Washington, Aug. 1.—Secretary McAdoo announced yesterday that the Fourth Liberty Loan campaign will commence Saturday, Sept. 28 and close Saturday, Oct. 19, a period of three weeks. The consensus of opinion is that the nation will be asked to subscribe \$5,000,000,000.

BASE HOSPITAL AT CAMP BOWIE IS HEALTHIEST

Of all camps and cantonments in the United States, Camp Bowie was the healthiest for the six months ending June 30, Monday by Lieut. Col. L. H. The rate of all camps for non-effectives was 8.03. Camp Pike, Ark. had the highest rate in both deaths and non-effectives, the former percentage being 23 and for the latter 73.

Mrs. Willie Sanderson Moore.

Mrs. Willie Sanderson Moore, wife of John H. Moore, died at the home of her parents, Dr. and Mrs. W. S. Sanderson, Tuesday August 7th, 1918.

Deceased was reared in our city and spent her whole life among our people. Her character shone brightly in her domestic relations, and sad indeed is the bereavement which has come to the husband and two small children, the aged parents and sisters. She was a true sincere Christian, and although she loved life and strongly desired to live longer for the benefit of her loved ones, when the summons came she was ready to obey, and to resign her soul to Him whom she trusted.

Though we who are left behind, bow our heads in sorrow, we find unspeakable comfort in the sure belief that all is well with her, now and for ever more.

Surgeon General Gorgas of the United States Army has issued another appeal urging the young women of America to enroll for training as nurses. He points out that unless these women volunteer to become nurses a real crisis will be faced by the country which must care for its soldiers and sailors first. The Government wants 25,000 young women to enroll.

Women wishing to enroll may obtain information from any American Red Cross chapter or from the Woman's Committee of the Council of Defense which has opened recruiting offices in thousands of cities in co-operation with the American Red Cross. These offices will continue to enroll women until August 11.

The Star is not a seer, but it did look far enough in the future last January to see that business conditions would not justify a raise in the price of subscription. At that time we cut the size of the paper down to four pages and kept the subscription price at \$1.00 per year. The Star's subscription list has steadily grown. The advertising patronage has been satisfactory considering we have been in the midst of a drought for three years.

WAR FINANCE CORPORATION AIDS FARMERS

In compliance with telegraphed instructions from Secretary McAdoo, the War Finance Corporation has wired Federal reserve banks at Dallas, Kansas City, and Minneapolis to notify banks and trust companies in their respective districts, nonmembers as well as members of the Federal Reserve System, of the willingness of the corporation to make advances to those financial institutions which had made loans to farmers and cattlemen.

Droughts in these districts are creating a serious condition for the farmers and this action is taken to relieve the situation. Secretary McAdoo stated that no industry was more vital to the war than raising wheat, corn livestock, and other food products, and that the banks should make loans on the notes of farmers, since they are engaged in an industry not only necessary and contributory to the winning of the war but vital to it.

AS TO DUMB ANIMALS

Some of our Country news papers are mimicking our City papers by giving long obituaries on the death of some pet animal, and oftentimes not mentioning the death of some poor man's child. The Star believes in humane treatment toward all living creatures, but when one of our loved ones depart, we seriously object to being lined up with a dumb brute.

NEW U. S. RULES ON COMMERCIAL FISHING GIVEN

Local Restrictions Generally Removed; Seining Authorized Without Regard to State's Closed Season.

With the new rules and regulations governing the Fish Industry of America, guaranteeing freedom of movement and production to the fisherman and the distributor, and lifting many restrictions and hardships which served to paralyze the industry, Texas should from now on have an abundance of good sea-food at a reasonable price.

All distributors have been notified by Administrator Peden to submit at once a schedule of costs and quantities of fish handled. Every effort is to be put forth to secure a stabilization of prices and to free the market of the speculative influences which too frequently made Texas fish cheaper in St. Louis and Kansas City than in San Antonio or Dallas.

All dealers and all fishermen are required under the rules and regulations to have license, which may be secured from the License Division at Washington free of cost. Failure to comply with the rules and regulations, or proof of speculation, eliminates automatically the fish dealer or fisherman from the field of fish production.

Dealers are required to submit address and change of address; to make reports under oath when requested; to be prepared at all time for inspection; to eliminate all waste, or suffer penalization if they fail to do so; they are forbidden to enter into fishing arrangements with persons or firms not holding license; only wholesome seafood will be shipped; containers not full must be so labeled; willful violation of contracts are forbidden; every effort must be put forth to market all seafood taken; damage to gear and equipment is forbidden.

The Federal law replaces the State law with the one exception: fishing is not to be followed by the use of seines at channels connecting one body of water with another. All persons fishing and selling fish must be licensed.

NEW MEAT PROGRAM CALLS FOR ECONOMY

The new meat program of the United States Food Administration does not contemplate a definite quantity of meat per person, and through an inaccuracy in transcribing the phrase from Washington the phrase was used that the "ration would be one and a quarter pounds per person per week," whereas the statement should have read that the present meat ration in France and England is one and one-quarter pounds of meat a week.

In deciding upon a program of retrenchment in the consumption of meat the United States Food Administration does not include "Meatless Days," but it puts it up to every American to cut down his meat consumption and that of his family:

- First: By eliminating every ounce of waste.
Second: By curtailing purchases and buying more closely.
Third: By serving smaller portions.

LICENSED BAKERS TO FILE WEEKLY REPORTS

All licensed bakers after May 11 are required to make up weekly reports and submit to the Federal Food Administration for the State of Texas. Following the report inspections are to be made, the purpose being to make the baker realize he must obey the regulations; to record consumption of wheat flour, substitutes, sugar and shortening; to record production of bread and rolls; and to show hoarding of wheat flour, sugar and shortening.

Dr. Greer and I have but one aim and purpose in holding this meeting, and that to help the people to know God better, His Word better, and to come into personal touch with Jesus Christ, our Saviour.

Come to these services praying and with willingness to be used of God in any way that He may direct.

"THE NEED OF THE HOUR"

Our country entered this war to fight for personal liberty of every down trodden nation, as well as to preserve our own freedom, and our success depends, not alone upon our army, but upon every phase of our industrial life to sustain our army and just now the shortage of skilled office workers is very serious and will grow worse unless the young ladies and the young men who are too young or physically unable or otherwise exempt from war duty realize that it is their duty to acquire a business training immediately to come to the rescue of both the government and commercial organizations. Read the following announcement which speaks for itself. Washington, July 10.—The United States government needs, and needs badly, a great number of stenographers and typewriters, both men and women, for service in the departments at Washington, D. C., and the situation in federal offices outside of Washington is scarcely less urgent. The supply of qualified persons on the commission's list for this class of work is not equal to the demand, and the commission urges, as a patriotic duty, that citizens with this special knowledge apply for examination for the government service. At present all who pass the examination for the departmental service are certified for appointment, examination papers are rated without delay. Examinations for the departmental service in Washington D. C. for both men and women are held every Tuesday in our city.

The leading railroads are begging us for well trained young men and women to take places in their many departments, made vacant by the draft, and are offering large salaries. Since the Railroads have gone under Government control salaries have been raised, in some instances, 50 per cent. You can prepare in America's most up-to-date and largest business training school of Bookkeeping, Shorthand, Telegraphy, Cotton Classing and Business Administration and Finance, to hold the position of your choice, either with the government, railroad or business house. The necessary literary work is given free with all our courses. When graduated, our free Employment department will place you in a position where your first three month's salary will reimburse you for the entire cost of your course.

Cure for Dysentery

"While I was in Ashland, Kansas, a gentleman overheard me speaking of Chamberlain's Colic and Diarrhoea Remedy," writes William Whitelaw, of Des Moines, Iowa. "He told me in detail of what it had done for his family, but more especially his daughter who was lying at the point of death with a violent attack of dysentery, and had been given up by the family physician. Some of his neighbors advised him to give Chamberlain's Colic and Diarrhoea Remedy, which he did, and fully believes that by doing so saved the life of his child. He states that he had also used this remedy himself with equally gratifying results.—For sale by The Corner Drug Store

To Improve Your Digestion

"For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them did I find the right treatment. Since taking them my digestion is fine." Mrs. Blanch Bowers, Indiana. Pa.—For sale by The Corner Drug Store.
