least 4 out of 5 months, the class earns a free Pizza Hut pizza party. The program ends Feb. 28, 1987 and is sponsored by Pizza Hut, Inc.

# Tigers defeated by Hawks

by Max Hastings

The Sacred Heart Tigers found out in the first quarter of Friday night's game that Irving Cistercian was not a team to be taken lightly, as the Hawks scored twice in the first 8 minutes, and went on to a 41-6 victory.

Fred Hartnett scored the first Hawk touchdown with 9:56 left in the first quarter, and running back Alex Lopez went in from the 22-yard line with 4:49 left. Lopez added the extra point after both scores.

The Tigers valiantly fought back in the second quarter, and it looked like they might get back into the ball game. From the Hawk 41, Taylor hit Hastings on a pass good to the 9. After three plays took it to the 5, Taylor hit Mike Adair on a clutch fourth down pass for the touchdown. However, Hastings' kick was wide, leaving the Tigers trailing 14-6.

The Hawks got the score back on their next drive. Lopez broke away from the Hawk 25 to the Tigers' 33. Then quarterback Matt Hawkins passed to Hartnett for the score - Lopez's extra point kick was again successful for a 21-6 lead.

The rest of the first half was a battle of turnovers, with no scoring threats.

The Tigers' fortune turned from bad to worse on the first play of the second half as Hartnett took the kickoff and returned it for a 75-yard touchdown run. Sacred Heart then took the next kickoff and drove to the Hawks' 32-yard line; but turned it over on a fumble to the Hawks, and they in turn drove 68 yards for a touchdown. Highlighted by a 48-yard halfback pass from Hartnett to Stefan Thiele, Lopez made it 5 out of 5 extra points to run the score up to 35-6. The Hawks then recovered their own onside kick, and minutes later,

a Matt Hawkins to Hartnett pass made the score 41-6. Lopez's extra point was blocked.

Scott Taylor returned the kickoff to the Tiger 30, but was injured on the tackle. Due to the severity of the injury, Taylor was unable to be moved, resulting in a lengthy delay while waiting for the ambulance. The quarterback was taken to Muenster Memorial Hospital and the preliminary diagnosis was a jammed neck. After the ambulance left, everyone in the stadium fans and players alike, joined in a prayer for his safety and healing. The game was called off with nine seconds remaining in the third quarter.

Running back Mike Adair was also injured and taken to the hospital but the damage to his elbow proved minimal and he will return to play this week.

Scott Taylor was released and went to school for a while Tuesday. The final diagnosis is incomplete and his return to active play is unsure.

Cistercian rolled up 19 first downs with 198 rushing yards and 208 passing. Lopez led all rushers with 138 yards, while Wayne Becker paced the Tigers with 71 of their 73 rushing yards. Taylor completed 5 of 11 passes for 70 yards. Hastings caught 1 for 34 yards, and Adair snagged 2 for 21 yards, including the Tigers only touchdown.

Defensively, the Tigers were led by Mike Adair, Casey Houtchens and Wayne Becker.

Tigerette of the Week for last week was Vickie Walterscheid. The Tigers host state-ranked Valley View this week. Kickoff is set for 7:30 p.m.

## Sacred Heart tourney a huge success

With 52 teams entered Sacred Heart Alumni's 8th Annual Golf Tournament was pegged a huge success by tournament officials. The partnership scramble tournament was hosted by the Gainesville Municipal Golf Course and was played under fair skies and a warm southerly breeze. With prizes awarded to all and refreshments available throughout the day, the social atmosphere was fun for all.

Three teams were deadlocked after 18 holes in the Championship Flight with the eventual winner being the team of Russell and Clark. Second place was awarded to Bond and Brown and third to the Perrin and Perrin team. The three teams tied with scores of 65 and the order of finish was determined by a scorecard playoff. Russell and Clark, for their first place effort, were awarded two dozen golf balls and dinner for four from The Center Restaurant in Muenster.

In the first flight, another three-way tie had to be decided by the playoff system and the champion being crowned as the team of Eckart and Boggs. Second place went to Atkins and Alexander and third to the Dallas team of Mansky and Achilles. Besides receiving balls, the first place team was awarded dinners from Antonio's Restaurant and K-Bob's Steak House in Gainesville.

The husband-wife team of Dot and Don Endres captured first place in the second flight in a scorecard playoff with the Roberg and Bluml team. Bartush and Lanham were awarded third place. The winners were awarded balls along with four dinners from the Smokehouse II Restaurant in Gainesville.

The team of Schilling and Mollenkopf captured the first place prize in the third flight after a scorecard playoff with the father-

son team of Hesse and Hesse. The Felderhoff-Metzler team took the third spot. The Schilling and Mollenkopf team also received dinners from Rohmer's Restaurant of Muenster and the Golden Corral Restaurant of Gainesville.

Individual awards were presented to Bobby Hartman for Closest-To-The-Pin. Johnny Hunter for a drive that was directly on the line in the Most Accurate Drive Contest, and Mark Hess for a cannon shot in the Longest Drive Contest. The mulligan drawing was won by Charlie Brown. All contestants were winners as the Sacred Heart Alumni Association gave away golf towels to all.

Final figures are still out but an estimate is that the Alumni Association raised over \$1,000 to benefit Sacred Heart School. The Sacred Heart Alumni Association wishes to thank all sponsors, workers, and especially contestants for another successful golf outing.

## Valley View coming on strong

by Max Hastings

Valley View will return with 17 starters and a 9-3 record that earned them a district championship last year. They are undefeated this year and will be coming off of a 59-

0 defeat over the Gainesville JV.

Valley View's offense will be led by district player-of-the-year Kerry Kyle who finished last year with 1,200 yards and averaging 12 tackles a game. Defensive backs John Grassel and Steve Sparkman and defensive tackles Phil Clark

and Ricky Sparkman will form the backbone of the Valley View defense.

This will be Sacred Heart's Homecoming. There will be a dance following the game.

Scott Taylor will not be playing due to his injury from last week.

THE MÜNSTER JAYCEES held their annual punt, pass and kick competition for area youth Sunday afternoon. The competitors were few but enthusiastic and they had a stiff wind at their backs. The winners pictured in the group above are 8-13 years old, third place on the front row, 1 to r - Brandon Bayer, Cody Klement, Michael Gehrig, Eddie

Lamkin, Chad Simmons and Sheryl Sicking. The second row was second place - Cody Sicking, Jason Hess, Chris Pagel, Cody Truabenbach, Ryan Sicking and Ryan Gehrig. Standing are the first placers - Jeff Flusche, Jason Huchton, Brian Rohmer, Daren Bindel, Helmut Koelzer and Josh McCoy.

# Muenster evens record at 2-2

The Muenster Hornets overcame 135 yards in penalties to down the Callisburg Wildcats last Friday night at Wildcat Stadium 25-0. It was the second consecutive shutout for Muenster, who will meet Van Alstyne, 35-12 victors over S & S, at Hornet Field this Friday beginning at 7:30 p.m.

Bad blood between the Wildcats and Hornets accounted for over 230 yards in penalties. Late hits and unsportsmanlike conduct marred the contest that saw Callisburg gain only 44 total yards of offense. When senior fullback-safety Shawn Flusche went down with torn ligaments in his right knee just before halftime, the Hornets became a raging nest of crazed avengers. The opening of the third quarter was a heavyweight championship with four referees desperately trying to control the contest. Flags flew, tempers flared and, after an hour, the third quarter finally ended with neither team able to mount a serious threat due to the numerous yellow flags.

The play that sparked the outbreak of hostility came after Andy Burnette swept the left end for the Hornets' third touchdown and a 19-0 lead with less than 2 minutes in the second quarter. Flusche was wide right on the PAT but was blind-sided from the right by a season-ending blow to his knee; yet, there was no flag from the officials. The incensed Hornets

finally settled down midway through the fourth quarter to tack on another touchdown.

Muenster missed their first scoring chance early in the first quarter when, after a 25-yard punt return by Mark Hennigan, Flusche was wide left on a 35-yard field goal effort. However, the Hornets struck back when Daniel Klement forced a fumble that Stuart Hess recovered on the Callisburg 25-yard line. From there, Hess and Gary Grewing opened up holes for Burnette, who got the first touchdown on a 3-yard run. Flusche kicked the PAT.

With time running out in the first quarter, Drue Bynum returned a punt 32 yards to set the Hornet offense up at the Wildcat 27-yard line. Two plays later, Bynum passed to Brian Hess, the 6'4" junior tight end, for the second Hornet score. A bad snap cost the Hornets the PAT.

J. Shane Wimmer put Muenster back in business when he intercepted a Junior Tolbert pass at the Hornet 46-yard line. Five plays later, including a Bynum-to-B. Hess pass good for 25 yards, Burnette scored from 6 yards out. Flusche attempted the ill-fated PAT and the temperature of the game reached the boiling point.

The final Hornet tally came midway through the fourth quarter. After Wimmer hit Bubba Klement for a 13-yard gain and

Brian Hess for 12 more, Bynum carried the final five yards to end the scoring in a 25-0 Muenster victory.

Burnette had 105 yards on 19 carries. Bynum added 53 yards on 17 totes. Brian Hess caught 4 passes for 64 yards and one touchdown as the Hornet offense finally got untracked for 243 total yards. Mike Armstrong, Stuart Hess, Joe Pagel and Gary Grewing led the Muenster defense, which limited Callisburg to only 3 first downs.

The victory left Muenster with only 2 healthy running backs. Along with the loss of the senior captain Flusche, the Hornets also lost junior Scott McAden to a knee injury. Flusche underwent surgery Saturday morning and McAden was scheduled for surgery Wednesday.

As the varsity backfield ranks dwindle, junior varsity backs will move up and position changes will be made. Halfback Mark Hennigan will be joined by his freshman brother James, who's been scoring for the JV. James will play the other halfback in 3-back formations. Mike Armstrong will move to fullback. In the two-back backfield, James Hennigan will alternate with Bubba Klement. Bobby Thornhill will return to action at the weak side tightend position. Brian Hess will move to Flusche's safety position and Stuart Hess will kick.

## Jr. High downs Callisburg

The Muenster Hornet Jr. High football team ran their record to 2-0 with a 20-0 shutout of the Callisburg Wildcats. A strong defense led by Troy Pagel, Tony Perryman, Chris Reyling and Mike Gobble kept the Wildcats from crossing the Hornet 30-yard line.

Muenster scored their first touchdown on a short run by Pagel. Pagel helped set up the score when he hit Bryan Reiter on the halfback pass for a 35-yard gain. Mike Gobble swept the right end for the 2-point conversion. With an 8-0 lead, the Hornets struck quickly for another score when Gobble passed to Reiter in the right flat and he scampered down the sideline for a 58-yard touchdown connection. The extra point was no good and the Hornets had a 14-0 halftime advantage.

The final Muenster score was set up early in the fourth quarter when Gobble hit Darrin Russell for 23 yards to the Wildcat 3-yard line.

On a 4th and goal from the one, Reyling walked in for the score behind the blocking of Doug Hennigan, Russell and Paul Black. Brad McDaniel, Scott Hudspeth and Terry Felderhoff also had a good night opening holes for the Hornet backfield.

Thursday night the Hornets meet the undefeated Van Alstyne team at 6 p.m. in Van Alstyne.

## Loss of Flusche comes as shock

Bad news spreads quickly. By Saturday, most area coaches had heard the news of Shawn Flusche's season-ending knee injury. Reactions were mixed with disbelief and grief over the loss of the Hornets' senior captain.

"We thought that he had dislocated his kneecap," said Muenster Head Coach Dewey Sims, "and were hoping they could avoid surgery. The loss of Shawn cannot be measured."

Valley View fans and players passed on their regards Saturday night as they thumped the Gainesville JV 59-0. Most expressed a sentiment of respect and sadness that Flusche wouldn't be in the line-up when Valley View meets the Hornets. Eagle running back Kerry Kyle called to express his sorrow.

"He's gonna be missed," said one Eagle parent, "there's no doubt about that. It's hard to believe that he will be out."

Veteran Hornet coach Bob Gross echoed that sentiment. "I've watched this group of seniors grow and Shawn is the one you would least expect to receive an injury of this type. It happened so suddenly that it is really hard to believe."

Dr. Marvin Knight performed the surgery early Saturday morning. He said that it was the worst he had seen in 15 years, likening the severity of the injury to the one that ended Cowboy center Dave Manders' career.

Flusche's mother, Wanda, was saddened but relieved. "Shawn had injured his neck the week before against Nocona, and when he wasn't moving I was sure it was his neck. We were happy that it wasn't a neck injury."

Flusche will miss the remainder of the season. His injury adds to the

historical number of Hornet injuries this season. Starting quarterback Ryan Klement has been out for practically the entire year and could conceivably miss the season. Andy Burnette hasn't played at full speed, missing two games with ankle and shoulder injuries. Mark Hennigan and Stuart Hess have ankle sprains, and junior running

back Scott McAden will be lost for the year to knee surgery also.

With Flusche, Klement and Burnette saddled with injuries, only Drue Bynum remains healthy in the Hornet starting backfield of seniors that many thought could challenge the #1 ranked Eagles.

"The injury bug has hit us hard," said a disappointed Sims. "It's hard to imagine this many injuries in one season, let alone one month. You can go years without this many, then, all of a sudden, the bug hits at once."

Flusche is expected to be in a cast for several weeks and should be able to attend tomorrow night's game with Van Alstyne.

## Parents Night set for Oct. 3 at Hornet Field

Parents Night will be observed on Friday, Oct. 3, at Muenster Public School. Parents of all varsity and junior varsity players will be introduced with their sons as a special event on Hornet football field at 7 p.m. Parents are reminded that it is important for all to arrive on time.

## JV runs record to 3-1

The Muenster Hornet JV football team won their third game of the season last Thursday night with a 14-0 shutout of the Callisburg Wildcats. James Hennigan scored both touchdowns for Muenster after a 0-0 first half deadlock.

With time running out in the third quarter, Hennigan swept right end for an electrifying 45-yard touchdown run. Weldon Hermes kicked the PAT. The Hornet defense stiffened after the score, and then the Muenster offense took over for a clock-consuming drive culminating in a

Hennigan 3-yard run for the score with only 3 minutes left in the game. Hermes again kicked the PAT.

Hermes, Chris Klement, Mike Bierschenk, Jerry Brawner and Mike Pagel were defensive standouts for the Hornets. Shayne Wimmer, Shawn Vogel, Jeff Christian and Kevin Bell helped provide the offensive punch.

The JV unit will line up with the Hornet varsity this Friday night for Parents Night. The JV contest with Van Alstyne was cancelled due to numerous injuries.

## County Agent's Report

by Craig Rosenbaum

### Farmers exempted from land deedback taxes

**COLLEGE STATION** - Farmers forced to transfer assets to creditors to satisfy debts no longer have to pay alternative minimum taxes on recognized capital gains.

"This was a serious tax liability that was forcing many farmers into bankruptcy to reduce their tax liabilities," points out Dr. Wayne Hayenga, economist and attorney with the Texas Agricultural Extension Service, The Texas A&M University System. President Reagan signed the special exemption bill into law in late April. Since it's retroactive to Dec. 31, 1981,

some farmers may have a tax refund coming.

Regarding the liability faced by farmers in forced transfers of assets, Hayenga cites a typical situation. A farmer who bought most of his 500 acres in the 1960s and 1970s for an average of \$300 per acre was forced to borrow heavily on it in the early 1980s because of operating losses. He owes \$1,300 per acre and can't meet debt obligations with current farm income. His lender agrees to foreclose the land in lieu of foreclosure.

This triggers capital gains of

\$1,000 per acre - or \$500,000. Of this amount, 40 percent or \$200,000, is taxable as ordinary income. A farmer may have losses to carry forward and other deductions to offset this ordinary income. However, the other 60 percent of the gain which was excluded - \$300,000 in this case (less a \$40,000 deductible exemption) - becomes a "tax preference item" subject to an alternative minimum tax of 20 percent.

"This rule was designed to impose at least some tax on the wealthy," Hayenga points out.

"Inadvertently, it traps farmers who've been forced out of business."

According to Hayenga, the forced-out farmer in this example would be subject to a 20 percent tax on \$260,000 (\$300,000 gain minus the \$40,000 exemption). That's a tax bill of \$52,000. If the farmer deeds back the property and then is forced into bankruptcy, subsequent bankruptcy will not erase the tax bill.

"So the special exemption for farmers will relieve this tax burden and possibly keep some from bankruptcy," says Hayenga.

### Entry deadline for Cooke County Hay Show is Oct. 10, show is Oct. 28

Hay producers need to set aside hay samples to exhibit at the Cooke County and State Hay Shows. Hay shows provide an opportunity to compare different samples of hay and help producers evaluate what makes high-quality hay. Hay is a major portion of the roughage diet of many ruminant animals, so an evaluation of food value and protein content can help growers determine hay quality more easily so that livestock can be fed according to hay value.

An individual entering a hay sample will know the value of his hay when the show is over. Samples will have a protein analysis run and be physically evaluated as to leafiness, steminess, color, foreign material and maturity.

Livestock producers preparing to feed hay will know if their hay is adequate to meet animal needs or if supplements are needed. Hay shows can take a lot of guesswork out of livestock feeding.

Besides providing a hay analysis, hay shows are educational. Discussion topics will deal with various phases of hay production, soil fertility, hay storage, hay quality differences, feeding value, forage testing and forage varieties for hay production.

The Cooke County Hay Show will be Tuesday, Oct. 28, 1986 at the Cooke County Fairgrounds while the State Hay Show is set for Dec. 11-12 at the Coachlight Inn and Community Center in

Brenham. The annual meeting of the Texas Forage and Grassland Council will be held in conjunction with the hay show.

Producers should identify samples as to field, soil fertility and cutting date so haying programs can be evaluated more accurately.

Producers need to submit their bale or bales by Oct. 10 in order that protein tests can be run on samples and judging completed. Call either the County Extension Office at 668-5412 or Doug Robinson or Tommy Davidson at 668-7731, Ext. 253, to submit bales.

A Hay Quality Production Meeting will be held at 7 p.m. at the Cooke County Fairgrounds on Oct. 28. This meeting will follow all judging.

### Pumpkin is more than a pie; try it as a soup or vegetable

(AUSTIN)—Mention pumpkin and most people think "pie" and "jack-o-lantern." Few of us regard pumpkin as a vegetable, but it is, a native American and a member of the squash family that is interchangeable with winter squash in recipes ranging from soups to casseroles.

Pumpkin comes in two containers, can and shell, and while the canned variety is available year-round, fresh is a seasonal pleasure that lasts from late September until Thanksgiving.

"It's a bigger chore to prepare, but fresh pumpkin has a delicate flavor that is hard to duplicate," said Texas Department of Agriculture (TDA) home economist Carol Ware. "It's worth the extra time it takes to fix it." "Smaller pumpkins have more tender flesh and fewer fibers, which makes them better for cooking," said Ware. "However, there's nothing wrong with the meat of large pumpkins. It may be a little less flavorful. But if you buy a pumpkin for a jack-o-lantern, why waste the meat? Go ahead and use it."

Meat from jack-o-lantern pumpkins can be wrapped in plastic and kept in the refrigerator up to five days. When ready to cook it, put the meat sans seeds and fiber in a pot with a small amount of water. Pumpkin is a watery vegetable, so a large amount of cooking water is not desirable. Cook 25-30

minutes, drain and mash or puree in blender. Place mashed pumpkin in a strainer and drain another 30 minutes to remove any excess liquid.

Pumpkins are an excellent source of Vitamin A. Fresh, whole pumpkins will keep several weeks stored in a cool, dry place.
