Steers Preparing For New Season; Workouts Twice Daily Next Week

Are you prepared? If not, you had better start getting out the old football blanket, the stadium seats and your longies because even if it's 103 degrees today, football season is just around the corner and cool weather with it.

So if you prepare early, the cold weather won't be a bother to you when that first nortner arrives just before the Friday night game.

This week, if you have noticed, the football boys are working out about 6:00 every evening in shorts. Next week they will don football suits with full equipment and start really getting in shape for the football season ahead. They will work out twice daily.

Some of the boys are working hard and the others are getting ready to really work hard. Some are in better shape than others, as this is the rule every year at the beginning of the season. The calisthenics the boys go through each day and the laps they run around the practice field should get the heavy waistlines and pudgy spots hardened up in no time at all.

Take a few minutes out and look at the boys working and sweating on that football field. This is done as much for you, the fan, as for their school and for themselves. Yes, some of them truly like the game, the hard fighting that goes into it, the challenge to see if they have the backbone to stick to the game of football. It's a hard game to play. It takes plenty of want to, know how and a little size and plenty of good shape goes a long way.

The Rochester Steers have always been known for their hard work, and good sportsmanship. This year will be no different.

Area Receives Odd Amounts Of Rainfall

Many and most faces are smiling this week since the last rains. Last Wednesday night it rained 8 tenths inches. The amount varied all around the community. Saturday morning, about an inch of rain fell in the town proper, with variations all around the area. But with the different variations which have fallen, almost everyone has enjoyed a pretty good amount of moisture, for their crops.

Most of the maize is about ready to cut, as soon as the grain dries so that the matured maize will sell.

Last year the first bales of cotton were beginning to come in at this time, but this year the crop seems much later. You can bet that the first bale is not far away. Most of the grazing land is looking very pretty since the rains have come and cattle will be doing fine very soon.

Your Name May Appear In This Issue

The personnel of The Rochester Reporter has something of interest to the people of Haskell County beginning this week in your Rochester Reporter.

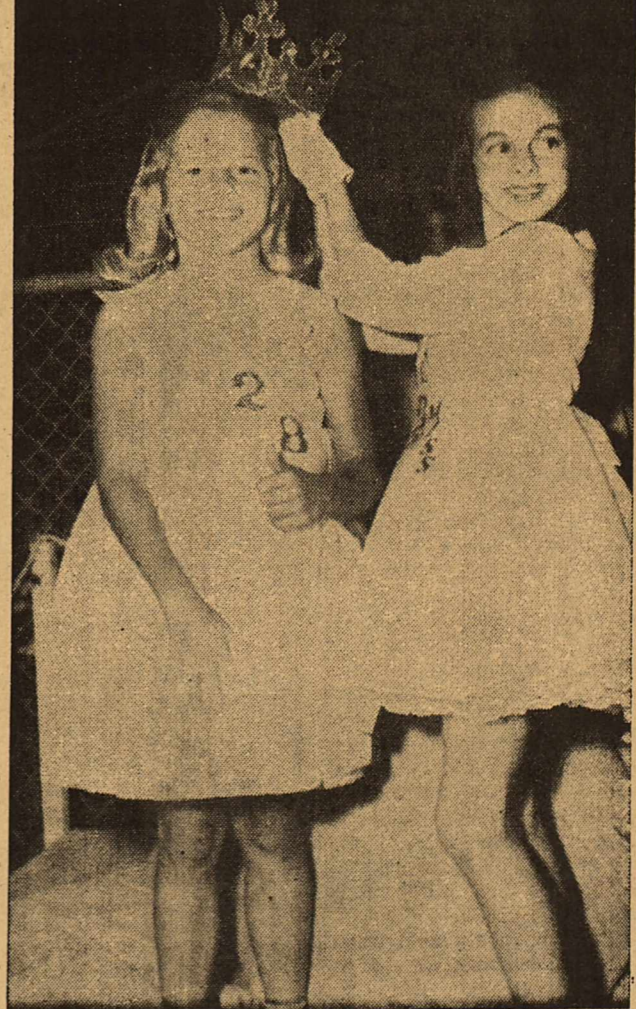

It goes like this . . . if you can find your name on a line, by itself, in capital letters, and are not a subscriber to this paper . . . it is worth \$1.00 to you. All you need to do is to present the paper at our office and an employee will credit you with \$1.00 on a subscription for one full year.

There will be 10 names inserted into stories, throughout the paper each week. Each name will be on a line by itself, no other wording on the line, just your name.

This should not be confusing — all you need to do is find a line with your name on it and nothing else — you will be eligible for credit for \$1.00 on a new subscription for one year.

Mrs. Vestus Alvis of California was in Abilene Friday and Saturday to meet her son, Comdr. John Alvis, who was to arrive at Dyess Air Force Base but his plane crashed and he was unable to complete his flight to Dyess. He was not injured. She returned home Saturday morning and Mrs. Bill Perkins and children came home with her and spent the weekend. Bill Perkins came for his wife and children Sunday. Becky Perkins remained for a longer visit with Ginger Mullino and other relatives.

IBM Series 50 System Is New Equipment At H-SU

Hardin-Simmons University students registering for the fall term will be greeted by H-SU's new IBM Series 50 system, which consists of two card punches, a producing punch, a sorter, a collator, and an accounting machine that also prints reports university officials said Tuesday.

The new equipment, which is being leased from International Business Machines, will be housed in Sandefer Memorial and is to be tested thoroughly before the fall registration, according to Robert E. Herman, who is in charge of the new system.

"This program has a dual purpose," Herman said. "First, it will assist the registrar's office in such matters as registration and grade reporting, and it will

assist such business office functions as payroll procedures and student accounts.

"Second, it will be used for teaching purposes. A fundamental course in data processing will be offered this fall, and we hope to add more courses at a later date tentatively in the spring."

But few major changes will be evident to most students during registration. The reason, according to Herman, is that "in order to cut down on confusion, we are trying to make as few changes as possible in registration from the student's standpoint."

In fact, the primary changes noted by most students will probably be that the forms have been changed to IBM punchcards, that

Miss Rose Honored With Gift Tea

A gift tea honoring Carolyn Rose, bride-elect of Philip Madeley was held in the community room of the Haskell National Bank, Monday evening, August 15, from 7 to 9 p.m.

Guests were greeted by Mrs. Jack Speer and Mrs. Byron Frazier.

Receiving guests were the bride-elect, her mother, Mrs. Gene Rose, sister Nancy Rose, grandmother, Mrs. Jim Rose, and mother of the groom-to-be, Mrs. R. C. Madeley of Stephenville.

Patricia Medford registered the guests.

Miss Rita Woodard, Mrs. Robert Speer and Mrs. Burnell Gilleland, served white cake squares and pink punch from a table laid with a white lace cloth over pink. The centerpiece was white rose buds and Lillies of the Valley around a styrofoam heart over an imitation open Bible with two golden wedding bands. Pink streamers with Carolyn and Philip and their wedding date printed in gold completed the centerpiece. Crystal appointments were used throughout the table service.

Others in the houseparty were Mmes. Horace Woodard, Glenn Merchant, W. P. McCollum, Loyall Cameron, Richard Josselot, Holo Harrell, Roy Medford, Jodie Earls, W. C. Johnston, T. J. Finley, and Louis Tucker.

Some of the information cards have been rearranged and are asking different questions, and that less writing will be required of the student. For example, there will be no class cards for the student to fill out, and he will only have to write his name once during the registration proper.

But behind the scenes the Big Difference makes itself felt—in registration from the registrar's standpoint.

"All of the records will be machine sorted, instead of hand sorted," Herman emphasized. "Various listings, such as class lists, dormitory lists, and car registration lists will be available almost immediately."

"As much information as possible will be coded—each class and each student will be given a code number prior to registration. In other words, it will automate what had previously been done by hand, thus increasing the speed and decreasing the chances for error."

"This is the basic IBM system—additions or improvements may hopefully be added later," Herman said. "We will, of course, continue to search for ways to improve the current system, and since this system is being leased from IBM, we can change the system in the future in order to take advantage of any improvements in the field."

Herman concluded that "we don't anticipate any problems—either from the business or the registration end. I think that this is a progressive step forward for the university."

Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

SENATE JOINT RESOLUTION NO. 39 proposing an amendment to Section 18, Article VII, Constitution of the State of Texas, to withdraw Arlington State College from participation in the Permanent University Fund.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 18, Article VII, Constitution of the State of Texas, be amended to read as follows:

"Section 18. Proposed CONSTITUTIONAL AMENDMENT NUMBER SEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

HOUSE JOINT RESOLUTION NO. 13 proposing an Amendment to Sections 2 and 4 of Article VI of the Constitution of the State of Texas so as to repeal the provision making payment of the poll tax a requirement for voting and so as to authorize the Legislature to provide for the registration of all voters.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2 of Article VI of the Constitution of the State of Texas be amended, effective February 1, 1968, by deleting the following language:

language underscored:

"Section 2. Every person subject to none of the foregoing disqualifications who shall have attained the age of twenty-one (21) years and who shall be a citizen of the United States and who shall have resided in this State one (1) year next preceding an election and the last six (6) months within the district or county in which such person offers to vote, shall be deemed a qualified elector; and provided, further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said tax receipt, he or she as the case may be, shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such tax receipt has been lost. Such affidavit shall be made in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive the receipt therefor in like manner, the wife may pay the poll tax of her husband and receive the receipt therefor.

provided, however, that before offering to vote at an election a voter shall have registered annually, but such requirement for registration shall not be considered a qualification of an elector within the meaning of the term 'qualified elector' as used in any other Article of this Constitution in respect to any matter except qualification and eligibility to vote at an election. Any legislation enacted in anticipation of the adoption of this Amendment shall not be invalid because of its anticipatory nature. The Legislature may authorize absentee voting. And this provision of the Constitution shall be self-enforcing without the necessity of further legislation. Any member of the Armed Forces of the United States or component branches thereof; or in the military service of the United States, may vote only in the county in which he or she resided at the time of en-

tering such service so long as he or she is a member of the Armed Forces."

Sec. 2. That Section 4 of Article VI of the Constitution of the State of Texas be amended by changing the word "may" to "shall" in the last clause thereof and by deleting the words "in all cities containing a population of ten thousand inhabitants or more."

The text of this Section, as so amended, is shown below, with the deleted language marked through by a broken line and with the new language underscored:

"Section 4. In all elections by the people, the vote shall be by ballot, and the Legislature shall provide for the numbering of tickets and make such other regulations as may be necessary to detect and punish fraud and preserve the purity of the ballot box; and the Legislature may shall provide by law for the registration of all voters in all cities containing a population of ten thousand inhabitants or more."

Sec. 3. If any other Amendment to Sections 2 or 4 of Article VI of the Constitution of the State of Texas, being for a different purpose, is adopted at an earlier election or at the same election, the adoption of this Amendment shall not be construed as nullifying any change made by such other Amendment.

Sec. 4. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR repealing the poll tax as a requirement for voting.

"AGAINST repealing the poll tax as a requirement for voting."

Sec. 5. If the foregoing Amendment is adopted, the proclamation of the Governor declaring the adoption of the Amendment shall set forth the full text of the amended Sections, as amended herein and as amended by any other proposed Amendment which is submitted by the 59th Legislature and which has been duly adopted prior to such proclamation.

Sec. 6. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

The Neighborhood Youth Corps is operated under the Office of Economic Opportunity and the Work-Study program is a federal program operated under the Vocational Education Department of the Texas Education Agency. Both programs provide financial assistance to the school whereby the school can offer part-time employment to deserving students.

This is to help relieve any financial burden that might keep a student from realizing his or her full educational potential.

There were 14 students participating in the work-study program in 1965-66. The NYC is new and will allow additional students to have part-time employment. The Special Education program was approved in July and funds from the state were made available to employ two teachers. The school expects to connect to the new sewage system when it begins operation in September.

CATTLE MAY NEED PHOSPHORUS

Under summer conditions, natural grazing may not provide beef cattle with needed nutrients. Cows fed phosphorus supplements, in areas where the deficiency occurs, may average as much as 200 pounds heavier than those not getting the supplement and calves may weigh as much as 50-70 pounds more at weaning age, says U. D. Thompson, Texas A&M University Extension animal husbandman. And, he adds, calf crops may be increased by as much as 30 percent.

THE MAJOR COMMANDS OF GOD AND THE MINOR COMMANDS

There are some commands of the Bible that are stated to be more important than others. Love is described as greater than faith or hope (I Cor. 13:13). Jesus states that the greatest commandment is to love the Father. But the fact that one command is greater than another does not mean that the lesser is minor in sense that it is immaterial as to whether it is obeyed or not. The fact that love is greater than hope or faith certainly does not mean that faith is not essential to salvation.

Sometimes we make a distinction between the major and minor commands today in a different sense. We think that baptism, for instance, is a minor command while faith is a major command. In the first place, there is no Biblical foundation for such a statement, but even if it be true that faith is more important than baptism, this does not mean that baptism can be branded as non-essential, since the Bible makes it a specific command (Mark 16:16).

It is not man's place to decide which are the major commands and which are the minor commands. It is not man's place to decide which commands are essential and which are non-essential. In fact, all commands are essential, and to disobey any command of God, or to declare any statement of God as non-essential is to be guilty of open disobedience of the will of God.

Pace Brothers Report On Winterpeas

Lynn and Riley Pace, cooperating with the California Creek Soil Conservation District, produced a crop of Austrian winterpeas this past season that returned the equivalent of 80 pounds of pure nitrogen per acre to the soil. Hinds A. McGowen, Jr., Haskell Soil Conservation Service Technician stated that at current prices for nitrogen the cash value of the crop of winterpeas would amount to approximately \$9.00 per acre. The cost of establishment of the winterpeas was \$3.90 per acre.

The Paces drilled peas on the land last fall for two purposes, to improve the fertility of the soil and to comply with provisions of the diverted acres program. The peas were left on the land until late this spring so as to receive the maximum benefits. Normal plow up time for winterpeas is about March 15, but due to weather conditions, the Paces did not get to plow them up until the middle of May. The heavy rains received in April were all held on the land because of the peas. Approximately 1000 pounds of residue from the peas still remains on the land at this time, serving as a mulch against the hot summer temperatures and the dry conditions.

According to the Pace brothers, the land will be used for cotton production during the 1967 cropping year. They plan to continue using winter peas on all their land for protection of the land during the winter and spring months, as well as for soil improvement.

McGowen stated that normal planting time for winterpeas, of course, depending on moisture conditions, is August 15 to November 1. Approximately 160 growing days should be allowed for maximum benefits to be derived from their use.

"Section 9. The Legislature may by law provide for the creation, establishment, maintenance and operation of hospital districts composed of one or more counties or all or any part of one or more counties with power to issue bonds for the purchase, construction, acquisition, repair or renovation of buildings and improvements and equipping same, for hospital purposes; providing for the transfer to the hospital district of the title to any land, buildings, improvements and equipment located wholly within the district which may be jointly or separately owned by any city, town or county, providing that any district so created shall assume full responsibility for providing medical and hospital care for its needy inhabitants and assume the outstanding indebtedness incurred by cities, towns and counties for hospital purposes prior to the creation of the district, if same are located wholly within its boundaries, and a pro rata portion of such indebtedness based upon the then last approved tax assessment rolls of the included cities, towns and counties if less than all the territory thereof is included within the district boundaries; providing that after its creation no other municipality or political subdivision shall have the power to levy taxes or issue bonds or other obligations for hospital purposes or for providing medical care within the boundaries of the district; providing for the levy of annual taxes at a rate not to exceed seventy-five cents (75c) on the One Hundred Dollar valuation of all taxable property within such district for the purpose of meeting the requirements of the district's bonds, the indebtedness assumed by it and its maintenance and operating expenses, providing that such district shall not be created or such tax authorized unless approved by a majority of the qualified property taxpayers thereof voting at an election called for the purpose; and providing further that the support and maintenance of the district's hospital system shall never become a charge against or obligation of the State of Texas nor shall any direct appropriation be made by the Legislature for the construction, maintenance or improvement of any of the facilities of such district.

Provided, however, that no district shall be created except by act of the Legislature and then only after thirty (30) days' public notice to the district affected, and in no event may the Legislature provide for a district to be created without the affirmative vote of a majority of the taxpaying voters in the district concerned.

The Legislature may also provide for the dissolution of hospital districts provided that a process is afforded by statute.

(1) determining the desire of a majority of the qualified voters within the district to dissolve it;

(2) disposing of or transferring the assets, if any, of the district; and

(3) satisfying the debts and bond obligations, if any, of the district, in such manner as to protect the interest of the citizens within the district, including their collective property rights in the assets and property of the district, provided, however, that any grant from federal funds, however dispensed, shall be considered an obligation to be repaid in satisfaction and provided that no election to dissolve shall be held more often than once each year. In such connection, the statute shall provide against disposal or transfer of the assets of the district except for due compensation unless such assets are transferred to another governmental agency, such as a county, embracing such district and using such transferred assets in such a way as to benefit citizens formerly within the district.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the constitutional amendment providing the method and manner for dissolution of hospital districts.

"AGAINST the constitutional amendment providing the method and manner for dissolution of hospital districts."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.
