### The 3.2 Question

Knox County is to have a beer election July 21 which is next Saturday. Because people have got voting in their system now a pretty representative vote should be polled.

Personally, this decimal beer is not much tot get all up in the air about. I never have heard anyone, not even the most fanatic dry, and Knox County has it's share, say that it would make a habitual drunkard out of anyone. I have heard that it would make a man pretty tight if he added a little wild corn likker, nigger gin, or straight alcohol to it to give it a little kick, but even plain water, soda pop, or anything else would do that.

When it is all boiled down, the proposition is purely an economic one.

Without going into the merits of a cold bottle of 3.2, which some claim is a very nice drink especially in warm weather and others claim is just slop, it goes without saying that there are a great number of Knox County's citizens that feel like beer is just what they need and so they drive to the adjoining counties and buy them some.

We wouldn't be a bit concerned about that, but while they are away buying beer, they see something else they want too, and buy it. Now an automobile sale every now and then, a pair of shoes, a bill of groceries, a new wagon, or other farm implements, bought out of Knox County tends to weaken the economic structure of the county just that much.

It seems that it would be the wise thing to let the people of Knox County do all their buying at home.

With the approval of the \$100,000 application by the Federal Government, Knox County's dream of a new structure to house the county offices is on its way to becoming a reality.

That the county needs a new court house is a well known fact. The present structure is old, obsolete, and has been repeatedly condemned as unsafe. The cost of heating it in winter is high. The cost of upkeep is high. It has served its time of usefulness and has outlived its bonds.

By taking advantage of the government loan of \$100,000 of which approximately thirty percent is a direct grant, the county can build a new structure which will adequately house its county offices.

By taking advantage of this loan the county can take care of a large number of the unemployed which, if teh drought prevails, there are going to be a goodly number in dire need of help this winter.

If it were a question of arising the taxes to build this structure, many of the thinking citizens of the county would have room for hesitancy before adding their stamp of approval to the project.

But THE NEW COURT HOUSE CAN BE BUILT AND PAID FOR AND AT THE SAME TIME THE TAX RATE CN BE CUT TEN CENTS ON THE ONE HUNDRED DOLLAR VALUATION.

For many years the tax payers of the county have been assessed twenty-five cents on the hundred dollar valuation to pay for the courthouse and jail fund.

The present taxable valuation of the county is about \$7,000,000 which with a 25c levy on the \$100 valuation would bring into the county \$17,500 a year.

Now to erect a sturcture that costs about \$70,000 and which is to be paid out in ten years, it would cost considerably less than \$17,500 a year.

A close estimate would be 15c on the \$100 valuation. This would build the new structure and would be a dime less than we have been paying intot this fund for years.

Is it not the part of wisdom to build the new courthouse.

#### A BIG COME-DOWN

Pity the poor congressman who has to adjourn out of the atmosphere of billions and go back home to folks who speak respectfully of dollars, dimes and cents.—Chicago Daily News.

#### REVOLUTION-PROOF

There can't be a revolution. Every time you catch a radical professor and give him responsibility, he goes conservative on you.—San Francisco Chronicle.

#### COSTLY BUT EFFICIENT

Our town also boasts of one of those wise husbands who buys his wife such expensive chinaware that she is afraid for him to wash or wipe the dishes.—Altoona Tribune.

#### FORCE OF HABIT

A politician who broadcast a speech last evening claims that the radio misquoted him.—Washington Post.

### POLITICAL ANNOUNCEMENTS

The Post is authorized to make the following political announcements subject to the action of the Democratic Party

Announcements made at the following rate, cash in advance.

Benjamin, Texas

### HOME DEMONSTRATION COUNCIL MEETING

The Knox County Home Demonstration Council met Saturday, July 7, in Benjamin with 20 members present.

The principle discussions at this meeting were the Survey that is being made by the Expansion Committee in the county in which an effort is being made to visit every farm home in the county.

Plans for attending the Farmers' Silver Anniversary Short Course, College Station, July 20 to August 3 were made. It was decided that the delegation would go in cars rather than trying to secure a bus. There will be approximately 20 girls, women men and boys attend from this county and those who have not signed up to go and would like to go were asked to see the Farm or Home Demonstration agent within the next week. A number of interesting courses are being offered and this promises to be the most interesting short course ever held.

At this meeting final plans were made for the Women's Encampment which is being held Thursday and Friday, July 12 and 13 in the Cartwright pastures with Haskell County Women as guests. It is expected that some 200 women will attend this meeting. The council adjourned to meet in the next regular meeting the first Saturday in September.

Infection often brings death. Prevent it with LUCKY TIGER ANTI-SEPTIC OINTMENT. Marvelous for Athlete's foot, Ringworm, Itch, etc. Costs little at Drug Stores.

Itinerary of Jewell Faulkner, County Home Demonstration Agent for the Third week of July

Monday—Office  
Tuesday—Hood Home Demonstration Club  
Wednesday—Gilliland  
Thursday—Union Grove  
Friday—Graham — Garden School conducted by Mr. Roseborough of College Station.  
Saturday—Office

**FARM PURCHASING POWER INCREASE 25 PERCENT**

College Station, July 12.—Farm purchasing power on the average throughout the United States has been 25 percent higher during the first nine months in which benefit payments have been distributed thru the provisions of the Agricultural Adjustment Act than in the corresponding period of the previous year.

This is the conclusion reached by L. H. Bean, economic advisor to the Agricultural Adjustment Administration, following a study of the prices farmers receive for their products, compared with the cost of commodities they buy. Cash income including benefit payments, during this nine month period increased 38 percent but this increase was partially offset by an increase in the cost of commodities farmers buy.

Benefit payments on production adjustment contracts contributed nearly one-fifth of the net increase of 25 percent in purchasing power. For the first four months of 1934, the net increase in farm purchasing power was 28 percent over the first four months of 1933.

Mr. Bean's study also shows that the purchasing power of the farmer increased somewhat more than the purchasing power of the country as a whole during the first four months of 1934. During this period, the total national money income, including the distribution of emergency funds, was about 20 percent higher than in the corresponding period of 1933, but the cost of living for the country as a whole increased eight percent, leaving a net increase of 12 percent in the national purchasing power. The net increase in farm purchasing power was 28 percent for the same period.

**BAPTIST BREAK SUNDAY SCHOOL ATTENDANCE RECORD SUNDAY**

Sunday, July 8th, was a record breaking day for the Benjamin Baptist Sunday school.

There were 113 reported for Sunday school at 10 o'clock and there seems to be an unusual good interest among all the Sunday schools of the town.

This announcement is not given in the spirit of "barging" but with the hope that it may inspire those that are enlightened to attend some local Sunday school each Sunday.  
H. F. Gage, Pastor.

**LOCAL CHURCHES OPPOSE COMING BEER ELECTION**

The Benjamin Churches, with their respective pastors, join with representatives from every town and precinct in Knox County to oppose the coming Beer election which is scheduled for Saturday, July 21.

Dr. Coffey, T. W. Templeton and Rev. Smith, Irvine and Gage, local ministers, were representatives from Benjamin at the county wide rally which met at Munday, Tuesday afternoon to make plans against the coming beer election.

Mr. Baker, well known merchant of Munday, was elected general chairman of the county forces against the Beer election.

**McCRAW BLASTS WOODWARD IN FIERY CAMPAIGN**

Austin, July 12.—Blunt defiance was hurled at the big utility corporations by William McCraw this week as he blanketed two sections of the state in his hard-hitting, enthusiastic campaign for the attorney generalship.

"This same fearless defiance is meant also for my Senator opponent Walter Woodward, who has served the utility interests," McCraw declared before rallies in East and Central Texas.

"The privileged and combines are employing every method to keep me out of the office that stands like the Rock of Gibraltar against their ruthless encroachments and burdensome demands upon the

people of Texas."

McCraw produced further evidence linking Senator Woodward as the attorney for the gas interests, and told the voters the challenge was squarely before them to elect him as their attorney general or place in the office an aging politician who long has represented utility corporations and "doesn't deny it because the utility brand is burned too deeply upon him."

Record crowds are turning out for McCraw. As an example when he spoke in Abilene, the home section of Senator Woodward, the largest gathering to hear a candidate this primary applauded McCraw.

Messages of praise for his firm stand regarding the proposition of regulation of the major utilities have been pouring into McCraw's State Campaign Headquarters in Austin from people in every part of Texas.

A new instance in which McCraw charged Senator Woodward helped out his "utility friends" was brought out forcefully by the aggressive red-headed Irishman from Dallas. He offered House Bill No. 95, the utility regulation measure, as his proof.

"An amendment to this bill, of which my senator opponent boasts the authorship, completely changed the purpose of the bill and in the words of an authority upon utility questions in our state senate permits the stifling by privately owned utilities of any effort on the part of the cities or incorporated towns to put in a municipal plant."

"And this man, Woodward, who represents the public utilities, asks you to give him the most important office of trust in your gift."

"I warn you to keep him out, for at this time an important utility case, affecting the pocketbooks of thousands of us is pending in the courts," McCraw said. More than 200 Texas cities and towns seeking fair

utility rates are depending on an attorney general in the next two years to carry on their battles.

"I am free, and always have been, from the influence the financially powerful interests have been putting to use on their political friends," McCraw asserted.

**YOU'LL GO FARTHER ON FACTS**

Let's ride in **FACTS**

**GET THE FACTS SEE HOW SEIBERLING Air Cooled PROVIDES TWO ANTI-SKID TREADS THAT GRIP AND PROTECT TO THE LAST MILE Drive in**

The eyes of the road beneath your car are blind to trick phrases, pretty colors and exaggerated claims—only facts count in the constant struggle between speeding rubber and grinding concrete. Saying that a tire will not blow out—that it is three or four times safer—that it is "the marvel of the tire world" may tickle the vanity of the ballyhoo artist, but unfortunately you cannot ride with safety, economy or satisfaction on ballyhoo.

When a tire blows out or fails long before it should, it is poor consolation to remember that it was supposed to be burst-proof and three or four times safer.

Seiberling tires are built to wear well—not read well. They reflect in mileage, safety and economy the fact that F. A. Seiberling has been building good tires since 1898. Cliché phrases make good reading but as F. A. Seiberling says—"You'll go farther on facts."

Come in and let us show you visible proof of the superiority of Seiberling Air Cooled tires—the only tires with two anti-skid treads that grip and protect to the final mile.

measure and applies to this county by virtue of its being in the primary drought stricken area of West Texas.

\*\*\*

It's been a long time since we ended this column and called attention to condition that some of our subscribers allow their subscriptions to get into. People that wouldn't think of letting their gas bill, light bill, telephone bill, rent, grocery bill, or any other bill except the one for the paper to get past due, get careless about paying up their subscriptions. No, it's not the man that doesn't often have the money to pay with that's the most careless. Many of our subscribers who hardly ever see a dollar, manage to drop in before their time is out and say keep it coming. How about some of you other fellows?

Mr. and Mrs. C. E. Sams and Miss Dora Thomas of Lovington, New Mexico have returned home after a visit with friends and relatives here.

Marvin Nelson who is a member of the Civilian Conservation Corps stationed at Camp Gillette, Wyoming, has been promoted to Field Boss. Nelson is a graduate of the local high school and a student of high scholastic standing.

POPULAR BENJAMIN COUPLE MARRIED SATURDAY

Benjamin friends will be interested in the announcement of the marriage of Miss Emma Jane Alexander and Mr. Robert G. Martin which occurred at the home of the bride's brother at Wichita Falls Saturday. They will make their home in Lubbock for the rest of the summer where Mr. Martin is engaged by a cosmetic laboratory there. The bride is the daughter of Mr. and Mrs. W. A. Alexander, formerly of this place and taught expression in the local school. The groom was principal of the local ward school the past two years. Both are popular young people and their many friends wish them every happiness.

WATER MINIMUM LOWERED FOR CITY WATER

After July there will be a change in the minimum water amount of the city water from 15000 gallons per month to 5000 gallons per month. This is a conservation measure and will be in effect during the prevailing drought.

PUBLIC OPINION AND THE BANKS

By F. N. SHEPHERD  
Executive Manager  
American Bankers Association

WHILE banking today appears in a wholly distorted light in the eyes of some of the reasoning elements in our population undoubtedly have a less jaundiced view than would appear from certain irresponsible orators, often posing as spokesmen for that indefinite quantity called "the mass" of our people.

Anti-social acts on the part of some bankers formerly have been the subject of spectacular exposures, but I can say without reservation that they were in no way typical of the acts and attitudes of the vast majority of their fellow bankers. The public mind was shocked into the belief that these untypical instances were far more representative than they really were, and this belief has been encouraged by political and demagogic elements.

The Bankers Today  
The bankers who are in charge of our banks today represent men who withstood the temptations and avoided the economic pitfalls of the great boom. If they had not they would not be there, or their banks would not have been able to survive the rack and ruin of the economic hurricane, by which even many banks and bankers, whose conduct was above reproach, have been destroyed. The other types of bankers, those that fell below the high standards of professional ethics and business prudence that characterized those that remain, have passed out of the picture. But they have left for those that remain a difficult heritage of suspicion and ill will.

How irrational this is, when we reflect that not more than three or four per cent of our entire population suffered personal loss because of what any banker did or neglected to do, whereas literally millions of bank depositors did not lose a single cent as a result of banking difficulties and really owe a vote of confidence and thanks to their own bankers who were true to the highest conceptions of their stewardship and brought their institutions and their customers safely through the greatest business disaster the world has ever seen. It has been a peculiar feature of the psychological distortion of the times that many who owe nothing but gratitude to their bankers joined in blaming the banker far out of proportion with any rational consideration of the facts.

F. N. SHEPHERD

"That's our story and we're GOING TO STICK TO IT!"

"You say 43% more non-skid mileage; you put it too low"—report G-3 users. But we prefer to be conservative.

Goodyear test drivers gave G-3's harder use than most people give tires—established the 43% average. That much extra at no extra cost is plenty to offer—so we'll stick to saying: 43% More Miles of real non-skid safety because of—Flatter Wider Tread . . . More Center Traction (16% more non-skid blocks) . . . Heavier Tougher Tread (average of 2 lbs. more rubber) . . . Super-twist Cord Body (supports heavier tread safely)

18,000 miles—practically 75% of their non-skid left. —Wash.  
43% extra non-skid mileage and THEN SOME! —Iowa  
Will give me at least twice the tread mileage I ever received before. —Mass.

Big Value!—Low Price!

BENJAMIN TEXAS

SENATOR CONNALLY TOURS NORTH TEXAS IN INTEREST OF CAMPAIGN FOR CONGRESS

Dallas, July 12—United States Senator Tom Connally brought his campaign into North Texas this week, after a tour through West Texas which attracted some of the largest crowds which have attended political campaigns in the state this year.

The senator opened the week with speeches at Brownwood and Eastland. On Tuesday he spoke at Sweetwater and Lubbock, and went from the latter city to Plainview for a rally Wednesday. Wednesday night he addressed a large gathering at Amarillo and Thursday he visited Pampa and Childress.

Friday he will speak in Vernon and Wichita Falls, and on Saturday afternoon at 2 o'clock he speaks at Sherman, at 4:30 at Bonham and that night at 8:00 in Paris.

Great interest in the Jones-Connally Cattle Relief act was manifested by those who attended meetings at which the senator spoke in West Texas. The act, sponsored in the Senate by Senator Connally, and in the House by Congressman Marvin Jones of Amarillo, carried an appropriation of \$50,000,000 for use in buying in the cattle in the drought areas. Cattle purchases are now being made, under its terms, in a great many counties in Texas and it has proved of great benefit to the livestock men.

In his speeches, Senator Connally reviewed his record in the Senate and stressed particularly the legislation he had supported in the last Congress which benefited farm and home owners.

"The Agricultural Administration program, which included the "plow-up" plan, was the salvation of the Texas farmers last year," Senator Connally said.

The senator recounted the work done by the Home Owners Loan Corporation in saving Texas homes, "I voted for this legislation when it first came up in Congress," he said. "I was an early advocate of the plan for Government guaranty of the principal as well as the interest on the Home Owners Loan Corporation bonds. The past winter, Congress amended the law to include this provision and the change has resulted in many more borrowers being able to take advantage of the relief which Congress extended.

"In all of my speeches, I have asked if there is any farmer, laboring man or business man who wants to

return to the dark days which preceded March 1933," the senator asserted. "I have found not a single Texan who would willingly exchange the situation our state and nation are in today for that of those days.

"The Roosevelt recovery program is slowly but surely lifting this nation out of the economic mire. I am proud to have had a part in the enactment of the legislation which made it possible.

"My candidacy for a second term is based entirely upon my record. I hope that the Democrats of Texas will thoroughly familiarize themselves with it before going to the polls on July 28th."

Austin, July 12.—"It perhaps would be better for many thousands of vacationing adults, were it possible to extend the same type of rational supervision to them as their children receive in the so-called recreational camps. Judged by the results of the fortnight's outing, a great number of persons do not receive physical benefit from their stay but are even worse off on that score upon their return than when they went away," states Dr. John W. Brown, State Health Officer.

"Most certainly the mental stimulation of 'going places and doing things' out of the usual run is in itself of value. Merely to get out of the rut, visit a new locality or revisit an old one, where new faces and friends are to be found, is of decided advantage.

On the other hand it is not reasonable to become so enthusiastic concerning the well-earned freedom from the daily routine as to permit oneself to get out of bounds. While it is perfectly natural to want to crowd as much pleasant activity as is possible into two weeks' change, it most decidedly does not pay to do this at the expense of one's health and vitality, yet this is precisely what many foolish persons do. It is therefore slight wonder that many men and women who have left for a vacation with that 'tired feeling' came back home even more that way.

"While these facts are not furnished to take the joy out of the annual sojourn, it might be well for adults to figure a little physical benefit on the proposition rather than to specialize on fun and devitalizing allurements. The body, as well as the mind, needs consideration. The wise vacationist will see that it gets it."
