

Lessons Derived From the Recent Brown County Fair

President W. J. Odell of the Brown County Fair Association says the recent fair was a success, in spite of the fact that some people might be inclined to give it a knock or a black-eye. President Odell says a good fair can be staged here every year if the right kind of co-operation is used and team work made available and active all along the line.

He double the number this year, and this can be done, with little effort if the county people are made to feel that their efforts will be appreciated and that their exhibits will be seen, studied and given the proper consideration.

BANKING HANDS STATE BANKING COMMISSIONER

AUSTIN, Texas, Oct. 7.—(AP)—J. R. Brantley, president, and Paul Brantley, cashier of the Commercial Guaranty State Bank at Longview are under arrest at Tyler on charges of violating the Federal Reserve bank laws.

LONGVIEW, Texas, Oct. 7.—(AP)—J. R. Sparkman and P. M. Brantley, president and cashier, respectively of the Commercial Guaranty State Bank of Longview, last night made bonds of \$5,000 before Commissioner George C. Burrows at the federal court at Tyler, to secure appearance at the January term on charges of false entries in the bank books.

Both were about forty years old and the woman had worked in the Ketcher home as a housekeeper.

Letter from George W. Pacer, superintendent of Plainview schools in Brownwood is to the effect that the entire south plains act, of which Plainview is the trial par, has had too much rain and considerable difficulty in gathering their crops.

The second crop of Sudan grass on the land belonging to the city of Brownwood, in the vicinity of the sewage disposal plant, has just been harvested, and will produce 1,000 bales, or in the vicinity of that much, according to report.

The most expensive gold fish is the Lion Head, which is an American fish.

CONFERENCE IN WACO TO BOOST COTTON PRICES

WACO, Oct. 7.—(AP)—Call for a state-wide conference in Waco Saturday to draft cotton acreage reduction measures for submission to the Legislature was issued Wednesday from headquarters of the Cotton Control Association.

Asked if he was still a highway commissioner following his conference with the former governor, Mr. Cate said "I don't know."

WASHINGTON, Oct. 7.—(AP)—The government has extended a \$30,000,000 credit to co-operative marketing associations for the crop.

Retrial Necessary in Anderson Case as Jury Disagrees

The county court is grinding right along on its routine agenda of three cases, and will finish another this afternoon, in all probability.

Y. M. B. L. OF BROWN COUNTY IS NAME OF NEW ORGANIZATION

The Board of Directors of the Young Men's Business League of Brown County met Wednesday night with every member present.

LOS ANGELES, Oct. 7.—(AP)—Efforts to obtain new evidence to aid in charting the California-Arizona trail blazed by Almie Semple McPherson during her absence from Angelus temple, occupied District Attorney A. S. Keyes as he summoned more witnesses for the resumption of the evangelist's preliminary hearing today following yesterday's recess.

Hunt is expected to testify that he was engaged by Mrs. Minnie Kennedy, the evangelist's mother, to aid Harrison in the search for Mrs. McPherson's body, and that he was instructed to continue driving after he had told his employer there was no body in the surf.

Hospital Notes

Mrs. H. A. Everage of Santa Anna who was reported as being sick in a local hospital yesterday, was operated on this morning and is doing well following the operation.

The district attorney said Blevins' testimony would be particularly valuable to the state as it supported previous testimony that Mrs. McPherson rode to a point near Douglas in an automobile, leaving the motor car to appear in Douglas with the story of having escaped from her abductors.

APPROVAL OF NOMINATIONS IS DOUBTFUL

AUSTIN, Oct. 7.—(AP)—Although it is very probable that they will not accept, the names of Senators Charles Murphy of Houston and J. C. Strong of Panola county, are slated to be submitted to the Senate late Thursday for confirmation as appointees to the State Highway Commission.

Former Governor James E. Ferguson, held conference early today with Murphy and Strong, and John Cage, member of the Highway Commission, who the Senate has declined to confirm.

Fate of the scholastic appointment now rests with Governor Ferguson. Both Houses of the Legislature today adopted with little opposition the free conference report appropriating \$3,500,000 to supplement the available school fund, and increase the per capita appropriation from \$11.50 to \$14, and no more.

The bill provides that if the 40th Legislature finds other sources of revenue to fund the school fund, the revenue will go toward paying this appropriation.

FARMERS FLEE AFTER BREAK OF BIG LEVEE

PEORIA, Ill., Oct. 7.—(AP)—Scores of homes and barns are completely submerged and 4,400 acres of corn lands are under from eighteen to 20 feet of water as a result of a break in a levee at Banner, a few miles below here last night.

DANIEL BAKER'S NEW CLASS OFFICERS ARE CHOSEN BY STUDENTS

Class officers for the Seniors, Juniors, Sophomores and Freshmen classes in Daniel Baker college were elected at recent meetings of the four classes.

There are fifteen in this year's senior class who will receive their degrees at the close of the long session. There are several others who will lack only one or two subjects of graduating this term, making it necessary to take their degrees in the summer session.

PRIZES AWARDED IN BANNER-BULLETIN SUBSCRIPTION CONTEST

Prizes were awarded Thursday of last week to the winning contestants in the Banner-Bulletin prize distribution, bringing to a successful close an eight-week subscription campaign.

Considerable interest was manifested throughout the contest by the friends of those who were competing for the prizes, while the contestants themselves worked diligently from the beginning.

The result of the subscription campaign is gratifying to the publishers of the Banner-Bulletin, giving this paper an unusually large circulation.

Those who acted as judges and awarded the prizes were J. F. Brown of Peasey & Company, W. B. Avinger of Gilliam Dry Goods Company, and C. C. Parker of Crow Battery Co.

AGED WOMAN DIES OF Burns When Gas Explodes

SAN ANTONIO, Oct. 7.—(AP)—Efforts of an unidentified man availed nothing in his attempt yesterday to save the life of Mrs. J. C. Breeding, 67, when gasoline which she was cleaning clothes exploded and showered her from head to foot with burning oil.

RAND DEFENDS DELIVERY OF SEIZED MONEY

NEW YORK, Oct. 7.—(AP)—Thomas W. Miller, former alien property custodian, committed no crime when he handed Richard Merton, German metal magnate, two checks for \$5,542,000 at a champagne dinner in the Ritz-Carlton.

Daugherty Lists

Daugherty, the first cabinet member brought to trial for alleged criminal acts supposed to have been committed during his tenure of office, sat in the middle of the packed courtroom, a folded handkerchief held constantly in his left eye, which is inflamed by cold.

RESOLUTION IS GIVEN SENATE FOR APPROVAL

AUSTIN, Texas, Oct. 7.—The House of Representatives today demanded the resignation of Governor Miriam A. Ferguson. A concurrent resolution calling for her to resign, in accordance with her primary promise to Attorney General Dan Moody, was passed by a vote of 56 to 47.

AUSTIN, Oct. 7.—(AP)—Representative Adrian Poole's resolution is "designed to remind Governor Miriam A. Ferguson of her promise to resign after adjournment of the called session, so that she would not forget to keep this promise, as she has other promises."

A motion to adjourn until 2:00 o'clock, was overwhelmingly defeated, but the House voted to recess until 2 o'clock. Had the session adjourned until 2:00 o'clock, Ferguson forces could have prevented further discussion of the resolution.

EAGLE PASS, Texas, Oct. 7.—(AP)—Jimmy Buckley, 17 year old high school boy, was killed and Andrew Evans, another youth, was dazed when the latter lost control of an automobile, which crashed through a fence and overturned here last night.

BOY DIES IN OVERTURNING AUTOMOBILE

EAGLE PASS, Texas, Oct. 7.—(AP)—Jimmy Buckley, 17 year old high school boy, was killed and Andrew Evans, another youth, was dazed when the latter lost control of an automobile, which crashed through a fence and overturned here last night.

EAGER TO REJOIN HIS FAMILY AFTER THREE YEARS OF WANDERING

CHICAGO, Oct. 7.—(AP)—The story of his 3 1/2 years of wandering under an assumed name was related to a reporter for The Chicago Herald and Examiner last night at Fort Worth by Lewis B. Larson, former business manager of the Chicago Board of Education, who mysteriously disappeared March 7th, 1923.

THREE MORE BODIES TAKEN OUT OF MINE

ROCKWOOD, Tenn., Oct. 7.—(AP)—Removal of three more bodies during the night brought to twelve the number of known dead in the explosion in the Rodgers entry of the Roane Iron Company's mine here Monday.

WINS BEI WHEN JURY GIVES HIM DEATH SENTENCE

ELKHART, Ind., Oct. 7.—(AP)—John Hall, 27, bet a policeman a cigar in the Bow cotway, now a citizen of Howard county, writes Brown county friends that crops are very fine in that part of Texas.

Petty burglaries in one or two residences and rooming houses in Brownwood the past two or three days have given the officers a clue that is being followed with satisfactory results, it was reported today. It is probable some interesting developments may be made in a day or so.

Cotton Makes New Lows Steadies on Short Covering

Since last week's letter in these columns, the cotton market has declined to new lows—the lowest not only for this season but for several years.

The only hope the southern farmer has now, is that by holding the balance of his cotton off the market some influence may intervene which will steady the price or even advance it.

Quite a number of farmers have asked the writer of these letters, whether or not he deems it advisable to sell their spot cotton now.

But of course, many banks are not prepared to do this, especially the banks in the larger towns where the farming interest is just one of many.

Bud Stillman Will Marry Daughter of Former Servant

NEW YORK, Oct. 7.—(AP)—Bud Stillman, son of Mr. and Mrs. James A. Stillman and relative of some of the most prominent families in New York, is engaged to marry the daughter of a Canadian farmer and woodsman, a girl that was once his mother's servant.

SANTA ANNA PLAYERS HAVE HARD SCHEDULE FOR FOOTBALL SEASON

Santa Anna High School, who played the Lions Tuesday, have a rather heavy schedule for this season. They meet several of the larger schools of this section on the gridiron during the present season.

THREE MORE BODIES TAKEN OUT OF MINE

ROCKWOOD, Tenn., Oct. 7.—(AP)—Removal of three more bodies during the night brought to twelve the number of known dead in the explosion in the Rodgers entry of the Roane Iron Company's mine here Monday.

R. E. Barnett, Santa Anna, Tex. 1st., 2nd. and 3rd. old Toms; 1st., 2nd. and 3rd. hens.

**C. C. Lockwood, Brownwood. 4th. old Tom.**

### FUNERAL OF MRS. DULA WAS ONE OF LARGEST SEEN HERE LONG TIME

The funeral ceremonies, last honors in memory of Mrs. Egma Dula, whose death occurred early Saturday morning, were held at the McInnis Funeral Home, at 4:00 o'clock Sunday afternoon, and were largely attended, there being an immense number of Brownwood people present, as well as from many localities at a distance—friends and acquaintances who had known and loved her in this life, and to have known Mrs. Dula was to love and admire her for her sterling Christian qualities, and her greatness of heart and her splendid womanly character.

The services were held at the funeral home and hundreds passed in and passed for a moment to look for the last sad time, upon the face of one whose life and life work had been spent among them and for them. The services which were of an impressive and touching nature were in charge of Rev. C. O. Shugart of the First Methodist church and Rev. L. L. Felder of the Central Methodist church. These two ministers officiated in the absence of Dr. W. B. Gray of the First Presbyterian church, who has been ill several days. Deceased was a member of the First Presbyterian church.

The pallbearers were H. F. Mayes, James C. White, W. A. Butler, Tom Fowden, Marion Ford and Harris L. Charquist.

The entire choir of the Central Methodist church, under the direction of Cameron Marshall, sang appropriate numbers. The Friendly Fellows Bible Class attended in a body.

Thus goes to her long and peaceful rest one whose life and career has been a part and parcel of Brownwood many years. Hers was a life of devotion, and heroic self-sacrifice for those she loved—and she was never too tired, never too weary, to do something for them—all of them, each of them. She was a Christian and lived her religion daily and hourly in worthy uncomplaining service. The greatest epitaph that could be written on her tomb is that she lived and died the life of a Christian, and she gave her life to the service of others.

There is no death, the stars go down  
To rise upon some fairer shore,  
And bright in heaven's jewel crown  
They shine forevermore.

There is no death—the dust we tread  
Shall change beneath summer showers,  
To golden grain, or mellow fruit,  
Or rainbow-tinted flowers.

**LILLIAN MARTHA JENKINS**  
Lillian Martha Jenkins, eighteen-months old daughter of Mr. and Mrs. Thomas Jenkins, of the Ebony Club Tuesday, impressed the importance of observing Fire Prevention Week. This is Fire Prevention Week. Leaflets and other kinds of literature on the importance of the occasion have been sent out by the Lions Club Tuesday. It is probable that schools throughout the country are observing the week by lectures, fire drills and in such other ways as will most effectively convey the lesson of fire prevention and its value.

## NEW ORLEANS FAVORED FOR OIL AND GRAIN

WASHINGTON, Oct. 4.—(AP)—A sweeping modification of the freight rates originally prescribed by the Interstate Commerce Commission for ocean-borne traffic to and from the southwest through Gulf of Mexico ports was recommended today by Examiner I. L. Koch in a tentative report to the commission.

The commission, which has yet to pass on the report, held last year that Texas ports headed by Galveston, were suffering undue disadvantages from existing rate structures, but Examiner Koch who reported after a rehearing of all of the issues, advised the commission today that petroleum rates should be left unchanged, and that the general level of grain rates to the gulf need not be altered as materially as the commission first proposed.

**Long Condit.**  
The recommendations construct a last chapter in a long drawn-out and bitter rate contest by the Texas ports and New Orleans over the rates on commodities for export, import or coastwise destinations. The commission has held that existing rates on all of the sea borne traffic which took rail haul to export or import markets unduly favored New Orleans, and railroads were instructed to make new rates which would put Texas ports on an equality with New Orleans from all shipping points where distances were equal.

Examiner Koch today advised the commission to reverse this ruling insofar as petroleum and its products were concerned, although the petroleum traffic constitutes one of the leading commodities moving in the trade.

Equalization of the petroleum rates to the New Orleans and Texas ports, the examiner held would result in "serious injury to the independent refining industries at all interior points."

He also advised the commission to reverse in part its ruling that rates on grain and grain products should be similarly equalized, on the ground that serious congestion would be occasioned by a diversion of too much grain to Texas ports, which lacked facilities for handling.

Drawing a line through the southwest following the Santa Fe from Fort Worth, Texas, through Cushing, Okla., to Winfield, Kans., and on to Salina, Kans., the examiner suggested that grain rates to the gulf east of this line be left undisturbed. From points west of this area, he said, the Texas ports should be given an advantage.

From Kansas points west of the line the proposed Galveston rate on grain would be two cents per hundred pounds than the New Orleans rate; from Oklahoma points, three cents less, and from Texas points, four cents less.

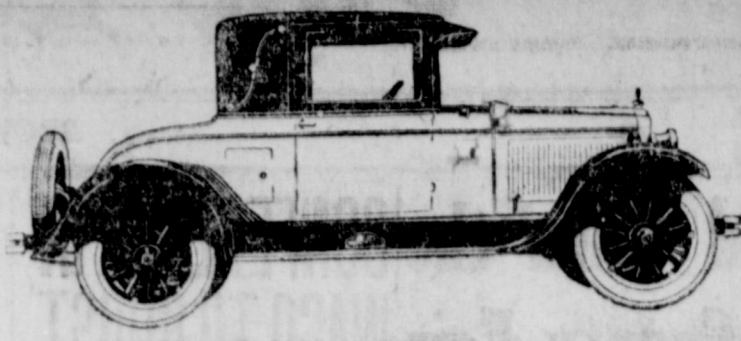

**Other Rates Upheld.**  
The examiner held that the commission should not disturb its original finding as to rates on cotton seed, cotton oil, packing house products, coffee and turpentine. The commission proposed originally to equalize on the distance basis rates on all these commodities. None of the rates to or from the gulf involved in the controversy have as yet been altered, the commission having suspended them pending reconsideration.

**LEGISLATION TO CUT COTTON ACREAGE TO BE SOUGHT TUESDAY**  
WACO, Texas, Oct. 4.—(AP)—As the cotton market continued its downward plunge, which has amounted to \$10 a bale in the past week, the recently organized Cotton Control Association announced today that the Texas legislature will hear a Central Texas delegation Tuesday night in a plea for immediate legislative steps to reduce cotton acreage.

The association's executive board after a meeting today communicated with state officials at Austin and announced afterward that Senator Edgar Witt and other Central Texas legislators would introduce resolutions offering the floor of the House to the Central Texas delegates Tuesday night with the Senate invited to be present. Senator Witt was quoted as saying he felt no doubt that a resolution would be promptly carried.

**Judge Jenkins Tells About Value of Fire Prevention Program**  
In words that ought to be printed and placed in every Brownwood home, Judge Chas. H. Jenkins, at the noon luncheon of the Lions Club Tuesday, impressed the importance of observing Fire Prevention Week. This is Fire Prevention Week. Leaflets and other kinds of literature on the importance of the occasion have been sent out by the Lions Club Tuesday. It is probable that schools throughout the country are observing the week by lectures, fire drills and in such other ways as will most effectively convey the lesson of fire prevention and its value.

## FEDERAL BOARD TO INVESTIGATE OIL PRICE CUT

AMARILLO, Oct. 5.—(AP)—The Federal Trade Commission will send a special representative from Washington to Amarillo to investigate the price reductions of crude in the Borger field. It was announced by Congressman Marvin Jones before a meeting of the members of the West Texas Oil and Gas Association last night, to protest against the recent cuts. Congressman Jones, who has undertaken to bring about an investigation, read a telegram he received late in the afternoon from Otis B. Johnson, secretary of the commission, which read: "Agent of the commission expected to visit Texas soon and will investigate conditions you refer to."

## ORAL ARGUMENT FOR VALIDATION LEASES IS HEARD BY COURT

WASHINGTON, Oct. 5.—(AP)—Oral argument by which Edward L. Doheny seeks to validate his disputed lease to the Elk Hills naval oil reserve in California and his contracts for the construction of storage tanks at Pearl Harbor, Hawaii, continued today before the supreme court.

Frederick R. Kellogg was granted an hour by the court to complete the Doheny argument, which was begun yesterday at the opening of the fall term by Frank J. Hogan, leading counsel for the oil operator. Following conclusion of Kellogg's statement, Owen Roberts and former Senator Atlee Pomerene, special government counsel, were granted one hour each in which to present their arguments for cancellation of the lease on the ground of fraud.

## CARNEGIE LIBRARY IS IN NEED OF CLASSICS FOR SCHOOL CHILDREN

Now that all the school children of Brownwood are busy, their visits to the Carnegie library is becoming more and more pronounced. Each afternoon scores of students may be seen at the library searching for certain books to add them in their lines of work. It is found that the children of the fourth grades are in need of such classics as Robinson Crusoe, Anderson's Fairy Tales, Peter Pan, Big People and Little People, Other Lands, Seven Little Sisters, Little Folks of Many Lands, Black Beauty, Some Merry Adventures of Robin Hood, Our Little Japanese Cousins, Our Little Russian Cousins, Our Little Hawaiian Cousins, Strange People, Little Jan the Dutch Boy, The Little Colonel, Indian Legends, Alice in Wonderland, Japanese Twins, The Tree Dwellers, The Early Cave Man, Two Indian Children of Long Ago, Treasure Island, The Birds' Christmas Carol, Bears of Blue Rives, Grimes Fairy Tales, Our Feathered Friends, The Adventures of Bob White, and like classics for children. Now here is the proposition: If you have any of these books that you have read and will use no more, please send or take them to Carnegie Library and give the children an opportunity to read them in connection with their work at school. By doing this books that are now serving no useful purpose may be turned to good account.

## MECHANICAL COTTON PICKING CUTS GRADE DEPARTMENT REPORTS

WASHINGTON, Oct. 5.—(AP)—Although the spinning quality of "snap" cotton does not differ materially from picked cotton, "snapping" as a method of harvesting lowers the grade, the difference in the cotton tested amounting to about two grades, the Department of Agriculture announced today on the basis of preliminary experiments.

"The decreased cost in harvesting cotton by the 'snap' method, the department has found also may be much more than offset by the extra expense of passing cotton through boll extractors and by the loss of value resulting from the lower grade," a statement said.

"Taking the results of the test as typical," the department says, "snapping" cotton at the officially quoted prices and under the conditions which prevailed in 1925 resulted in a loss to the grower of 7.29 a bale as compared with picking.

## MRS. WALTER W. WATSON

Kathryn Holmes Watson, wife of Walter W. Watson, died last night at a local hospital. She will be carried to Detroit, her former home, for interment, the funeral party leaving Thursday morning on the Frisco.

Mrs. Watson was thirty years of age, and was born in Detroit, the daughter of Mrs. Arthur L. Hoby. She was married to Walter W. Watson of Brownwood, June 7, 1917, following his graduation from the University of Michigan, and with her husband went to Youngstown, Ohio, where he made their home until November, 1919, when they came to Brownwood, and Mr. Watson went into the hardware business with his father, Lee Watson, and brother, W. Lee Watson. She is survived by her husband and five little girls, Mary Rra, Dorothea, Kathryn Collins, Marian Alyce and an infant, Rosemary Ann, for whose life the mother gave her own on Tuesday night.

Other relatives are her mother, Mrs. Arthur L. Holmes, and two brothers and two sisters, all of Detroit.

Mrs. Watson was a talented young woman, keenly intellectual and splendidly educated, and possessed many charming traits of character that had won hosts of friends and had made her useful to the circle in which she lived and moved. She was a devoted wife and mother, lavishing upon her husband and children a wealth of love and service. A devout member of the Catholic church, she was a consecrated Christian and was true to every phase of its worship and service. Her tragic death was sudden and her funeral services were held at the McInnis Funeral Home today. The body will be taken from there tomorrow morning to the Frisco train. Feeling a premonition of her approaching death, Mrs. Watson had discussed with her husband arrangements for her funeral in Detroit, and her wishes were being carried out in every detail today.

The funeral services were definite today, pending receipt of a message from her mother in Detroit. It was regarded as probable however, that there would be service here and that the funeral services would be held in the home city of her mother upon arrival of the funeral party in Detroit.

**EGGS ARE HIGHER, get our special price for balance of week.—Looney Merc. Co.**

Mrs. H. E. Everage of Santa Anna is sick in a local hospital.

## RAILROAD ECONOMIES COULD BE EFFECTED BY CONSOLIDATION

DALLAS, Tex., Oct. 4.—(AP)—Railroad economies, encompassing everything from locomotives to scrap iron, which it is expected would result from consolidating the Missouri-Kansas-Texas, Kansas City Southern, and Cotton Belt roads, were detailed here today at the Interstate Commerce Commission hearing before Director C. D. McElhatte.

George E. Scott, purchasing agent of the Katy with headquarters at St. Louis, testified that savings to his road alone, through joint purchasing operations would total \$11,000 a year. Mr. Scott's testimony consumed most of the morning sitting.

He told of the economies from large quantity buying, standardization and simplification of parts, reduction of permanent stocks, and re-equipment that modern railroads, in a sense, act as their own "old rags man," by maintaining salvaging plants, in which old machinery and scrap iron is worked into new products.

## NO ONE MERCHANT can sell merchandise very much cheaper than the other and give you all you contract for. In the long run we sincerely believe it would pay you to make this store your place to buy Dry Goods, Groceries or Hardware.—Looney Merc. Co.

Hamilton attacked Scott's statements referring to saving by economies in salvaging plants.

MRS. W. R. DULA

After an extended illness, Mrs. W. R. Dula died at 8:30 a. m. today at the family home, 410 N. Greenleaf. The funeral services will be conducted Sunday afternoon at 4 o'clock at the McInnis chapel.

NEW OLDSMOBILES HAVE IMPROVED COOLING SYSTEM

Until modern heating methods were devised people were rarely comfortable in zero weather. As they huddled about the fire, their faces were too hot and their backs far too cold, or vice versa.

DEATH OF MRS. ED BRASELTON

The following article clipped from The Plainview Herald will be of interest to the many Brownwood friends of Mrs. Braselton, who was formerly Miss Willie Scranton, who made her home in Brownwood when her father, Rev. R. A. Scranton was pastor of the Coggin Avenue Baptist church.

Death came very suddenly, shortly after 1:30 in the afternoon.

Mrs. Braselton, affectionately known as "Billie" to her host of friends, was the daughter of Rev. and Mrs. R. A. Scranton, now of Dallas. She was born in Abilene, Texas, and came to Plainview a few years ago.

MAYES PRINTING CO. PUBLISHERS

THE FAIR WAS A SUCCESS

**D**UE IN large measure to the untiring and well directed efforts of President W. J. Odell, the Brown County Fair Association presented to the people of this city and county a county fair that was eminently worth while, and that will be of lasting benefit. The indications are that the fair created no deficit, despite a poor patronage on the first two days, and if this prove to be the case it is due not so much to the patronage given as to the care exercised in the management of the enterprise; for it is only by the most careful economy that the fair could possibly be made to pay its expenses during an exhibition of only three days.

The Bulletin feels that all the people of the city and county should be grateful to Mr. Odell for his splendid work for the fair. He accepted the position of president of the Fair Association under most unfavorable conditions, and at a time when herculean effort was required in order to present any kind of exposition. He labored day and night for six or eight weeks, with no hope or promise of reward other than the satisfaction that comes to one who has done a difficult task satisfactorily; and now that the task is completed so successfully the people should give expression to their gratitude. Manager Temple Dunn, who was employed about three weeks ago, is also entitled to commendation, for he was an invaluable aide to Mr. Odell in handling the innumerable details of arrangement for the annual exhibit.

Now that the fair has been concluded, it occurs to The Bulletin that plans for next year's exposition should be launched at once. Each year we wait until a few weeks before the time for the fair before beginning to work out a program for the enterprise, and each year we permit the physical properties of the Fair Association to deteriorate through neglect, so that an additional expense is entailed. It is our idea that there should be secured at once a manager for next year's fair, and that he should be given employment for a period of twelve months, in order that every day in the year the fair may be maintained as a going institution, whose properties are properly cared for and whose program for next year is constantly in mind. A considerable sum of money has been invested in the Fair Association by business men and others who have contributed liberally to the enterprise, and this investment should be regarded with as much care as is given any other investment in the county. It probably will never pay a cash dividend, but if properly managed throughout the year it will pay real dividends to the whole county because it will provide a stimulus to the development of all the county's industries and will be responsible for increased production and prosperity.

All honor to Mr. Odell and the faithful directors who labored with him. Let's start now on next year's big show.

THEY HAVE TO BE SMART

**D**EAN DAVIS of the North Texas Agricultural College at Arlington has taken note of the oft-repeated charge that school-teachers are notoriously poor business men and women, and has issued instructions to his faculty "to establish a different sort of reputation for this institution." All office work must be turned out "with precision, promptness and exactness," and the personal business affairs of the teachers must be attended to in a proper manner.

Preachers, too, are frequently accused of being poor business men, although they, like the teachers, are able to refute the charge. The average school-teacher and the average preacher works for such a small salary that he must be a good business man in order to make both ends of his personal budget meet. While others are able to expand their incomes to some extent, the teacher and the preacher must be content with a fixed sum, and then must give away a part of that; and it costs just as much to feed and clothe a teacher or a preacher as it does a banker or a newspaper man or any other plutocrat. Careful economy—which, in the final analysis, is the essence of good business—must be practiced else disaster is certain.

NOT A REAL TAX REDUCTION

**C**HANGING THE LAW so as to reduce the automobile tax and permit each county to retain all the revenue derived from that source, and increasing the gasoline tax to three cents per gallon so as to provide revenue for schools and highways is not going to be as beneficial to the counties as some of the sponsors of the plan claim for it.

In the larger counties, perhaps, there will be a measure of benefit. Dallas county, for instance, collects an enormous sum in automobile license taxes each year, a sum that will be ample to take care of all the highway construction expenses in the county even after the Legislature reduces the license fees. Brown county, on the other hand, will receive little more than has been received through the Highway Department heretofore, and at the same time will contribute to the state highway and school systems a much larger sum by reason of the gasoline tax increase.

The proposal for a reduction of the automobile license tax appears to have been a compromise measure, designed to overcome popular objection to the gasoline tax increase. While coupled with the gasoline tax increase, however, it does not by any means represent a tax reduction, since the highway department is to receive more money than heretofore and the individual counties will receive about the same amount as has heretofore been due them from the payment of license taxes.

It's to be noted that almost every tax measure that is proposed involves a tax increase; especially when

it has to do with the taxing of new sources of revenue.

"UNCLE JOE" WEAKEY

**B**BROWNWOOD today paid its last respects to another of its rapidly disappearing pioneers when the mortal remains of J. C. Weakley were laid to rest in Greenleaf Cemetery. There are not many citizens now living here who were associated with "Uncle Joe" in the early days of his residence in Brownwood; for in recent years one after another has journeyed on, although he has been spared for an unusually long period of time to enjoy the fruits of his labors and to revel in the love of those staunch friends who had joined him as citizens here.

The Bulletin does not undertake to eulogize "Uncle Joe" Weakley, because it is unnecessary to point out to the readers of this newspaper the many worthy traits of his character. He lived and labored in Brownwood for fifty years, and during that half century he came into personal contact with probably every citizen in the city and county. He succeeded in business, and in his declining years was able to live in ease and enjoy the accumulated earnings of a long and vigorous life. He earned hosts of devoted friends because he was always ready to answer the call to personal service, and found joy in association with his fellow men. He erected in his own memory the monument that is Brownwood, devoting to the building of the city the best years of his life and carrying to the last day an unbounded faith in the city and its future. He reared a large family, every member of which has become useful in the citizenship of this and other cities. He was universally loved, always greeted affectionately wherever he went, and both old and young honored him and enjoyed him as long as his spirit dwelt in his mortal body.

There is no sadness in the death of such a man, for he had lived far beyond the allotted three score and ten years and was ready to answer the summons of death when it came. His life work was finished, he had done all that he could do to make the world better and the lives of the people of this community happier and more prosperous, and the end of his days came as peacefully as though he had "wrapped the draperies of his couch about him" and composed himself for peaceful slumber. Nevertheless, "Uncle Joe" Weakley will be sorely missed, and today there is many a heart that is heavy because of his passing. Brownwood will always honor his memory, and will always be grateful to the Master who spared him so long and gave him such a wide usefulness in this community which he loved and which loved him.

WATER CONSERVATION

**H**EAVERY RAINS in northwest Texas, Oklahoma and southern Kansas recently flooded a number of creeks and rivers, causing overflows of farm lands, destruction of valuable crops, damage to highways and railroads, and a disruption of the orderly routine of business and industry in dozens of communities. Along with the loss of property, there were at least three deaths as a result of the floods which swept homes away and marooned families in tree tops.

The losses occasioned each year by floods are almost as great as the annual fire losses. In recent weeks there have been particularly heavy losses at various points in the United States in addition to the Texas-Oklahoma-Kansas floods of a few days ago, and many millions of dollars worth of property has been destroyed and scores of human lives have been taken. Many of the more destructive floods were occasioned by the overflowing of small streams which under normal conditions carry very little water.

Brownwood should give its attention to the matter of preventing a disastrous flood in Pecan Bayou, as well as to the conservation of flood water here. Many times in the past the Bayou has overflowed, causing heavy losses to crops and livestock in the valley and disrupting travel into and out of this city. Even if there were no danger of losses due to floods, however, we need to take steps to conserve the flood waters so that instead of causing damage it may be saved for domestic consumption in this city as well as for irrigating the fertile Bayou valley acres.

Water is always a precious commodity. In Brown county, it is sometimes priceless because of long periods of drought; while in other seasons there is an overabundance of water and the Bayou and other streams are flooded as a result of the heavy rains that send enormous volumes of water down into the streams from the big watershed west and northwest of Brownwood. We need to control this flood water so that it may cause no damage, and to conserve it so that it may be available for use in periods of dry weather when for months at a time not a drop of rain falls here. The Bulletin believes that if there were no other considerations, these two reasons—the prevention of flood damage and the conservation of flood water—would amply justify the construction of the big dam in Pecan Bayou north of Brownwood, which is now being planned by engineers assisting the Brownwood water committee. The water project offers other advantages, but these two alone are sufficient, it seems to us, to induce every citizen to give his hearty endorsement to the plan for creating an enormous water reservoir in which there could be stored the flood waters that annually race down Pecan Bayou toward the Gulf of Mexico, to be lost forever so far as usefulness here is concerned, and causing destruction along the valleys of the streams as the waters overflow and damage growing crops and down valuable livestock. We need the reservoir for other reasons, but we especially need it to prevent flood damage and save flood waters for our own use.

Our opinion of faith that can be destroyed by the statement of a few scientific facts in a text-book is about the same as our opinion of \$100,000 afflictions that can be alleviated.—Columbus Ohio State Journal.

There's a Tennessee writer who has been touring the East is impressed with the large number of Texans he meets wherever he goes. He says: "Texans believe in seeing the country. They easily surpass any other section for seeing America. First, search any prominent register at the Seaside-Centennial and you will find Texas names liberally sprinkled upon its pages. I saw a particularly conspicuous party of 189 tourists in Montreal, which represents ten Southern states, and exactly 100 of them were from Texas." Texans want to know how other people live and what they are doing. They not merely want to see, but they are students. Therefore they are to be found in numbers wherever there is opportunity to see and learn things. This spirit will make the proposed Texas Centennial a big success. At least half the population of the State will be at that exposition when it is held.

TEXAS AND TEXANS

By WILL H. MAYES

What Texas Needs Most

**T**HE "Advertise Texas" Committee has recently made a survey of 100 counties of Texas to ascertain what is most needed in the state. The needs may be summed up as "men and money," or more specifically as "farmers and manufacturers." Practically every rural community expressed a need for more farmers, to place in cultivation the land that is now idle and therefore producing nothing. From the standpoint of local development it is doubtless true that more agricultural production would be helpful, but it is doubtful somewhat if the farmers themselves would be greatly helped if every available square foot of land was cultivated intensively, unless there is proportionate increase in manufacturing and in city life. Texas farmers are complaining bitterly just now that they have been unable to market their crops at profitable prices, due to lack of demand for what they have grown. They are asking, "Why grow more when we can't sell what we are now making?"

Manufacturing Necessary

What Texas needs most just now would seem to be greater consumption of Texas grown products, greater absorption rather than greater production. Manufacturers serve a double purpose. They convert raw products into goods that are in greater demand both at home and elsewhere. That is, they make products usable for the greatest number of people by converting them into the forms that are most desirable and most available. Cotton, for example, is almost worthless in itself; when made into clothing its value is immensely increased. So of all other farm products. Fruit is worthless until placed in the reach of those who require fruit. The second purpose served by manufacturers is that their operation requires large forces of people who must be fed and clothed and this provides local markets for local products. Therefore, if we are to prosper, we must encourage farming, Texas as a whole should just now center its energies on securing more factories.

Poverty Amid Plenty

I hope that I may not be thought pessimistic when I state that it should be evident to everyone that Texas is not growing to prosper as it should until it awakens to the importance of manufacturing. Fifty per cent added to the farm population of the State without an even greater increase than that in manufacturing would add to the poverty of the State more than it would help those now here. Organizations that are out after increased pay and money, however worthy their motives may be, are not helping our present farm population, if they would center their efforts on factory building, the farm settlement problem would take care of itself. With increased machinery one farm hand can now produce five or more times what he formerly could raise, but without a market for his commodities the incentive is lacking. Factories give population, however worthy their motives may be, are not helping our present farm population, if they would center their efforts on factory building, the farm settlement problem would take care of itself. With increased machinery one farm hand can now produce five or more times what he formerly could raise, but without a market for his commodities the incentive is lacking. Factories give population, however worthy their motives may be, are not helping our present farm population, if they would center their efforts on factory building, the farm settlement problem would take care of itself. ## Winter laying depends upon what they are fed from now on!

It's a big mistake to wait until mid-winter, and then to try to force your hens for extra eggs. The eggs hens lay in December and January are really started by the feed they get this month.

There is no better way to get lots of extra eggs all through the winter months than to start feeding Purina Poultry Chows right now.

You don't take a chance when you feed Purina Chows. You have a positive way of proving that you get your money's worth. When you buy Purina Chows at the store with the checkerboard sign, you will get free egg record blanks, so you can mark on them the extra eggs you get every day. Start making those extra eggs now, and see for yourself the difference a real feed will make.

## FRY PURCHASES BIG RANCH ON BAYOU VALLEY

A forty thousand dollar ranch sale to a Brown county farmer who has been enriched by oil production is reported today, following closely upon the purchase of the big Coggin Ranch a few days ago by the Woodridge brothers, M. E. Fry, upon whose lands the Fry oil field is located, has purchased the Charles Wilkins and John T. Baker ranches eleven miles south of Brownwood on Pecan Bayou, for a consideration of approximately \$40,000. It was announced by V. E. Wood of Carpenter & Wood, through whom the deal was consummated.

The Wilkins ranch consists of 800 acres, of which 100 is in cultivation, and the Baker ranch, which adjoins it and fronts on the Bayou, has 1200 acres, with about 250 in cultivation. Mr. Fry is now moving to the property, and will operate it as a farm and ranch. The combined ranch is one of the best properties in Brown county, it is said by those who are familiar with real estate conditions here.

Other recent deals. Among many other recent real estate transactions in which owners of Brown county oil royalties have figured was the recent sale to W. H. G. Chambers, father-in-law of Good Woodridge, of the Wilson and Williams farms east of Zephyr, two adjoining tracts, for \$15,000. Mr. Chambers previously had bought the King ranch east of Zephyr, 2,000 acres lying in the same neighborhood as his most recent purchase.

R. L. Fry, son of M. E. Fry, has purchased the Barnes residence on Third street, and moved his family to Brownwood, and Good Woodridge, one of the purchasers of the Coggin ranch, has bought a new home from Lawrence Moore, on Avenue E, and also has become a citizen of Brownwood.

These are only a few of the many Brown county people who have realized handsome incomes from oil production in this county and have made heavy investments in farm and ranch property, according to local real estate dealers.

#### WARRANTY DEEDS

Ray Cannaffax and wife to Jesse Bennett, part of block 2, Rankin addition, September 30th, \$3,150.  
J. D. Murphy and wife to N. B. Brin and E. C. Robertson 89 acres, J. R. Summer survey, October 14th, \$800.

Marg McGoey et ux to M. E. Fry, 1122 acres Oscar Robinson survey and 110 acres D. Y. Pylon survey, August 21, \$18,000.

W. J. Sullivan to W. T. Fain et al, lots 5, 6 and 7, Evan sub-division, October 4th, \$200.  
E. E. Barron and wife to R. L. U. 80 acres J. M. Higgin survey, June 1st, \$10.

ROYALTY CONTRACT  
Ed Puckett et al to R. C. Acors 30-227 interest 113 1/2 acres Robert MItche survey, March 9th, \$1.

OIL AND GAS LEASE  
Mrs. E. J. Thigpen et al to C. O. Moore Oil Corporation, 1/4 interest 100 acres H. T. & B. R. K. Company survey, July 10th, \$1.

## OIL WELL IN CROSS CUT AREA IS STILL PRODUCING HEAVILY

The D. C. Woodridge No. 5, by Wilson & Company, in the Cross Cut field, gauged 50 barrels per hour late Tuesday after a heavy shot. The well is approximately 1200 feet and is one of the biggest producers in the Cross Cut area.

Two more wells in the Cross Cut field were due to come in today. They are on the Willis Stone and D. C. Woodridge tracts, both of them reaching the sand Tuesday.  
W. H. G. Chambers reports two new wells making 40 and 50 barrels respectively. The Roy Hickman well is reported still holding up and producing 1,000 barrels per day.

Jack Pickrel has bought Mrs. Bairds cafe, and reports a fine business. As a matter of fact all cafes and rooming houses in Cross Cut are doing a nice business. In this connection it has been intimated that there is room in Cross Cut for several new business concerns. The more the merrier. The main street of Cross Cut is crowded day and night as late as midnight.

The Cross Cut school opened on Monday under the direction of Temple Dunn. The following are assistants: Miss Inez Marshall, Miss Olga Gormley, and Miss McDonald.

T. J. Evans with Paul Evans and family made a trip to Zephyr last Sunday. Many Cross Cut people visited the county fair in Brownwood last Saturday.

Many Cross Cut farmers are getting ready to sow winter grain.

## Oranges Bursting With Alcoholism on Texas Coast

GALVESTON, Oct. 5.—(AP)—Oranges in the gulf coast country are suffering from acute alcoholism, but this is one case where federal prohibition officers are unable to intervene.

Complaints made by orchardists in regard to ripe oranges splitting open have been investigated by John Canenbergh, botanist, who diagnoses the malady as acute alcoholism, an excess of alcohol in the oranges causing them to burst open.

The botanist explains in this way: The orange contains a quantity of sugar which ferments and forms alcohol, due to hot weather; a shower cools off the fruit, causing contraction, and the hot sun then causes the alcohol to expand rapidly, bursting the skin.  
He recommends the application of bold rimmed fungus to the fruit; the fungus absorbs the alcohol, thus saving the orange.

Grid-Graph Not to Show Friday Game of Yellow Jackets  
The Howard Payne Yellow Jacket-San Marcos game to be played Friday at San Marcos will not be shown on the Grid-Graph electric score board at Howard Payne. Alton Bell, manager of the enterprise, announced that due to the Daniel Baker-Austin College game here on the same day, he would make no effort to show the same.

## LEGISLATURE GIVES COMMITTEE BIG JOB CORRECTING ERRORS

Judge C. H. Jenkins, Chairman of the Codifying Commission, has given out the following statement in reference to alleged errors in the Revised Statutes of 1925: "I see that the Legislature has appointed a committee to report as to errors and omissions in Revised Statutes of 1925. I doubt if the Legislature realized the work that this committee will be called upon to perform. The Codifying Committee were authorized to re-write the Statutes of this State so as to express, not what the law ought to be, but what it was. To do this they were compelled to take the Revised Statutes of 1911, 7901 Articles in Civil Statutes and 1270 Articles in the Criminal Codes and 1297 Articles in the Code of Criminal Procedure, examine all of the Acts of twenty-five sessions of the Legislature held since the Revised Statutes of 1911 were adopted, and ascertain from such acts what amendments had been adopted to the 1911 Revised Statutes, and what new laws had been enacted which were not included in the 1911 Statutes. They should have had more time in which to do this work than was allowed them, but nevertheless by working two summers without a day's vacation they were able to present the Revised Statutes to the Legislature when it met."

"The committee provided for in the resolution referred to, to do their work properly, will be required to examine every article in the Revised Statutes of 1911, and all of the Acts of the Twenty-five Sessions of the Legislature thereafter, prior to the adoption of the Revised Statutes of 1925, and compare same with the 8324 Articles of the Civil Statutes and 1270 Articles of the Criminal Code and the 1287 Articles of the Code of Criminal Procedure, which comprise the Revised Statutes of 1925.

"The press reports Judge Kirtrell, a member of the Legislature, as saying that the Revised Statutes of 1925 are 'full of gross errors.' In this I think Judge Kirtrell is in error. There are some errors in the State's Edition of the Revised Statutes of 1925, but I think they are comparatively few. Judge Kirtrell, indicating two of such errors, says, 'the Statutes covering the right of a person to prove ownership of property by the recorded deed and the Statutes covering perjury have been omitted.' By reference to the Criminal Code of 1925, Article 362-369, it will be seen that both perjury and subornation of perjury are provided for in said Code. The right to prove title by recorded deed where the original was lost was omitted from Article 372b, by the use of 'and' instead of 'or' after the word 'Clerk of the County Court.' This may have been a typographical error of the stenographer, or of the printer and overlooked by the proof-reader. This error can easily be corrected by a bill re-enacting Article 372b and inserting the word 'or' in lieu of the word 'and.' Any other errors in Revised Statutes of 1925, can easily be corrected in this manner."

## THRIFTY HOUSEWIVES all over Brown-wood Trade Territory are saving our premium checks, they have almost twice the redeemable value of any other similar trading stamps or checks.—Looney Merc. Co.

On July 4, 1878, he moved his family to a two-story building in the vicinity of the Marquart building on Broadway now stands.

In the meantime he had bought property, one of his first purchases being a lot that is now included in the lots covered by the Austin-Morris Furniture building, and

he was a member of all—to use his words, and in his diary all the time there was a song and a Psalm, because he lived his religion, and followed to the utmost the Golden Rule: "Whatever ye would that men should do to you, do ye even so to them." He died as he had lived, and lived as he died—faithful, true, devoted—father, husband, and loyal friend and citizen. We of Brownwood are going to miss him—there is none other just like him, and as the years come and go, we shall never cease to remember with love and affection, the smile, the handshake, the cheering presence of Uncle Joe.

## J. C. WEAKLEY CAME HERE IN PIONEER DAYS

BY HENRY C. FULLER  
JOSEPH WEAKLEY, known to his friends and to all who knew and loved him simply as "Uncle Joe," died at his home, 411 Center Ave. at 5 o'clock Saturday morning, following an illness that extended back through several months, and from which at one time, about two or three weeks ago, it seems that he would recover. It was not destined to be so, however, and after a brave fight, with all the aid that medical skill and kind and loving hearts and hands could give to keep him here, he passed quietly away, without a struggle, as one sinking into peaceful slumber.

Was Indianian.  
Joseph C. Weakley was a native of the Hooper State—born in Indianapolis, Indiana, April 2, 1839. He was therefore, 87 years old the fourth day of last April. His was a life that was made up of active and stirring events. In his native state he grew to manhood. In his youth he adopted the trade of tinner, and this he claimed as his avocation all through his subsequent years. If anybody happened to ask Uncle Joe his avocation he would invariably answer that he was a tinner. He learned this trade and became proficient in it, in his native town. When the Civil war came on he enlisted, and being acquainted with band music, was put in one of the many bands in the Union army from his state. He served for a time, in this capacity, and was honorably discharged. Returning to his home town he took up his chosen work, and made immense numbers of canteens for use in the Union army.

He moved to Brownwood in 1879. He was there the night that Lincoln was assassinated at Ford's Theater in Washington, the night of April 14, 1865, and he once told the writer of these lines that on the night mentioned, he was walking one of the "beats" in Indianapolis, and relieving for a few hours a member of the police department. It was on this "beat" that he passed a telegraph office and as he did so, the operators, who were walking on the sidewalk, told him to run down the street a block or so and tell the Indianapolis News or Sentinel, which ever paper it was, that President Lincoln had been assassinated. Without asking any questions young Weakley sped to the telegraph office, and broke the news that instantly brought pandemonium. In those days the telegraph used a ribbon that came off a cylinder and this had to be taken off, cut and deciphered. The present sounder was not known at that time.

When the body of Lincoln on its journey from Washington, to Springfield, passed through Indiana the body was taken to the capital, there a late in state. Young Weakley was one of several young men who acted as escort from the train to the capital.

Mr. Weakley recalled in an interesting way the stirring debates between Abraham Lincoln and Stephen A. Douglas, which took place in Illinois, just prior to the Civil War, and he had the privilege of hearing two or three of these debates.

The birthplace of Mr. Weakley was in the immediate vicinity of the old Tippecanoe battle where General William Henry Harrison defeated the Indians under Tecumseh, and the Prophet, November 11, 1811.

Leaves For West  
In 1856 young Weakley decided to leave his native state and go west. So, with Denver as his destination, he set out. On reaching St. Joseph, Missouri, which was the end of his long, long trail, that led across the Great American Desert to California, he found that it would be some time before another caravan would start across the plains, and so he decided to give up his western trip for the present at least and try his fortune somewhere in the south. With this idea in view he left St. Joseph, and went to St. Louis, where he stopped until the year 1876, when he could no longer repress the desire to try his fortune in the south, and leave St. Louis, he went to New Orleans by boat. His stay in New Orleans was brief and he left for Galveston where he arrived in 1878. He stayed in the Island City until 1871 and then came to Waco, where he stayed until 1875 when he came to Comanche. During these three years as he was moving, always towards the west, he followed his avocation as that of a tinner, wherever he stopped and every moment of his time was a busy moment.

On the 15th day of April, 1876, he rode into Brownwood, which at that time was a mere village with only a few houses. As Uncle Joe has often said, the place looked good to him and he then and there, on that fateful day, more than 50 years ago, decided that he ought to go no further, and that here was the place for him. With him to decide was to act and he at once prepared to move over from Comanche. With his family, he moved into a house sixteen feet square that stood where the jail now is. The flooring let the wind come in, and to obviate this uncomfortable feature, he secured some cotton bagging and spread it on the floor, thus excluding the wind, and in the small cabin he and his little family lived comfortably. In the meantime he had secured several contracts for tinning roofs—the Bernay building, the Taber house, the Bair building, and perhaps one or two others, enough to keep him busy all the time.

On July 4, 1878, he moved his family to a two-story building in the vicinity of the Marquart building on Broadway now stands. In the meantime he had bought property, one of his first purchases being a lot that is now included in the lots covered by the Austin-Morris Furniture building, and

he was a member of all—to use his words, and in his diary all the time there was a song and a Psalm, because he lived his religion, and followed to the utmost the Golden Rule: "Whatever ye would that men should do to you, do ye even so to them." He died as he had lived, and lived as he died—faithful, true, devoted—father, husband, and loyal friend and citizen. We of Brownwood are going to miss him—there is none other just like him, and as the years come and go, we shall never cease to remember with love and affection, the smile, the handshake, the cheering presence of Uncle Joe.

He leaves as members of his family to mourn his death:  
Children—Mrs. Lee Watson, of Brownwood, Mrs. R. L. Miller, of Dallas, Mrs. M. C. Robertson, of Omaha, Nebraska, Mrs. Etylene W. Years, of Seattle, Washington, Harry Weakley and Eugene Weakley, of Detroit, Michigan. The present address of Harry Weakley is not known, but it is probable he will see the newspaper accounts of his father's death and hurry to the funeral.

Grand-children—Walter W. Watson, Lee Watson, Jr., Mary A. Watson and five great-grandchildren.

## Auto Death Toll

WASHINGTON, Oct. 2.—(AP)—Approximately 13,250 persons were killed and 350,000 injured by automobiles in the United States during the first eight months of the year, the American Road Builders' Association reported today. Plans for curbing the number of casualties will be discussed, the statement added, at a special meeting on road builders' day at the Sesqui-Centennial exposition, Philadelphia, October 30.

## SICKLY, PEEVISH CHILDREN

Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath, and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 25c. Sold by Camp-Bell Drug Co.

NEEDLES and PINS—complete stock sewing machine needles for all makes of machines.—Looney Merc. Co.

BE WITH THE CROWDS at this store Saturday.—Looney Merc. Co.

## MEETING NEXT FRIDAY NIGHT WILL DISCUSS POULTRY SHOW PLANS

Next Friday night a meeting will be held at Charlie Day's garage for the purpose of discussing plans for the largest and best poultry show ever staged in Brown County. It is hoped that every person who is in any way interested in the development and improvement of the industry and putting on of a great and worthy show will be on hand at the appointed hour. The intentions of every poultry raiser in Brown County is to put on a bigger and better show in December than has ever been attempted in this part of Central West Texas. There is no reason why this should not be done. The chickens are here in vast numbers—chickens of the highest standard. Turkeys are here in any number and the same is true as to various other birds. It is hoped nothing will be left undone at the meeting Friday night to start the ball rolling in good shape. Start now. Appoint committees, draw plans, arrange a program, and thus be on time. It would not do any good for Brownwood to miss a great poultry show. Let's have it.

BE WITH THE CROWDS at this store Saturday.—Looney Merc. Co.

## NOW DRIVE THE CAR

Only those who have driven a Dodge Brothers Special Sedan—or any Dodge Brothers car BUILT RECENTLY—can fully appreciate all that Dodge Brothers have accomplished during the past few months.

So swiftly has improvement followed improvement, that today the car, to all intents and purposes, is a different and incomparably finer vehicle.

The announcement of smart new body lines and attractive color combinations first attracted general favor. But since then, improvements even more fundamental have been accomplished mechanically.

Drive the car NOW! Observe its impressive new silence, smoothness and elasticity of performance, and you will then begin to realize just how vital and varied these and other later improvements actually are.

TEETH WINNING  
BALLY CINCHES  
YANK VICTORY

SPORTSMAN'S PARK, St. Louis, Oct. 7.—(AP)—Rallying at the close of a hard fought pitchers' battle between Sherdel and Pennock, the Yanks defeated the Cardinals, 3 to 2, in ten innings, in the first world's series game here today. The American Leaguers tied the score in the ninth and put over the winning run in the tenth.

A last minute change was made in the Card lineup when it was found that Douthett, injured in a collision with Hafey yesterday, would not be able to play. Manager Hornsby announced that Holm would play center field and bat first for the Cardinals.

Jumping Joe Almost Nipped

Joe Dugan made the Yank's first hit in the third game of the World Series, played at St. Louis. He was almost caught at first by a snap throw from O'Farrell, Cardinal catcher. This shot shows him just beating the throw to Jim Bottomley.

Back up against the wall to make the catch. A foot runner and it would have been a long run. One run, two hits, one error.

high and inside. Ball three, low. Strike one, called. Holm walked, the fourth pitch being outside. Southworth up. Foul, strike one. Ball one, inside. Foul, strike two. Southworth was trying to sacrifice. Southworth forced Helms. Penneck to Lazzari. Hornsby up. Strike one, called. Strike two, swung. Ball one, low. Hornsby hit into a double play, Lazzari to Koenig to Gehrig. No runs, no hits, no errors.

**NINTH INNING, YANKEES**  
Gehrig up. Ball one, outside. Gehrig got a double into left field. It was a high fly that fell back of third base. Lazzari up. Strike one, called. Lazzari claimed he did not swing at the ball and Manager Huggins made a protest at the plate. Huggins protested vigorously but it availed him nothing. Lazzari bunted safely. Gehrig going to third. Dugan up. When Dugan came to the plate he was withdrawn. Paschal taking his place. Paschal up. Strike one, called. Foul, strike two. Ball one, wide. Foul, strike two. Gehrig scored on Paschal's Texas Leaguer to center. Lazzari stopped at second. Penneck forced. Paschal forced Lazzari. O'Farrell to Bell. Paschal going to second. Penneck up. Strike one, called. Ball one, outside and high. Foul, strike two. Ball two, outside. Penneck forced Severel. Thevenow to Hornsby. Paschal went to third. Combs up. Hornsby threw out Combs. One run, three hits, no errors.

**TENTH INNING, CARDINALS**  
O'Farrell up. Ball one, high and outside. Ball two, low. Strike one, called. Ball three, wide. Strike two, called. O'Farrell sent a high foul to Gazella. Thevenow up. Thevenow singled into right. Flowers batting for Sherdel. Flowers up. Flowers popped to Gehrig. Holm up. Ball strike one, called. Foul, strike two. Strike one, called. Foul, strike two. Gazella threw out Holm at first. No runs, one hit, no errors.

**TENTH INNING, YANKEES**  
Koenig up. Foul, strike one. Ball one. Strike two. Koenig singled

CONVENTION IS  
AROUSSED OVER  
CHURCH ACTION

DETROIT, Oct. 7.—(AP)—Following the recommendation of President Green, the American Federation of Labor resumed the regular order of business soon after the opening of the morning session today without approving formal action upon the withdrawal by Detroit churches of their invitations to labor speakers.

Failure of overnight attempts to calm the rising temper of resentment in convention circles left the discussion at the top of the convention's calendar of unfinished and side-tracked routine matters for a possible continuation of yesterday's three hour denunciation of the groups which had closed the city's pulpits to spokesmen of organized labor.

Berkeley, Calif.—Helen Willis is among the honor students at the University of California. She is a member of Phi Beta Kappa.

convention just before adjournment last night.

**Invitation Declined.**  
A few hours after the fiery session, President Green declined the invitation of the Federal Council of Churches to speak Sunday afternoon at a mass meeting in the first congregational church on the "ideals of labor and the church."

**Insult To Labor**  
George L. Berry, president of the International Printing Pressmen's and Assistants' Union of North America and Former Vice-Commander of the American Legion, defined the action of the Detroit churchmen as an insult to organized labor, and denounced the Detroit churches as an insult to organized labor, and denounced the Detroit board of commerce, which he charged inspired their action, for having published a letter to ministers characterizing the labor speakers named for Sunday engagements as "men admittedly attacking our government and our American plan of government."

**WASHINGTON—**America is in danger of losing its soul in its greed for money, in the opinion of Miss Mabel T. Boardman, secretary of the Red Cross; and the criminality among young men and women seems to me that this is the place to answer this, in a very emphatic fashion, manifestation of autocracy in Detroit.

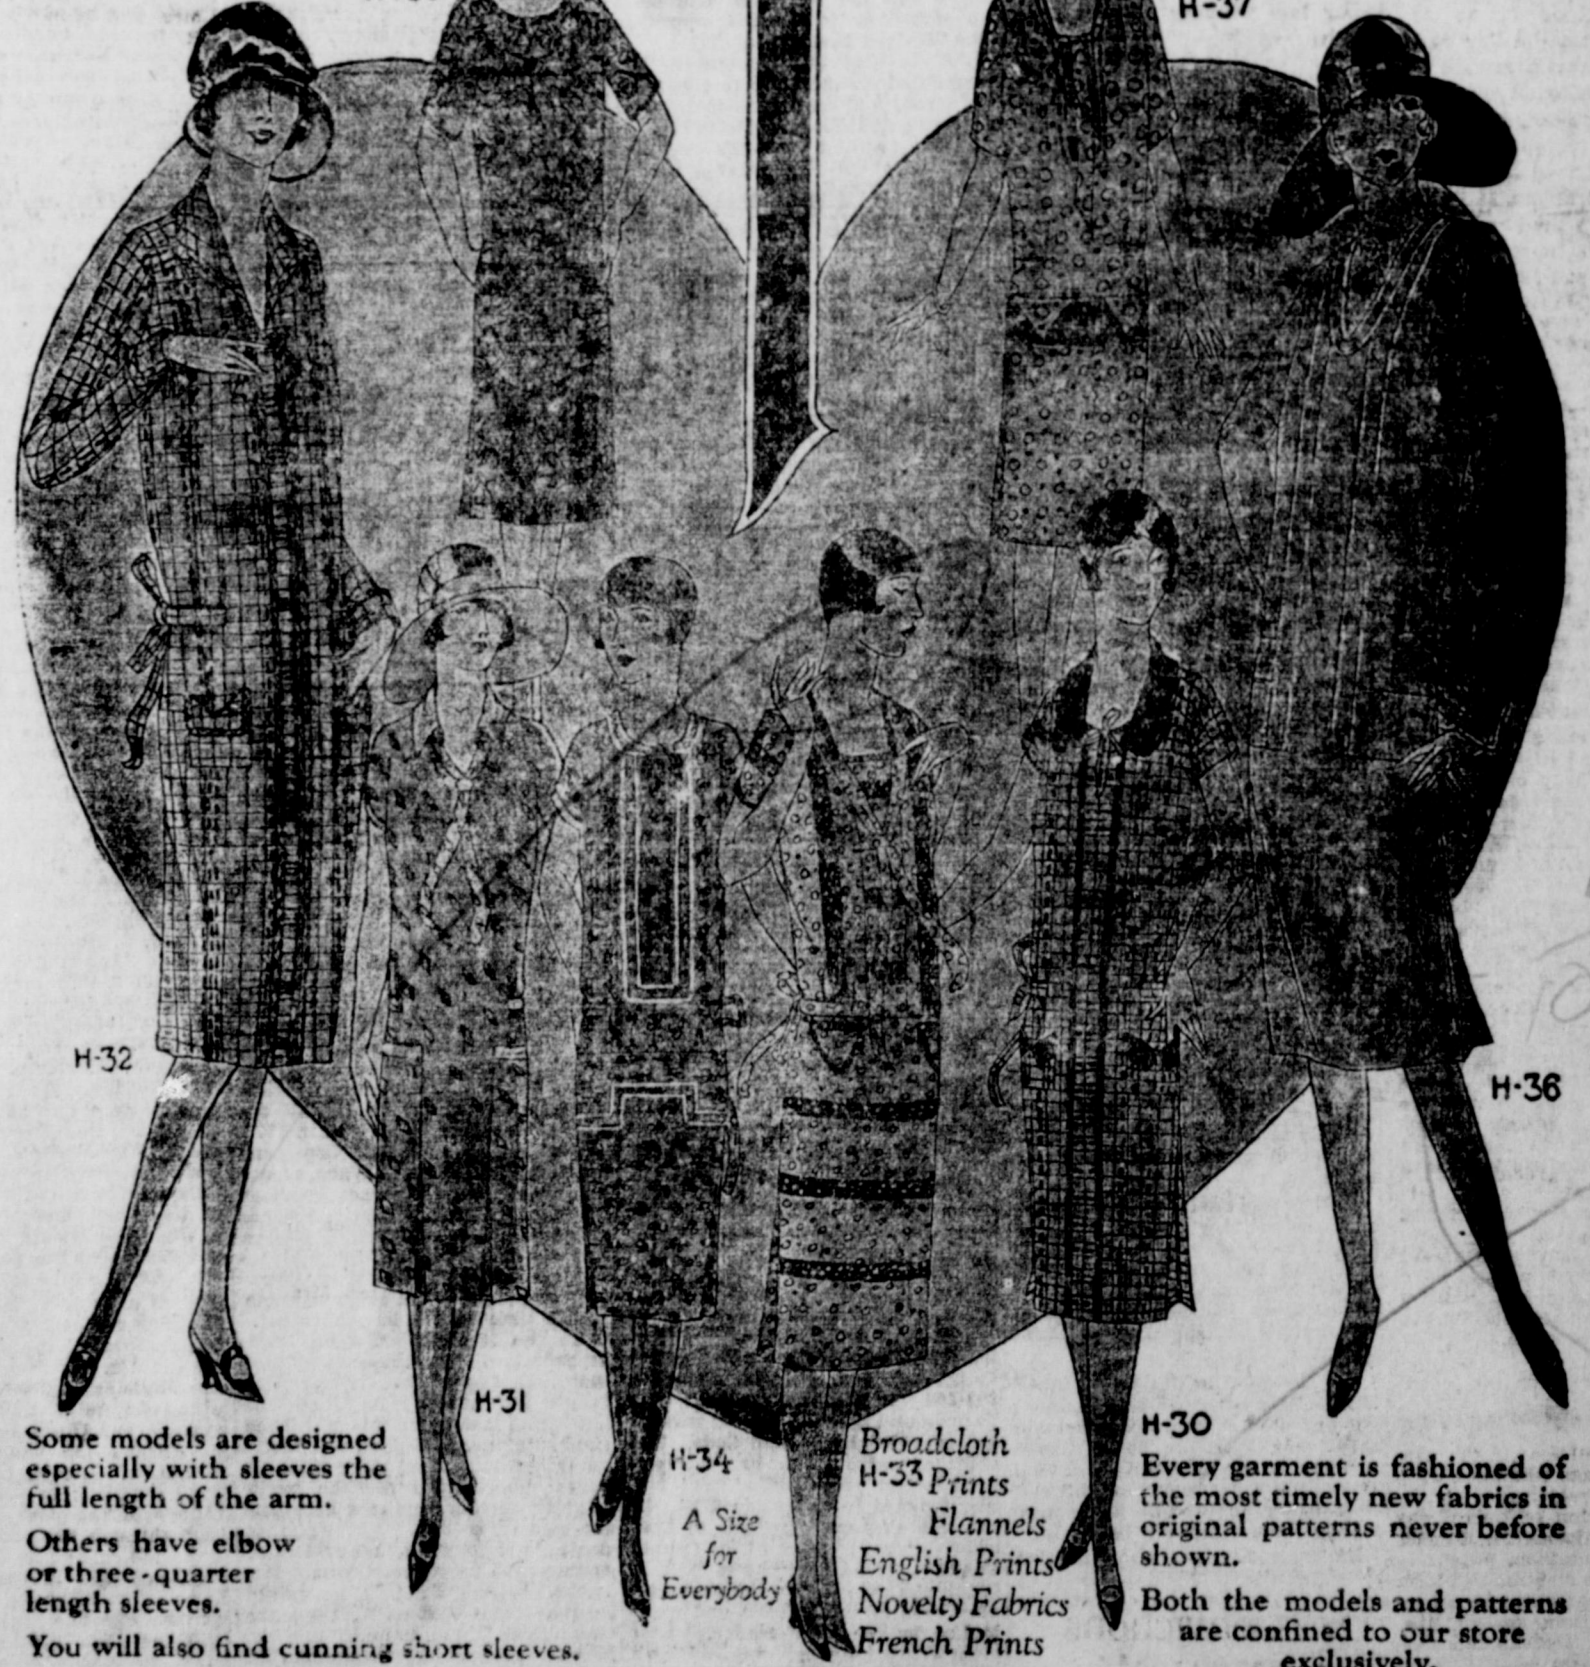

**NEW YORK—**Marion Talley has taken out life insurance for half a million, of which \$200,000 would go to a fund in Kansas City for training poor singers of talent; the rest will go to relatives.

**BRIDGETOWN, N. J.—**One reason for the refusal of the Western New Jersey Baptist Association to ordain Mrs. Elizabeth M. Finn of Philadelphia is that St. Paul counseled: "Let the women keep silence in the church." One of her supporters argued that if St. Paul had been married he would not have spoken like that.

**THIRD INNING, CARDINALS**  
Sherdel up. Strike one, called.

**FIRST INNING, YANKEES:**  
The umpires gathered at the plate and gave the final instructions on ground rules to Manager Hornsby of the Cardinals and Coach William O'Leary of the Yanks. Meanwhile the crowd stood and unconcerned up and both reported themselves as in fine shape for the day's play.

**SECOND INNING, YANKEES**  
Meusel up. A big bouquet was presented to Ruth as he came to the batter's box. Strike one, called. Ball one, outside. Lester Bell knocked down Meusel's hot shot and threw him out. Gehrig up. Ball one, low. Ball two, wide. Ball three, low. Strike one, called. Strike two, called. Gehrig singled over the middle bag with the count three and two. Lazzari up. Foul, strike one. Ball one, inside. Lazzari singled to right. Gehrig going to third. Dugan up. Ball one, inside. Ball two, outside and low. Dugan hit in to a double play. Hornsby taking Dugan's grounder, touching Lazzari and getting Dugan with a quick throw to Bottomley. No runs, two hits, no errors.

**FIFTH INNING, YANKEES**  
Lazzari up. Ball one. Foul, strike one, called. Lazzari tried to bunt. Strike two swings. The crowd howled when Lazzari missed a slow curve. Bell threw out Lazzari at first. Lazzari went after another slow ball. Dugan up. Ball one, outside. Strike one, called. Dugan fled out to Bottomley. Severel up. Ball one. Severel fled out to Hafey. Sherdel had the Yank batters mystified by his slow curves. No runs, no hits, no errors.

**SEVENTH INNING, YANKEES**  
Dugan up. Foul, strike one. Strike two, called. Dugan popped out to Bell, going after a low curve. Severel up. Strike one, swung. Ball one, low and outside. Thevenow threw out Severel at first. Penneck up. Sherdel took Penneck's hopper and tossed him out at first. No runs, no hits, no errors.

**SECOND INNING, CARDINALS**  
Bell up. Ball one, high. Foul, strike one. Bell hit a long foot to the cash customers in right. Bell struck out, taking a third called strike. Hafey up. Foul, strike one. Foul, strike two. Ball one, high. Foul. Ball two, high and outside. Foul. Hafey kept fouling off Penneck's slow curves. Dugan took Hafey's grounder and made a wide throw to Gehrig who touched the runner as he came into the bag. O'Farrell up. Strike one, called. Ball one, low. Ball two, low. Ball three, inside, low. O'Farrell singled off Penneck's glove, the ball bouncing to Koenig, but too late to make the throw. Thevenow up. Thevenow sent out a fly to Combs. The Cardinals were trying the hit and run play. No runs, one hit, no errors.

**THIRD INNING, YANKEES**  
Severel up. The sky was becoming quite overcast. Severel sent out a fly to Holm, who made his first world's series catch. Penneck up. The spectators applauded the New York pitcher. Ball one, inside. Strike one, called. Strike two, called. Ball two, outside. Ball three, outside. Sherdel cut off a seeming hit by Penneck. Sherdel caught the ball in his gloved hand. Combs up. Ball one, low. Ball two, low. Strike one, called. Strike two, called. Ball three, high. O'Farrell took Combs short roller and threw him out. Sherdel worked a wide curve on the corners of the plate all through the inning. No runs, no hits, no errors.

J. P. McLEOD

FINE PROGRAM SATURDAY AT COUNTY FAIR

With a prospect that its expense account may be balanced the Brown County Fair came to a close Saturday night after one of the most entertaining programs ever given in Brownwood has been presented before the grandstand by the colored people of the city.

President W. J. Odell said Monday that he will be unable to give a financial statement of the Fair until after outstanding accounts had been audited, but that he hoped to be able to "break even" as a result of the liberal patronage given at the Fair on Saturday.

Under the direction of R. F. Hardin, who has been principal of the Brownwood colored school for the past twenty-five years or more, the colored people presented an unusually attractive program Saturday night. The grandstand was two-thirds filled which was by far the largest crowd of the fair.

Some of the song numbers were especially good, the singers showing that they possessed splendid voices and had been well trained. The group songs were by the girls' glee club of the colored school, and their rendition of the negro spirituals was most pleasing.

Funeral of Mrs. Bass Was Attended by Vast Number People Today. The funeral of Mrs. Mary Feris Bass was held at the residence of J. L. Ellis, at 10:30 this morning, and was attended by a large number of people in Brownwood and from adjoining towns and localities.

Several farmers in the Jones Chapel locality will try ribbon cane next year and stalks as well as stables have been secured for this purpose. Several small patches were tried out this year and the results were of a very satisfactory nature.

Two Convictions in Pistol Cases in County Court. A jury in the county court found Herman Anderson guilty on a charge of carrying a pistol and assessed his punishment at \$100.00 fine and 30 days in jail.

The county court is hearing the case of the State of Texas versus Verner Snipes, charged with carrying a pistol, the defendant pleaded guilty, his punishment being \$100.00 fine and 30 days in jail, the minimum penalty for that offense.

WOMEN'S DEPARTMENT AWARDS

The following is a list of prizes in the women's department: Art and Textile Department DIVISION U Embroidery

Lunch cloth and napkins: 1st prize, Mrs. A. L. Vernon, Ricker; 2nd prize, Miss Tula Petty, May. Lunch cloth and napkins of Colored Embroidery: 1st prize, Mrs. J. R. Bettis, May; 2nd prize, Mrs. D. V. Bourn, Winchell.

Table cloth and one napkin: 1st prize, Mrs. Frank Bettis, Blanket. Table runner: 1st prize, Miss Belle Haynes, Brownwood. Centerpiece of colored embroidery: 1st prize, Mrs. J. W. Remington; 2nd prize, Mrs. L. Fields Harris.

Center piece of white Embroidery: 1st prize, Mrs. Frank Thompson; 2nd prize, Mrs. A. D. Johnson. Four tea-napkins: 1st prize, Mrs. Station Pouns. Towels: 1st prize, Mrs. Frank Thompson; 2nd prize, Mrs. Harry McGhee.

Best specimen of cut work: 1st prize, Mrs. R. D. Sanderson; 2nd prize, Mrs. A. D. Johnson. Best bed spread, white: 1st prize, Mrs. R. D. Sanderson; 2nd prize, Mrs. D. V. Bourn, Winchell.

Best child's dress embroidered: 1st prize, Mrs. E. H. Bettis, May; 2nd prize, Mrs. Estell Mills, Indian Creek. Best pillow slips: 1st prize, Mrs. R. D. Sanderson; 2nd prize, Mrs. Frank Thompson.

Best specimen of Embroidery: 1st prize, Mrs. W. G. Grady, Indian Creek. Best specimen of Embroidery: 1st prize, Mrs. W. G. Grady, Indian Creek. Best specimen of Embroidery: 1st prize, Mrs. W. G. Grady, Indian Creek.

Best specimen of Embroidery: 1st prize, Mrs. W. G. Grady, Indian Creek. Best specimen of Embroidery: 1st prize, Mrs. W. G. Grady, Indian Creek. Best specimen of Embroidery: 1st prize, Mrs. W. G. Grady, Indian Creek.

REMANDED TO JAIL WITHOUT BOND BY COURT

CHROESBECK, Texas, Oct. 6.—(AP)—Hugh David "Toptoe" Butler, 18 year old Groesbeck youth, is in the county jail, remanded without bail to await action of the grand jury on two charges of murder in connection with the double killing which took place at the Limestone county fair last Saturday afternoon.

Before a crowded courtroom in Judge Fountain Kirby's court Monday afternoon the youth, with his father, H. L. Butler, pleading his case, was held to answer and the case was considered a non-bailable one by Judge Kirby.

More than a dozen witnesses were called by the prosecution, while but one witness was called for the defense. County Attorney Scott Reed and Assistant Carl Cannon were handling the prosecution. The courtroom was crowded, standing room being in demand. A battery of officers surrounded the youth as he sat at the defense counsel table, and other officers milled about among the spectators, another of Sheriff Whit Popejoy's precautionary steps to prevent violence.

Baxter Building Brownwood, Texas

County Notes

Merl Brooks of Lubbock came in Monday for a visit to his parents, Mr. and Mrs. R. L. Brooks. Dr. and Mrs. T. D. Holder and Mr. and Mrs. Maurice Bell are Dallas visitors this week. Emmett Marlette has gone to Cross Cut where he has employment in the oil field. Morgan and family have moved back to Bangs this week from Brownwood. Mr. Morgan has accepted a position with the Coffey Drive-in Station and will meet his friends there this week. Mr. and Mrs. W. V. Dunsmuir and Veda Nell Brooks visited Mrs. Dunsmuir's daughter near Blanket Sunday. Mrs. R. C. Stephens is reported on the sick list this week. Miss Orla Martin left Tuesday for Fort Worth where she will enter a school. Miss Winnie Swanson of Daniel Baker visited her parents, Mr. and Mrs. S. S. Swanson Sunday. Miss Era Nix of Brownwood visited relatives here Tuesday. Mrs. H. D. Peoples and small daughter of Brownwood came out on Friday and remained over Sunday with Mrs. Peoples's mother, Mrs. E. A. Taylor. Mrs. Houser and small daughter returned to their home at Sipe Springs Saturday after a visit to Mrs. Houser's sisters, Mrs. Maurice Bell and Mrs. T. D. Holder. Quite a number of people who belong to the Brown county B. Y. P. U. met at the Baptist church Sunday in a business meeting. Following this B. Y. P. U. that was to render the program did not even get here. Rev. H. D. Peoples of Brownwood gave us a talk on the Fall round-up for Missions which was enjoyed by all who heard him. Jesse Nelson, who has been suffering for some time with typhoid fever is able to be in town. Andrew McQuay, who is at Glenrose for the benefit of his health is reported very ill. Baten, Dean and Vannie Brooks of Dallas are here visiting their parents, Mr. and Mrs. R. L. Brooks. Mrs. Hubert Jones of Rising Star is here visiting her parents, Mr. and Mrs. R. L. Brooks. Mrs. Alva Fielder of Abilene is here visiting her parents. The sale at Guyger's store has been attracting quite a bit trade this week, and people are availing themselves of getting some bargains. Bangs is on a building boom about five new dwellings to be built in the very near future. Mrs. Emmett Smith of Brownwood and her parents, Mr. and Mrs. Steele of Lottville visited Mr. Steele's sister, Little Gypsy Yarbrough Tuesday.

Grain and Provisions

CHICAGO, Oct. 7.—(AP)—Helped by unlooked for upturns in quotations at Liverpool, the wheat market here averaged higher today during early dealings. Opening unchanged to 1/4 up, wheat reacted a little and then advanced all around to well above yesterday's finish. Corn and oats were easy, corn starting 1/4 to 3/8 off, and subsequently continuing to sag. Provisions showed strength. WALL STREET STOCKS NEW YORK, Oct. 7.—(AP)—Rallying tendencies were in evidence at the opening of today's stock market despite continued liquidation of a few specialties. Initial gains of 1 to 3 points were scored by Allied Chemical, Du Pont, American Smelting, Southworth, New York Central, Southern Railway and Baltimore and Ohio while large blocks of U. S. Steel, Hudson Motors and Radio changed hands at fractionally higher prices. Foreign oil shares, such as Royal Dutch, were heavy and Coca Cola, General Railway Signal and Electric Refrigeration were under pressure. With the assurance of relatively easy money rates and evidence of strong support at the opening, operators for the most part pressed their advantage, causing a quick retreat of short interests who apparently had over-extended their activities in the decline of the past three days. Many of the issues which had been conspicuously weak re-bounded 2 to 4 points in the early dealings, with fresh investment buying attracted by the lower price levels recently established by seasonal sales. Chesapeake and Ohio, Nickel Plate and other Van Swearingen rails were strong and Colorado and Southern reached a new top for the year. Pullman, Thompson Machine and Commercial Solvents "B" scored good recoveries. Foreign exchanges opened steady, with Belgian franc rallying on prospects of an early stabilization loan. POULTRY CHICAGO, Oct. 7.—(AP)—Poultry alive easy; fowls 25 1/2; springs 23; turkeys 34; roosters 18; ducks 23; geese 20. BUTTER AND EGGS CHICAGO, Oct. 7.—(AP)—Butter higher; creamery extras 42 1/2-43; standards 43 1/2-44; extra firsts 43 1/2-44; 1-2; firsts 38 1/2-41; seconds 35 1/2-37 1/2. Eggs higher; firsts 38 1/2-39; ordinary firsts 36 1/2-37; refrigerator extra 35 1/2-37; refrigerator firsts 31 1/2-32. POTATOES CHICAGO, Oct. 7.—(AP)—Potatoes firm; Wisconsin sacked and bulk round whites 2.00@2.40; Minnesota sacked round whites 2.00@2.20; North Dakota-Minnesota sacked Red River Ohio 2.65@2.75; Idaho sacked russets 2.40@2.50; Colorado sacked brown beauties 2.40@2.50. Livestock EAST ST. LOUIS, Oct. 7.—(AP)—Hogs 11.50; slow; bulk 13.35@13.60; packing sows 11.75@12.00. Cattle 4.50; calves 1.50; slow; western steers 6.00@7.35; vealers 16.00. Sheep 2.50; steady; lambs 13.25@13.50; fat ewes 4.00@6.00. OKLAHOMA CITY, Oct. 7.—(AP)—Cattle 1.80; lower; cows 5.50 up; heifers 8.00; vealers 9.00@10.00. Hogs 7.00; steady; bulk 13.40@14.00. CHICAGO, Oct. 7.—(AP)—Hogs 21.00; heavy 12.75@14.05; medium 13.40@14.05; light 13.00@13.90; packing sows 11.00@12.50; slaughter pigs 11.25@12.50. Cattle 15.00; practically no market early; vealers 15.00 down. Sheep 24.50; active; western lambs 14.00@14.25; natives 14.75; fat ewes 6.00@6.75. KANSAS CITY, Oct. 7.—(AP)—Cattle 6.50; calves 1.60; slow; long yearlings 10.75; vealers 14.50. Hogs 6.00; bulk of sales 12.75@13.60. Sheep 17.00; higher; western lambs 14.00; top ewes 6.25. Cotton NEW ORLEANS, Oct. 7.—(AP)—The cotton market opened easy owing to lower Liverpool cables and first trades showed losses of 8 to 8 points. On reports that Liverpool interests were selling in that market and buying in the American market, prices rallied. December advancing to 13.27, January to 13.33 and March to 13.47. NEW YORK, Oct. 7.—(AP)—The cotton market opened barely steady at a decline of 4 to 21 points under overnight selling orders from the south and a favorable weather map. December sold off to 13.19 and March to 13.53 at the start but offerings were comparatively light and prices steadied up on covering. December rallied to 13.29 and was holding a point or so above yesterday's closing quotations at the end of the first hour. October was relatively easy at the start, but recovered part of its loss on a very small volume of business. Cotton Letter FURNISHED BY BERRY & LATHAM NEW ORLEANS, Oct. 7.—While the market averaged slightly lower today due to evening up accounts in advance of tomorrow's business report, the undertone was comparatively steady considering the uncertainty attending Friday's government report forecast. There are indications for the return of unfavorable weather in the southwest where prospects are for increasing cloudiness and unsettled weather, probably rain over the week-end. The chief executives of the Cot-

HILL BILLIES PRIMED FOR KANGAROO OUTFIT ON FRIDAY AFTERNOON

Coaches Blair and Ransom have their Hill Billies all primed for their game with the Austin College Kangaroos Friday. The Billies and the followers of Daniel Baker are very confident that the Goats will tame the Kangaroos by at least two touchdowns. Everyone in Brownwood is expecting the contest to be hard fought all the way through and do not consider that the Austin College bunch does not have a chance to win. Those who have seen the Goats in their two games, the fight they put up against T. C. U. and their 30 to 0 win over McMurry Indians, cannot help but feel confident about Friday's game and feel that the Billies are on their way to the championship of the T. I. A. A. After T. C. U. defeated the Centenary Gentlemen 24 to 14 and showed such a strong offensive, the sport scribe for the Star Telegram, said that the small score in the Horned Frog-Billy game was not due to the weakness of the Frogs but due to the strength of the Hill Billies. Most of the men on the Hill Billy squad are in first class condition. Cobb, star guard, who has been out all the year with a bad leg will be "cracking" to go Friday. Captain McInnis, who was out of the Daniel Baker-McMurry game with a crippled leg is in shape again. Trammel, star end, who was knocked out in the McMurry game is getting in shape again, and the Billies will have almost their full strength on the field to start the game with. This game will not count for or against either team in their respective conferences but both are anxious to win. The Hill Billies meet several Texas Conference teams this year, and the coaches are going to center their attack on these teams, to prove to the world that Daniel Baker is as strong as any school in the Texas Conference. VETERAN GUIDE DIES WASHINGTON, Oct. 7.—(AP)—James B. Evans, 71, first elevator operator and guide at the Washington monument, where he was employed for almost 40 years, is dead. Harwell Funeral Home Home Private Ambulance Service Phone 342 Ring 1 313 East Baker

Democrats Show Republican Error in Business Boom

PROVIDENCE, R. I., Oct. 7.—(AP)—After condemning the republican party for its alleged hypocrisy in its "brazen campaign concerning what it calls prosperity in the country," Rhode Island democrats, in their platform submitted to the state convention here today, ask "such modifications of the Volstead act as will obtain for it the support of all right minded people."

Zephyr

Rev. Hewie preached at the Presbyterian church Sunday at 11 and Rev. Earl Page preached at the night service. Quite a few of the Zephyr people attended the fair in Brownwood last week. Mr. and Mrs. D. F. Petty and family visited relatives in Sabinal. Mr. and Mrs. Good Graves and family of Desdemona spent Sunday at this place. G. W. Ware made a business trip to Brownwood Sunday. The Ladies' Missionary Society will give an ice cream supper at the tabernacle Saturday night, October 9th. Mr. and Mrs. Sam Wilson of near Brownwood spent Sunday with Mrs. Wilson's parents, Mr. and Mrs. T. L. Thorp. Miss Helen Cunningham and Valera Kemp were shopping in Brownwood on Monday. Lee Roy married last Thursday at the home of Mr. and Mrs. T. L. Thorp. Miss Helen Cunningham and Valera Kemp were shopping in Brownwood on Monday. Mr. and Mrs. Fred Smith and family were shopping in Brownwood last Thursday. Miss Thelma Dossey, who is in school in John Tarleton College, came home Saturday to spend Sunday with her folks. The rain Sunday night was fine. It did not damage cotton any and was of great benefit to the fall gardens. If any one wants to know whether or not there is money in raising black eyed peas, let them ask Leg Stewart. He says he is going to plant one hundred acres in peas next year. However, his mind is subject to change any time. The Senior Epworth League gave their pastor, Rev. Earl Page and family a nice pound of groceries last Saturday. Mr. and Mrs. O. J. Martin and children of Trickham were Blanket visitors Sunday and attended the Presbytery. Joe Eoff was carried to a sanitarium last week and operated on Friday. His many friends hope he will soon recover. At last report he was resting and getting on nicely. Rev. Earl Page and Rev. Huie went to Zephyr Sunday night. Mr. and Mrs. Joe L. Wiley of Brownwood were in Blanket Sunday afternoon. The Brown County Singing Convention will be held here the fourth Sunday in the month. A large crowd is expected and lots of good singing. Carl Jewell, Lowell and Leo Ramsey went to Olney Sunday to visit relatives. They returned the first of the week. Rev. Pleasant and family of Santa Anna were here Saturday night and Sunday attending the Presbytery. Misses Veda and Zena Tidwell who are attending John Tarleton College, spent the week end here with home folks. BE WITH THE CROWDS at this store Saturday.—Looney Merc. Co.

LET'S BOOST ALL TEXAS

By Phelo K. Warner Almost everybody in the United States who has ever studied geography knows the simple fact, "Texas is the largest State in the Union." That fact is about as generally known to the American people as "All Gaul is divided into three parts," is known to the beginning Latin class. And there all knowledge of Texas ends with practically 90,000,000 of our people. Or do you suppose there are ten million people outside of Texas who know anything about our State except its size? That's a good many. But that's not the worst of it. How many of the Five Million people who live inside of Texas know anything about the whole State? How many of our five million people are interested in All Texas? Do you know of another State in this Nation that is chopped up into so many districts and factions? California is the next State in size but you never hear so much about North, South, East and West California. No sir! It is California wherever they go. Sometimes Southern California pulls off a show all her own. But when most of us think of California we think of the whole State. Montana is third in size. But you don't hear much about the different corners of Montana even when you are among the Montana people. They speak of their State as a unit, undivided. They advertise it that way. How about Texas? There's the South Texas and the Rio Grande Valley. There's the West Texas and the Big Bend country and the Davis Mountain region. Then we have West Texas proper which no one hardly knows where it begins or where it ends. The reputation is that West Texas begins "Out Where the West Begins," and ends out where El Paso is. But a lot of West Texas ends before it gets to El Paso. Then there are the South Plains. Some one asked me the other day what we meant in Texas by the South Plains. And the only answer I knew was "The South Plains are a part and a very active part of West Texas." Next, going round the State, comes the Panhandle. Who knows what the Panhandle is and what kind of weather we have there? Evidently not the highway publicity man. Have you noticed how touchy we Panhandle folks are about our weather? We're proud of our weather. A letter came this morning from an Illinois brother saying, "We've had a regular Texas June, July and August weather up here this summer." But the writer did not mean a word of it, because he thinks Texas weather is just like Illinois weather. He don't know any better because our Texas Weather has never been advertised away from home. Why would you trade a summer day in Texas for a summer day in Illinois? Nobody, if they knew both days. Next comes North Texas with all its wonderful features, and then East Texas which means North Texas and Southeast Texas and all the great forests and the most densely populated part of the State. And this makes the rim of Texas, just like the big Texas watermelons we raise all over the State. And the best part seems to be in the center and so we have Central Texas, known to itself as the Heart of Texas and the cotton and the home of the prize steers as well as the best other things. But, after all, it is like a lesson we learned somewhere in school that "The whole is equal to all the parts, but no part is equal to the whole." What Texas needs today worse than anything is some whole State-wide publicity. Texas has more than nine million people and we have no right to cast a shadow on any other part of Texas. We might just as well boost our hands and criticize our feet. Our body is not complete without both. And neither can fulfill its greatest mission without the help of the other. Our factional rivalry in Texas has no doubt helped to let a few people know about the special virtues of certain sections. But when you get this year and do more boosting for All Texas. Every section of Texas is great. And every part of Texas is doing great things. The whole State is on a boom. Look at the new harbor at Corpus Christi. How proud every one of us should be of this great accomplishment. How many of us know how many deep harbors Texas has and what her shipping records are? Here is something for the high school graduates of 1927 to get busy on now. It would be a good subject for at least one member of every graduating class in the State to write about. The rest of the State might learn something new (about Texas) on commencement night. What do any of us, except the people who live there, know about East Texas? The forests of East Texas and their value to us would make another fine topic for high school graduates. A lot of us ought to know better how to vote if we knew more about their value and what it will mean if we let them be wasted. And the Panhandle oil field? Who knows anything for sure about it? And it is only an infant in age in the oil business of Texas. But that infant promises to be a husky kid in a few more months. And then there is all the beauty in Texas going to waste while our people spent \$8,000,000 sight seeing in other States. Think of it, and the last legislature did not even appropriate \$750,000 to help put our own beauty on the market. Texas needs roads built to her natural scenic wonders. Nothing would help the five million people in Texas to get better acquainted with their State than to make tourist travel popular inside Texas. And the 15,000,000 bale cotton crop? Where is it coming from and all the other grain? Texas is grand. But about all the world knows about Texas is How Big She Is. Here is a sure-enough thought: Let's make our 1927 commencements a Texas Day. Let's give more Texas programs graduation night. And start our boys and girls out in life with a new vision of their own great State. And most of all let's give our own minds and hearts a chance to grow until they are big enough to know and love All Texas. Let's be as big as Texas. Texas is no place for little old narrow-minded folks.

Real Estate Transfers
