Vol. 1,

Amarillo, Texas, Tuesday, June 27, 1899.

No. 29

The EVENING NEWS would be glad if some of the laguers, and some of the young people who attend the meetings at the different churches could be appointed to write-up the proceedings for this paper.

District court adjourned yesterday for the term.

The cases of State vs Thomas & Morlett was continued on application of the district attorney.

The grand jury was in session three days, and after a thorough investigation of all matters that came before them were not able to find and felony.

Some Randall county witnesses who were absent were fined for disobeying subpoena.

The entire expense of the court will not cost the county more than \$200.

Judge Marrs says quite a number of citizens ask: "Why am I notified to appear before the board or equalization?"

First—Because some have made no rendition, and a great many have said to the assessor; "Copy mine from last year's tax rolls."

Second—Some give the number of lot and block but fail to place any value. This is virtually no rendition.

Third—Some give the number of lot and block and give no addition, this virtually is no rendition.

Fourth—Some have failed to render their lands at all, and some who have rendered their lands have done so incorrectly.

Fifth—Some have given the number of horses and cattle owned, (or at least the number they desired to render) but absolutely failed, and some refuse to place a value on the stock. This is no rendition that can be accepted.

When a man renders his cattle and fails to place a value thereon we must give notice, and it appears to me any man should have sense enough to know this much, and not kick about notice being given. Any of the failures to render as heretofore stated, under the law must be given notice. He makes this statement in answer to some people who desire to place a very low value on their property, and it hurts their kind very much to give them notice.

Thompson's candy factory will be turning out sure-enough candy in ten days, that won't poison the children—nor glucose them, either.

Our "Eli" has first been heard from, since he reached home, through the Colorado Dispensary Co. Mr. Hynes says he rode with him in his buggy over some creeks in Greer Co. and Eri spoke of having a three-week's railroad pass in a way to lead him to think he would return to Amarillo.

There are now about fifty subscribers to the Amarillo Commercial and Social Club, and they meet tonight at 8:30 o'clock at the court house to effect permanent organization.

Sam Morris is down with typhoid fever, so says Dr. Fly. Amarillons had just as well look to the water and milk use. Boil both, if a doubt exists.

Be at the court house Wednesday and Thursday and show cause why your taxes should not be raised.

Sweet mixed Pickle or Mixed Sweet Pickle at Wolfin's.

Mr. Potter, the butcherman, bought yesterday about the first home-fat steers of the season, of F. M. Hill.

W. Thompson, undoubtedly contributes more to the palate taste of the town than possibly any other that ever conducted a business in Amarillo. His enterprising spirit is proverbial, and his ability for scope has not yet been reached. Bottling, confectionery, cold drinks, bakery, candy factory, lager beer, ice, cold storage, and so-forth, and all connected by telephone. That's Thompson.

Our Congressman, John H. Stephens, came in last night to visit his numerous relatives here. He hastened out to Dr. Cartwright's this morning to see his aged and feeble father, Mr. L. H. Stephins. We must have a speech from him while here.

Dock Bolton is hereby notified that old batches musn't go a fishing with Texas women, or he will have either to marry or go crazy. We've tried it.

Last Thursday four daughters of J. H. Lloyd, were drowned in Pitt's Creek near Lampassas. Two of the smaller got permission to wade in the water, and got to a deep place. This was Esther and Jewell, aged 11 and 8. Miss Berlin, aged 22 and Bell aged 20, went to their rescue and all four were drowned in sight of their mother and sister Bell. The bodies were all found in a space of six feet and all were buried in one 20 foot grave, with separate vaults.

PASTURAGE—A limited number of stock. Plenty of water and grass, at reasonable figures.
