Serving the Most Prosperous Sections of Eastland, Brown and Comanche Counties

IN 1890

RISING STAR, EASTLAND COUNTY TEXAS

SEPTEMBER 17, 1959

VOLUME 69, NUMBER 48

## Trail Blazers Review Early Days

Seven members of the Old Trail Blazers Association who are over 80 years of age attended the annual meeting and barbecue of the association at the American Legion hall Tuesday, September 15. They were W. B. Starr of Nimrod, S. J. White of Rising Star; Brad Poe of Long Branch; Tillie Gardner of Rising Star; Mrs. A. D. Hutson of Rising Star; Allen Hancock of Rising Star and Charlie Quinn of Cisco.

They were among about 90 who registered for the annual event. The program was one of visitation and good fellowship, following a brief devotional during which the Rev. Ed Jackson, First Baptist pastor, spoke and led in prayer.

The meeting concluded with a business session following a barbecue at noon. During the session resolutions honoring members who had passed on

## Malcolm H. Gibson Dies in New Mex.; Is Buried Here

Funeral services for Malcolm Harris Gibson, 51, who died at Deming, N. M., September 10 were held at Higginbotham Funeral Chapel at 10 o'clock Monday morning, September 14. The Rev. Ed Jackson of the First Baptist Church officiated and burial in Rising Star cemetery was under direction of Higginbotham Funeral Home.

Mr. Gibson, a native of Rising Star where he was born April 13, 1908, attended Rising Star High School where he was known as a talented musician and painter and an outstanding athlete. He also attended Howard Payne College and a college in Alabama. At the time of his death he was a painting contractor in Deming.

He is survived by his parents, Mr. and Mrs. Wright Gibson of Pioneer, Texas; his wife, Mrs. Agnes Jones Gibson; four sons, Malcolm Wayne of Compton, Calif.; Tommy Wright, William Rouel and Robert Michael of Deming; a daughter, Miss Lela Sue Gibson of Deming; five half brothers, Wright Gibson, Jr., of Denver, Colo.; William, Eugene and Frank Gibson, of San Antonio, and Sterling Gibson of Sundown; a sister, Mrs. Carmen Woodward of San Antonio, and a half sister, Mrs. Winnie O'Donnell of Waxahachie. One granddaughter also survives.

Pallbearers were Warren Bailey, Lemoine Pancake, Pete Fore, Carroll Westerman, W. W. Harris and Clark Crownover.

He was a member of the Baptist Church.

## Roping Club Will Host Barbecue Here October 1st

The annual "get together" barbecue of the Rising Star Roping Club, always a post season social event with the club, will be held at the American Legion Hall at 7:30 p.m. Thursday, October 1, it was announced this week. The barbecue, a catered affair, will complete a club season during which it sponsored a very successful series of week end rodeos. The final performance took place on Thursday evening, September 3.

The series was the seventh. The club started sponsoring the summer rodeos in 1953 and has held them each year since. They have proved one of the most popular in this section.

Tickets for the Oct. 1 barbecue may be purchased from any club member at \$1 each. The public is invited.

## LOCAL ITEMS

Visiting relatives here has been Mrs. L. A. Mayfield of Mettete, La. Mrs. Mayfield, wife of Mrs. Chas. Ballew, Misses Cecile and O. R. ... and ...

## Rye Cover Crop on Local Farm

E. B. "Slim" Harding, local farmer and John Lee of the SCS examine a winter cover crop of rye on the Charlie Ballew farm four miles southeast of Rising Star.

## Use Of Winter Cover Crop Essential To Successful Peanut Production

A winter cover crop is an essential part of the cropping system for peanut production. The operations involved in the harvest of peanuts leaves the sandy soils of the area unprotected at a time of the year when production is most needed. Because the richer organic parts of the soil are the first to blow, one season of severe blowing can virtually sterilize a peanut field.

Rye is the most reliable crop to plant for winter cover when peanut harvest is late. However, vetch can be mixed with the rye when harvest is early. The vetch is added as a winter legume and when properly inoculated and fertilized will more than return the fertility lost in peanut harvest.

Many of the area's farmers sow rye when peanuts are raked. Some are using a special seeder mounted on the tractor or the tool bar. This seeder uses power from the power take off to sow the rye on top of the soil. The raking operation covers the seed enough for germination. This method makes it possible to get the cover crop planted earlier and at the same time save the expense of a separate planting operation.

Good peanut land is deserving of all the soil management techniques known today. We know now that a combination of cover cropping, strip cropping, fertilizing and crop residue utilization are essential to sustained peanut production in the area. At the present time,

## County Group to Be Guests of SAC For Sonic Study

An Eastland County delegation will be guests of the Strategic Air Command and Convair Division of General Dynamics Corp. for a three day indoctrination program Sept. 27-29.

The invitation was extended by Gen. Thomas S. Powers, commander in chief of the Strategic Air Command.

"The sounds of progress, important as they might be, can be disturbing at times to an individual or to a community," Gen. Power said. "This is especially true if the importance of these sounds is not understood by the individual or the community as a whole. One sound which falls into this category is that of a sonic boom; a repercussion created when present day, high speed jet aircraft exceed the speed of sound."

Gen. Power said that the group would tour Strategic Air Command headquarters at Offutt Air Force Base, Neb., Convair Air Force Base and the Convair Division plant in Fort Worth.

Transportation from Carswell AFB to Offutt AFB will be provided by VC-97 Stratocruiser.

Attending the program from Eastland County will be Cyrus B. Frost, Jr., mayor of Eastland; Tom Wilson, president of the Eastland National Bank; Onus Dick, publisher of the Eastland Telegram; Wilson Guest, vice president of Commercial State Bank, Ranger; Joe Dennis, publisher of the Ranger Times; Lester Crossley, general manager of First Federal Savings and Loan Association, Ranger; B. A. Tunnell, president of Ranger Chamber of Commerce; J. W. Sitton, publisher of the Cisco Press; John H. Webb, mayor of Cisco; Wilson Meglasson, president of the Cisco Lions Club; R. L. Ponsler, president of the Cisco Chamber of Commerce and James McCracken, president of the First National Bank, Cisco.

## New Ruling Is Explained by Emmett Powell

An amendment to the ASC conservation reserve handbook was revealed Saturday by Emmett Powell, ASC office manager.

The amendment provides that a 1950 conservation reserve contract may be entered into covering a farm operated or partially operated by a tenant or sharecropper during 1958 or 1959, providing the tenant or sharecropper left the farm voluntarily of his own free will and accord, and willingly relinquished any further interest he might have in the farm as a tenant or sharecropper, or (2) if the tenant or sharecropper cannot be located or is unavailable, statements signed by at least three people not related by blood or marriage to the landlord and having no interest in the farm, stating that tenant or sharecropper left the farm voluntarily of his own free will and accord, without duress or any action by the landlord.

Powell said that in addition to the above provisions, a contract may be disapproved if the state committee for any other reason determines that such action is necessary in order to protect the interests of tenants and sharecroppers.

He said it will be necessary in every case to furnish production from the land being offered for the past five years, 1955 through 1959, not later than Sept. 10.

## Mrs. Carl Irby Heads North Star Club

The Rising Star North Star HD Club met in regular business and social session Tuesday, Sept. 15 with Mrs. Carl Irby, vice president, presiding. After a hymn and a devotional led by Mrs. Beyrl Heath, the club motto, pledge and prayer were repeated in unison. Mrs. Ware gave some notes on sewing.

The club won a blue ribbon on its Fall Fair exhibit and on their float in the parade.

At the business session Mrs. Carl Irby was chosen president; Mrs. Will Ware vice president; Mrs. Dennis Clark secretary; Mrs. Rufus Pierce, assistant secretary; Mrs. Nora Harris, treasurer; Mrs. Homer Putnam, council delegate and Mrs. Ella Wells, reporter.

## Wildcats Losers in Hard Fought Game, 12 to 0

The young Rising Star Wildcats took the short end of a 12 to 0 score Friday night but the Bangs Dragons needed all of a weight advantage of 15 pounds per man or more and all 48 minutes of a hard battle to do it. The Rising Star team was in the game from the first to the last whistle and they well earned the praise of their coaches at the end.

"I don't know what the fans think, but I'm proud of them," said Ray Nunnally.

And he had good reason to

be. Given an even break in the line, where the superior weight and experience of the Dragons—fifteen of whom were seniors—really told, the Rising Star boys would have put a far different story on the scoreboard.

Outstanding in the play of the Cats was the defensive work of Worley Maynard, 122 pound soph, and Dwayne Rucker. Time after time these youngsters knifed between the big Dragon linemen to pull down a back for losses. But they weren't alone. Virtually every member of the home team had himself a night. There was no quitting.

"They'll make it," said Ray Nunnally.

The Rising Star boys with tall Pat Agnew making some spectacular catches when Paul Freeman and Johnny Jones were rushed by the Dragon forwards, completed five out of nine passes and held the Bangs offense to three completions out of 11 attempts. Penalties as usual hurt the Wildcat offense at critical moments, although

they were saved in the clutch several times by several assessments against the visitors. They drew 55 yards and one 15 yard penalty early in the first quarter that halted a drive deep into Dragon territory that might have resulted in a score. Bangs drew 65 yards in penalties.

The tight defensive play of the Cats kept the Dragons from capitalizing on several breaks, one when Sheppard of Bangs intercepted a pass and ran it to the Rising Star 13 and again when Johnny Jones had a punt blocked. In the first instance, late in the opening quarter, Bangs took the ball to the five but a penalty set them back and a passing attack failed.

It was near the end of the second quarter when Sheppard scored the first touchdown for the visitors from the 13 yard line after Bangs had broken loose to that point on a punt return. The try for point failed.

The second score came midway of the fourth quarter after a 36 yard run had placed the ball on the Rising Star 15 yard line. Green carried it over for the Dragons and again the try for point failed.

Freeman, Rodney Smith and Coy Edmiston made some good gains for the Cats despite the rushing defense of the Dragon line.

This week end the Rising Star boys go to Early where they take on their old Brown county rival. Early last week conquered the Gorman Panthers by a top heavy score at 27 to 0 and are favorites to defeat the Cats. The week before they tied the May Tigers at 12 all in their opening game.

Coaches Nunnally and Weldon Hill used most of their squad in the game Friday night.

## Specialist Will Discuss Tank Management

Edwin H. Cooper, specialist in wildlife conservation of the A&M College Extension Service will discuss moss control and management of tanks and ponds for better home fishing at two different meetings scheduled for Eastland county on Sept. 28 according to word today from the county agricultural agent's office.

The afternoon meeting is for 2:30 o'clock at the clubhouse at Nimrod and is being sponsored by the Nimrod Neighbors Progressive Club with Herman Schaefer as program chairman. The meeting is open not only to the farmers and ranchers in that part of the county but to the general public interested in better fishing for their home tanks.

Incidentally, the annual barbecue of the Nimrod club will begin at 6 p.m. on that date according to those in charge of the affair.

The Upper Leon Game Preserve Association will sponsor the second meeting at 7:30 p.m. at the Cisco Chamber of Commerce according to Harold Courtney, Eastland, president of the group. Roy Brickman, also of Eastland, is program chairman for the night meeting open also not only to the members of the newly organized game preserve association but also to the general public.

The A&M specialist will discuss weed and moss control in detail at the meeting as well as stocking rate of fish, fertilization and other management practices, according to the County Agricultural Agent, J. M. Cooper.

## Five Orchards on Itinerary of Pecan Tour Sept. 29th

Those attending the fourth annual tour of the Eastland County Pecan Growers Association on Sept. 29 will see five orchards on the all day affair according to Oscar Schaefer, Cook, president of the sponsoring organization.

Plans for the tour call for those attending to leave from the rock Market Building at Rising Star at 9 a.m. on the above date with the first stop to be at the C. E. Smith orchard just a short distance southwest of that city. Smith, incidentally, serves as a director in both the county organization as well as in the Texas Pecan Growers Association.

Near Gorman the orchards of D. J. Jobe and Charley Underwood will be inspected just prior to lunch and a business session at the Brown Jug Cafe there.

In the afternoon the orchards of Sheriff J. B. Williams on Nash Creek, between Staff and Gorman, as well as the orchard and nursery of B. B. Freeman in the Cheaney community, ten miles south of Ranger will be visited. Freeman is secretary, treasurer of the county group.

According to County Agricultural Agent J. M. Cooper other officers and directors of the sponsoring group who helped to plan the affair at a recent meeting in Cisco included the following, besides those mentioned above: Pete Dunning, Cisco, vice president; C. T. Barton, vice president; C. T. Barton, Pioneer; Wayne Thurman, Cisco and Frank Hightower of Eastland.

Cooper said that all orchards except one was on deep sandy soil.

## Pipe Firm Puts Office Here; To Raze Rudco Plant

Valley Steel Products of Dallas has opened an office in Rising Star in charge of George Barber, from which the company will direct the dismantling of the Rudco plant which they purchased for salvage and also take care of sales of oil field and structural pipe and water well pipe in this section of West Texas.

The office is located in the D. Breeding building with Mrs. Lucy Boase. Mr. Barber's staff consists of Bob Blackwell and Miss Joyce Mitchell of Brownwood.

The office will be here from three to six months during the salvaging of the Rudco plant, Mr. Barber said. There is a possibility that a permanent pipe yard will be located here, depending upon the sales experience of the company, he said.

A teletype machine will be installed for instant price quotations and sales information out of headquarters of the company.

## Cisco Baptist Ass'n Meets at Eastland

The 75th annual session of the Cisco Baptist Association met with the First Baptist Church of Eastland on Sept. 10 and 11, 1959.

The annual sermon was preached on Friday at 11:30 by Rev. Ed Jackson. Members of the Rising Star Baptist Church who attended were Rev. and Mrs. Ed Jackson, Mr. and Mrs. Fred Roberts, Mr. and Mrs. Clark Crownover, Mrs. Lee Clark, Mrs. Raymond Turner, Mrs. M. G. Joyce, Mr. and Mrs. Earl Marsh, Mr. and Mrs. Short Lewis, Mr. and Mrs. L. B. Forbes, Mr. and Mrs. W. W. Faulkenberry and Mrs. Jimmy Fridge.

## Sam Eakin and W. E. Tyler Get Producer In Kentucky Pool; Outlook Pleasing

Eakin and Tyler (Sam Eakin and W. E. Tyler) of Rising Star have encountered production in their first well drilled on a block of 56 acres in Metcalf County, Ky., about 50 miles east of Bowling Green, it was learned this week.

The well drilled on offset acreage to other producers, promises to be a good well when completed. It is bottomed at around 700 feet in sand formation reached after drilling through almost solid limestone from top to bottom. It required two weeks to drill with a spudder.

The Rising Star operators bought the lease last July. They have a number of other leases scattered about the area. There is a very active play in Metcalf and adjoining counties, the operators reported, and there are no restrictions on drilling here.

The theme will be "Education—Whose Responsibility?" speakers will include O. Workman, district superintendent, G. E. schools; Mrs. M. W. Herwick of grade 8.

## Final Filing Date for Acre Reserve Extended

The final date for filing a request for a basic annual rate per acre under the 1960 Conservation Reserve program has been extended through Wednesday, September 30, 1959 it was announced by Emmett Powell, County ASC manager. The date for accepting applications for Conservation Reserve contracts has been extended through Friday, October 16, 1959.

## Morris Family Has Reunion at Eastland

The Morris family reunion was held at Eastland in Eastland park recently. Those attending were Mr. and Mrs. A. H. Morris of Rising Star, Mr. and Mrs. Buck Morris of Breckenridge, Mrs. N. McKinney and daughter Patricia and ...

## Mrs. Pinkard Buried Tuesday at Rule, Texas

Mr. and Mrs. Lane Wells attended the funeral of Mrs. Mary Pinkard in Rule, Texas, on Tuesday, September 15, at 10 a.m.

Mr. and Mrs. Pinkard lived in Rising Star for a number of years where Mr. Pinkard was manager of the furniture department and the funeral home of Higginbotham Brothers and Co. and Mrs. Pinkard was a member of the First State

## IT'S THE LAW IN TEXAS

A Public Service Feature of the State Bar of Texas

### TAKING THE

#### FIFTH AMENDMENT

You have read of someone's "taking the Fifth".

Why does our constitution let people—some involved in crimes—keep on refusing to answer questions put to them in our courts, investigating committees, and government agencies?

Because no man can be called on to accuse himself or give evidence against himself.

Where did this rule come from? From the church canons.

Long ago under common law, witnesses or parties took an oath and talked a lot or a little as their consciences bade.

Later an English law put witnesses under an oath some-what like the Church's oath; but the judge could subject them to sharp questioning, even torture. The king, for example, punished "heresy and sedition" this way.

England at last changed the law: Before any one had to take an "inquisitional" oath, someone had to accuse him of a crime or show that he was "obviously suspicious". No man was to accuse himself.

No man was to testify if to do so could bring on his own punishment. The American colonies adopted this rule, and as the Fifth Amendment wrote it into our constitution as the Bill of Rights.

The Fifth applies in two ways:

1. The accused need not testify at all in his own trial; or he can speak in his own behalf, but only when he or his own lawyer, (not the district attorney) wants him to. Once he testifies though, the prosecution can cross-examine him—and then he may have to answer.

2. Witnesses called on to testify who are not the accused must testify, but not if their answers would tend to incriminate them. Sometimes, a witness will refuse to answer seemingly harmless questions. To answer them may open up the way to force him to give more incriminating answers.

Who decides if a question would tend to incriminate? The Judge. If he finds a question would not tend to incriminate, he may order the witness to answer or be punished for contempt of court.

In Texas the accused on trial need not testify in his own behalf. And if he doesn't, the prosecutor may not comment to the jury about his failure to explain the facts against him.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

## About Your Health

Before it ends in mid-January, an estimated 400,000 hopeful hunters—including young and old of both sexes, skilled and unskilled—will have taken to field in eager expectation.

Wily mourning doves are present targets of a thousand guns by virtue of a 50-day north zone season that began September 1. The south zone opens October 1.

Duck season runs from November 13 to January 1. For deer and turkey it begins November 16 and lasts until December 31, with date variations depending on county law. Quail shooting becomes legal December 1 until January 16.

It's a satisfying time, with man in quiet communion with a bountiful nature. But all too often an ominous note creeps into the happy symphony.

Thirty-seven hunting enthusiasts ranging in age from 12 to 65 won't be going out this year. And for the very best of reasons: They're dead... killed by their own hand or by others during last year's season.

Four hunters killed themselves in attempting to clean or repair loaded guns. Six others virtually committed suicide by crawling through fences with gun in hand.

In other deaths the victims were mistaken for game, or made errors in judgment while unloading guns, or stalking game or otherwise mishandling weapons.

A 12 year old lad, a novice hunter, was killed instantly when his dotting father—carrying a "ready" rifle—tripped over a log and accidentally discharged the weapon.

And in another incident the situation was almost exactly reversed. A boy tripped on a wooded trail. His father was felled with a bullet in his back.

Be smart this year and follow these basic rules of gun safety: Never mix fire water with fire power, and never point at anything you don't intend to shoot. Remember that only a knucklehead would pull a gun through a fence. The safe way is to put it over first, making sure it is standing steady before you climb through.

Keep the safety catch ON until you get ready to shoot, and be positive you actually see what you're shooting at.

Remember, too, that guns are death traps for curious children. Unload yours before you get home. (A weekly feature of the health education division, State Health Department.)

### Faulkenberry Family In Reunion Sept. 6

The Faulkenberry Family held a reunion on September 6 at the Telephone Lodge on Lake Brownwood. Walter Faulkenberry and brothers, Claude and Lushes, both of Hamlin, and Ira of Weatherford; two sisters, Mrs. E. C. Barnes of Brownwood and Mrs. H. A. Barnes of Morton, children of the late Mr. and Mrs. J. O. Faulkenberry, attended. They and their children, grandchildren and great grandchildren made up the reunion group which numbered 99. They came from 18 different towns and cities in Texas and from San Diego, California. Religious services were held, fellowship enjoyed and a community dinner spread.

Mr. and Mrs. Sexton Hullin, accompanied by Mrs. Mary Smith and Austin Smith, visited the museum and the antique shop in Comanche on Sunday evening.

## LOOKING BACKWARD

(Taken from the Files of The Rising Star Record Oct. 24, 1935)

A large crowd of local fans are planning to drive to Brownwood Friday night for the game between the McMurry Indians and the Howard Payne Yellow Jackets, which promises to be one of the feature games of the season. Sentiment is pretty well divided here, on account of the fact that Ray Nunnally, star Jacket halfback, is a Rising Star boy and Bill Falls and Jack Gibson local lads, are members of the Indian freshman team. Misses Martha Jay Childress and Melba Bostain, of Rising Star, are members of the McMurry girls drum corps and for these reasons Rising Star will be well represented.

Workmen are this week busy fitting up the room back of the First State Bank building, formerly occupied by the Palace Barber Shop and cutting it in as part of the bank. Improvements include a large stock room in the new addition which will house all the stationery supplies of the bank and will also afford a commodious space for a director room which will be fitted up with a large table, comfortable chairs, etc. The removal of the stock room leaves a large space in the main building which will be fitted up with lock boxes for rent to customers and also a room in which customers may keep their valuable papers. The bank vault is also enlarged in the improvement plan.

What promises to be one of the best games in the lower

bracket of district 17 is run off Friday after the Pioneer Pant with the May Tig ference game. McMurry undefeated and undefeated competition. neer has had two one conference game. May boys can get theirs Friday their copping the flag will brighter.

The Wildcats are being printed this week by Coach Gregg for one of their toughest games of the season when they meet the Baird Bears Friday afternoon. Baird is reputed to have a very strong team this year and have lost only one game, being taken out by Albany 14 to 6 on Oct. 11. However during the year that the Wildcats and Bears have met in conference competition the Cats have walked off with the big end of the scores and a football game is never over until the last whistle blows.

## Our Homecoming of 1955

Our Homecoming of 1955 started with a beautiful parade on Thursday, September 3. There were many different kinds of floats and different ideas. There was judging on which float was the best, and there were plenty of good ones to choose from. The one the judges picked was the float of the Rising Star High School Cheerleaders. It was a decorated car with a stuffed wildcat in the middle and the cheer leaders were on the fenders.

Thursday night was the night of the last rodeo. Ex Rising Star High School students could go to the rodeo and talk about old times. It was a really fine rodeo and everyone had a nice time.

On Friday morning most of the exes were down town just talking. They seemed to enjoy this part most of all because it was informal. That is all that happened on Friday.

On Saturday morning there was an air of excitement as there always is on the day of the Homecoming Game. Exes met at the cafes in town and talked for all morning about old times and the game coming up. At 3:30 there was a big

pep rally in the gym with everyone welcome. It started with a business meeting of the exes. They elected new officers for the coming year and also a homecoming queen. One of the most interesting parts of the meeting was when they counted the number present from each class from 1953 down. I was surprised to learn that there were two or three from a 1900 class. After the business meeting the yelling got underway.

The exes all seemed to be having a wonderful time. After a while, all the former cheer leaders of past years were called on to lead a yell. It seemed as though they all enjoyed it. Many exes were asked to make talks about the upcoming game, and they made fine ones. After this the school song was sung and the pep rally ended.

That night a glorious homecoming was happily ended by the Wildcat's victory over Melvin by the score of 39 to 0.

—Johnny Jones

### The First Ball Game

The 1955 football season is here! The spirit of Rising Star High School is up as we have already won one ball game.

The football season got off with a big bang at the successful pep rally. Following the pep rally, the first football game was played on the Rising Star field.

There was a great crowd gathered at the ball game with most fans rooting for Rising Star. The cheering section was never quiet, because it seemed the boys were always on the goal line. They needed that extra, Go! to push them on over for a touchdown.

The Wildcat Band was also making its first appearance that night, too. With almost 50 members we were anxious to get our first half time show off our backs. After our vacation, we had come back a little rusty; both playing and marching; but we think we did fairly well. Of course, if the people went to see a better performance they will be able to see one later on in the season.

The ball game was just as exciting in the second half as it was in the first. The boys were really playing football! The final whistle blew almost too soon for the crowd because they had seen a great ball game. We had muzzled the Melvin Bulldogs. The final whistle had blown, thus ending our first football game with a victory for Rising Star!

—Maria Geyer

### Best By Every Test

And you all know who that is! Seniors! Off to a flying, running, rip roaring start. And, as if there hadn't been enough elections, there have been two more in this class since my last writing: Student Council Representatives — Gerald Green and Janis Jones; and, the all important room mothers—Mmes. Norene Boggs, Emma Jean Steel, Edith Morrow, Thora Mae

Walker, Cora White, Julia Townsend, Alta Agnew, and Ruby Morris. Everyone knows how room mothers have to work, and they enjoy it! Really! Our class motto—"Stronger Because United," our class flower—red and white carnations, our class colors—red and white—were "elected" too; I guess selected would be a more fitting description.

Maybe every Senior is finding RSHS is not as difficult as they anticipated, but there have been numerous complaints about tests. It seems there have been too many at once. Perhaps the teachers will notice and begin to have pity on us—their students.

Two games gone — and we, the Seniors, continue to back the Wildcats!

### WITH THE JUNIORS

School is truly in swing because we are having tests in every class. The home work is getting heavier and there is a great deal of studying in all study halls.

The football team this year is doing very good; and if the good work continues, we will really have some interesting games this fall. The Junior class is sponsoring the candy machine and the students are encouraged to eat more and more candy. Please, help us keep the candy wrappers off the school ground.

The Junior Band members really had a swell time at the Abilene fair Saturday. In English III, we have been studying short stories. We have already written two themes and started our poetry. In Plane Geometry we have been learning how to use the compass to construct different objects. American history has been very interesting because we are reading current

events while waiting for our notebooks to come in. In Physics, the metric system is about to get us down, but I think we will catch on some day. We are proud of our Junior Wildcats; also we would like to say our beautiful football congratulations, Carolyn, for being our beautiful football sweetheart.

### SOPH HIGHLIGHTS

As far as I can tell, everyone enjoyed his first holiday, but was ready to get back in school.

Say, how about that Homecoming game; pretty neat, huh! That's the best way I know to start the season off. So let's keep it up, boys.

The room mothers have been elected for this year. They are Mmes. Burns, Butler, Starks; Koonce, Hageman and White.

We have one new student this year, whose name is Eugene Walker. He moved here from Jacksboro, Texas. We would like to welcome him to our Sophomore class and to RSHS. Nearly three weeks have gone by in school and gossip is already booming.

Here's just a little bit: L. H. "Keep trying, Mo." W. W., M. A., K. W.; "Yes; I stayed at home!"

F. C. "You say they were already rolled up!"

In FHA we hope to get our officers for the year elected this week.

That's it for this week; let's keep up that school pep and back our Wildcats by going to their games if possible.

—Sherry A.

### FISH TALES

We Freshmen are now settled in high school. A few of us are getting off to a very good start, but maybe we'd better not call any names.

The Wildcats played Bangs Friday night for their second game of the season.

The Homemaking I girls made cookies last week and, fortunately, we all survived.

—Bye for now, Katy

### BAND NEWS

Now that our first ball game and fair are over, we are looking forward to the West Texas Fair in Abilene, which we will go to on Saturday. By the time you read this, we will have gone, but we are still anxious to go. We will leave at 7 a.m., march in the parade, then spend the rest of the day at the fair.

We have been working like dogs this week to get our stunt worked up. We start off in a V pointing south, go into one pointing north, and wind up in a company front. After this we do a gate swing, a split company front, then group off in fours going north, and then again going south. We wind up with a large W, and off in a company front. Gosh, is it ever hard to do! We had practice Thursday night. Never a dull moment in the band, you know.

Last week I forgot to mention our two new band members who moved here: Larry Strain and Harvey Clark. Welcome, kids!

Until next week—Reporter

### LIBRARY NEWS

The Rising Star High School library opened for the student's benefit on Wednesday, September 2. We have some new books in the process of being unpacked and made ready for our library shelves in the very near future.

This year we have seven librarians. The Seniors are Daniela Darnell and Bennie Sue Morris; Juniors, Rita O'Conner and Jetta Butler; Sophomores, Pat Duggan and Linda Erwin; our Freshman member, Kay Lewis.

Mrs. Claborn called a meeting last Wednesday to give us our instructions. At the end of this school year she will award the outstanding librarian with a medal; therefore, we may have some competition among our librarians this year.

From time to time I will be reporting the library news to you, so until a new development occurs, this is your reporter saying "Quiet—Please!" Jetta Butler

### BOYS SPORTS

On September 18, the Rising Star Wildcats will play the Early Longhorns. We are hoping we can win this game and believe we have a very good chance of doing so. The Wildcats are looking very good in practice, and are improving all the time.

The seventh period P. E. class has been doing the warmup exercises with the football boys. They are not complaining as much as they were the first few days. We are all looking forward to the football game Friday night.

Let's go!

## CRUMB TOPPED APPLE BETTY

Brown and Spicy

Brown betties are friendly desserts. Simple and homey they breathe of warm, buttery fruitfulness and spice. And both Big Folk and Little Folk show great liking for them. That's how it will be with this Crumb Topped Apple Betty.

It has a brown crispy top and under it a medley of tangy, canned apple sauce, rice and nuts enlivened with lemon, spice and butter. Served warm and apple-fragrant, with a swirl of cream... what a happy ending to a meal!

Crumb-Topped Apple Betty is simple to make, with but brief baking time required. Here are the few and easy directions:

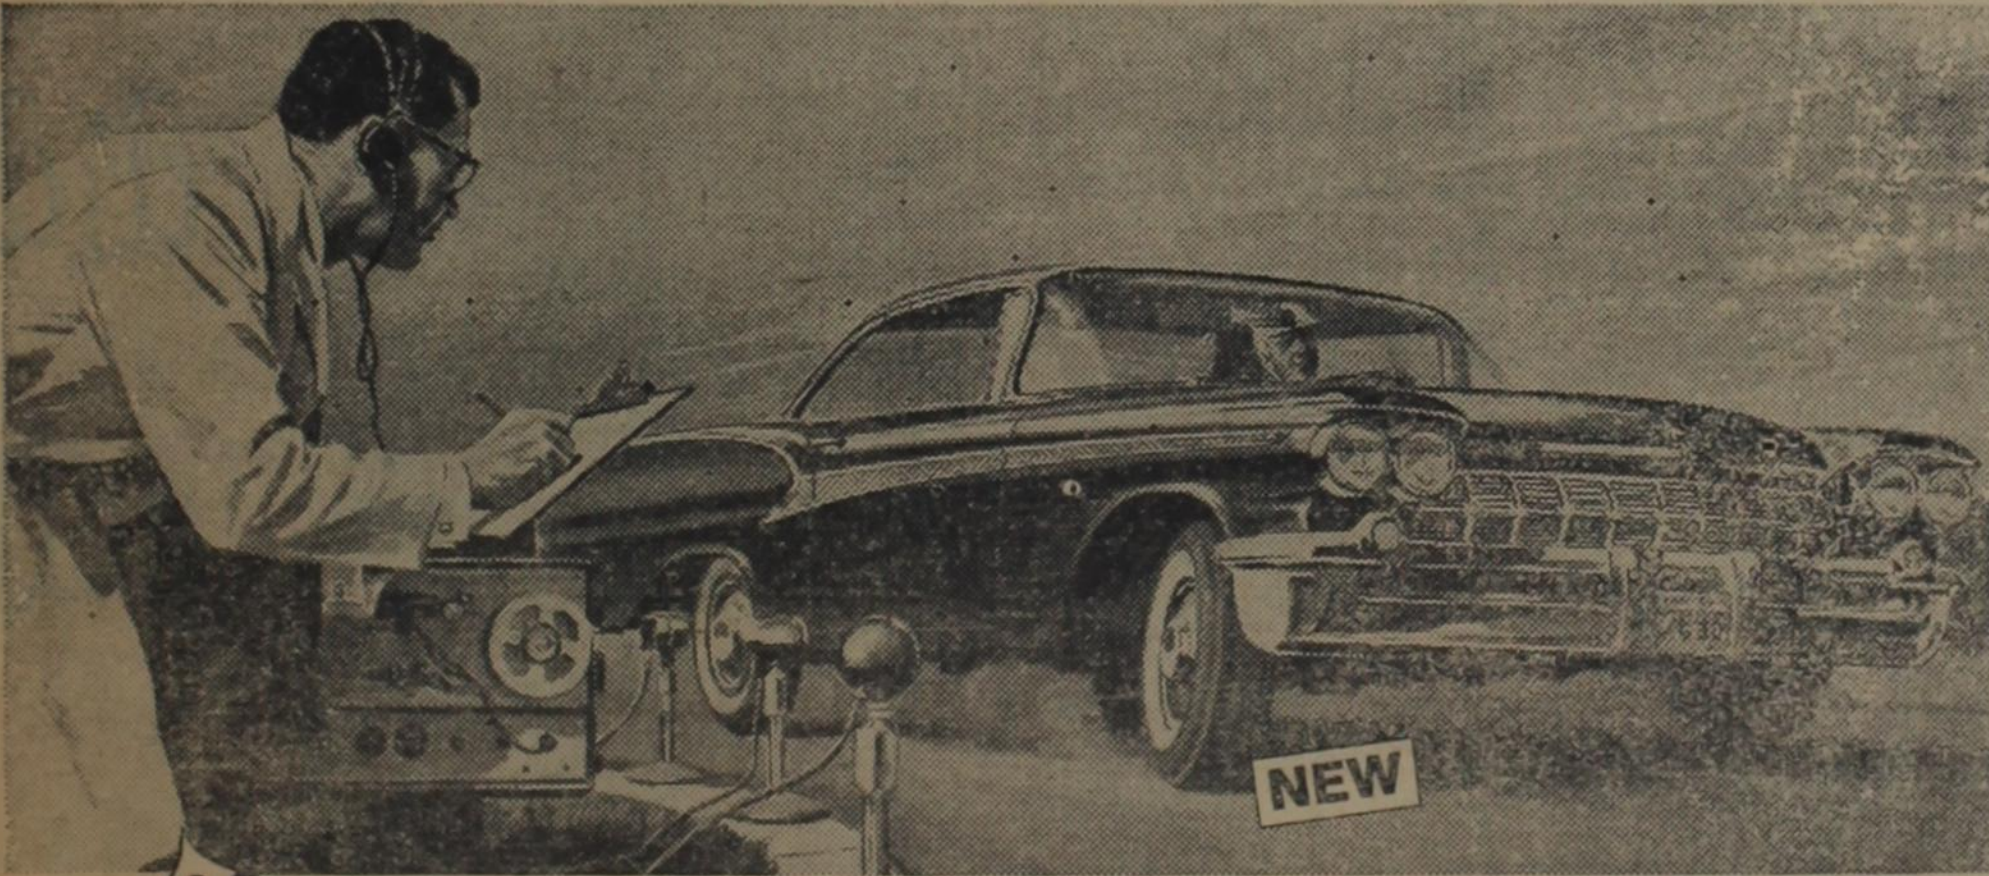

- 2 cups canned apple sauce
- 2 cups cooked rice
- 1/2 cup brown sugar
- Juice of 1 lemon
- 1/2 teaspoon cinnamon
- 1/2 cup chopped nuts
- 1/4 cup melted butter
- 4 graham crackers, rolled into crumbs

Combine apple sauce, sugar, lemon, cinnamon, nuts and melted butter. Spread half of the cooked rice in a shallow, greased baking dish (10" x 8" x 2"). Cover with half of the apple sauce mixture. Repeat procedure with remaining rice and apple sauce mixture. Cover with graham cracker crumbs. Bake in moderate oven, 350 degrees, until crumbs are browned, about 15 minutes. May be topped with whipped cream when ready to serve. Serves 8.

HUMBLE Presents... THE NEW TIRE of this generation!

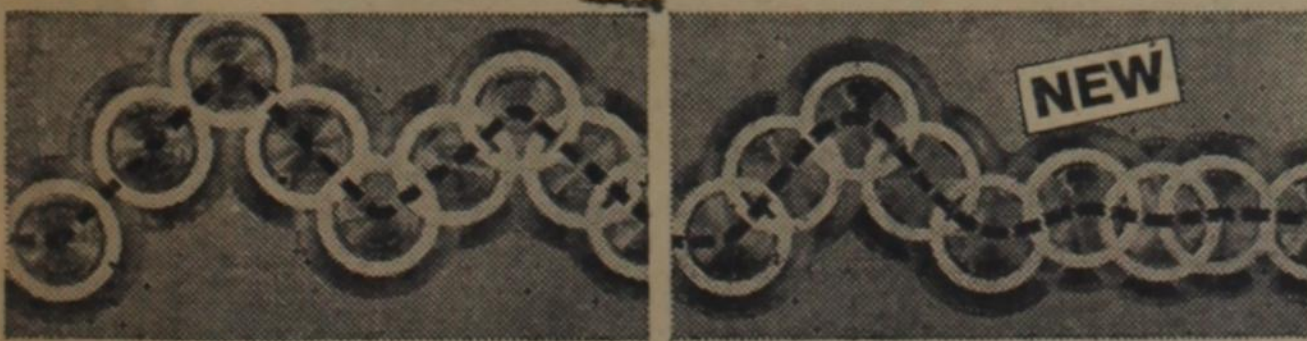

# ATLAS BUCRON TIRES

Positively No Squeal!

### YOU CAN'T MAKE IT SQUEAL!

The new Atlas Bucron Tire grips the road so well you can't make it squeal. The secret is in the miracle new rubber of the tread.

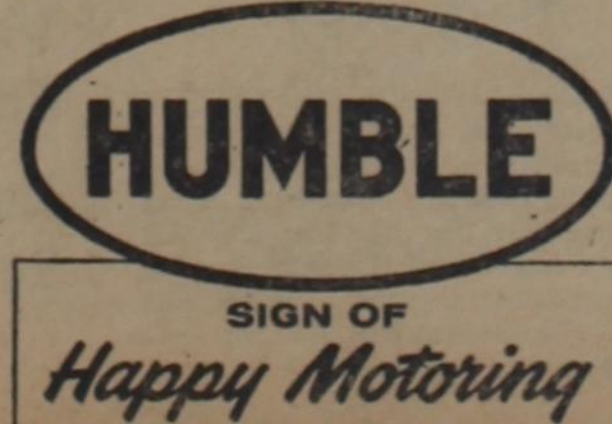

Ordinary tires "bounce" . . . multiply bumps and jars. Atlas Bucron Tires smother "bounce," give shock-absorbing ride.

**SOAKS UP BUMPS AND JARS!** You notice bumps with ordinary tires because the rubber "bounces." The miracle new rubber in Atlas Bucron Tires smothers "bounce." Your car rides like the day you bought it, steers easier, handles better.

Trade Now for a set of these amazing new tires. Ask for a demonstration ride—you'll be amazed! Then talk trade with your neighbor under the Humble sign. The price is less than you would think, and terms are available. Equip your car with Atlas Bucron Tires on all four wheels.

### GUARANTEED BY HUMBLE

Humble guarantees the Atlas Bucron Tire against all road hazards for 18 months. Adjustment is based on months of service. Guarantee is honored by 38,000 Atlas dealers on service station driveways throughout the United States and Canada. (Note: All Atlas dealers do not carry Atlas Bucron tires, but all Atlas dealers adjust under the guarantee.)

# HOME MAKERS VIEWS AND NEWS

By Sandra Shelton, Eastland County Home Demonstration Agent

Eggs can be simple and strictly for the family or they can shine as gay party or company food. They add bright color and taste appeal to buffet dinners, luncheons, hors d'oeuvre trays, salad plates and snacks. Supplies are plentiful now and prices are reasonable.

Hard cooked eggs are the brightest social lights. Many delightful taste combinations can be created with hard cooked eggs. Start by cutting freshly cooked eggs lengthwise or crosswise. Slip out the yolks, mash with a fork, and add your own chosen mixture. Mix to desired consistency and refill the whites.

You might try some of these. Mix one of the following with your yolks:

- 1/2 cup grated cheese
- 1 or 2 slices of bacon, crisply cooked and minced
- 1/3 teaspoon curry with 1/3 cup chopped ripe olives
- 3 tablespoons minced or grated onion with 1/4 teaspoon minced parsley
- 3 tablespoons minced chicken, ham, shrimp or mushrooms
- A tablespoon of minced pimento

These amounts will fill six eggs.

In keeping your eggs fresh, you will want them to retain the best flavor. This is obtained through proper storage of the eggs. It's best to keep eggs in a covered bowl or pan, away from strong smelling foods. Without a cover, eggs lose moisture faster and may absorb odors. Always keep them in the refrigerator, since eggs stored at room temperatures may lose as much in quality in three days as those kept two weeks in a good refrigerator.

Broken light bulbs remaining in a socket may be screwed out by pushing a large cork into the light base. The cork reduces the danger of cutting wires or getting a shock.

Yellow piano keys sometimes turn yellow because of water or insufficient sunlight. To clean these yellowed keys, use a soft flannel dampened with wood or denatured alcohol. Then be sure that your piano keyboard is left uncovered part of the time. On some new pianos, plastic keys are being used. These may be cleaned with a damp cloth.

If minerals accumulate in your steam iron try this. Put a mixture of vinegar and water (half and half) into the

iron. Heat for about 30 minutes at 300 degrees F. (rayon setting). After the iron cools, flush the iron several times with clear water.

Willene Sockwell, AECHDA

## Peanuts Remain Top Choice of Baseball Fans

Peanuts are the most popular snack of baseball fans says the National Peanut Council. Some time ago, the Potato Chip Institute said that, "Potato chips outsell all other packaged food, including the former best seller, peanuts, at ball games..."

"That's a foul", says Bill Seals, president of the Peanut Council, who is sort of a Ford Frick of organized peanuts. And, he has the statements of all 16 clubs to prove that peanuts lead in both leagues.

The box score shows that peanuts sales are in first place over popcorn, cracker jack and potato chips at 14 of the 16 parks and run a close second at the other two.

Popcorn is in first place in two parks second in 13 and third in one. Cracker Jack is second choice among Boston Red Sox fans, third at six parks, fourth in one and not sold in eight.

Potato chips, which claimed the popularity crown, are not even sold in eight major league parks. In the remaining eight they trail other snacks, running third in four parks and last in the other four.

In contradicting the potato chip claim Seals said, "The potato chip people ought to be ashamed of themselves. No one is apt to be misled by such a wild statement. Baseball and peanuts are as American as Yankee Doodle. They have been going together for years. The peanut popularity record continues unbeaten like Babe Ruth's home run record."

Jack Callaway spent the weekend at home with his parents, Mr. and Mrs. H. L. Callaway. He is attending Tarleton State College this year where he is a member of the football squad. He has been working out at guard and halfback.

Bernard Watkins, who has been in Austin for the past two weeks under the care of a heart and bone specialist, returned home Monday of this week somewhat improved.

## Famous McGuire Sisters Star in State Fair Show

The McGuire Sisters, "regulars" on the Arthur Godfrey TV Show for years and one of the top sing groups of the day, will be presented in "Star Light! Star Bright!" at the Music Hall during the 1959 State Fair of Texas, Oct. 9-25. The comedy team of Rowan and Martin

## Fair to Offer Exhibits From All Over World

Exhibits from literally all over the world will be among the sights to see at the 1959 State Fair of Texas, Oct. 9-25, in Dallas.

The foreign exhibits will be part of the second annual Texas International Trade Fair, which will occupy more than half the area of the General Exhibits Building, largest exhibit hall on the fairgrounds.

There will be exhibits from Italy, Belgium, Sweden; Germany, Great Britain, the United Arab Republic, Japan, Israel and Austria, and possibly from Finland, the Netherlands, Canada, France and Mexico as well.

The exotic International Bazaar, where imports will be offered for sale to the public, will also have at least a dozen countries represented.

Another international touch to the State Fair will be added by the 43rd annual Southwestern Automotive Exposition, which will include a large number of foreign cars. A great majority of the new 1960 model cars of American makers will also be on display, with practically all of the new models due to be exhibited before the Fair closes.

Other major exhibitions at the Fair will include a show with emphasis on leisure time pursuits called "Playtime U.S.A.", a three acre tract with all farm machinery exhibits combined in

one location, a large antique automobile show, one entire building devoted to the Electric Show which will feature a "see yourself on color TV gadget, armed forces guided missiles and other defense equipment, and the first United States showing of the fabled "City of Nikko" which depicts a famous Japanese shrine.

In the Women's Building, the myriad exhibits will include a fabulous collection of diamonds. The various museums on the fairgrounds will all have special exhibits, ranging from art masterpieces to a preview of space travel.

As always, the exhibits in themselves will make a visit to the State Fair well worth while.

### SOIL CONSERVATION DISTRICT NEWS

Anson Oden, chairman of the Brown Mills Soil Conservation District Board of Supervisors, announced today that the sedimentation survey which is being carried out on Lake Brownwood is approximately two thirds completed. The survey is being conducted as a joint project of the Soil Conservation Service, Brownwood Water District No. 1 and the Brown Mills Soil Conservation District. The survey is revealing that heavy siltation is taking place in various parts of the lake. With the good vegetative cover that is on the ground this year throughout the watershed, likely the siltation rate is much lower than it has been during the other years, when the ground cover was not so good.

With a good vegetative cover supplemented by a complete system of up stream flood prevention structures, the life of the lake should be increased many years. More detail infor-

## Jim Payne Now Coaching at Odessa

Jim Payne, son of Dr. and Mrs. Frank Payne of Breckenridge, is now coaching the Ector Eagles in Odessa. The Ector Eagles of Class AAA paraded before the home folks Friday, hosting the Phillips Blackhawks, a perennial power of the Panhandle in the W. T. Barrett stadium. Odessa's two AAAA teams opened season in Amarillo and Pasadena. The Ector Eagles held their workout on Wednesday, in preparation for their game on Friday. Coach Payne appeared satisfied with the workout.

Dr. Payne lived and practiced medicine in Rising Star before moving to Breckenridge. Jim and Frank, Jr., attended school here and played their first football in Rising Star.

# SOCIETY, CHURCHES AND CLUBS

Written by Mrs. F. W. Roberds, Phone 5-5301

## Wanda Smith To Become Bride of John Philley Here On September 19

Mrs. C. E. Smith are planning the marriage of their daughter, Wanda, to John Philley at the Methodist church of Rising Star on Saturday at 8 p.m. Sept. 19.

A reception will be held in the basement of the church, immediately after the ceremony. The public is invited to attend the wedding and the reception.

Miss Wanda Smith was graduated from Rising Star High School in the class of 1957 where she ranked high among the honor students. She then went to Midland where she entered Rutherford Metropolitan Business College. She is

now employed by J. P. Gibbons' oil company in Midland, in office work. John P. Philley, the groom to be is a dental technician and is an employee of the dental laboratory in Odessa, where the couple will make their home.

## Union Center Club Meets Sept. 8th

The Union Center Hobby Club met September 8. The ten members attending were Meses. W. J. Martin, Roy Allen, G. G. Crowell, Aaron Gage, Henry Scott, Jack Knox, B. H. Hearren, Tom Perkins and Miss Vera McBeth. Visitors were Mrs. Ham, Mrs. Bud Linney and Miss Joanna Allen.

After one quilt was finished Mrs. Martin worked on aluminum—others just visited.

The next meeting will be September 22. Gifts will be exchanged in the afternoon. The community party will be held that night. Visitors are welcome. —Mrs. Crowell, Reporter.

## Greenwood Family In Reunion Sunday At Abilene Park

The annual reunion of the families and relatives of Mr. and Mrs. W. B. Greenwood, 2225 Ambler Avenue, Abilene, and Mr. and Mrs. T. J. Greenwood, 507 West Paine, Comanche, was held Sunday, September 13, at Abilene State Park near Buffalo Gap.

Those attending were Mr. and Mrs. W. B. Greenwood, Ed L. Greenwood, Abilene; Mr. and Mrs. Gay Woods and Gaylene; Mr. and Mrs. J. T. Fonville and infant twin sons, Big Spring. Mr. and Mrs. T. J. Greenwood, Comanche; Mrs. S. R. Clements, Snyder; Mr. and Mrs. Oscar White, Larry and Mary Lois White, Joy Morrow, Rising Star; Mr. and Mrs. Newt Burleson and Mickey, Ira; Mrs. Ike Harper, Levelland; Mr. and Mrs. David de Nike and baby daughter, Miss Lavelle Nix and Burt Nix, Abilene, and Big Spring.

Mr. and Mrs. Bailey Greenwood and Clifford, Munday; Mr. and Mrs. T. B. Greenwood, Eastland; Mr. and Mrs. Waymon Greenwood, Cisco; Mr. and Mrs. Ira Greenwood, Regina and Mike, Abilene; Mrs. A. E. Reed and two boys, J. B. Erown, Mr. and Mrs. Bill Reed and son, Big Spring; Mrs. Nona Sanders and Miss Venita Sanders, Abilene.

## WMU Holds All-Day Meeting on Monday

The WMU of the First Baptist Church met in an all day meeting on Monday, Sept. 14, to observe the State Mission day of prayer with 20 members and two visitors present.

The theme for study was "More Like the Master." The meeting was planned by the prayer chairman, Mrs. Clark Crowner. Songs were led by Mrs. Olice Jones, accompanied by Mrs. F. J. Maynard. The outline of the program was "Like Him in Opportunity," "In Qualifications"; "In Response"; "In Attainment". A covered dish luncheon was enjoyed and good fellowship prevailed. Rev. and Mrs. Ed Jackson were present.

Elizabeth Robertson and Mrs. Beyrl Heath visited Mrs. Horace White of Brownwood recently.

## AS IT LOOKS FROM HERE

By Omar Burleson, Cong. 17th Texas District

WASHINGTON, D. C.—When thinking of conservation we usually think first of soil and water. Soil and water are first in conservation and are basic to all other measures and efforts dealing with it.

HOWEVER, THE conservation of natural resources includes many things, such as the forest, and even the birds and the bees.

AN UNUSUAL measure has just passed Congress. It prohibits the wanton destruction of wild horses in several of the Northwest States where they are still to be found.

DURING RECENT years hunters of wild horses have used airplanes and other noise-making devices to flush the horses out of the hills down into the flats, where they can be roped from a jeep and, in some cases shot.

THE USE of horsemeat for cat and dog food has apparently become a big business. The wild horses in Wyoming, Utah, Nevada and parts of Idaho are not caught for domestic purposes, but for the meat factory.

THE BILL just passed would prohibit the destruction of wild horses by these methods. Like the buffalo and the prairie dog, they are rapidly being destroyed.

THE DESTRUCTION of predatory animals for conservation purposes has become a local issue in many places. Not everyone has been aware of the dispute between those who want coyotes destroyed because they catch their chickens and those who have hounds and like to hunt.

THE PRESENT day generation may not be aware of the campaign against the prairie dog—the little monster who is immaculately clean and keeps his floor swept free of growing crops, grass and shrubs.

ONLY A few years ago these chubby little animals numbered in hundreds of millions in Texas, Colorado, Utah; New Mexico, Arizona and the Dakotas. He is not found anywhere in the world except the Great Plains of the United States.

IN THE days when a prairie dog town covered 50 or more acres on the Burleson farm in Jones County, a one boy campaign was constantly waged to keep the Father and older brothers from destroying the prairie dogs by poisoning.

THE METHOD of poisoning was, to me, ingenious. Liquid carbon monoxide (commonly known as high life,) was soaked into a certain substance for conveyance, rolled in the hole, into a certain substance for dirt packed on top of crossed sticks and soon created a gas which killed these chatty, sociable and comic little creatures unless they got air.

CREEPING AND crawling along behind, a five year old boy would pull the sticks out and let the dirt roll down, as the Father and older brothers went to the next hole.

THIS WAS conservation of the prairie dog, but not exactly recommended as a method to conserve growing crops and to permit the proper use of the land.

FISH, FOWL and wildlife which are protected by the Game Laws and sanctuaries are a tremendously important part of conservation. More stringent methods are going to be needed because the numbers of wild game and fish are becoming fewer and fewer.

THIS YEAR, by reason of the disturbance by human development of the nesting places of ducks, the numbers are less by approximately one third. As a result, most States will reduce the hunting period and also the bag limit.

NOT ONLY is the reduction in wildlife a concern of the sportsman, but the unbalancing of nature becomes important.

PEOPLE USED to kill owls and hawks. The fewer owls and hawks, and even snakes, the more mice, rats and other rodents. The fewer foxes, the more crows, and so on.

CONSERVATION IS a big business and is becoming more so as time goes on.

IT BEHOOVES all of us to take an interest in it, even if we are not a hunter or a fisherman, but simply live beside the road.

## WSCS Hears Year's Outline of Study

The WSCS of the First Methodist church met Monday, Sept. 15. Mrs. H. S. Switzer had charge of the program. She introduced the year's outline of study. The theme for the year is "The Light on the Mountains," a mission study.

Mrs. L. R. Smith read the scripture. Mrs. J. B. Eberhart gave an interesting story of the mission work in Africa. This meeting offered a new beginning of the work which the WSCS of all the Methodist churches is sponsoring for 1959-1960.

## Restrictions of Child Labor Law Are Explained

Federal child-labor law does not prevent students from earning money in part-time jobs, it was explained in Dallas today by Regional Director William J. Rogers of the U. S. Department of Labor's Wage and Hour and Public Contracts Divisions.

Stressing the importance of finishing high school, Rogers said that earnings from part-time jobs may enable some students to return to school who otherwise might not be able to do so.

"Teen-agers can earn while they learn, if they observe the guide lines set by the Federal child labor law," he explained.

Most jobs under the Fair Labor Standard Act—the Federal child labor law—may be done by 16 year old students, he said. Students who are 14 and 15 years old may be employed in some jobs, including sales, office and custodial work, outside school hours.

"There are hours-restrictions on the employment of 14 and 15 year olds," he added. "They may work no more than three hours a day on school days and 18 hours a week in school weeks."

On Saturdays and other days when there is no school, they may work up to eight hours a day. All their work must be done between the hours of seven in the morning and seven in the evening.

Rogers cautioned that some

occupations, such as truck driver or helper, have been declared hazardous and require a 16-year age minimum under the Act.

### Farm Work.

Farmers who are hiring workers for harvesting fall crops were reminded today that the Fair Labor Standards Act sets a 16-year age minimum for the employment of children in agricultural work during school hours.

The reminder came from Regional Director William J. Rogers of the U. S. Department of Labor's Wage and Hour and Public Contracts Divisions in Dallas, the agency which administers this law.

Rogers pointed out that children may lawfully work on farms before and after school hours or on week ends, but their presence in the classroom when school is in session in the school district where the child is currently living.

"The law protects the children of migratory workers as well as local children," he said. The only exception to the law is for child working exclusively for his parents or guardian.

An age certificate showing that the youngster is at least 16 is the best protection the farmer can have in preventing violation. In Texas, these certificates are available as a public service from the Texas Employment Commission.

Rogers explained that the Federal child-labor law applies to farmers who engage in interstate commerce or ship their products in interstate commerce, either directly or to firms who ship them across State lines in their original form or as an ingredient of another product.

## Kenny Foundation Sponsors Probe of Neuromuscular Ills

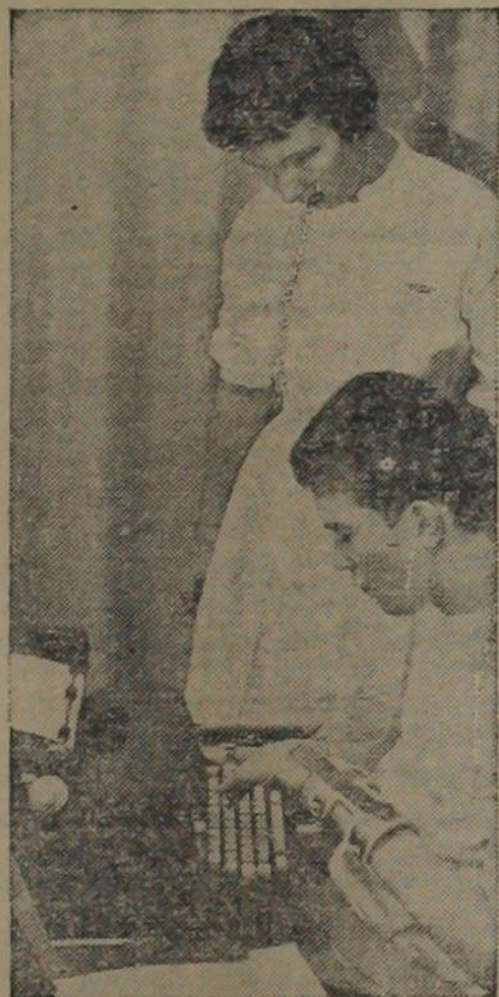

Minneapolis, Minn.—Pioneering surgical techniques developed by Dr. Irving S. Cooper, with financial assistance from the Sister Kenny foundation offer new hope to thousands of persons afflicted with neuromuscular disabilities, including Parkinsonism and dystonia.

Dr. Cooper, a member of the Kenny Foundation Medical Advisory committee, is professor of clinical neurosurgery, New York University Post-Graduate Medical School, and director of neurosurgery, St. Barnabas hospital, both in New York City.

His pioneering surgical techniques, chemopallidectomy and chemothalamectomy, are directed at relief for victims of Parkinsonism or shaking palsy, dystonia and other physical conditions marked by tremor and involuntary movements. The operation, hailed as a major breakthrough in brain surgery, has already provided relief for many hundreds of patients.

This far-reaching activity is supplemented by Kenny supported programs at University of Minnesota, Minneapolis, Minn.; Montreal Neurological Institute, McGill University, Montreal, Canada, and at Children's hospital, Buffalo, N. Y.

Although neurological relief of involuntary movements is, in effect, the treatment of a symptom rather than the cause of these diseases, it does constitute an important first step in the rehabilitation of such patients. Relieved of the disabling and often exhausting and deforming effects of their involuntary muscular movements, patients are ready for rehabilitation through physical and psychiatric therapy, with orthopedic surgery sometimes required. In the past, orthopedic and psychiatric measures frequently were difficult to apply in many such cases.

THIS 21-YEAR-OLD MAN is making "excellent progress" toward recovery at a Sister Kenny foundation facility, where he was admitted, completely helpless, for treatment and rehabilitation, after having suffered a fracture of the neck, with paralysis in all four extremities, in an automobile accident. Punching the keys with the eraser end of a pencil, he is shown practicing typewriting. An occupational therapist supervises the exercises, designed to teach the patient to raise his paralyzed arms and to provide him with a means of communication. Under its expanded program, the Kenny foundation provides treatment and rehabilitation for mishap victims and patients with neuromuscular disabilities, including polio.

## Organized Labor To Raise Fund For Polio Center

**AUSTIN** — An intensive campaign to raise \$75,000 for the Compadre Warm Springs Foundation Texas Rehabilitation Center will be launched by organized labor in Texas on Labor Day, September 7, 1959.

Labor's March for Warm Springs in 1959 will be conducted in contributions from unions, laborers and union organizations rather than through general public solicitation, Texas State AFL-CIO President Jerry Holleman announced. He added, however, that some local groups will conduct public drives as well as drive among union members.

In 1958, organized labor raised more than \$70,000 for the Center and was credited with saving the important rehabilitation facility from having to close its doors.

The state labor organization is asking union members throughout the state to contribute at least \$1 each to "Labor's March for Warm Springs." Union locals also are being asked to appropriate funds to help reach the \$75,000 goal.

"Every cent donated to Warm Springs in Labor's March will go to the Texas Rehabilitation Center," Holleman explained. "All expenses of the campaign will be borne by organized labor—the state organization, central councils and local unions."

# NEWS FROM AMITY

By Mrs. I. A. White

Rev. Raymond Woodruff filled his regular appointment at the church on Sunday and was dinner guest in the Walter Henderson home.

Mrs. Nannie Graham from Cross Plains is spending the week end with her granddaughters, Mrs. Hayden White and Mrs. Cole White of Rising Star. She attended the First Baptist Church of Rising Star on Sunday night.

## Pre-Registration at CJC 260 By Friday

Two hundred and sixty students had registered at Cisco Junior College during pre registration up to Friday of last week, President Grady Hogue said. The college is expecting quite a number more to register before the regular registration date which is September 28.

Of the 260 registrations, 96 are from Eastland County, including four from Rising Star, one from Ranger, six from Carbon, 12 from Eastland and 73 from Cisco. Fifty-six towns in all are represented.

Recent visitors in the home of Mr. and Mrs. Oval Shults and of Mrs. Laura Horton were Mr. and Mrs. Robert Horton and Lowry Horton all of Houston.

Those helping W. H. Henderson celebrate his birthday Sunday were: Mr. and Mrs. Guy Taylor, Miss Elizabeth Robertson, Mr. and Mrs. Johnnie Henderson of Gorman, Mr. and Mrs. Raymond Woodruff of Brownwood, Mr. and Mrs. W. T. Henderson and sons, Tommie and Paul.

Guests of Mr. and Mrs. I. A. White over the week end were Mr. and Mrs. Doba White, Roy, Connie, and Carol of Hobbs, N. M., and Mrs. Nannie Graham of Cross Plains.

Mr. and Mrs. E. L. Stodghill and Mr. and Mrs. I. A. White were shopping in Comanche Saturday.

The people of the Amity community have started the 1959 peanut harvesting this week.

All the club members are reminded to come to the Progress Club House, September 26, which is the social night. Members may bring weinies, coffee, buns, punch and marshmallows for a wienie roast. Everyone is invited to attend.

## WILDCAT TALES—

(Continued from page 3.)

and help them win this game. How about it, Wildcats? Tear those Early Longhorns to pieces!

## Pep Talk

Welcome, fellow citizens, and all that jazz. If you missed the game Friday night, you really missed a part of life. Some think the pep rally could be given a great deal of credit for the way the boys played. We are proud of them for not budging or ever giving in to the Bangs Dragons.

Speaking of pep rallies, some consider last Friday's as being one of the best yet. As a stunt, the cheer leaders performed to the record "Personality." There were fight yells, and a variety of others. We, the cheer leaders, consider the band a very beneficial factor for a successful pep rally. We thank them

greatly.

We want to see you at Early backing the Wildcats. You say you're backing the Wildcats—then prove it! Come to the pep rally at 10:10 Friday morning and prove you're behind them all the way.

Let's dehorn the Longhorns!

## When You Buy Real Estate—

... you not only buy the land and all that's attached to it above and below, but some kind of a title, good or bad. The abstract is a written history of the title and is the evidence of your security or insecurity. Since security is the basis and measure of all values, the abstract becomes the most important factor in every real estate transaction. That may be the reason why most careful buyers require an abstract.
