With a Good Character is the Genuine **ROUND OAK**. It has been on the market these many, many years, and is still the leader in sales and popularity. It is the best. It is solid comfort from the legs up, for it holds fire, burns any kind of fuel and gives you all the warmth you want or just a little. Don't experiment; it won't pay you. There is but one **ROUND OAK**. It is sold in town at our store only.

### Stock News.

We hear it reported that G. W. Morris has sold his ranch in north Donley county.

J. G. Witherspoon of Quanah was here Wednesday in the interest of a Fort Worth cattle commission house.

The JA surveyors spent Sunday in Clarendon and left Monday morning to do some surveying in the pasture south of town.

Among shipments the past week were the following: Goodnight and Stevens, 11 cars calves Sunday from Goodnight to K. C. G. K. and G. M. Elkins, 14 cars cows Monday from Goodnight to St. Jo. Joe Horn 3 cars Monday from Clarendon to St. Jo. Eph Stevenson 4 cars Saturday to St. Jo.

The 6666 boys passed through Clarendon Saturday on their return from Panhandle, where they took a bunch of cattle last week. They report the King county country in fine shape and say that on account of the large shipments of cattle to northern pastures the range is hardly more than half stocked and grass is better than they have seen it for years.

Why pay fancy prices for un-acclimated bulls when you can buy registered and high grade Herefords from N. N. Martin's Lone Star Herd at bargain prices? I am going to close out all my bulls this fall; everybody knows they are of the best strains of blood and good individuals, and they are sure to please anyone needing good bulls. I will make the terms to suit.

N. N. MARTIN,  
Clarendon, Texas.

Local cowmen inform us that the loco weed is plentiful now. This seems to be the case every wet fall, and the recent rains have caused the weed to flourish as never before for several years. While grass is good and still green, yet we understand stock are beginning to eat the weed instead of the grass. T. S. Bugbee informs us he has been forced to take up all his horses and put them on feed to save them from becoming locoed. The cowman who has no loco in his pasture is lucky this fall.

### FIREMAN JETT KILLED.

Denver Passenger Train No 7 Wrecked at Chillicothe.

The following report of the wreck of No. 7 Tuesday morning is taken from the Quanah Daily Tribune-Chief:

The northbound Denver passenger ran into an open switch at Chillicothe at 3:40 o'clock this morning, with the results that the engine and tender left track and Fireman Jett was penned up between them and killed. The engineer, Kelley, saved his life by jumping.

Jack Kelley in jumping off had his hand badly hurt. Jett was unmarried man, twenty-five years old, of good character, who had fired for the Denver for over five years.

This morning the engine is lying across the track at the east switch

and a bobtail train made up of a cafe car and the combination car of the A. R. R. & N. went down at ten o'clock to transfers the passengers.

LATER: The passenger coaches of the wrecked train passed through here at 3:30 p. m. and did not look any the worse for their experience. The express car, however, was badly stove up. From the Pullman conductor we learned that the jar shook up the passengers, but did not hurt any of them. In the sleeper several did not wake up. The engineer had been carried up to town and his back is said to be injured.

The cause of the wreck was found to be an open switch with no light burning. The county attorney, Jno. C. Marshall, has gone to Chillicothe to investigate the circumstances.

## A Kurious Kolumn

By A. Kurus Kusse

Condensed milk is not necessarily made from the milk of a small cow.

'Twas always thus since childhood's hour,  
I've seen my fondest hopes decay.  
I never loved a tree or flower  
But what 'twas first to fade away.  
I never tamed a wild gazelle  
To sooth me with it's soft black eye,  
But when it knew and loved me well  
'Twas sure to turn to a half-breed republican.  
—Respectfully dedicated to Tom Watson.

Davis is warning to his work and making twenty speeches a day. If Fairbanks should get warmed up we would have no republican candidate for vice-president. Any lobster knows that ice will melt when it gets warm. The republicans had better keep Fairy in cold storage until they have some use to put him to.

**PUZZLE:** If the Japs have 100,000 men and the Russians 200,000, and the Japs try to live on hard-tack while the Russians try to live on vodka and develop a bad case of the James H. Jams, will the war end before Clarendon streets are properly lighted?

The Record states that "Everlasting Devil's Auction" will be played at Fort Worth soon. If they would not make-believe but just everlastingly auction the devil off for keeps we know of several fellows in Clarendon besides Kurus who would feel easier in their mind.

Kurus Kusse thought for awhile he had Clarendon curiosity cornered (that's what Noah Webster calls an alliteration. We might say we used it unconsciously but as we never handle the truth more carelessly than necessary we will admit that it took our fertile brain exactly 1 minute and 29 seconds to grind out those three words beginning with the letter c). But to proceed. We met a man a few nights since who could give Kurus cards and spades and beat him at the question game and then not half try. That was the most precocious guy it has ever been our fortune to meet and we have traveled a great deal, too. We have fought wild cats in the northwest (they were in back rooms at Amarillo), we have fought the blues on a rainy day in the east (this was at Wichita Falls), and have even fought populsive doctrine in the far north (this was in Kansas). Yes, we have traveled extensively and everywhere we have had to fight. In this instance we had to fight our own failing—curiosity. Curiosity is not exactly a failing, however, it is more of a commodity and has helped us to form many pleasant acquaintances. This fellow first wanted to know how long we had lived in Clarendon. That was dead easy. We told him that the soul was the only intangible article about our person but that it was the only thing that lived and as Kurus was out of his head the greater portion of the time he had another guess coming. That didn't fease him and he said: "What is that large building that somewhat resembles the Bastille." We told him it was the ballwick of Homer, Caesar, Demosthenes and Cicero, ruled over by "Hardy" divines and teachers who taught the young idea how to shoot, with

Thousands have used this reliable remedy with perfect confidence and success for 52 years, because they know just what it contains.

The formula consists of Buchu, Hydrangea, Mandrake, Yellow Dock, Dandelion, Sarsaparilla, Gentian, Senna and Iodide of Potassium.

Any doctor or druggist will tell you that this is a scientific and reliable combination of great merit for all diseases having their origin in the Liver, Kidneys or Blood. After years of experience and patient experiment, Dr. Thacher so perfected the process of manufacture, that it never-fails to bring the expected relief when taken according to directions.

Thousands of sick ones to whom life has been a burden have written grateful letters of thank.

"I have suffered greatly with indigestion, constipation, also a severe liver trouble, with loss of appetite. Could not rest well at night; in fact, had no energy to work or even walk around. I felt like I was packing a heavy load and, was easily exhausted, until I took Dr. Thacher's Liver and Blood Syrup, which helped me almost from the first dose. When I had taken one and one-half bottles I felt like a different man, and I knew that it was due entirely to your medicine. I used in all three bottles, and consider myself perfectly cured. At this time my appetite is good, I sleep well, and feel strong and refreshed on arising in the morning."

### Wine of Cardui Cured Her.

213 South Prior Street, ATLANTA, GA., March 21, 1903.

I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite I became weak and lost my vitality. In three weeks I lost fourteen pounds of flesh and felt that I must find speedy relief to regain my health. Having heard of Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman.

### NOT A QUESTION OF POLITICS.

This is not an article written for the delectation of those who love rounded periods and the Johnson style, but is a heart-to-heart talk between the thinking readers of this paper and the editor on a question that has no place in the politics of our state at present but we firmly believe is destined to in the near future be placed before the people in such a manner that they will be compelled to answer it pro or con. We speak of the inducements the state could and should offer to infant industries.

Daniel J. Sully, probably the best posted man on cotton in America, estimates the yield of the world this year at something like 12,000,000 bales, of which the United States has 10,000,000 and Texas alone furnishes the world with about 3,000,000 bales, or one-fourth of the entire supply. How much, think you of this 3,000,000 bale crop is converted into cotton cloth before leaving the state? Possibly 5 per cent; certainly not more. Now doesn't that look like political economy? Only manufacture 5 per cent of the raw product, or 150,000 bales. Don't you think it would be infinitely better should the state offer some inducement to cotton millers to establish plants in Texas?

Mississippi has tried not taxing any industry of this nature for a period of ten years and the plan has met with the success of the most sanguine expectations of the originators of the scheme and now that state is deriving a steady revenue from industries that she would otherwise have never proctored.

In the Panhandle there is a fine opening for a small packing house and a number of creameries. In the north there is plenty of ready cash drawing 3 and 4 per cent interest that might as well be invested in small industries here and more than likely would be if the inducements set out above were offered capitalists. Ten years seems quite a long time but when it is taken into consideration that all this time the state will be receiving a comfortable sum from the property other than the actual plant of the mill owners it does not look half bad. No man is likely to establish a plant of any magnitude without owning personal property in the state that will be subject to taxation.

You may call this protective tariff in a way if you choose. We will admit that it is a benefit to the capitalist, but it is also in more than one way a benefit to our people; benefit for which we will not have to wait for years but is now almost within our grasp.

Can we afford to pass this up? Are you willing to continue paying the freight both ways on goods raised in Texas and manufactured in Massachusetts? If this question comes before the people what will your vote say? Think over these things and the columns of the Banner-Stockman are open for you to answer these questions.

THE smell of moth balls pervades the Panhandle atmosphere. The populace is airing its winter clothing.

MARCH 4th, 1905, will be known to posterity as the date of the inauguration of Alton B. Parker as president of the United States.

PROPERTY in Amarillo must be getting cheap. A local real estate firm is advertising a "4-room house and lot in Amarillo to exchange for a wagon and team."

WE would urge upon our county correspondents the necessity of sending in their letters early in the week. Frequently they get in as late as Thursday or Friday and on such occasions it is impossible to use them. We have a good corps of correspondents and we value their weekly letters highly, and we never leave one out when it is possible to use it. So please try and get in early.

### Farmers Take Notice.

Mr. D. C. Priddy, one of our best known real estate men, wants about half a carload of farm produce to take to the St. Louis fair. He asks that the farmers bring him in anything that will make a good sample. And don't be stingy. Pick out a bushel of good corn, several bundles of kaffir corn or maize, a big melon, potatoes, cabbage, anything to make a good big showing. The stuff must be brought in at once—between now and Nov. 1st. We trust our farmers will take enough interest in the matter to help Mr. Priddy get his exhibit in good shape. It will be a lasting advertisement for Donley county.

### Lumber Business Sold.

Robert Sawyer has sold his lumber yard to the Foster Lumber Co., a big Kansas City concern operating a number of yards in Kansas and Texas. Mr. A. C. Morgan will represent the new company here as manager of the business and is already on the ground. He informs us the stock will be more than doubled and fitting improvements made in equipment and service.

Mr. Sawyer has been in the lumber business here for many years and retires in order to devote his whole time to his ranch and farm work.

### The Revival.

The union revival services have continued the past week with good results considering the bad weather. The attendance has been very good indeed and to date there have been thirty or more conversions and reclamations. Rev. Law is a good talker and never fails to interest his hearers. The meeting will continue next week.

Our correspondents will please sign their names to their letters, not for publication, but in order that we may know their letters are genuine. Also please date the letters and give name of community.

Mrs. R. L. Coffin of Memphis, Tenn, is visiting her brothers, F. D., W. H. and J. G. Martin. She will remain for several weeks.

Mr. and Mrs. W. F. White this week moved down to Memphis for the winter so that Mr. White could give his gin business there his personal attention.

Putting up stoves is now the order of the day. Let every citizen examine his flues closely before winter sets in. Many disastrous blazes have been avoided by having flues put in good condition before they are needed.

## Clarendon College.

The College has sent for nearly two hundred new song books, and when these college hymns come if anyone wants his soul filled with stirring music, just let him drop in some morning at the chapel service, and he will go away from the college either singing a song or whistling a tune. As the music and singing will be so rousing, he may go away doing both of these things at the same time.

The Panhandle Society gave a debate Friday afternoon, inviting both the other two societies. The question for debate was; Resolved, That woman has been an equal factor in civilization with man. The debaters on the negative were Messrs. Hall and Glenn; and on the affirmative Messrs. Graham and Traummel. Miss Willie Thompson, Miss Marguerite Jasper, and Mr. W. E. Garrison were the judges. The young gentlemen acquitted themselves handsomely. In fact, it was a very interesting debate—one that would have given credit to any institution of learning. The decision was given in favor of the affirmative.

We understand that the Alkissonians are to give an entertainment shortly that will be "rich rare, and racy." They are hard at work at this time looking to that end.

The College monthly will be issued regularly, beginning about the 25 of this month. It will doubtless be the peer of any other College monthly in Texas. The editorial staff is composed of Messrs. King, Hall, Roberts, Graham, Misses Lutrick, Thompson, and Halkins. When we name Prof. Johnston as the chief business manager assisted by Miss Sherman, and Mr. Warlick, we know that the financial basis of the magazine will be all right and well assured.

Mr. D. B. Doak is the genial postman for the college, and makes a good and faithful one. The girls keep Bro. Doak rather busy as he has to buy a good many pencils, tablets, etc. for them Miss Willie T. says that Mr. Doak is a fine old chap and could be trusted around the world.

Bro. Hardy and family have returned from their trip to the home of his father in Kentucky and the world's fair. Bro. Hardy says that he had a very pleasant trip while he was away. The college boys and girls were very glad to see him and Sister Hardy back again. He and his most estimable wife are quite popular with the students of the college.

There were quite a number of pupils, to enter the college this week. The class of students coming to us seems to be the very best the country affords. We have information that a number more will soon be in from a distance.

Prof. Wells of Memphis, and Prof. Silvey of Clarendon visited us last Sunday afternoon. We were glad to see these genial professors. Prof. Wells says that everything with his school is moving along "like the liquid lapse of murmuring stream." Prof. Silvey says that the Clarendon High school is unsurpassed in the efficiency of its work. Success to you, Bro. Professors, and long may you live to "allure to brighter worlds and lead the way."

Mr. Gilbert says that the camera did some fine artistic work in the lower right hand corner of the college picture. Prof. Johnston says from a mathematical standpoint it might be called one of the trigonometrical functions known in higher mathematics as the tangent to a curve.

Everybody should hear Mr. Lane Friday eve at the big tent. Mr. Lane is an excellent speaker, delighting everybody.

Mrs. Tresise and Miss Burkhead gave informal chafing dish luncheon Monday afternoon in honor of Bro. Hardy and wife who have just returned from a trip to Kentucky and St. Louis. The decorations consisted of pot plants banked here and there. The table was a thing of beauty with its elegant lunch clothes of battenburg and embroidery, cut glass and dainty china, while in the center an immense bunch of roses added their fragrant perfume to the richness of the menu which was as follows: Ham sandwich, dressed eggs, pickles, cream shrink, French peas, olives, chocolate wafers, grapes, coffee and whipped cream.

Those present were Mr. and Mrs. G. S. Hardy, Prof. S. E. Burkhead and wife, Prof. W. F. Johnston Miss Burkhead and Mrs. Frank Tresise.

## Public School Notes

The attendance at school this week is much improved over last week. It is due to several reasons; the fair visitors are most all back, the farm work is nearly finished and the sick ones seem to have recovered.

The time for the first regular examination is at hand. Children in most of the rooms are busily working their brains to remember some well drilled facts, which in some cases seem for the moment to have eluded them. The results are not yet told, but to judge from the earnest work being done they will be satisfactory.

The pupils of Miss Kimbrough's room are taking quite an interest in learning some new songs. The little organ is proving quite an aid to them in their efforts.

The work of "restitution" is going on quietly but surely among the teachers. By restitution we mean the restoring of our walls to their wonted beauty in the way of decorations. Some of the teachers haven't yet recovered from the shock caused by having all their pictures destroyed in the summer. But they are going bravely to work to replace them.

Misses Donnell and Stout claim that "all are architects of fate" but at present are looking forward more anxiously to their architectural efforts—tables. They visit most every day or so the shop where they claim the work is supposed to be going forward. I think perhaps they are planning to be "architects of fate" if this effort of theirs proves a success.

The names of Cuthbert Clark and Donald Black were given as new pupils this week.

## The "Never-Fail" Oil and Gasoline Can

Is a patent 5-gallon can for kerosene, gasoline, etc. It ought to last ten or fifteen years.

No oil valves, piston or sucker to wear out.

No faucet to leak or drip. No funnels or measures need be used.

A lady can fill a lamp without soiling her hands or clothes or wasting a drop of oil.

The only can wherein gasoline can be kept with any degree of safety.

The Never-Fail will save its cost in a short time, because it is a pneumatic, air-tight can, allowing no evaporation or waste.

Here are the conditions under which these cans are sold: Let the customer take the can home and try it; if not satisfactory it may be returned. Money cheerfully refunded by the manufacturer if the can is not satisfactory.

**Secret of Success in Cattle Business Is  
Buy when Low; Sell When High.**

The last shipment of what is per-  
haps the largest purchase of steers  
made by a single person this fall  
passed through Fort Worth Tuesday  
night, en route to Wichita county,  
Indian Territory. In this ship-  
ment there were 545 head, and this  
completed the movement of 2,000  
head of 1, 2 and 3-year-old steers  
that S. B. Burnett & Son of this  
city and Wichita county, Indian  
Territory, purchased in Brown,  
Runnels and other counties in that  
section of the state. In all, during  
the last two weeks, over 2,700  
head of steers have been purchased  
by this firm. Of this number,  
700 head were sent to the Dixon  
ranch, in Carson county, and the  
remainder were sent to the territory  
to winter.

"I got tired selling my cattle for  
nothing," said Captain S. B. Burn-  
ett last night, in speaking of the  
big purchase, "and I decided that  
if the cowmen wanted to turn  
loose their stock at prevailing prices  
I would buy the market to the ex-  
tent of buying a few. It has  
always been my observation that  
it pays to buy stuff when it is low  
and sell it when it goes up. That  
is a very simple rule, but a most  
profitable one. I believe that the  
cattle market today is lower than  
it will be in a few months from now,  
and for that reason I went into the  
open market and made the purchas-  
es. When the cattle go up you will  
hear people saying Burk Burnett  
is a lucky man, when the question  
of luck hasn't anything to do  
with the case.

"I have further noticed that  
when cattle get low in price they  
go down slump after slump. When  
they go up the rise is rapid and  
startling. That is where the man  
with the cattle will profit when the  
market readjusts itself to actual  
conditions. When it starts going  
up, it will soar before one knows it.  
Then I will turn loose the stuff I  
have bought.

"I can't for the life of me see why  
a cowman with enough pas-  
ture to care for his stock  
during the winter wishes to dispose  
of it now for. Yet, there are  
oodles of cowmen who are willing  
to do so is evidenced by the fact  
that I had but little difficulty in se-  
curing what steer cattle I wanted,  
after I located the steer cattle.  
That, after all, was the hardest part  
of the job."

Captain Burnett says he has not  
figured out what the steers cost him  
on an average.

"I paid enough to get them," he  
says, "and I guess I paid the mar-  
ket price, even if I didn't pay  
what the animals should be worth."  
I know that if I didn't pay the  
market price for the steers it will  
be the first time in my life I have  
ever gotten anything any cheaper  
than it really should have been."

**THE CAP ROCK.**

BY ALVIS WEATHERLY.

For the Banner-Stockman.  
The stone of Theseus caps its height,  
A crown placed there by God's own  
hand—  
A rim of beauty, a crown of might—  
Encircling its brow like a golden band.

I've seen it when the thunders roll,  
When boulders rocked with lightning's  
flash,  
When great trees groaned like a suffering  
soul  
Under the stroke of the conscience  
lash.

I've seen it again with heaven's light  
Casting deep shadows over the lee,  
Making the distance clear and bright;  
Leaving canyons cool as breath of sea.

What grandeur is it's, what beauty, what  
poise;  
What grace and strength, what charm  
of design.

'Tis the home of the tempest where na-  
ture destroys  
To build more beautiful, not to malign.

Here the voice of nature sings its song  
In its sweetest, most wonderful strains.  
And where nature is there can be no  
wrong,  
For God through this agency erases  
soul stains.

A month in the fastness of nature's lair  
Wipes from the heart all selfish desires,  
Leaving the soul like a diamond, as pure  
and as fair,  
On cold hearts lighting love's tender-  
est fires.

**To Our Many Friends.**

Words are too few to express our  
gratitude for the many kindnesses  
shown since our misfortune. Our  
loss in dollars and cents has been  
bountifully replaced. Many useful  
articles have been sent in for which  
we are very thankful. Some of  
these garments are good as new,  
while others are well worn. Yet  
they make it seem more homelike,  
and the making is a big thing in  
such a busy season.

I wish each giver could realize  
the joy their gifts brought to the  
children. They were perfectly de-  
lighted, to say nothing of the  
pleasure it gave their parents.

While the men have dropped  
their work and came to our relief  
the women have been no less  
thoughtful. Bundles of sewing  
will soon be transformed into wear-  
ing apparel and the diminished  
wardrobe fully replenished.

The donations prove the liberal-  
ity of our people. We never knew  
a better. Sorry we do not know  
the name or amount of each donor  
but I assure you we do know we  
live among a charitable people.  
We can never thank them enough.

While we have a better and more  
convenient house, equally as well  
furnished, yet there is a feeling of  
sadness when we think what  
brought about this change. There  
is bitter with the sweet.

It is not the big things that are  
dearest to the human heart. In  
every household there are treas-  
ures, some perhaps that have been  
handed down from generation to  
generation, the loss of which will  
make a strong man weep. It is  
these little things which can never  
be replaced which are most lament-  
ed. However, there is a lesson to  
be learned. How perishable are  
the things of this world. How  
much better to lay up our treas-  
ures in heaven. David says: "My  
God will supply all your needs."  
He truly will, for homeless we  
were not without a home, and  
now we will soon be in our new  
house, surrounded by the common  
comforts of life. Again thanking  
the people for their generosity, we  
remain,

Gratefully yours,  
MR. AND MRS. J. S. HALL.

Why sell your feed in the head  
for half price when you can have it  
ground and get double the worth?

**A Love Letter.**

Would not interest you if you're looking for a guaranteed salve for sores, burns or piles. Otto Dodd of Ponder, Mo., writes: "I suffered with an ugly sore for a year, but a box of Bucklen's Arnica Salve cured me. It's the best salve on earth, 25c at Fleming & Maulfair's drug store."

**From Uncle John.**

Alanreed, Tex., Oct. 17, 1904.  
Elder E. Dubbs of Clarendon, a missionary of the Christian church, commenced a protracted meeting on Oct. 9 and closed today. This meeting resulted in the establishment of a Christian church here yesterday with 24 members, 10 by baptism during this meeting, 10 previous members and 14 members received during this meeting. Elder E. Dubbs is pastor, F. P. McCracken and B. T. Stubbs, elders, and W. W. Sugg and W. A. Stubbs, deacons. The membership of the Christian church here is now as large as that of the Methodist and Baptist churches both.

Our people are busy gathering Indian corn and cutting and heading kafir corn, milo maize and sorghum. Some are picking cotton, which promises a yield of from 14 to 15 bale per acre and possibly an acre here and there that will make a bale.

Sod June corn without cultivation is making from 15 to 25 bushels per acre, and roasting ears are yet plentiful.

Cotton pickers can get 75c per 100 pounds and board or \$1 per 100 pounds without board.

There is some trading going on in land and cattle and we have some prospectors. Several hands could get jobs in harvesting feed crops.

Miss Dovie Coppedge has slow fever, contracted at Leila about twenty days ago, but is slowly improving. No other cases of sickness here.

R. Y. Mangum is fitting up a coffin for a small child of Mr. Haines at McLean.

The McLean cotton gin is ginning cotton and I hear that the McLean bank is now doing business. While McLean is our competitor in business we are glad to note these evidences of prosperity and we wish the town continued success, knowing that her prosperity will add to the upbuilding of Gray county and thereby attract a large population.

**J. D. Jefferies.**

J. D. Jefferies places his name before the public this week as a candidate for re-election to the office of county commissioner of the town precinct, No. 2. Mr. Jefferies' record in this office is his best recommendation. He has at all times been alive to the best interests of his precinct and the county generally, and the remark is frequently heard "Jim Jefferies is the best commissioner Donley county has ever had." He pledges his best efforts for the county's welfare and the people will make no mistake when they reelect him which they are sure to do next month.

**Saved His Life.**

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump in my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." 25c, 50c, \$1.00. Sold by Fleming & Maulfair.

Our accommodating depot agent, J. W. Kennedy, is taking a 40-day vacation and with his family will visit relatives "down east" as well as the world's fair. E. B.
