From An Old Comrade

The letter given below is from a former respected citizen of this county and one of the surviving Confederate veterans whose heart beats true to every tradition of the Sunny Southland. It is so full of human interest that we give it to our readers in full.

Mesilla Park, N. M.

Editor San Saba News:

Have just finished reading last copy, by which I learn the next reunion of the Mountain Remnant Brigade of U. C. Vs. is to be held in the nice little city and good old town of San Saba, which I am very much pleased to learn. Hope you all will be greatly pleased with the presence of the "thin grey line," which will ere long end. Some who were with us even last year will not be there. Even two of our own beloved, Jim Patton and Seth Moore. None dare their places to fill for THEY were of the NOBLEST. I hope to be there, tho it seems almost impossible. If not in person, will be through imagination. Find check for few more copies of the News, of which I've been a subscriber since it started. (Your date is now 1919.) Often do I think of my school days on Wallace Creek in 1858 with Thos. Q. Maxwell, teacher, Riley Harkey, John Latham and others my mates.

Yours truly
T. B. Thaxton.

SELLS FINE CATTLE

N. B. Sims, who is a breeder of registered and grade short horn cattle, reports a nice sale last week. He shipped to C. B. Gomer of Youngsport, Bell county, one registered bull and 8 head of grade cows from his herd.

Our Banks And Pigs

While at the agents meeting in Waco recently J. W. Griffin, county demonstration agent, found a beautiful bunch of Doroc Jersey hogs for sale at a bargain. He came back home and took up the proposition with the local banks and all the five banks in the county have agreed readily and heartily to finance the purchase of the hogs by boys or men in the county who want to diversify in this way. The City National, The First National and The San Saba National at San Saba, The First State Bank at Richland Springs and The First State Bank at Cherokee are all back of the movement if the people want to increase their growth of good hogs.

This is a worthy enterprise and one which means lots to the prosperity of the people of the county. These hogs will be shipped immediately.

CEDAR BRAKES ON FIRE

The most destructive fire of all swept the cedar brakes in southeastern part of this county last Friday, Saturday and Sunday. Saturday three fires were burning at once. The damage has been enormous and has not been estimated in full. Five cars loaded in the Pueffer Cedar Co. yards in the brake were destroyed, cedar, cars and all. The loss of this company alone on its yards is estimated at \$30,000. In addition to this hundreds of acres of brake territory were swept. This fire started in the yards, tho the origin is unknown. The cedar bark, brush, etc., furnished fuel for the flames which swept across the hills and hollows like a cyclone.

Saturday fire broke out in the Alexander brake and during that day and Sunday had burned across this, the W. F. Lewis and the Gorman brakes. Another fire broke out in Miles Millican brake Saturday and went from this to the Bart Hillin brake. This fire was not so destructive and the damage is not known.

When the fire first broke out and it was discovered that it was beyond control runners were sent ahead to warn the campers in the brake to make their escape. Some thrilling experiences are narrated in this wild fight for safety. Many barely made their escape and some had to leave their belongings behind. One family in camp in front of the fire contained a sick baby. The mother cared for her child as best she could but the excitement and exposure was more than the little one could stand and soon after they reached safety the baby died in mother's arms.

NEW TRAIN SCHEDULE

A new schedule for the Lometa to Eden line went into effect Sunday. Train No. 53, arrives from Lometa at 11:20 a. m. and leaves at 12:20 p. m. Train No. 54 arrives from Eden at 2:10 p. m. and leaves at 3:10.

Mr. Evans of the A. & M. College was in this county a couple of days last week with county demonstration agent, J. W. Griffin. He is a pecan specialist and is enthusiastic in the work. He was looking over the field and wants to come back, probably in April, and give some instruction to our people on successful grafting, budding and pecan growing.

Another Pig

T. D. McCoury was in last week and says he has some jumbopig to report. He brought two of his pigs to town and sold them. They brought him the nice sum of \$70.20 and he is now a firm believer in diversified farming.

Mr. and Mrs. J. K. P. Oliver returned Saturday from a several weeks trip west and north-west. They went to Schleicher county, Pecos county and then to Ford county away up on the plains. At the latter place Mr. Oliver reports meeting Joe Harrison, who lived in this county a long time ago.

Lawmakers Sit in Tense, Respectful Silence While President Outlines Next Move Forward---Efforts Being Made to Force Extra Session May Bring on Embarrassing Situation

Washington, Feb. 26. President Wilson today took the inevitable step and asked congress for authority to use the forces of the United States to protect American shipes and lives against the German submarine menace; to put the nation in a state of armed neutrality. The immediate response was the introduction in the house of a bill, approved in advance by the president, empowering him to furnish guns and gunners to American merchantmen; "to employ such other instrumentalities and methods" as may become necessary, and providing for a \$100,000,000 bond issue to be used, in his discretion, for war insurance to encourage American commerce to brave the submarine peril. The bill may be brought up in the house tomorrow with special rules for its immediate consideration. A similar bill will be considered tomorrow by the senate foreign relations committee.

Big Machine Contract

It is worth while for one to visit the shops of the San Saba Manufacturing Co. at any time and especially at this time. As announced in the News some time since this firm was awarded the contract to manufacture the Hitt Boll Weevil catcher for the Geo. W. McClellan Co. This contract calls for 2500 machines and it took a shop thoroughly prepared for most anything to get up against this deal. Saturday a News reporter stopped in and found a busy bunch and the work they are doing would be a credit to most any size town. It takes quite a bit of steel in the construction of this number of machines. A number of labor saving devices have been made in the shop and we saw them twisting steel into many kinds of angles, curves and cutting numerous lengths. We can't tell you how it is done but it is done, for we saw it.

Fords Collide

Last Friday in the late afternoon a Ford head on collision took place near the J. M. Carter corner of the square. The Carter car was going west and the S. T. Taylor car was going east. The first was being driven by Miss Lillie Carter and the latter by B. F. Hardt. Just how the cars came to run together is more than we learned but they did. Little Bobbie Carter, who was on the back seat of the Carter car was thrown out and considerably bruised. The Taylor car was considerably smashed and damaged. Fortunately no serious harm was done.

Simmons Drug Store last week completed some valuable interior improvements by adding to their already handsome line of store furniture a buffet prescription counter, which adds much to the attractiveness of this store.

The blacksmith shop at Jones Valley was completely destroyed by fire Wednesday and Messrs. Hill and Jarrett lost about \$200 worth of tools in the conflagration.—Goldthwaite Eagle.

ACHIEVEMENT

"I WILL build a car for the multitude" So spake Henry Ford, and therein lay a creed, an avowal of purpose. The covenant has been kept—the multitude has its car, and another name has been added to the roll of men who have contributed most to humanity's progress.

The "CAR" was not an overnight conception nor was it achieved in a day. There were several years of doubt and delay, and a lack of funds.

A familiar fact is the coincidence in the lives of the masters of great achievement. They said Edison, the news boy, spent too much time on his wires and batteries, that he was a dreamer. Yet through his dreams we press a button and turn night into day; we telegraph around the world in a short time; we re-produce the human voice on a little disc and his motion pictures fix present-day events for posterity to see.

Fulton announced a steamboat schedule between New York and Albany. His friends scoffed and tapped their foreheads meaningly. Nevertheless the "CLEREMONT" proved a success, and sailing ships became less important factors in commerce.

To-day we have world-trade instead of limited coastwise shipping.

Few believed Bell when he said he would transmit the human voice fifty miles by telephone. New York now talks to San Francisco daily on instruments developed from Bell's basic ideas.

It took Morse twelve years to

get a trial for his telegraph, but modern rail-roading would be difficult without his invention.

Mr. Ford was considered eccentric and his first car a mechanical folly when it first appeared in Detroit.

Although more than thirteen years have passed since the first Ford car was offered to the public, the full value of the achievement has yet to be determined.

The car is known in every civilized country—and has helped to civilize some others.

It serves all classes with impartial efficiency; it takes the city man to the open, sunlit country and brings the rural dweller to partake of the advantages of the city. It has made business a pleasure, and pleasure ideal. It is within reach of the multitude for whom it was intended. The aim has been achieved.

Let me have your orders for Ford cars NOW. We can give you prompt delivery.

The latter is a fine horse enthusiast and they have gone to the Mountain Vale ranch to see those fine Morgan horses of Col. Dick Sellman.

A Measuring Party

The ladies of the Baptist church gave one of the prettiest church social events for a long time last Thursday evening. This was at the beautiful home of Mr. and Mrs. W. R. Harris. The measuring offered quite a bit of amusement. Each guest must be measured exact to the inch and several found themselves taller and some not so tall as they thought. Most men think themselves taller than their wives. The measuring rod tells a different story.

This pretty home was beautifully and artistically decorated with bunting, the national colors, carnations and ferns. One of the most unique and pretty decorative presentations was a miniature representation of the George Washington home on the Potomac river. This clever decoration was the genius of Mrs. Harry Arhelger and came in for universal favorable comment. Mrs. Jas. H. Baker and Miss Trenholm Doyle rendered some beautiful vocal selections and neighborly conversation was enjoyed. Refreshments consisting of chipped potatoes, salad and crackers with hot chocolate and coffee and ice tea were served throughout the evening. A nice sum was collected by the ladies for the work of mission society.

MEBANE COTTON SEED
 40 PER CENT LINT

I have arranged for a limited amount of this, justly famous, cotton seed and am offering it for sale to the farmers in this county. The demand for cotton the coming fall will be the greatest ever known in the history of the trade, at least every indication points to that fact. The BETTER STAPLE variety will very naturally command the greater price. We know from actual experience that MEBANE cotton is an even running staple and there is never any doubt about its bringing the top market price.

Enquiry will show you that I ship about 75 per cent of the cotton received at this market and should know somewhat about values. See me on the street or leave orders with W. R. Harris or J. W. McConnell & Sons.

SWARMS OF SPIES

Senator Overman Makes Sensational Statements in Congress

Washington, Feb. 19.—There are 100,000 spies in the United States, Senator Lee Overman declared on the senate floor today during debate on the espionage bill for protection against the operation of spies and malefactors in time of war.

"I am told," Mr. Overman exclaimed, "there are now 100,000 spies on United States soil."

Mr. Overman as member of the judiciary committee in charge of the bill, has been in close touch with the department of justice, which drafted the measure.

Determined filibustering against the bill was threatened on the senate floor today by senator Cummins.

Mr. Cummins declared unless certain phrases of the bill were altered there would be "considerable debate."

The naval code book recently stolen from a United States destroyer on the Pacific coast was stolen by an emissary of a foreign government enlisted in the United States, Senator Lee of Maryland declared.

"Do you suppose an American citizen stole that code?" Mr. Lee shouted. "No, it was the emissary of a foreign service."

The espionage bill provides: Against the entrance of any person for the purpose of "obtaining information" upon any naval or military reservation, vessel, radio station or munition plant.

Against the unlawful possession of code books or information relating to the national defense.

Against sending through the mails any "invisible" writing or false affidavits made to influence the course of the United States or foreign government.

Against impersonation of officials of a foreign government.

Against abuse of passport

privileges and government seals.

Against conspiracies to injure property of a foreign country with which the United States is at peace.

Against the inception within the United States of conspiracies against "any foreign prince or state."

Restrictions upon interned soldiers and sailors of belligerents.

That the president may condemn arms and munitions destined for export in violation of neutrality laws.

Against conspiracy to injure vessels engaged in foreign commerce.

The president under the bill, is also given wide discretionary powers "to better enforce the neutrality of the United States."

The News failed to note last week that E. E. Fagg has move his real estate and loan business to the office in the rear of the Gains & Fagg gent's furnishing store in the old McConnell building on Wallace street, where he invites you to call on him.

OUR NEXT RAIN IS SCHEDULED for March 1 to 8. The last one was rather small—entirely too small.

COL. BILL SCROOGE in the Dallas News of Sunday undertakes to answer the question of "why a Texas Legislature?" We should like to ask a question or two. Why and who the devil is "Bill Scrooge?"

FROM THE WEATHER WE HAVE been having the past week we are inclined to believe that the Ground Hog missed "his guess, when he predicted that we would have six more weeks of cold weather, on the second of this month.—Mason News.

Correct you are. "Six more weeks of cold weather" is a lot of cold weather to have on the second of this month, or the second of any month.

THE BANGS ENTERPRISE LAST week carried an advertisement for every business man in that city. Bangs is a small town in Brown county. Bangs is known all over Texas for what its people are doing in the way of diversified farming and prosperity. The Enterprise is to be congratulated. It has the confidence and good will of the business men and is giving them a good paper. With that kind of "pull together" San Saba town could double in population in five years.

THE HIGHWAY COMMISSION bill has passed both the House and Senate. In the Senate the pay of members of the commission was cut out, except the one who is to be the actual engineer and give all of his time to the work. The highway commission is needed in Texas alright. The fewer paid office holders it provides for the better will be its efficiency and the more satisfactory its operation. There are already too many office holders in Texas who do nothing but draw their salaries and breaths.

WE ARE MORE THAN PLEASED to note the fact that our good friend, W. A. Smith, of the San Saba News, is preparing to install a modern linotype. The News, equipment is well up to the standard of efficiency with the possible exception of the type setting machine and we venture the assertion that no office in this section will be better equipped for the handling of its local needs than the office of the San Saba News after the installation of a Mergenthaler linotype. We congratulate the gentleman and bespeak for him much satisfaction from this last addition. Nothing has ever approximated the linotype machine as a labor saving device in a print shop.—Llano News.

THE DOUBLE PRIMARY BILL in the legislature is reported to have been killed. That was a righteous murder, if that kind of killing is murder. Another righteous act would be to kill the last vestige of the present primary law. It is a burden on the people with no beneficial returns. It is a black flag over the poor man's hopes and ambitions. Why a democratic primary in Texas anyhow? Honest elections, straight counts and prompt returns are what Texas needs, with only citizens of the state participating. Then we would have no counties casting a solid democratic vote in the primary and unanimsously for the republican ticket in the general election.

AS WILL BE NOTED IN THE report of the proceedings of the commissioners court last week an order was passed asking county attorney, A. B. Wilson, to have the special road law for San Saba county repealed by the legislature now in session. Evidently the three members who voted for this order had in mind some benefit to the efficiency of good road work in this county by repealing this special law and going back to the old general road law. And evidently the one member who voted against the order didn't see the benefit to accrue. The Editor of the News had a numble part in drafting the special road law for this county. Its provisions and sections were all discussed thoroly and for days by all the members of the commissioners court at that time. The special road laws of no less than a dozen counties were at hand and were all gone over carefully. They were compared. They were discussed with special relation to the local conditions in this county and in the light of the annual reports of the commissioners and the road overseers of the county. Some of the original provisions of our special road law have been amended and changed. Others may need amending and changing. But repealing, NEVER. That would be going backward. The general law places no responsibility upon and grants no authority to the county commissioner in the development of good roads. San Saba county should go forward, not backward.

TEXARKANA COULD NOT FURNISH hotel accommodations for the joint press associations of Texas and Arkansas. Galveston has been selected as the place for the Texas meet. Well we voted for Galveston two years in succession. We note from the Austin American that a side trip to Havana and Key West is promised. Eighteen years ago this editor rode a U. S. transport between these two cities and was in quarantine four days off Dry Tortugas. We would, just a little bit, like to go back to Havana. We don't care so much to see the Governor's Palace, nor Moro Castle, nor the great cathedrals, nor the gorgeous palm plazas and parks. But we'd like to hike it out to Buena Vista, 8 miles, and find the site of old Camp Columbia. Out there was the headquarters for Fitzhugh Lee. Just across the railroad track was the first Texas regiment of volunteers. There a tropic gale blew down most all the tents one night. It was hard work for Ben Hubbert, Worth Hart, Angus Bailey, Dorsey Pinnell and this editor to keep anyways near dry. And the night was dark—dark as the very d-d-duce. There the gallant, chivalrous Col. Mabry of Texas died the very day the American flag was hoisted over Moro Castle. Out yonder in a great Cuban pineapple plantation Ben and I were arrested. And, just like when the teacher reprimanded us when we were boys, we "wasn't doin' a thing." Ben at first wanted to fight it out with the provost guard but our strategic position was not all that might be desired. Any way we were in line at "dress parade" and "taps." Press reports say that Mariano was the hot bed of the Cuban revolution last week. Only two miles from Camp Columbia, Mariano was a dirty, filthy place. We have heard the American occupation cleaned up the old town. We would just like to see how it looks cleaned up. We guess the wreck of the "Battle-Ship, Maine" is not out there in the bay now. Old Havana was a "mighty" dirty town then. The streets were filthy. Great big children, naked as the day they were born, crowded the streets to see the U. S. soldiers. We hear the old town is cleaned up. We hope it is.

THE STATE UNIVERSITY IS the head of the public school system. It is one among, if not the greatest legacy, left by the founders of the Lone Star state. The News has not discussed the merits or demerits of the charges brought by Governor Ferguson last fall against the board of regents and the faculty members of the university. The board of regents at the time held a hearing on the charges. The Governor appeared before the meeting. The proceedings in detail were published, just as taken down by a stenographer. And the stenographer was a good one. He was none other than our own Fred Morse. In order to get at the real merits or demerits of controversy we read the stenographers' report in full, first to last. The board of regents refused to dismiss a single member of the faculty. It appeared to us that the matter was thrashed out thoroly and that ought to have been the end of it. Now Governor Ferguson has persistently reiterated the charges which were found by his own appointees to be not well founded. He has displaced all the members of the board of regents who would not do his bidding and appointed others in their stead. The records show that the Governor actually asked for the resignation of at least one member of the board "if you are not with me. I must know who is for me and who is against me." The university now asks the legislature to make a full and complete investigation. The governor says no. No investigation. To the News it appears that an investigation is positively necessary. The investigation should include the management of the university and its faculty. It should also include the relations of the board of regents to the university and the people, and then some. That some should be the relations of the board of regents to the governor of the state and his political machine. In the Senate last week the governor admitted that he had talked to some of the new appointees before their appointment; that he said to them: "I thought these men" members of the faculty who were exonerated of his charges "ought to be dismissed; that I did not want to make a trade with anybody about it, but wanted them to know my views." Of course that was not making "a trade with anybody about it" but was so dog-gone near trading that it is plain that those men should not be appointed to the position. In fact it appears that a sense of self-respect would not permit them to accept an appointment under such circumstances. Turn on the light. Let's have "more light."

TWO YEARS IN BED AND ROLLING CHAIR
Mrs. Wilson Gave Up Hope—Gains 26 Pounds On Tanlac and Is Now A Well Woman

"For two years, I spent all my time either in the hospital, in bed, or in a rolling chair and during that time I was given up to die and I don't guess I would be here now if it hadn't been for Tanlac," said Mrs. E. C. Wilson. Mrs. Wilson is well known in Atlanta, her husband having been employed by the Constitution for a number of years. "I was a great sufferer from chronic indigestion," continued Mrs. Wilson, "and don't guess anybody ever had to go through with what I did. I was very weak and nervous and at times had those dreadful smothering sensations to the point of fainting. I had dreadful headaches, severe pains in my back and over my kidneys, and my joints ached all the time. For two years I had to live entirely on boiled milk toast and soft boiled eggs, and even that didn't digest well and would sour on my stomach. I didn't know what it was to get a good night's rest. I took one kind of medicine after another until our house was almost filled with empty bottles, but instead of improving I was getting worse all the time. Finally they took me to the hospital for treatment and I lay there for five long months, but even that didn't make me well. It was taking nearly every cent of my husband's wages to pay doctor and drug bills. Our drug bill alone amounted to \$14 and \$15 a month and one doctor bill amounted to \$108. "It looked like everything had failed to help me, and I had about given up all hope when one day my husband brought a bottle of Tanlac home with him and asked me to take it. He said he had been reading and hearing a lot of good things about it, and didn't see any reason why it shouldn't help me. I was confined to my rolling chair when I began taking it. "Do I look like an invalid now? I certainly don't feel like one, and I have actually gained twenty-five (25) pounds on eleven bottles of Tanlac, and feel as well as I ever did in my life. I can eat anything I want—such things as meat, turnips, hard-boiled eggs don't hurt me a particle, and I sleep as good as I did when I was a girl in my teens. I can get about as well as anybody and just the other day I walked down town, and I am running around the neighborhood calling on my friends nearly all the time now. I haven't a pain about me. I believe I am the happiest woman in Atlanta, and I think I have a right to be. I think my recovery is almost a miracle, and everybody in our neighborhood thinks the same." Tanlac is sold in San Saba by Mackey & Ransom.

LIFT YOUR CORNS OFF WITH FINGERS

Tells how to loosen a tender corn or callus so it lifts out without pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers. Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.

Satisfied

We are more than pleased with the co-operation of the people. Since last issue of this paper we have sold over 200 sacks of San Saba Maid and Eagle flour. A few extracts from some of our pleased customers:

"It's the flour I have been looking for. Its fine. Will use no other."

"It tastes more like flour. It's not as white as some flour but has that rich cream cast and the flavor."

"Flour like this is the healthiest flour a person can use."

Dr. Berry says this flour for him all the time.

If we satisfy many why not you? Then too you are using the products of your own farmers. Cost nothing to try a sack. If not satisfactory your money cheerfully refunded.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than 2 million women in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Charming Entertainment

Mrs. Sloan Kirk charmingly entertained the M. M. M. Club Thursday afternoon at her beautiful ranch home east of town.

Typical of the anniversary of Geo. Washington various attractive effects were noted. This hospitable home was at its prettiest for the occasion. Quantities of foliage plants forming the background for an effective development of a pink color motif. Pink carnations and sweet peas were in every vantage place, filling handsome receptacles, while the mantels were banked with them in artistic combinations. Tiny flags and pink hatchets adorned window draperies and portiers. As each guest arrived she was received by Miss Lura Gray attired as Martha Washington.

Score cards with a picture of George Washington were then placed and nine games of "500" were enjoyed. Delicious pink punch was served throughout the games. During the afternoon everyone had a feeling that "something was going to happen," but they were not yet to learn the cause of the pretty

blushes of one of the young ladies. The curiosity of the guests was at last satisfied when the refreshments were served, and hidden among the dainties, was a card upon which was written "Mr. R. C. Williams and Lura Gray, April 4, 1917." The sweet young bride to be was then showered with congratulations and good wishes for she is one of our loveliest girls and a favorite wherever she goes. A luncheon course was served, carrying out the color motif. On each plate was a bouquet of sweet peas and the place favors were American flags holding salted almonds. Mrs. C. T. Jones scored highest and received a box decorated with hatchet and cherries containing beautiful crepe de chine handkerchiefs, which she in turn presented to Miss Gray.

The double occasion was almost delightful one and those enjoying the afternoon were the following club members and guests: Mmes. Bass, Murray, Keenan, Jones, Hill, Collins and Misses Nobia Miller, Carrie and Mary Sanderson, Lucy Walker, Ada Walker, Lucy Rector, Louise Urquhart, Gertrude Hill, Mamie Hagan, Annette Moore, Fairybell Walters, Helen Lidstone.

The health of this community

The weather still continues

Some are drawing water from

preserved condition and for sev-
eral years had not been used,
but this protracted drouth has
brought it into use.

The law prohibits possession

CALOMEL IS MERCURY! IT SICKENS! ACTS ON LIVER LIKE DYNAMITE

"Dodson's Liver Tone" Starts Your Liver
Better Than Calomel and Doesn't
Salivate or Make You Sick.

Listen to me! Take no more sick-
ening, salivating calomel when bilious or
constipated. Don't lose a day's work!
Calomel is mercury or quicksilver
which causes necrosis of the bones.
Calomel, when it comes into contact
with sour bile crashes into it, breaking
it up. This is when you feel that awful
nausea and cramping. If you are slug-
gish and "all knocked out," if your
liver is torpid and bowels constipated
or you have headache, dizziness, coated
tongue, if breath is bad or stomach sour
just take a spoonful of harmless Dod-
son's Liver Tone on my guarantee.
