STEERS LOSE FIRST HOME GAME 32-8 TO MUNDAY

The Rochester Steers met the tough Munday Moguls and went down in defeat 32-8, Saturday night, on the Steers' home field, in a non-district football game.

Munday scored in the first, second and third quarters of the game and three touchdowns were scored in the second quarter. Munday's only two point conversion came in the first quarter. Munday made 394 rushing yards, to Rochester's 163 yards. Munday had 14 first downs and Rochester, 8. Skip Lane threw two touchdown passes and carried four yards for a third tally in the Mogul victory. Tailbacks Terry Leflar and Bill Stewart, together netted over 300 yards, each accounting for another six points.

Rochester got its only move into Munday's end of the field, in the first half, when Buford Berryhill, who netted 88 yards in 14 carries, swept end and carried from his own 39 to the Mogul 26 and the time ran out for the half.

The steers again appeared on the march in the third quarter, when they got deep in Mogul territory, but two successive losses dropped Rochester back and again they had to punt out.

The Steers scored on a successful drive in the fourth quarter as they took over on downs on their own 26 yard line, fourteen plays later a two yard plunge up the middle by Glen Hollar made the Rochester score. A pass from Hollar to Jerry Hearn added two more Rochester points,

making the final score, 32-8.

Several boys were injured in the game. Bill Roberson had a broken leg. Other injuries were experienced by Troy Fischer and Edward Silba.

The Steer Band came through in grand style as they played to keep the spirit of the boys and fans going. 'Course "Win or Lose" the band is behind the team. The half-time performance was very good.

This Friday night, September 18, 1964, the Steers will meet the Jayton Jaybirds, at Jayton, beginning at 8:00 p.m. Let's all go to Jayton and back the Steers.

"Stubble Mulch Tillage Helps Conserve The Soil"

"Stubble mulch tillage helps conserve the soil," said Hinds A. McGowen, Jr. local Soil Conservationist of the Soil Conservation Service.

The Agriculture Research Service recently released information on the importance of good residue management. Proper management of residues of small grains and grain sorghums prevents about 80 per cent of the soil loss during heavy rainfall, reduces one-half the amount of runoff, and removes up to 90 per cent of the winds erosive force at the soil surface.

There are two systems of managing crop residue being used in Haskell County portions of the California Creek and Wichita-Brazos Soil Conservation Districts. One far outweighs the advantages of the other. Residues that are plowed under add organic material to the soil, increase ability of the soil to hold water, and provide plant food after decay. Residues left on the top of the soil add organic material to the soil, increase water holding capacity of the soil, provides plant food after decay, reduces crusting and sealing, increases moisture intake rate of the soil, forms small dams to catch and hold rainfall, reduce dam-

age by wind, keeps soil, cool in hot weather, and reduces the amount of soil moisture lost to evaporation.

100 pounds of sand will hold 25 lbs of water. 100 pounds of humus will hold 190 pounds of water. It is easy to see that a soil which has had residues properly managed will retain a large amount of the water it receives from rainfall. This reduces surface crusting which in turns reduces the number of times a crop has to be replanted.

The use of sweep or chisel type implements has proven to be the best for residue type management. However, disc type plows may be successfully used in some instances.

Clyde Mayfield, of Weinert, says that his wheat yields have been more continuously high through bad years and good years by stubble mulching wheat residues than on land that was not stubble mulched.

Hubert Sego, of Haskell, says that the moisture saving benefit of stubble mulching is the greatest asset in practicing proper residue management.

All residues must be left on or near the surface of the soil to retard erosion. The wind erosion period, November through May, is around the corner, McGowen concluded. This is the time of the year when all precautions should be taken to see that crop residues are left on the top for soil protection.

Motor Vehicle Inspection Began For 1965 Sept. 1

Austin — Col. Homer Garrison Jr., director of the Texas Department of Public Safety, announced that the time has arrived for Texas motorists to have their vehicles inspected again.

Garrison said September 1 marked the beginning of the 1965 vehicle inspection period as prescribed by the Public Safety Commission. As in previous years, the period will end on April 15, 1965.

"This means that between now and April 15, 1965, more than 5,200,000 Texas registered vehicles will have to be

inspected at the 5,200 official inspection stations in Texas," he said.

Garrison urged motorists to have their vehicles inspected in the routine visits to the garages for ordinary maintenance and repairs and thereby eliminate the necessity of having to wait in line at a later date for an inspection sticker. He further pointed out that with the ever increasing number of vehicles registered in Texas, it is becoming ever more difficult for the motorists to get an inspection sticker without some delay.

"With the hard summer driving coming to an end, fall is an excellent time to have vehicles safety checked for the winter months ahead," Garrison said.

In announcing the new inspection period, the Public Safety Director pointed out that vehicle inspection in Texas has apparently been a valuable tool in reducing traffic accidents due to vehicle defects. When compulsory vehicle inspection began in 1951, 19 per cent of all vehicles involved in fatal accidents had a defect that contributed to the accident, while in 1963, that percentage had been reduced to 4 per cent. In non-fatal accidents, vehicle defects as a contributing factor were reduced from 20 per cent in 1951 to 5 per cent in 1963.

Cool Weather And 4-Inch Rain Hit Area

Early Friday the temperature took a sudden drop in this area, much to everyone's enjoyment and comfort, after such a hot, baking summer.

Saturday morning the chilly weather was accompanied by light showers. Sunday was cloudy, cool and overcast. Monday evening brought showers and also most of the day, Tuesday. It's cool and raining pretty hard at this writing. Reports are that we have had four inches or more of rain, in and around Rochester.

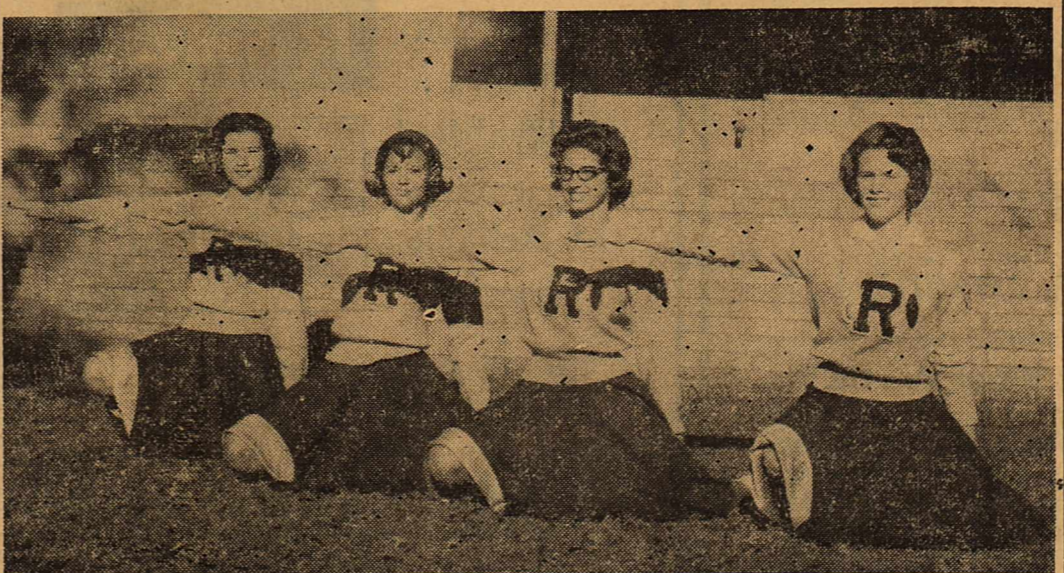

The rains have put a complete stop to the cotton harvest and combining of the maize. There is a great deal of cotton open, over the country, and quite a few braceros and native hands are in the area. More are expected in the future.

Thorn was the dumbest, as he gave him 50c to get a Cadillac and didn't say what color, but the B squad boy insisted Coach Lewis was the dumbest, as he had a telephone right there and could have called to see if he was in himself.

The Jaybirds beat the Bobcats 20-0, at Jayton, last Friday night. Jayton scored 20 in the first half and the Bobcats saw that they would do that the last half. Mrs. Mendal Beard and daughter, Menna, left last Friday for Raton. Sunday they returned by Tulia where her sister lives. Leaving Tulia, they stopped at a station and told the man to fill the car with gas. The man said, \$4.10; Mrs. Beard paid him, but thought to herself, that he filled the car rather quickly. When she started the car she failed to check her gauge, and about thirty miles from town the car stopped, out of gas. She was on a farm to market road and only two stations were between towns. Luckily she had passed one of the stations about three-quarters of a mile back. Accepting the

situation with a little bitterness, she quickly hot footed toward the station. She walked the whole distance and got there just as the attendant was preparing to close for the day.

SHAKE UP

Mr. and Mrs. Kenny Young left after their shower last Tuesday for their home in Dallas, but were delayed near Graham. The car was piled high with boxes of shower gifts, the car trunk was filled to capacity also, and in a moment of least expectation, Kenny's car and another car were in collision, sideswiped. Neither of the cars' occupants were hurt, but all were shaken considerably.

SCOGGINS ACCIDENT

Mr. and Mrs. Troy Scoggins were returning to Rule from their home in Abilene Saturday afternoon by way of Tuxedo. They were in collision with a car of colored folk, where the highways cross by the Tuxedo service station. The cars were badly damaged and Mrs. Scoggins was taken to the Stamford hospital, where it was found she had a broken leg and a shoulder injury.

ing, and many other things are considered in selecting the person to whom this award is given.

Janice Hertel, new president, discussed the degree ritual for bestowing Junior and Chapter degrees. Two girls, Linda Simpson and Janice Hertel are working on State Degrees at this time.

Sharron Morrison, bride of Kenny Young, was the honoree at a bridal shower, last Tuesday, 5:00 to 6:30 p.m. in the home of Mrs. Malcolm Hertenberger. Mrs. Hertenberger welcomed the guests and introduced them to the receiving line, Sharron Morrison Young, her mother, Mrs. Morrison, and mother of the groom, Mrs. Bill Dunnam.

Mrs. Novis Ousley played traditional wedding music throughout the shower. Mrs. John Estes and Mrs. John McQuinn registered the guests. Carol Gann and Sheryl Counts laddled punch and served dainty white cakes, from a table covered with a cloth of white Irish linen and a centerpiece of white gladiolas. See RULE NEWS, Page 4

Social Security Offers Three Ways Of Family Protection

"Many people who call at our offices throughout the nation continue to surprise our interviewers by thinking of social security as only a one-way form of income insurance", reports R. R. Tuley, Jr., district manager of social security in Abilene.

Glory had a birthday supper Sunday night. Some of the people there were the Speedy Smiths, Roy Dean Smiths, Allen Davises, and Bill Bites. Barbecued goat was the main course.

PEOPLE FORGET

Many times we think only about what shows on the outside and do not realize that many people do many good deeds that go unnoticed. Mr. Novis Ousley works at his store all day, and at night he works at home. He has a ham radio set in his home and does much good with this radio. For instance when people in far away places are in distress, he relays messages, and works hard to contact persons. During the tornado at Wichita Falls, he helped late into the night.

One night recently he was in contact with Australia. A person operating a ham radio must be an outstanding individual. Mr. Ousley is capable of giving tests for operator license. Hal, his son, is studying for the test at this time.

curity in Abilene. "One caller will know only of the retirement benefits; another the disability program; the next the survivorship payments," Tuley went on.

He added that with the retirement part now being over 27 years old, the survivors portion over 24 years old, and the newest, disability, now in its tenth year, such single-shot ideas are much more frequent than should be true.

Tuley furnished the following to summarize the three-way family income protection in the Social Security Act.

1. RETIREMENT. At age 62: early retirement amounts range from 80 to 99 per cent of the basic amount calculated as of age 65. At age 63; no reduction in benefit amount if no payments were made before age 65. At age 72: payment of benefits no matter how high current earnings may be.
2. SURVIVORS. Lump sum

death benefit. Monthly payments to children under 18 or continuously disabled since age 18, to widows age 62 or more, to dependent widows at age 62.

3. DISABILITY: Monthly payments to disabled person and certain dependents.

All social security district offices welcome and encourage inquiries about possible benefits, he added.

Your savings will grow faster in a thrift account. Saving in small amounts is a good old American habit, but right now there is a shortage of coins. Take your coins to your bank and deposit them in a savings account. They will earn interest there.

DAIRY TREAT ROBBED

Vernie Feemster, manager of the Jiffy Burger south of Knox City, reported that it was broken into last Thursday night. The vandals took the day's tax money and robbed the juke box of a full week's dimes. The cigarette machine was damaged but

they didn't manage to open it.

The same night the Dairy Treat at Munday was robbed.

OLD LANDMARK TORN DOWN

The little hill-top store between Knox City and Benjamin, known, not quite accurately, as the unofficial half-way point, is being torn down. The store across the road from the Highway Roadside Park on this side of the Brazos River Bridge, was built about 1924, by John Corley.

The store changed hands frequently; after Mr. Corley came Mr. Bubeau, Wriely White, Arthur Brasher, Leonard White, the Earl Watsons ran the store from 1942 to 1945. Earl LeFevre bought the store from them; Jimmy Wilkins ran it for a year, followed by the H. S. Pattersons, who owned and operated the little highway store for a record 14 years. The present owners, the R. H. Herring family, is tearing down the old store to make a small self-service stop.

We realize this old building must sometime go the way of all old buildings, but we hate to see a landmark disappear.

Questions And Answers

QUESTION — Is there any help forthcoming for the son of a totally disabled veteran to get a college education?

ANSWER — Yes. On July 7, 1964 President Johnson, signed a bill which provides benefits similar to those now being given under the War Orphans Educational Assistance Program, to children of living veterans with service-connected total and permanent disabilities, and to those children of veterans who died while a disability so evaluated was in existence.

QUESTION — Can I use my annual National Service Life Insurance dividends to pay on my policy loan?

ANSWER — Yes. You should notify the VA office having your insurance records that the annual dividends are to be applied against your policy indebtedness.

QUESTION — My son is receiving \$35.00 a month pension from the Veterans Administration. He recently inherited \$2,000 from his grandfather's estate. Will this have any effect on his pension payments?

ANSWER — Yes. This income will cause the discontinuance of the pension payments for the remainder of the year in which the inheritance was received. The VA should be notified immediately of any increase in income that will affect pension payments. In your son's case, his income exceeded \$1,800, the income limit for a child. His pension will be discontinued at the

Mr. RHS
 Mr. RHS last week was Johnny Wyatt. Mr. RHS this week is another one of those tall senior boys. His hair and skin are almost the same shade, which makes him look embarrassed all the time. He's active in all sports and good at them, too! See if you can guess the identity of this well-liked senior!

Miss RHS
 Cheryl Brown was last week's Miss RHS. Miss RHS this week always makes her presence known one way or another! Her friends sometimes call her "The Walking Accident." She has dark brown hair with eyes to match. She's active in all sports and she helps pass the time at those long, cold football games. I'm sure you have no trouble in guessing Miss RHS this week.

"SENIOR NEWS"
 By Karen Hollingsworth
 Well, another week of school, teachers, and tests. The first week of school seemed to be just right with everyone electing class officers, running around, and having fun. Then came the hard part — studying! But all in all it's hard to believe that we are starting the third week of school.

When we elected our class officers they came out this way. President, Bill Penman; Vice-president, Johnny Wyatt; Secretary, Carolyn Rose; Treasurer, Troveta Posey; Reporter, Karen Hollingsworth. Boy what bad luck we had last Saturday. This week we travel to Jayton to play, so let's all go out and back the boys. Let's win Steers!

"JUNIOR NEWS"
 By Linda Tibbets
 The juniors are wishing that Troy Fischer will soon be back in school. Troy suffered some knee damage during the game Saturday night. We also hope that sophomore Bill Roberson will soon be back. He also injured his leg. Vondell Archer is in California this week for her

brother's wedding. We have a new pupil, Rita Beth Mendinghall, who came to us from Wichita Falls. We are glad to have her.

Friday the 11th we had three tests, American History, English III, Homemaking III. We are all hoping that the midnight oil paid off.

Everyone come to Jayton Friday night and back the Steers!

"BAND NOTES"
 By Judy Herring
 We would like to say "Thank you" in appreciation to the parents of band members who worked in the concession stand Saturday night. They were Mrs. Felix Mullino, Mrs. Truett Alvis, Mrs. T. P. Herring, Mr. and Mrs. Beverly Roberson, and Mr. Phil Simmons.

Saturday, September 19, the Steer Band is planning to go to Abilene for ACC Band Day.

"SOPHOMORE NEWS"
 By Cheryl Brown
 One of our classmates, Bill Roberson, is not with us this week because of a cracked knee that he received in the game with Munday. The doctor told Bill it will be two weeks before he can come to school. Bill will have to wear a cast from his hip to his toes for six weeks. The sophomore class would like to wish Bill a speedy recovery.

The sophomore class will be selling cushions and pennants this week, those wishing to buy cushions or pennants, contact a sophomore. Let's all go to Jayton this Friday and back the Steers to victory!

"SPEECH NEWS"
 By Janice Reid
 Well, two weeks of school has already slipped by us. This week the Speech Class plans to give their current events. These current events are very important. Most students don't understand why their teacher makes them give one to the class. They are important because it

helps students to know what's in the world today and helps them to analyze each situation. Some students may not think any thing about an event if they read it in the paper, but if a student gets up and explains the significance of this event to the class, then the students will understand what it means and how important it is to them.

"FOOTBALL NEWS"
 By Raymond Greenwood
 The Rochester Steers played host to the Munday Moguls last Friday night at Field's Stadium. The Steers made a good showing but just couldn't keep up with the Moguls. Although the Moguls have a good ball club, if the Steers hadn't had so many injuries and new boys in new positions, the score might have been different. But that's football! Despite these handicaps, the Steers are really going to beat Jayton. Come on out and support the boys!

"AG CLASSES"
 By Bud Adkins
 Our VA III class was treated to a program by American Breeders Service on Artificial Insemination of Beef Cattle. Mr. Al Cartwright and H. B. Smith presented the program. They showed us how the Beef Cattle Producers of our area could have the services of the best bulls in the nation.

Labor Day morning, our Ag III class went out to Mr. Tolbert Beason's farm. We all enjoyed the field trip and wish to thank Mr. Beason for the use of his cattle to work with.

VA II is in the study of cotton insects. We checked two fields this week and found bollworms, fleahoppers, and boll worms and their damage. In Ag I we are in the middle of the study of FFA and working in the shop.

"FEATURE WRITING"
 By Alana Williams
"Drop Out or Stay In"

As citizens we are aware that our government, schools, and churches are engaged in an all-out effort to create a special program that would appeal to the youth of America and their interest in high school education. These people are looking out for the future of our country and its citizens. When it comes to the drop-out problem, they can only encourage us to stay in school. We must be the ones who make the decision — drop out or stay in. Most responsible students decided long ago not to be a drop-out, because of three main reasons.

Today, in our progressive society, education is an important factor in maintaining a high standard of living and life for one's self and his family. Life can not be enjoyed to the fullest extent unless one has learned to appreciate the more cultural aspects obtained through a high school education. A student must aspire for these things before he may take the first step away from being a high school drop-out.

Many potential drop-outs do not give thought to the abusive treatment given to family, friends, and countrymen in quitting school. Parents devote many hours in rearing, worrying over, working for, helping, loving, and entertaining their children from the day of birth to the day they reach high school age. It is a great disappointment for them to find this time and effort a wasted effort. People are very selfish in the fact that they do not enjoy having men or women join their cliques that will not be an asset in some way. Certainly a person who has not had enough desire to finish even high school, would not be welcome as a friend. Our country is struggling to keep its position as the most educated in the world. When one becomes a drop-out, he fails his patriotic duties as well as the duties to his friends and family.

When a person finishes his high school education, whether expelled, graduated, or a drop-out, he is saying to the world, "I am ready and able to take care of myself in an adult world." Few people under the age of seventeen are fully grown physically and although no one ever reaches

an ultimate in their mental growth, a very small percentage of the teenagers are developed enough mentally to take the strain of these responsibilities. These responsibilities are doubly hard to adhere to if one hasn't at least finished high school.

There are many other reasons for staying in school, but these are the ones that can be concentrated on to give a more productive life.

"STERETTE GOALS"

By BRENDA DUNLAP
 Rochester's Steerettes are once again in training for the approaching basketball season. There are sixteen girls out for the team.

They are as follows: Freshmen: Penny Helton, Jacquelyne Holmes, Cecelia Moon, Peggy Hollingsworth, Melinda Burt, Orlia Barrios, Ginger Mullino, Mary Alice Byrd, and Ava Jean Posey; Sophomores: Cheryl Brown, Marsha Shaver, Judy Herring, Brenda Hollar, and Brenda Dunlap; Juniors: Linda Tibbets and Diana Lynne Harper.

Coach J. Wilson stated that he "has the material with which to transform into a good team and the time to do it in." Coach Wilson and the Steerettes are looking forward to a really grand season.

Cheryl Brown is a sophomore prospect for the Steerette team. Cheryl is the only starting forward, back from last year, and is a real hustler on offense, as well as a dead-center sharp shooter on the basket.

Marsha Shaver is a sophomore defensive player also back from last year. She makes a challenging player against the opposing team and knows how to take advantage of her 5'-7" height as a Steerette guard.

Judy Herring is also back this year and is going to be hard to beat for a defensive position on the Steerette team. She is a real quick defensive hustler that knows how to use a basketball.

"Little" Brenda Hollar is as anxious as everyone else for basketball season to begin. She is going to be in there hustling for a starting position as a forward for the purple and gold team this year.

Linda Tibbets, former Steerette guard, is also back this year and trying for a position on the team. Whether she'll be on defense or offense isn't yet known, because she works well either place, but you can bet she'll be right in there hustling to help make ours a winning team.

Diana Lynne Harper, that hustling rebounder on defense, is out for a position on Rochester's team again this year. She is a quick-moving guard who helped make the Steerettes winners last season.

Penny Helton is a good prospect for a position on the Steerette team. This is Penny's first year of high school basketball, but she'll be in there hustling and doing her share to make the Rochester team district champions.

Jacquelyne Holmes, another freshman hustler, is also trying her luck as a probable starter on the Steerette lineup. Jaci is little, but you'll find her hard to beat against even the toughest competition.

Cecelia Moon is another freshman girl who is going

WEINERT HOMECOMING SET FOR OCTOBER 3

The biennial homecoming of Weinert School will be held Saturday, October 3.

All former students, teachers, and patrons of the school are urged to return for the event, Bailey Toliver, Haskell businessman, civic leader, president of the 1964 homecoming, said.

Weinert school grew out of the consolidation of several smaller rural schools, Lake Creek, Lone Star, Dennis Chapel, Myers, Ballew, and Brushy.

All former students, teachers and patrons of these schools also are urged to participate, Toliver said.

Mrs. Marvin Phemister is vice president of homecoming in Weinert, and Raymond Mathison is secretary-treasurer.

Dr. E. Clay Griffith, of Dallas, a prominent neurosurgeon, who graduated from Weinert High School in 1942, will be the principal speaker.

to be hard to beat out of a position in our starting lineup this year. Cecelia is among the tallest prospects for the Rochester team.

Ginger Mullino was a hustling player last year in grade school and is proving to be a very likely prospect for the Steerettes' starting sextet.

Mary Alice Byrd may be small for her age, but when she's out on the basketball court, she makes up for size in ability, as a swiftly-moving hustler, more than ready to help her team to another victory.

Peggy Hollingsworth is another of the freshman girls trying for a purple and gold suit. She is proving to be both capable and willing to make the Steerette team of '64-'65 all-around champs.

Melinda Burt is another "fish" out for Rochester's starting lineup. She has proven to be very capable when it comes to basketball. One can be sure she will be in there trying to make a place for herself on Rochester's basketball team.

Ava Jean Posey is also proving to be a real hustler and probable member of Rochester's starting sextet.

Along with Ava Jean is Oralia Barrios, a freshman, who gained a lot of experience in grade school basketball and is proving to be just as capable as a starter should be for the high school basketball team.

As anyone can see, Rochester's Steerettes for 1964-'65 have capable and willing material to make them this season's district champions.

Fay Gray, Mrs. Hazel Rainey, and Mrs. O. W. Vaughn, went to the home of the W. A. Tanners, Sunday morning for their singing period and sung several songs for them. Mrs. Tanner is recuperating after surgery four weeks ago, at Haskell Hospital.

WHAT'S BEEN GOING DOWN

AND OUT

FOR YOUR BENEFIT?

DOWN and down the unit price of electricity has dropped over the past years. Today in homes served by WTU, the cost per KWH is 17% less than it was in 1953. While the cost of living continues to rise... the cost of electricity continues to fall.

UP and up has gone the amount of electricity the customer is using. WTU has grown in the past years and will continue to grow... staying ahead of its customer's needs.

OUT in every direction have gone power lines to supply electricity for all. Customers all through West Texas are provided with benefits from the most modern and efficient generating plants.

Shirley Sanders, Curtis Wayne Offutt United in Marriage

The Weinert First Baptist Church was the scene of a double ring ceremony uniting in marriage Shirley Ann Sanders and Curtis Wayne Offutt. The Rev. Jerry Clark, pastor of Gillespie Baptist Church, officiated for the Saturday afternoon rite.

The bride is the daughter of Mr. and Mrs. E. J. Sanders of Weinert. Mr. and Mrs. C. W. Offutt, Sr., also of Weinert, are parents of the bridegroom.

Nuptial music was presented by Mrs. R. C. Liles, organist. Miss Judy Therwhanger was the vocalist. Miss Wanda Miller was maid of honor, and Eddie Roberts was best man. Miss Judy Offutt, sister of the bridegroom, was bridesmaid, and Kenneth Sanders, brother of the bride, was groomsmen. Serving as ushers were Danny Owens and Jerry Hester, of Rochester. Presented in marriage by her father, the bride wore a gown of white peau de soie and lace covered bodice fashioned with scalloped neckline and long, tapered sleeves. Lace appliques and seed pearls enhanced the bellshaped skirt. Her elbow length veil of illusion was caught to a headdress of cabbage rose surrounded by leaves touched with seed pearls. The bride's bouquet consisted of white carnations and English ivy.

Her bridal attendants wore identical pink brocaded taffeta dresses fashioned with scalloped neckline and short sleeves. Headdresses were matching cabbage rose with butterfly veils. The attendants carried deep pink carnations.

Reception was in the home of Mrs. A. J. Sanders, the paternal grandmother of the bride.

The couple will be at home in Weinert. The bride is a 1964 graduate of Weinert High School and will enroll in H-SU this fall.

The bridegroom is a graduate of Weinert High School, also. He attended Texas Tech and is now finishing a business course at Draughon's Business College. He is engaged in farming near Weinert.
