## Senator Gramm to Visit Eastland County

Drugs and Crime are a big problem in our nation and they also are a big problem right here in Eastland County. Even with vigorous law enforcement by local officers, the problem remains a large scale one and it could get worse.

Since the first of the year, there have been charges filed by arresting officers against individuals for seventy-eight drug offenses, and thirty-six driving while intoxicated arrests have been made. And that is just right here in Eastland County.

Due to the complexity of law enforcement in present day Texas, the number of arrests made for crime is sometimes quite a bit fewer than the number of crimes that officers are aware of. The paperwork that goes with making an arrest may take more time and work than the solving of a crime by investigators and making the arrests.

And just who uses and sells drugs here in Eastland County? According to arrest reports it is both men and women with ages ranging from their teens to over fifty years of age. And their economic background seems to range from poor to wealthy. And yes, officers say that

drugs are sometimes even sold to students in some of our local schools.

But the big question that Sheriff Dee Hogan and your local law enforcement officers want to know is, do you really care? Do you care enough to help your law enforcement officers defeat the drug problem in your community?

Sheriff Hogan is trying to do something about this problem and he has concluded that Eastland County people will have to "clean our own house." The Interregional Crime Task Force which Eastland County has supported is trying, but it is too undermanned and underfunded to be of any substantial help in solving the local problem. They just have to cover too many counties and large cities.

United States Senator Phil Gramm has also indicated an interest in Eastland County and in helping to solve the drug problem here. And Senator Gramm, probably the only U.S. Senator to make a public visit to Eastland County in

modern times, has scheduled a third visit to the county on Wednesday, June 28.

District Judge Jim Wright has made the District Courtroom in the Courthouse in Eastland available for a public meeting that is being organized by Sheriff Hogan. The time, which is subject to change, has been set at 2:30 p.m.

The purpose of the meeting is to find a better way to attack the local drug problem. There will be a discussion with opportunities for questions to be asked and for suggestions and ideas to be presented. Both Senator Gramm and Crime Task Force Commander Frank Cleveland are scheduled for time on the program. And some local people may also have a part.

The best method of attack may be a local drug task force, but training and salaries for officers as well as expenses are problem if the force is to be adequate to be able to discourage big city drug operators from moving into the county.

Senator Gramm might be able to help us acquire some federal matching funds to help with the financial problems, but help will only be possible if you the citizens, voters, and taxpayers of Eastland County, show that you really care.

Sheriff Hogan says that about eight percent of the crime in the county is drug related. It seems that most of the burglaries, and most of the theft, is to acquire money to buy drugs and to maintain a drug habit. Sheriff Hogan says that weekly drug sales in the county are in the tens of thousands of dollars.

Are you satisfied with the present situation where your child or grandchild, or brother or sister, may become a drug addict, and where burglary of your home and car may become routine. Some people in the county are making thousands of dollars, or more, from the drug trade and they can afford to spend part of their large incomes to make Eastland County safer for criminals. And wealthy addicts may fight to keep their supply of drugs coming.

Are you willing to take a stand against illegal drugs in Eastland County? Will you come to the meeting at the Courthouse and let Senator Gramm know that you care?

## Cancer Response System Established

Residents of Eastland County now can have all their questions about cancer answered by calling a toll-free number which will be staffed by trained American Cancer Society volunteers with access to a comprehensive database of information, according to Dale Squires, President of the Eastland Unit of the American Cancer Society.

The toll-free number is 1-800-ACS-2345 and can be called from anywhere in Texas. Hours of operation are 8:30 a.m. - 4:00 p.m. (CST).

"People often have a lot of questions about cancer when they find out a loved one has the disease or when they suspect they have a warning sign of cancer or when they have read an article that leaves them with a question. Now anyone in Texas can have their questions answered with just a phone call — and its free," said Dale Squires. Many people may be unaware of the variety of services provided free to cancer patients in Eastland County.

Callers may ask technical

## Governor Signs Bill Dissolving Hospital District

Governor Bill Clements has signed into law H.B. 1841, which provides for the dissolution of the South Eastland County Hospital District.

This Bill will become effective on Aug. 28, 1989, according to information from the Governor's office.

Under provisions of the Measure the Board of Directors may order an election on the question of dissolving the District, disposing of the District's obligations according to a plan of adjustment approved by a United States Bankruptcy Court.

H.B. 1841 states that if the District is dissolved this procedure would "transfer any remaining assets and obligations to Eastland County" after Dec. 31, 1991. The County would also assume responsibility for Indigent Health Care in the District at that time.

The Hospital District, which includes Gorman and the surrounding area, has continued to exist for some time to pay off debts of Blackwell Memorial Hospital. The Hospital closed in September, 1986 and declared bankruptcy in Jan., 1988.

The U.S. Bankruptcy Court has determined that the District shall pay off its debts, and has prescribed guidelines. This includes the amount of time allowed. The District, according to the Court order, must pay the debt by sometime in late 1990 or early 1991. H.B. 1841 extends that time.

Rep. Jim Parker of Comanche introduced Bill 1841 to the Texas Legislature in March, 1989. The Bill was restated in April to clarify remaining obligations of the South Eastland County Hospital District.

Lucien and Merle Richardson of McClung Ranch, Rising Star, exhibited the reserve champion pair of heifers in the Division II category and the reserve champion pair of bred cows in the Division IV category at "The Gatherin'" held at the John Justin Arena in Fort Worth, Texas. Photo by American Angus Association.

A number of Texas Angus breeders participated in "The Gatherin'" and took home championship ribbons from the Angus heifers and cows they exhibited at the event. It was held at the John Justin Arena in Fort Worth. "The Gatherin'," sponsored by the Texas Angus Association and Gatherin' Committee, is a pen show where the Angus cattle are shown loose and judged from horseback by three judges. Jarold Callahan, Stillwater, Okla.; Bill Jacobs, Guthrie, Okla.; and Jodi Burgin, Stillwater, Okla., served as judges for this event. Awards were presented in five divisions.

In Division I, which consisted of a pair of heifers under 12 months of age, Hartley Angus Ranch, Stephenville, exhibited the champion pair. The heifers were calved August 1988 and were sired by Dameron Linedrive. The reserve pair of heifers were shown by Olson Cattle Co., Hereford. They calved August and September 1988 and were sired by JK Pine Tar.

A February 1988, D F Wanderer daughter and a March 1988, Lincoln LN4 daughter won Division II, a pair of heifers 12 to 18 months old. The champions were entered by Olson Cattle Co. McClung Ranch, Rising Star, showed an October and No-

vember 1987 daughter of Broadway, and won reserve honors in this division.

Bobo Brothers of Pilot Point won the Division III category, which consisted of a pair of bred heifers under 30 months of age. Their championship pair was a September 1986, R&J Knockout daughter and a March 1987, JK Pine Tar daughter. Two Dameron Linedrive daughters, calved April and May 1987, won the reserve ribbon for Riverside Farms, Hamilton.

Riverside Farms captured another ribbon by exhibiting the Division IV champions. This category was made up of a pair of cows over 30 months

old. Riverside's champions consisted of an April 1986 daughter of Director and a September 1985, C P New Yorker daughter. McClung Ranch displayed the reserve champion pair of bred cows. One entry was an April 1984 daughter of Fairfield Hi Guy and the other a May 1982, R&J Colonel daughter.

The Division V champions, two cows with calf at side, either sex, were a January 1985 R&J Dinero daughter and a December 1985 R&J Stults daughter. Both cows had a Geans Stardust Big D calf at their side. They were exhibited by Gean Ranch, Keller. Larry Lawson, Meridian, entered the reserve champion pair, a January 1986, Wrangler daughter and a February 1986, R&J Progression daughter. They had Brost Power Drive calves at their side.

### WALKER WAYNE YORK

It was a boy who welcomed home five jubilant siblings June 13, 1989, when Leighton, Jedediah, Chance, William and Rachel York arrived to examine the hours-old nine-pounder. Walker Wayne York, born at 8:06 Tuesday evening, accepted the attention calmly. He was 21 inches long.

Walker is the son of Joey and Ruth York of Cisco. Maternal grandparents are Voy and Myrtle Wilks of Cisco. Paternal grandmother is Ruth York of Lincoln, Nebraska.

## "Barefoot In The Park" Is CJC's Second Show For '89 Summer Season

Cisco Junior College's second show for the '89 summer season is Neil Simon's BAREFOOT IN THE PARK. This delightful story about relationships stars Mary McGrew, Scott Taylor, Donna DeLuca and Tom Soare.

The story begins in the top floor, overpriced apartment of newlyweds Paul and Corie Bratter (Taylor and McGrew). Corie, a wistful, free spirit, adores the apartment, while her practical, conservative, lawyer husband, Paul, is bothered by the crazy neighbors and by

the six flight climb it takes to reach the apartment. Although very much in love, each thinks the personality traits of the other are extreme. Corie is the most vocal, however, and sets out to "loosen up" her husband.

Enter Ethel Banks, (DeLuca) Corie's widowed mother. Mrs. Banks, also a careful and practical soul, has mixed emotions about her daughter's recent marriage. Although she is very happy for the couple, she

laments about her new state of loneliness.

In an effort to both lighten up Paul and Mrs. Banks, and to provide her mother with some companionship, Corie sets up a blind, double date between she and Paul and her mother and one of the charming but, infamously "crazy" neighbors, Victor Velasco (Soare).

Velasco insists on planning the "wonderful" evening, and takes Corie and her reluctant crew to an obscure Hungarian restaurant in the bowels of Staten Island. Corie and Velasco return no worse for the wear, but Paul and his mother-in-law are almost incapacitated by the evening of strange dishes

and potent drink.

When they are alone, Paul reprimands Corie for putting her mother through such a terrible evening. Corie jumps back, however, claiming that Paul is a "stuffed shirt" and incapable of having a good time. Then, Paul leaps back claiming that Corie is wild and insensitive. A hilarious argument ensues, and the two decide that

although they have been married one week, they need a divorce.

As in all comedies, however, things manage to sort themselves out into a happy ending. To devolve the ending, however, would rob audiences of an evening of laughter and family entertainment. For more information or for reservations, call 442-2567 or 442-2589.

## Disability Determination Follows A Step-By-Step Process

Disability determinations for Social Security and supplemental security income (SSI) follow a step-by-step process, Glyn Hammons, Social Security manager in Abilene, said today.

When someone who is not working applies for disability benefits, the case is referred to the State Disability Determination Services (DDS) to determine the severity of the person's disability. The individual's medical records are reviewed, and a consultative examination may be scheduled if the DDS needs more information, Hammons said.

A person will be found not

disabled if evidence establishes only a slight abnormality with no more than a minimal effect on ability to work. If evidence shows that the disabling condition is significant, the DDS must decide

whether or not the impairment meets or equals its "Listing of Impairments."

The Listing of Impairments identifies conditions which are so severe that they automatically result in an approval of the disability claim.

If an impairment is severe but it does not match the Listing of Impairments, the person's present ability to work is compared to his or her work experience. If the applicant is unable to do the kind of work previously done, the claim will still be turned down if the DDS determines that the person could do some other kind of work, Hammons said.

Consideration is given to factors of age, education, and transferable skills. For example, a young person with a high school education could be expected to change from a strenuous job to a job with fewer physical demands.

On an average, disability

decisions take 77 days, Hammons said. Questions about Social Security and SSI disability can be answered by our telephone representative at 698-1360 or toll free at 1-800-234-5772. The Abilene Social Security office is located at 142 S. Pioneer. The office is open from 9:00 to 4:30.

How many tires does a car have? If you said 4 then think again. Don't forget the spare. Develop a good habit of checking the spare tire anytime you check the other tires. If you do have to use the spare for replacement, remember that the small factory size spare tires usually aren't recommended for high speed travel. # Consumer Groups Storm Local Grocery Stores!

## Stores point finger at newspaper

Today saw one of the largest consumer responses of the week to offers made by local grocery stores for discounted prices. Across the city, shoppers were redeeming coupons cut from the local paper in record numbers.

"We know any offer we make will be highlighted most by the newspaper," commented a grocery store spokesman. "Our goal is simply to inform the consumers that these discounts are available. We are confident they will respond if they see it in the paper." His statement was backed by recent Consumer Data Service reports that indicated grocery store ads triple volume on discounted items and double volume on regularly priced items. It also revealed grocery ads are read by well over 70% of newspaper readers.

Grocery store representatives unanimously agreed that newspaper advertising was the only way to get immediate consumer response. One grocer remarked, "Most people read the paper, and a bunch of those readers clip our coupons. It's that simple." His comments reflect the well known Manufacturer's Coupon Center report which stated that over 80% of all families use coupons.

"When consumers want more for their money, they always go to the

newspaper," a grocery official said. When pressed by reporters for the best offer he could make to the consumers he replied, "Look in the paper, it's all right there. Green leaf lettuce, two heads for 79¢... with a coupon of course."

# Leon-Bosque Conservation Group Holds Executive Council Meeting

A Leon-Bosque RC&D Executive Council meeting was held in Stephenville on the afternoon of May 19.

Members present were Judge George R. Crump, Chairman, of Somervell Co., Henry Burk, Vice Chairman, Eastland County, Don Shepard, also of Eastland County; Pernel Aars and Regina Hanson from Bosque County, and Bobby Allen and Betty Terrill from Comanche County.

Other members present were James Watson and Duane Oakes from Erath County, and Chauncey Fenter from Somervell Co. Others present were Donna Gregg from the City of Rising Star,

and Ernest E. Moravec of Dublin, RC&D Coordinator. The annual meeting held at PAR Recreation Center on April 26 was discussed. Everyone felt that the meeting was a success, and that Guest Speaker Kent Hance made an excellent presentation.

Crump reviewed the Texas Association of RC&D Areas annual meeting in San Antonio May 11-12. Judge Crump, J.W. Sadeberry and Henry Burk attended the meeting. Underground Water Regulations and legislation on established Water Districts were discussed.

The Council appointed Betty Terrill, Bill Grimes and Regina Hanson as directors

to serve on the Texas Association of RC&D Area's Board of Directors for the current year. Henry Burk was selected as an alternate.

Letters from Judge Miller Tuttle, Stephens County Judge, and Bill Green, Chairman of the Lower Clear Fork of the Brazos Soil and Water District were read. These letters requested that Stephens County be added to the RC&D Area. Morevac reported that Shackelford County has also shown some interest in becoming part of the organization.

A decision was made to delay a decision on the Stephens County request until further information is received on Shackelford County's intent.

Various dues increases were discussed, with no action at this meeting. Crump will write letters to sponsors about the request, allowing them to get this into their budgets. Further actions on increasing sponsors dues and adding cities as sponsors will be discussed at the next Council meeting.

Coordinator Moravec presented his report. He attended the RC&D 1 Training Session presented by the Soil Conservation Service in Nashville, TN, April 10-14. He will be attending a Workshop for all RC&D Coordinators in Texas May 23-25 in Temple.

Moravec also discussed the need for revising the Area Plan. The need for public transportation in identifying the problems within the area was emphasized. The Executive Council will develop objective based on the problems identified.

Goals will be set, defining how the objectives will be attained. The Area Plan will focus on projects and activities that can be accomplished in a three to five year period. Revisions on the Area Plan will be made at least every five years.

The next meeting date for the Leon-Bosque RC&D Executive Council will be July 20, 1 p.m. at the Holiday Inn in Stephenville.

# The Next Best Thing -

...to a clear conscience and a good night's sleep is the feeling of security in owning your own home with a clear title. Peculiar to the real estate field, values are based on land and the improvements thereon, if any. But values on these are based on the title. The title then comes the most important item to be considered when purchase of real property is contemplated. So be careful to buy good title based on an abstract of title or a policy of title insurance.

Various dues increases were discussed, with no action at this meeting. Crump will write letters to sponsors about the request, allowing them to get this into their budgets. Further actions on increasing sponsors dues and adding cities as sponsors will be discussed at the next Council meeting.

Coordinator Moravec presented his report. He attended the RC&D 1 Training Session presented by the Soil Conservation Service in Nashville, TN, April 10-14. He will be attending a Workshop for all RC&D Coordinators in Texas May 23-25 in Temple.

Moravec also discussed the need for revising the Area Plan. The need for public transportation in identifying the problems within the area was emphasized. The Executive Council will develop objective based on the problems identified.

Goals will be set, defining how the objectives will be attained. The Area Plan will focus on projects and activities that can be accomplished in a three to five year period. Revisions on the Area Plan will be made at least every five years.

The next meeting date for the Leon-Bosque RC&D Executive Council will be July 20, 1 p.m. at the Holiday Inn in Stephenville.

### Brazos Electric Cooperative Seeks Permanent Rate Reduction

Brazos Electric Cooperative today filed with the Public Utility Commission for a rate reduction that will permanently reduce rates to about the same level they have been since the cooperative implemented a temporary rate reduction in December.

"It is uncommon in today's world, but we in the cooperative business gauge our success by how little we can charge our customers," Richard E. McCaskill, Brazos Electric Cooperative's executive vice president and general manager, said. "Our goal is not to profit, but to economically serve our customers with dependable electric power. Whenever we foresee that we can safely reduce rates, we will request authority to do so."

McCaskill said Brazos Electric Cooperative has a

history of passing savings to its wholesale customers. The cooperative has returned \$20 million in the last two years with temporary rate reductions. Additionally, it reduced its fuel charges by more than \$11 million per year, starting in 1987. In 1977, it returned \$1 million to its customers. McCaskill said the pending reduction means the cooperative's wholesale customers will have had a 19 percent average reduction in their cost of power since 1984. To the end consumer, this means a reduction of about \$10.00 per 1,000 kilowatt hours. The cooperative has had only one rate increase since 1976.

Public notices state the cooperative has requested that the rate reduction become effective July 17 and that the cooperative's revenues be

fee for this one is only \$15.00 with an optional \$5.00 big bass pot. Headquarters will be at Chock-O-Block and you may sign up prior to 6:00 a.m. For further information you may contact me at 629-3255 on this and other 'Fishing Outdoors' items.

And according to Doug Hannon's Moon Times July 2 should be an excellent day to hit the water. Excellent times will be 11:00 a.m. to 1:10 p.m. for a.m. periods and for the p.m. 11:30 to 1:30 a.m. These times indicate some excellent night fishing, but the good times listed are for a.m. 5:05 to 6:35 and p.m. 5:25 to 6:55. Sounds like standard daylight dawn and dusk summer fishing.

### Annual Reese Reunion To Be June 24 & 25

The Annual Reunion of the descendants of the late Dave and Dannie Reese will be held at LaMancha Lake Ranch, Cabin #8 Saturday, June 24 and Sunday, June 25.

All friends are invited to attend. See you then.

reduced by \$21,508,032, or 10.8 percent. McCaskill emphasized that the present temporary rate structure already has lowered rates by about that amount.

The proposed rate structure features different summer (on-peak) and winter (off-peak) rates for the cooperative's customers. It also provides a different rate schedule for customers receiving only part of their total electricity requirements from Brazos Electric Cooperative. An interruptible rate schedule will be available to customers that wish to pass along its lower cost to industrial consumer.

"We are delighted to pass along this reduction," McCaskill said. "It again exemplifies our commitment to making our members as competitive as possible in the retail electric service market."

Brazos Electric Cooperative is a member-owned generation and transmission electric cooperative based in Waco. It provides wholesale electric power to 20 member cooperatives, seven municipal electric systems, and Texas A&M University. The electric cooperatives include Bartlett, B-K, Belfalls, Comanche County, Cooke County, Denton County, Dickens, Erath County, Fort Belknap, Gate City, Hamilton County, Hill County, J-A-C, Johnson County,

### Mood Swings, Other Changes May Signal Drug Abuse

McALLEN—The signs of drug and alcohol abuse in adolescents should never be ignored by parents, according to a counselor with the Palmer Drug Abuse Center here.

"Any kind of (drug or alcohol) use is abuse in adolescents," said Bruce Cooper.

Cooper addressed a recent McAllen seminar aimed at strengthening families. About 200 people attended the program conducted by the Texas Agricultural Extension Service, Expanded Nutrition Program, (ENP), McAllen Independent School District, and a McAllen PTA organization.

Cooper said signs of addiction include changes in behavior, diet, habits and

friends. The youths began dressing in more somber tones, including black, and they often will become disinterested in scholastic achievement.

Mood swings become more evident. "A kid who uses (drugs or alcohol) is very manipulative," Cooper said.

Cooper, who abused drugs and alcohol for about 20 years and was helped by Palmer Center programs, said any abuser has to have an excuse for the problem.

"We have to have an excuse," he said. "If we don't, we have to admit we have the problem."

The Palmer Center counsels youth to deal with their drug and alcohol abuse prob-

lem. Center staffers have children as young as 10 in the program.

Clients for the Center are referred by parents and school officials, and sometimes by their own friends.

The Palmer Center focuses on the attitude of the quitting "one day at a time." Youngsters of any abuser has a problem with the concept of quitting "forever," Cooper said.

"It still kind of scares me that I've been sober for five years," he said. "I make it one day at a time." He has counseled youth at the Palmer Center for about four years.

All counselors at the Palmer Center are former abusers and are in recovery. Two sessions are given during a week—one for parents and one for youngsters.

Cooper, who sought help

at the Palmer Center in Houston, had been in and out of treatment programs for years. "I didn't think there was any hope anymore until someone showed me there was."

He attended one of the Palmer Center's drug abuse programs and discovered people having fun without the

aid of alcohol or drugs. "I got curious," he said.

Ida Patrick, Hidalgo County Extension agent, coordinated the activity for the Extension Service. The McAllen and Mission school districts provided transportation for interested individuals.

## A Tribute

In Loving Memory of Irma Tunnell Carter

"I have brought you another book to read," said Irma.

"Oh, I am glad. I just finished the "Girl of the Limberlost, and it was good. What book did you bring?"

"At the Foot of the Rainbow, by Gene Stratton Porter. It is very good," said Irma.

Not an uncommon greeting from a very dear friend and classmate, Irma Tunnell.

All that I shall write may seem like ancient history to some who read it, but to me it is very vivid in my memory, and was a vital part of my growing up. While growing up, Irma and I became very dear friends. We shared the joys and sorrows of 12 years together in school. Visiting one another became a habit. Once she said, "Mabel you never come to see me without my asking you. Surprise me once in a while and come." I took her up on that and when I arrived, she was sick in bed. It didn't daunt me. I sat by her bedside and we visited just the same.

There were times when I visited her, we would sit on the sunny side of the house and shell and eat pecans and walnuts, or we would go to their winter hot bed and pick lettuce, radishes and onions for supper. In the summer-time we liked to cut out and play with paperdolls in their upstairs bedroom. We often went to church together.

It was just before our

graduation, Irma was insisting I go home with her following her visit with me. The persuasion she gave when she sat down by my Dad, prevailed. "Now Mr. Falls, school will soon be out and we may go our ways and not get to see each other very often. Please let her go."

That statement proved to be a fulfilled prophecy.

Years later, my husband and I were teaching a rural school in Eastland County. It was a foggy evening in the fall, when Irma and her husband to be, drove up to our house. After a joyous visit, Irma asked us to go to Eastland where they were to be married. We dressed and followed them in our car. After much searching and failing to find a Methodist preacher, my husband remembered a presiding elder, Rev. Webb who lived in Cisco. (Most preachers were attending Methodist Conference, which was in session.) We found Rev. Webb at home and in due time, we witnessed their wedding. Afterward, we were treated to a turkey dinner at a local restaurant. They departed on their honeymoon and we returned home.

Irma was a good Christian wife and mother of two sons. Her brave and graceful acceptance of the death of one son was typical of her staunch character. Her recent death in Los Cruces marked the passing of a very dear friend and an outstanding person. We will miss her.

## Stealing electricity is against the law!

### Stealing electricity is a felony.

Some people tamper with their electric meters to avoid paying for the energy they use. Stealing electricity is a felony offense in the state of Texas and violators will be prosecuted. West Texas Utilities' Current Diversion Department is working hard to help combat the growing problem of energy theft.

### Energy theft is dangerous.

Not only is service theft a crime, but it is also very dangerous. Serious injuries can result from meter tampering.

### A crime against you!

When someone steals electricity, they are not only stealing from WTU — they are also stealing from you, as a rate-payer. Just as shoplifting increases the cost of items you buy in the store, power theft increases the cost of your electric service.

### WTU will prosecute.

Because we are concerned about the dangers and costs resulting from meter tampering, West Texas Utilities will prosecute energy thieves.
