ARRANGEMENTS FOR REGISTRATION UNDER THE NEW DRAFT COMPLETED

Draftees under Induction Call No. 1239 Were Entrained Last Friday, the 6th for Camp Travis.

BULLETIN OF THE LOCAL SELECTION BOARD

1. Special Induction Call No. 1203 has been received, which required this county to entrain two white, limited or special service registrants on the 4th instant for Camp Bowie, Fort Worth, Texas. The draftees under this call were William Melvine Montgomery, post office Montgomery, Texas, and John Lafayette Jones, San Saba, temporary post office Needville, Texas. An extra draftee, Daphne Earlycot Winslett, post office Mercury, was inducted under this call, according to the provision whereby as many as two additional registrants may be drafted under any special or general movement of men. The first two draftees mentioned were members of the Class of 1917; the last mentioned was a member of the Class of June 5, 1918. Montgomery was transferred to the Local Board at Conroe, Texas for entrainment; Winslett was entrained at this place. Jones will be entrained at San Saba on the 11th instant, as a result of his failure, through no fault of his own, to receive his induction notice promptly.

2. The following were the draftees under General Induction Call No. 1239, these men being entrained on the 6th instant for Camp Travis, San Antonio, Texas: Jos Creed Hart, Almos Lenard Brown, and Byron Walker, post office San Saba, all members of the Class of 1917, Jacob Sherman Taff, Ernest Armstrong Smithhart, Walter Stevenson, Dewey William Berry, Thomas James Maultsby, Ernest Taylor Myers, Harry Carver Timberlake, Fred Lynn Wallace, John Stephenson Yarbrough, Samuel Monroe Walker, Luther Rector Eiler, William Alexander Huffstetler, and Thomas Clark, post office San Saba; James Raymond Lewis, Dow Austin Williams, Hal McKinley Chiles, Pete Campbell Miller, George Washington Brown, Howard Otto Garret, Thomas Byron Grimes, and James Alfred Newby, post office Richland Springs; Albert Wesley Smith, post office Ratler; Valerie Schneider, and R. T. Daniel Edmondson, post office Locker; Roy Douglas Lucas, Cortenas Edgar Sidney Gibson, William Herchel Byrd, and Alexander Lee Chambers, post office Bend; Elbert Estell Harris, post office Chadwick; Elbert Wallace, post office Goldthwaite; Emmet Smith, and Julian Martin, post office Bowser; Ora McFarland, post office Fredonia; Joe Franklin Kendrick, post office Lometa; Walter Lange, post office Field Creek; John Warren Matlock, post office Holt; William Thomas Peacock, post office Cherokee; and James Madison Smith, post office Regency; all of the Class of June 5, 1918. Almos Lenard Brown was placed in charge of the party, and Hart, Huffstetler, Peacock and Yarbrough were appointed his assistants. Alvin Behrens, post office San Saba, was transferred to this Board from the Local Board at Van Horn, Texas, for entrainment under this call and he was entrained with the draftees named above. Two draftees of this Board under this call, Ernest Calvin Watkins post office San Saba, temporary post of-

ice Van Alstyne, Texas, and Earl Robinson, post office Hall, both of the Class of June 5, 1918, were transferred to other boards for entrainment; the former to the Local Board at Sherman, Texas, the latter to Local Board No. 2, Hill County, Itasca, Texas. The forty-one draftees of this jurisdiction listed above plus these two transferred draftees total 43 men, the number furnished by this Board under this call in question. The quota for this county under such call was 53 men. The deficit of 15 men will be owed by this Board until it has enough available Class 1, Group

A, men to make up such deficit, the 43 men furnished exhausting the available uninducted Class 1, Group A, men of this jurisdiction. This deficit was caused by one Class 1, Group A, registrant being re-classified and placed in a deferred class and by fourteen Class 1, Group A, men being members of the local cavalry troop and their being federalized before the day of entrainment under the call in question, which action called for their being re-classified and placed in Class V as men in the military service of the United States.

3. All arrangements have been made for the registration on Thursday, the 12th instant. If the citizens of the county are assisting and co-operating with this board to the extent that we are expecting them to (which we believe is the case) in giving wide publicity to the information regarding the registration contained in our bulletin for last week and the week before and in getting to the respective registration offices of the county all persons subject to be registered, a complete and successful registration should go to the credit of the county.

"WEAK" END RESULTS OF THE \$77,000.00 CAMPAIGN SLUSH FUND

A Thrilling, Realistic, Romantic Comedy in I Act, entitled the "Mystery of the Bath Tub, or Who Pulled the Cork."

PRODUCED WITH BLUE LIGHTS AND SLOW MUSIC

Jim Ferguson is writing Willie Hobby some very affectionate and soul-touching ditties and is printing them in the Forum. The billdeau last week was about the \$77,000.00 Willie spent in the late campaign, and which he has up to date, failed to make the proper accounting of where he got it, which the law specifically says he shall make a detailed statement. Another historical event is also merely touched upon. An excerpt from the ditty says:

"Now Willie, you owe this to your friends. They have already begun to talk. They are making some broad statements about you and your friends having a lot of Hobby booze down at Georgetown, that old Methodist stronghold, just about ten days after the election. "And what they said about you and the bath house escapade about the same time was something awful. Of course, I don't believe it. But I just mention it to show the necessity of your taking the Waco delegates into your confidence and telling them the names of those good friends, whom the law says you must tell, who supplied the \$77,000. You will then be a law and order governor."

It is all right to "make reference to allusions" sometimes, but the great mass of people want the unvarnished facts. Our great moral, christian, young nominee failed to tell the Waco Convention where he got the \$77,000; nor did he even remotely intimate what transpired on the classic banks of the San Gabriel and he will not have unbosomed himself on that point when the historical gentleman by that name toots his trumpet on the last round-up. The Waco Convention "where-

ased and resolute" on the excessive expenditure of large sums of money by candidates, but it said nary a word about its nominee vetoing a bill passed by the legislature correcting that evil. Consistency is a jewel with some people, and with others, its a big red wagon load of diamonds.

We would like to know what the rank and file of sincere Prohibitionists think of a nominee for governor who gets as drunk as a biled owl "just about ten days after the election" at a WEAK-end house party, and dressed in the same kind of bathing suit worn by September Morn, considers himself a water nymph and wants to frolic in the front yard lawn fountain?

What does the Great Moral Forces—the more-holy-than-thou bunch, think of a young Moral Nominee, "just about ten days after the election" making goo-goo eyes and an attack on a "Cullud Lady Cook" ?

Times and things are evidently out of tune and out of joint. What strange things are happening "just about ten days after the election." Politics may have been purified, but some of its devotees have never experienced the new birth nor the cleansing power of the new purification.

THE \$77,000.00
The Waco convention sternly closed its ears to anything and everything that might cause Hobby to tell where the \$77,000.00 came from.—Temple Mirror.

HOW THE FARMERS UNION "INDORSED" AMENDING THE LAW

The Interests Making the Assault on Our Homestead Law are trying to Submarine it in Dark Lantern Meetings.

THE "EDUCATIONAL CAMPAIGN" IS IN FULL BLAST

Thirty-five farmers or rather we should say thirty-five members of the Farmers' Co-operative Union of Texas, out of a total membership of thousands on last Wednesday, in convention assembled in Fort Worth, adopted a resolution favoring an amendment to the state homestead law to allow land owners to borrow money, giving their lands and homes as security.

The resolution was suggested and probably drawn by an attorney for a land loan bank.

It should have been drafted after the model adopted by the three tailors of Dooley Street: "Resolved, That we, the people of Texas," etc.

The homestead provision had but one object, one purpose in its origin and its conception. That purpose was to protect the mothers and their helpless offspring in the perpetual possession of the roof that shelters them amid the stress and storms of life.

Its supreme object was to

prevent heartless creditors from fixing mortgages and foreclosing same on the home, the citadel of the Nation's strength, the beginning and the end of civilization. Now ruthless hands are raised to destroy the home, the hope of civilization, and drive out upon a cold world the mother, the gentle priestess whose loving hands minister at the family altar and bind human hearts in a holy union which is the foundation of our whole social fabric. It is a feather in the cap of the Farmers' Union that after a long day's session protracted to the fateful hour of midnight only thirty-five members could be found to support the deep laid scheme to destroy the homestead law, the last bulwark of the home!—Cotton and Cotton Oil News.

The Platform Subcommittee on the homestead plank reverses its plans in order to make the convention harmonious and because it was probable that

more education of the people would be necessary to make the adoption to the amendment certain. Prolonged debate would have followed had the plank been presented.—Fort Worth Star-Telegram.

"More education of the people" is the proper word. This section of the platform that struck a snag was the cut-and-dried draft of the Governor's. Its going to take "more education of the people" than the bunch who is trying to destroy the homestead law can inculcate in a century to change the present homestead law.

The Star-Telegram gives the following as an expression of the Waco Convention:

After much debate the committee recommended amendment of the State homestead law. The committee in its labor plank refused to indorse an eight-hour bill for labor.

— Pay the President —

In the distribution of honors at the Waco Convention the "newly converted" antis to the pro cause, got about the same recognition that Jim Ferguson did at the Lady's Primary on the 27th of July. That's right. The pros should work the new converts in the ranks for 21 years and then if they are four square on all questions they should be allowed to take a back seat on the water wagon.

— Pay the President —

We want to give our hearty endorsement to the plan of Mr. J. E. Odiorne as outlined in a communication in last week's issue which deals with a serious problem that is face to face with our people. An adequate issue of road bonds will give our people employment. The cash will be equitably distributed and we will have what we need, a system of good roads. No doubt there will be some who will oppose a bond issue, claiming it is no time to go in debt. It will be better to go in debt now on long time and provide means for a frugal and thrifty people, than to let them move off and probably never return. If the exodus of farmers continues from this county, and from necessity it will continue for twelve months, it will take 15 or 20 years for us to recover from it. If we have good seasonable rains this winter, it will take twelve months for the farmer to realize anything. It is no use for us to take chilblains and cold ankles—a condition confronts us and we may as well bow our necks and buck the center. Somebody should put this matter in tangible form and let's all pull together.

..... Pay the President

We are in receipt of a letter from Capt. Burney Braley of Camp Lee, Va. inclosing remittance for the Star in which he says: "Send me the 'Twinkler' as long as that sum will buy. I hope to be some where else when that expires. I am well and not the least bit overworked these days. Guess there will be plenty to do when the 45 year olds arrive, however." Here's hoping that Captain Burney will have the Kaiser's scalp and be a Brigadier General in the Regular Army when his subscription expires.

FALSE ECONOMY

Among the multitudinous "recommendations" promulgated by the Waco Convention was the absorption of organized and working departments at Austin, which they claim, will save the state one million dollars per annum. This is in conformity with findings of the smelting committee that nosed around last summer. This wholesale pruning probably would have been done at the last called session of the legislature if they had had the time. As it was only two of the departments were abolished or merged. The State Revenue Department, one of the departments that was self sustaining and revenue producing was a victim to the wrath of the statesmen.

This same bunch of long-haired, short-brained statesmen have their pruning knife sharpened for the Markets and Warehouse Department, the only medium the producers of the state have to combat the greedy speculator and middle man. This department has been under fire ever since it was created. A great majority of the producers not appreciating the great work it was intended to do and did accomplish, aided and abetted by the middle-men and ginners, have waged an incessant warfare against this department and the only reason it is in working order and accomplishing so much good today is the fact that that old commoner and advocate of the producing classes of the state, F. C. Weinert stood as a wall of adamant against the assaults of its enemies. He has been at the head of the department since its creation, has directed its work through its torturous life and is the author of the law under which it now operates. The Federal Government has virtually adopted Texas Markets and Warehouse law to conserve the cotton and cotton seed, two very essentials in the prosecution of the war. The Federal Government realized the waste in food and feed products and to correct those evils, adopted the Texas law. We do not believe in a centralized form of government, but it seems in order to get results if the producers are to be protected against themselves Uncle Sam will have to take charge of the matter and make them be economical in spite of themselves. The majority of ginners have become reconciled and friendly to the law, but when it was first put into operation, the ginner looked upon the state gin inspector as an interloper. The present season the Federal Government inspected the gins to see that the seed were not wasted and were kept clean from dirt and that the cotton was ginned in a proper manner. This duty was given over to the State Markets and Warehouse Department whose inspector could very easily see the respect a ginner who was fighting the state law, had for the Federal law. The state department should not be abolished or merged but the law should be strengthened with sharp teeth in it for the ones who fail or refuse to comply with its provisions. If the coming legislature merge this department with the Agricultural Department, they had as well kill it, for a merger with the Agricultural Department will only be equal to chloroforming it and it will eventually die of inactivity and dry rot. If the incoming legislature will make liberal appropriations for marketing and the inspection of Weights and Measures and give Hon. F. C. Weinert the encouragement and aid he needs and deserves, millions of dollars can be saved for the producers and consumers annually. But, will they do anything as practical as that?

SLOAN SIFTINGS

Rip Van Winkle
To The Star:—This is to let you know that we are still dry and drying. Once upon a time we needed rain very badly and this correspondent inserted an advertisement in the Star for a rain and the rain sure came. Well we are going to try it again. Wanted: a rain that will wet the ground and fill the water holes and tanks.

P. S. If no rains of the above description are on hand just in it that may be in stock will be gladly received.

Oh yes, we like to have forgotten, Thursday of the past week 3/8 of an inch rain fell. This was about six months to a day since rain had fallen in this section.

Some of our stock men have been scouring the county looking for grass. It seems that grass a plenty was found but the price was prohibitive. Our cattle men have decided to stay at home with their cattle and burn prickly pear and feed whatever other sort of feed that they could secure.

Roland Maxwell shipped for the Misses Sloan this week two cars of calves.

Ward Holman moved from the Canyon ranch last week some two hundred stock cattle to his field in San Saba. Out of this number he sold sixteen steer yearlings to Huts Owen for \$22.00.

Pete Sloan and family who have been traveling over the western part of the United States and Canada for the past eighteen months, returned home a short time ago. They had a fine trip and saw lots of Uncle Sam's good country.

It is announced that public free school will open at this place the first Monday in October the same being the 7th of the month.

Recently some steer buyers have been through the country enquiring for steers to buy but so far can learn of no deals.

Roy Rankins is just up from a spell of Typhoid fever. Johnny Bogard and others got together Tuesday and gathered Roy's corn for him. Such neighborly acts show that this old world is not all for self just yet.

Our President calls on all male persons from 18 to 45 years of age to register Thursday Sept. 12, 1918. This precinct has not a large number to register but they all are willing to go when needed. Those Huns are finding out, if they have not already found out, that Uncle Sam's boys can fight as well as make dollars.

SCHOOL NOTES

To the Patrons:

The public school opened Monday, Sept. 9th., with an attendance far in excess of what I expected. I figured that owing to the drouth, a great many families had left the district; but it seems that, in many cases the men only have gone, leaving their families behind. At any rate, the attendance is practically what it was at this time last year.

Affected by the late Draft Law, many young men of the High School Department have gone to military schools, preparatory to being drafted into the army; but their places have been taken by an unusual large number of pupils from other districts in this county and from other counties.

The classification of the children is progressing as rapidly as possible, and the regular work in all grades will begin tomorrow, Thursday.

There may be rumors current that certain children who failed last year are being put forward this year, while others of the same class are not. By way of explanation, will say that this has been done in a few cases where said children have been in the grade two years and are beginning a third year in that grade. My principle reason for allowing them a trial in the next grade is to convince them and their parents that they are not qualified to do the work of that grade. There are four or five cases of this kind, and it is my opinion that not one of the number can retain his place. We may be guilty of everything else in the category of crime, but we are not guilty of partiality. In all cases we endeavor to be just to both parent and child. We have refused to allow some children to be promoted on trial for the reason that in all such cases the failure was so complete that it would have been beyond the pale of reason to waste the time of both pupil and teacher by permitting it. If all parents would take the time to make their children study at home instead of permitting them to say that "we got our lessons at school," all this trouble would be eliminated.

None except the children in the lower grades have time enough at school in which to get their lessons.

I haven't time this week to say all I should like to express regarding the school, and invite you to see next week's issue of this paper for a continuation of this article.

A GREAT OPPORTUNITY FOR LADIES AND YOUNG MEN

The demand for telegraph operators was never so great as at the present time. The largest telegraph school in America—equipped with over a hundred sets of instruments, miniature train service, a train wire of a main line railroad, all telegraph and freight blanks and books of record; tickets, and in fact everything just as complete as found in the best equipped railroad offices, the best practical teachers to be obtained, thoroughly experienced in commercial and railway telegraphy, station and freight work—the Tyler Commercial College of Tyler, Texas, is unable to supply the demands of the railroads, Western Union and Postal telegraph companies for operators. Read the following letters just received from two leading railroads. Tyler Commercial College, Gentlemen: Further reference to our conversation of recent date concerning shortage of competent telegraphers, on account of so many entering the Government is likely that more will join the Colors through the selective draft, and we cannot hope to fill vacancies with any degree of certainty with men over 18 years of age, the St. Louis Southwestern Railway Lines will, as vacancies occur, use competent lady and young men telegraphers and it would seem to me an opportune time for young men and young ladies to take up the study of telegraphy and station accounts. The wages and opportunity for advancement are very good, and with the well equipped school you have, I am very much in hopes that you will be able to greatly increase your already large telegraphy class in a short time.

Yours truly,

W. J. Williams, Supt. Telegraph.

Tyler Commercial College, Gentlemen: If you will send us the high class students you have been sending, we can use all that you can send. Could use a large number at the present time if you have them. In this connection will say what students you have sent us have been very satisfactory and have developed in some of the best telegraphers and agents that we have. Trust that you will be able to send us more of your students at once and keep them coming as fast as they are capable. I had the pleasure on August 2, to visit your great school and made a personal investigation of the methods used by you in preparing student telegraphers, and I find they meet with all requirements of my read, and I wish further to say you have the largest and most complete and thorough business college that I have ever seen.

R. F. Frenzer, Supt. Telegraph.

Chamberlain's Cough Remedy.

This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. Wm. Scruby, Chillicothe, Mo., writes, "I have raised three children, have always used Chamberlain's Cough Remedy and found it to be the best for coughs colds and croup. It is pleasant to take. Both adults and children like it. My wife and I have always felt safe from croup with it in the house." Chamberlain's Cough Remedy contains no opium or other narcotic.—For sale by The Corner Drug Store.

It has been with very strenous efforts that I have carried your accounts this year. The Wholesalers are now requiring cash for the goods wt sell you so to keep in business we must have cash or keep the goods. The Food Administration also urges that we sell for cash and curtail every expense thereby reducing the cost of living and save for the war that we must win above everything else eliminate as far as possible more than one delivery to each home daily, that will save time and expense. You will need credit more later on than you do now, so pay cash while there is cash. You expect CASH for what you sell.
