### ROAD IMPROVEMENT

Messrs. Millican and Parker of the Bend section were here Tuesday in the interest of road improvement between the Bend and San Saba. The following amounts were contributed to repair bridges and culverts on the Bend road:

D. F. Moore, \$10; R. A. Brazil \$10; W. J. Millican, \$10; J. D. Parker, \$10; J. C. Brazil, \$10; F. F. Edwards, \$5; City Natl. Bank, \$10; First Natl. Bank \$10; San Saba Natl. Bank, \$10; M. N. Cohen, \$5; Will Ashby, \$1; W. E. Yarbrough, \$1.50; Drs. Beaumont & Taylor, \$5; David Bodzin, \$10; Morris Grocery Co. \$2; R. O. Harris, \$1.50; S. B. & H., \$3; Gaines & Fagg, \$2; C. H. Biggs \$3; R. A. Sears, \$1; Smith & Smith, \$5; Wm. Cameron & Co., \$5; Barnes Lumber Co., \$5; J. M. McConnell, \$5; Simmons Drug Store, \$5; D. A. Autrey, \$1; Sam Taylor, \$1, San Saba Star, \$1; San Saba News, \$1.50; E. A. Murray, \$1.

### VALENTINE TEA

The ladies of the Presbyterian Church will give a Tea for the benefit of the Church Orphanage at the residence of Miss Alice Lewis, on Friday Feb. 14, from 3 to 6.

We will appreciate the patronage of our friends and acquaintances.

### NEW QUARTERS

Drs. Beaumont & Taylor are now domiciled in their new offices over Simmons Drug Store. The front part of the building has been sub-divided into two consultation rooms and a large reception room which gives them a suite of the most up-to-date offices.

The spirit of improvement on this floor is also evidenced in the nicely appointed dental parlors occupied by Dr. Daily. The interior of all these offices have been undergoing marked changes under the skillful decorator's hand.

W. R. Harris who has just retired from the grocery business in San Saba advertised his business in the Herald seven years without missing an issue. The breakfast food man would say, "There's a reason."—Cherokee Herald.

Which is a concrete demonstration that "keeping everlastingly at it, brings success," even in stubborn cases.

### GOOD NIGHT! NURSE

The Ft. Worth Star Telegram asks "What has become of the old fashioned anti, who used to say that prohibition would not prohibit?" One usurping the functions of the governor's office down in Austin, sneaking in on a prohibition platform and the other is still engaged in ably editing the Star Telegram.—Temple Mirror, Correct, go head.

### OIL NEWS

The material for the derrick to drill on the Will Gray ranch has been placed on the ground and work will be pushed in the erection of the rig.

The securing of sufficient acreage on China and Jerry's Branch has been progressing slowly, but those who have charge of the leasing are patiently working on the proposition.

If test wells can be put down on the Gray ranch, China, Jerry's Branch and the Bend, this county will receive a thorough test and the oil and expert geologist of the Star is firmly of the opinion when these wells are drilled, that they will uncover one of the richest oil pools in Texas.

Bob and Bill Ellis were in Fort Worth this week on business. Bill went along to get some of the oil infection that is so violent in the Panther city, for he is threatening to get in the oil game and he wanted to know how a real oil magnate behaved in company.

Just as well commence building that three story modern hotel building on the southwest corner of the square. Some of these fine mornings there is going to be an oil gusher blow in on us and then what are you going to do with the crowds that will throng our little city?

The Star honestly believes that we are going to have some real development in this county, the moss-backs and tight-wads to the contrary notwithstanding. Let 'er come.

### HOW TO START A FORD

That's easy, you just repeat names of the prophets in Arabic, put a gum drop on the cylinder, roll up your sleeves, connect the batteries with the filling in your teeth or watch case, rip off your belt and necktie, yell the word Sherman used as a synonym for war, in the gasoline tank breathe hard against the carburetor so as to warm the frost off it, being careful not to let your whiskers get tangled in the fly wheel, and then twist the crank around several hundred revolutions. If the engine backfires and kicks you into the mud, knocking out a handful of teeth, the machine is ready to go. That's a sure sign the motor has started.—Ex.

### Cigarette Smoking on The Increase, Statistics Show.

Washington, Jan. 25.—Thirty-nine billion cigarettes were produced in the United States last year, and so far as the Department of Agriculture has been able to ascertain, practically all will be used in this country, as few will be exported. This represents, the department reported, four times as many cigarettes as were produced seven years ago.

Consumption of tobacco in other forms decreased slightly last year, due largely to higher prices. Last year 625,000,000 pounds of leaf tobacco were used in manufacturing compared with 658,000,000 in 1917.

### Statewide Bill Wipes Out All Pool Tables Operated For A Profit.

Austin, Tex., Feb. 6.—The statewide pool hall bill which wipes out pool halls in Texas was passed finally in the house today by a vote of 104 to 16. The bill which has already passed the senate, exempts pool tables in clubs not operated for profits.

### FIRE AT DORAN RANCH

During the sand storm Wednesday afternoon, the barn on the Doran ranch was burned down. Stored in the barn were something like 200 bushels of corn, about a ton of cotton seed, harness, farm implements and an auto, all of which were a total loss. The building was a mass of flames before the fire was discovered. The residence would have been consumed but for the fact that large trees were between the buildings.

There has been quite a lot of painting going on in this town for the last week. It made Jay Hendricks nervous and he had the front of the Barber Shop touched up. It looks so new that the customers may not be able to find him.

We have a few bushels of irrigated Cotton Seed for seed-planting.—J. W. McConnell & Sons.

### SAND STORM NO. 1.

A terrific sand storm struck the town Wednesday afternoon and for a while, storm cellars seemed to be the only relief, but as there are no dug-outs here the inhabitants could only wait and wonder what was going to happen next. Red sand from the plains country was scattered all over the fertile soil of old San Saba.

For a good, every day household angel, give us a woman who laughs. Home is not a battle-field nor life one long unending row. A trick of always seeing the bright side, or if the thing has no bright side, of shining up the dark one, is a very important faculty and one of the things no woman should be born without. We are not all born with the sunshine in our hearts, as the Irish prettily phrase it, but we can cultivate a cheerful sense of humor if we only try.

### BOB BOOSTING OIL

Our friend Ayer Boomer, of Fort Worth, dropped in to see us this morning. He has accumulated stock to the face value of fourteen hundred billion dollars in the Huntancus consolidated oil concern of that city. He says that it is one of the few dead sure shots and that he is perfectly willing to chuck off a few slices of his valuable paper to close friends. The holdings of the Huntancus company consists of a thirteen foot wedge fronting on the Trinity river between two surveys. This parcel of land is in dispute but it is reckoned that every stockholder can get rich before the case is settled. No indication of oil is in sight but there is a creditable legend to effect that once upon a time a negro woman was seen carrying a can of kerosene across the river in this immediate neighborhood.—Temple Mirror.

## HONEST BREAD.

Abraham Lincoln wasn't called "Honest Abe" merely because he was honest in money matters. He was "Honest Abe" to the American people because they found him always standing for the things which he honestly believed the best. That's the way it is with our bread. Try a loaf of it today and you'll see why we speak of it as honest bread. It is honestly the best loaf of bread that we can produce at the price—a large, clean, delicious loaf of white bread for 10 cents.

## A Quality Pie 20 Cents.

Here is just the thing to finish off to-night's dinner—one of our quality pies—only 20 cents. The crust isn't soggy and the fillings are delicious. We take as much pains in our marketing and making as the most careful housewife—possibly more than most people might consider necessary. But then we take pride in making our pies as well as we can, and if you try one of them you'll understand why we are proud of them. Try one—today.

## The Velvet Hammer.

The present legislature contains thirty-four ex-students of the University. Bill Hogg said he was going to elect a hundred but he seems to have missed his guess.

Senator Sheppard has asked congress for one and a half million dollars to enforce the dry law. That bill had the "emergency" clause, self-enacting trigger, bone-dry rider and all the other attachments when it went through.

"Brother" Budweiser Colquitt is spouting the pint whether or not he got 2000 plunks for his campaign in 1910 from the meat packers. This is denial No. 2. He also put in a quit claim to having shared in the brewery slush fund. That was No. 1. Just what No. 3 will be, time only can reveal.

Those horrid United States Senators last Monday defeated woman's suffrage by one vote and those real unlady-like police men of the capitol city put a number of them in jail. Moral: Ladies come to Texas, we know how to treat you. Let those heathen rage all they want to.

The most complex question the solons have wrestled with in the legislature the past week was whether or not girls will be allowed to dance in "49 shows." At last accounts nothing had been said about stenographers dancing on tables for the edification of ancient and venerable senators. Dancing is dancing, whether it is done by 49ers, for the amusement of sedate senators or celebrating the inaugural of some cheap skate.

The pool halls have been outlawed except in clubs where none but the select can go. This is the same route booze took. For a long time it was handled by the clubs, but now they are bone dry. Just as soon as we can get our second wind on this reform business we are going to make playing pool "bone-dry" and when we get that settled, we are going to have a law passed segregating the sexes, and make that bone-dry too.

## Unable To Understand It. Frenchmen Gathered in Groups to Watch American Who Was Actually Drinking Water.

William Allen White tells in the Book News Monthly how thirsty he became for water, just common, plain water, on a motor journey through France where it was not safe, for sanitary reasons, to drink the water of the region. The coffee did not taste good and the wine tasted like diluted vinegar and looked like pokeberry ink. It seemed only good to put in fountain pens. Finally, at the end of a week he and his party stopped at a hotel where there was bottled water brought from the American commissary department. When he came to the table he ordered a bottle and this is what he says of it: "Try going seven days on pokeberry ink and boiled coffee yourself and note the reaction. Your veins will be dry; your stomach will crackle as it grinds the food. The water in that bottle, a quart bottle, evaporated. They brought another, it disappeared. They brought a third. The waiters in the hotel were attracted by the sight. No Frenchman ever drinks water with his meals, and the spectacle of this American sousing himself with water while he ate was a rare sight. The waiters gathered in the corner to watch me. Henry saw them, and motioned toward me, and tapped his forehead. They went and brought other waiters and men from the bar. He was a rare bird; this American going on a big drunk on water. So they peered indoors, through windows and stood in the dining room corners to watch the fourth bottle go down. And when at the end of the meal the American rose, and walked through the crowd they made way for him. A desperate man at least commands respect, whatever his delusion may be."

## LEAGUE READY FOR ITS WORLDWIDE BONE DRY PROPAGANDA

Weterville, Ohio, Jan. 22.—The Robinson Crusoe stage of the bone dry movement is past. The Anti-Saloon League of America has undertaken the task of mobilizing public sentiment for world prohibition.

The watch word of the League used to be "a dry Nation by 1920." Now "a saloonless and drunkless world" has become its shibboleth.

The possibilities of the movement proposed by the League challenge the imagination.

Worldwide prohibition is a colossal task. The League admits that.

Its prosecution will require time and money. The League is blessed with both.

Two million dollars a year the League has spent in its State and Nation will be needed for its hands-across-the-sea program.

"Twelve hundred and fifty clergymen of the Church of England," the League declares, "together with 472 women in English rectories, today own more than \$8,000,000 worth of stock in English breweries. In the Pera quarter of Constantinople on the same plot of ground with the Orthodox Greek Church there are a dozen drinking places, owned by the church, which is kept up by the revenue from these drink shops."

Those 1,250 clergymen of the Church of England, those 472 women in English rectories must be made to see the error of their ways, the League has decided. They must relinquish their brewery stocks. And the best way to bring that about, the League declares, is to abolish the breweries. No brewery, and no brewery stocks.

## PLATFORM OF E. L. RECTOR CANDIDATE FOR STATE SENATOR.

At the solicitation of my San Saba friends I have been induced to announce myself as a candidate for the office of State senator for this district, to fill the unexpired term of Senator W. Scott Woodard, rendered vacant by his resignation. In making this announcement I am flattering myself with the hope that if elected I may contribute something to the great industrial and economic development in Texas, that we are all now looking forward to with such sanguine expectations. The sanguinary political controversies that have for years monopolized, and distracted the legislation of our state, and kept the development and conservation of her industrial and economic resources in the back ground, have subsided, and the political atmosphere is clearer and healthier for the storms that have wracked it. Something of the world peace seems reflected in our political sky.—Our problems now are material and economic. We stand at the close of a world war, that has not only imposed an enormous financial burden upon our shoulders and drained our material wealth and resources, but it has taken its toll from the ranks of our best and noblest manhood. In addition to all this, west and northwest Texas for the last several years has passed through the most extended and destructive drouths ever known in her history! We of west Texas are facing one of the greatest economic crises in our history, our once luxuriant pastures are barren and desolate, our vast herds of cattle have perished and dwindled to almost nothing, our fertile farms have yielded almost nothing for two or three years. I believe the people desire to bury the tomahawk, and to join hands in rebuilding our waste places and in reclaiming our parched deserts. If you elect me to represent you, I shall devote my humble ability to fostering this spirit and to carrying out this purpose. Wilt our undeveloped resources in soil and mineral and rock are almost boundless, it will require all the patience and energy, and judgment that we can command, to develop them and make their wealth available. Our constructive legislation in recent years has much to commend it, and while there have been many mistakes and frequent failures, on the whole there has been decided progress.

## RURAL SCHOOLS AND FARM EXTENSION WORK

In building up and enlarging our public school facilities, especially in the rural districts, and in making attendance compulsory, and in furnishing free tuition, and even proposing to furnish school books free, we are very slowly raising the standard of education among the masses, and thereby checking the spread of anarchy and bolshevism.

In approving what we have done I am willing to admit that we should do much more. We are only at the beginning of this great work. We will never attain to our boasted democratic freedom, until the masses are freed from the fetters of ignorance and illiteracy. Other commendable laws have been passed. The Agricultural and Mechanical College embracing in its board of Directors the secretary of agriculture, is designed especially as a great educational center for the extension and development of agricultural knowledge and skill throughout the agricultural districts of the state, the scope and extent of its instructions and usefulness is being constantly and efficiently broadened and made more thorough and comprehensive. It is the duty of your representatives to encourage and foster a work of such great practical importance and benefit, and to study how to eliminate any errors and defects in its operation, and to make it if possible still more efficient.

## GOOD ROADS AND IRRIGATION

There are some enterprises in the development of which the Legislature does not seem to have been so successful. One of these is the Highway Commission. Now there is no more important or useful enterprise in the state than the building of good roads. Without going into the plans and purposes of the commission we find that only a small fraction of the money raised goes into the construction of good roads. Now to the uninitiated it would seem that of all enterprises the building of good roads would require the least preliminary outlay, in preparation for work. We find a similar apparent failure in irrigation development. About six years ago the legislature organized a board of water engineers and passed a very voluminous and complicated irrigation law, in which they attempted to lay down a very complicated system of irrigation, the main object of which seemed to be to regulate and police the distribution of

water, while no provision was made to assist or enable the land owners to store or conserve the water. As a member of the water board said to me: "they put the cart before the horse." But I am not proposing to discuss the irrigation law or the good roads law. I am simply pointing to results. The law has been in operation for 6 years, and during that time west Texas has suffered more from drouth than ever before in its history. The irrigation law has done practically nothing to relieve the situation. I want to say here that I have no fault to find with the Water Board. I believe them to be very worthy and capable men. They are laboring very hard and conscientiously to carry out the impossible provisions of the law.

I am not writing to discourage legislation on good roads, or irrigation. There are no more important subjects for legislation than these. They need to be made practical and efficient. There is nothing gained by throwing away money even in a good cause. The West Texas chamber of Commerce recently organized composing all the counties in this district, with large ranch men and capitalists behind them, are working to get a bill passed at this term of the legislature, securing the storage of water for irrigation in West Texas. The Bill is in the hands of Judge Tillotson of Austin County who is in the house. My purpose would be if elected to co-operate with them and give my best effort to securing an efficient and practical law that would inaugurate a system of storage reservoirs that would successfully irrigate our Western Valleys. I have no room to discuss details or plans, my purpose would be to get the cooperation and assistance of the attorney general, and of expert engineers in Colorado and elsewhere, and to try to fan the interest that is awaking in the west. We have been asleep long enough.

## OPPOSED TO LAND GRABBING SCHEMES

The two great latent resources of our district are irrigation and oil. And if elected it would be one of my principal objects to foster and develop these resources. There is a bill in the legislature now which I have not read but which I understand proposes to cut out the excess of acres in all located surveys and turn it back to the state. If that is the purpose of the law it is very doubtful whether it is constitutional. If it were it would be utterly inequitable to take the land from the present owners, who are in most cases innocent purchasers, having paid full value for the excess lands. They should at least have the preference of purchasing the land from the state. It would be hardship enough to have to pay for the land twice; such an unjust and iniquitous statute would meet with my uncompromising opposition.

If I am correctly informed as to what the proposed law is, it is about as equitable as the irrigation law is, which proposes to take away the vested rights of riparian owners in the water for irrigation; and I would make an uncompromising fight to uphold our vested rights in the land, and in the water. My policy would always be constructive and not destructive.

### SHERIFF'S SALE

THE STATE OF TEXAS  
County of San Saba

NOTICE IS HEREBY GIVEN That by virtue of a certain Execution issued out of the Honorable District Court of San Saba County, of the 3rd day of February 1919, by Jno. H. Moore District Clerk of said San Saba County Texas for the sum of Two Thousand Sixty-Eight and 71-100 (\$2068.71) Dollars and cost of suit, under a Judgment, in favor of L. C. Smith in a certain cause in said Court, No. 2192 and styled L. C. Smith vs. C. T. Crawford and Ed Crawford, placed in my hands for service, I, Edgar T. Neal as Sheriff of San Saba County, Texas, did, on the 5th day of February 1919, levy on certain Real Estate, situated in San Saba County, Texas, described as follows, to-wit: First Tract:—Two hundred and eighty-seven (287) acres of land part of the Wm. Connell Survey No. 24, Bounty Warrant No. 2786, Abstract No. 201, more particularly described as follows:

Beginning at the Northeast corner of the said Wm. Connell 320 acre survey and the Northwest corner of the Leander Arlo 1280 survey, the said beginning point being at the place where the Brown Branch empties into the San Saba river; Thence up the Brown Branch to where it forks; Thence up the left prong of said Brown Branch with its meanders to where it crosses the dividing line between the said Connell and Arlo Surveys at a point about 1200 varas South 45 East of the mouth of said branch; Thence South 45 East along said dividing line to the Southeast corner of said Connell Survey; Thence South 45 West 672 varas to the extreme Southern corner of said Connell survey; Thence North 45 West 2896 varas to the San Saba river, at a stake on the bank of said river, from which a Burr Oak bears South 58 West 6 varas, a pecan bears North 22 East 5 varas; Thence with the meanders of said river to the place of beginning, being all of the said Wm. Connell 320 acre survey, except a small strip lying East and North of the left prong of said Brown Branch.

Second Tract:—Forty six and seven tenths (46-7-10) acres of land, part of the Wm. H. Magill Survey No. 25, Certificate No. 126, Abstract No. 949, more particularly described as follows:

Beginning 180 varas Southeast of the Magill and Connell corner on the East bank of a dry branch at a stake from which a Burr Oak bears South 35 West 4 varas, a pecan bears North 54 East 5 1/2 varas; Thence South 45 East 982 1/2 varas to a stone mound, from which a Post Oak marked X bears South 44 1/2 East 17 varas; an Elm bears South 11 West 6 1/2 varas; Thence South 35 West 277 varas to a stone mound, from which a Post Oak bears South 52 East 57 varas; do bears North 65 East 57 varas; Thence North 86 1/2 West 137 1/4 varas to a stake on East bank of the branch, from which an Elm bears North 80 East 1 vara; do bears North 80 West 2 1/2 varas; Thence North 66 West 111 1/2 varas to the East bank of the branch to an Elm marked X; Thence North 40 West 34 1/2 varas to an Elm marked X; Thence North 21 1/2 West 776 varas to a corner on the East bank of a branch from which an Elm bears North 67 East 4 varas a pecan bears North 25

East 5 varas; Thence North 27 East 64 1/2 varas to a stake; Thence North 22 1/2 West 125 varas to the place of beginning.

(There is however excepted from the land herein before particularly described all the land conveyed to G. C. & S.F.R.R. Co.) and levied-upon as the property of C. T. Crawford and Ed Crawford and that on the first Tuesday in March 1919, the same being the 4th day of said month, San Saba County, in the town of San Saba Texas, between the hours of 10 A.M. and 4 P.M., by virtue of said levy and said Execution I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said C. T. Crawford and Ed Crawford.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the San Saba Star, a newspaper published in San Saba County.

Witness my hand, this 5th day of February 1919.

EDGAR T. NEAL  
Sheriff San Saba County, Texas.

Old Raw-hide Tapes May Make This Man A Millionaire Soon.

San Antonio, Feb. 6.—Inaccuracies in the measurement of school lands in Texas may bring a fortune to A. P. Barrett of this city, who has filed for oil and gas leases on 2,000 acres in the Ranger and Burkburnett districts. Mr. Barrett has arranged with an oil development company of Oklahoma City to take over the leases when they are granted for the purpose of developing them.

The lands are called "excess school lands." When the surveys were made many years ago rawhide tape lines were used in measuring them and in wet weather the line stretched with the result that tracts described as containing 640 acres really contained as high sometimes as 800 acres. This excess 160 acres is frequently reported and Mr. Barrett has located a total of 2,000 acres near and in the oil fields on which no one has ever filed.

### SHILOH SAYINGS

Reduction of the cotton acreage is very freely discussed among our farmers.  
 J. D. Johnson has been numbered among the sick for the last few days, but is again on foot.  
 James F. Campbell and family visited at Mrs. M. D. Jamar's last Sunday.  
 Kelley Vardaman's family has returned from Concord, Brown County.  
 Leslie Davenport was a business visitor at San Saba last Monday.  
 Jess Tullas and family left for Oklahoma last Wednesday where they expect to make their future home. These good people were reared in our midst and our community extends many good wishes for them in their new home.  
 We are glad to report the speedy recovery of little Miss Fannie Rouse who was operated upon for appendicitis last week.  
 Had it not been for the boggy condition of the ground, our sandy belt would have been the victim of a real sand storm last Thursday. For despite the rains, that hard wind picked up some sand.  
 The visiting among the house wives of our community will be handled with care at present for about 90 per cent of them have their incubators in operation and find it very necessary to remain at duties post.

### HALL LOCALS

The Wilsonian Literary Society rendered its regular program Saturday evening. The audience was favored with a play which was pronounced very good for home talent.  
 Mr. Scott of San Saba visited in the home of his son, Harmon Scott, a few days the past week.  
 Mrs. Myrtle Gunter returned from Harkeyville one day this week, to attend her mother, Mrs. Bowman, who is reported to be quite ill.  
 Mr. Rigdon of San Saba has purchased the farm of W. T. Archer—the consideration being \$40.00 per acre. Mr. Rigdon's family will move in at once. Mr. Archer is undecided as to where he will locate permanently.  
 Miss Mary Bowman is at home after a pleasant visit with relatives and friends in Cherokee.

Tom Archer and Si Atchison made a trip to Brownwood Saturday.  
 Clarence Mays has been ill with measles for the last few days.  
 Frances Gober and wife of

Hall are guests in the home of the latter's parents, Mr. and Mrs. M. D. Terry.  
 The little son of Dr. and Mrs. Wicker is improving after a weeks illness with measles.  
 Mrs. Earl Williams is visiting her parents, Mr. and Mrs. E. E. Gamlin.  
 A number of people have planted their spring gardens. There is a fine season and prospects are good for a bountiful yield of all the earlier matured crops.  
 Miss Willie Mae Hall returned to her home in Fredonia after a short visit in the home of her aunt, Mrs. A. O. McCurdy.  
 W. R. Wicker of Brownwood is visiting relatives here.  
 Little Miss Opal Walker has re-entered school here after two or three weeks visit with her parents at Pecan Grove.

A scald, burn, or severe cut heals slowly if neglected. The family that keeps a bottle of BALLARD'S SNOW LINIMENT on hand is always prepared for such accidents. Price 25c, 50c, and \$1.00 per bottle. Sold by—The Corner Drug Store.

## START YOUR PREPARATION NOW FOR A BETTER PLACE IN LIFE.

Continue what you are and where you are and you are what and where you will always be. If you are satisfied don't read further. The world of wage-earners is a world of hoppers, wishers, and hesitators held down by foolish doubts and empty fears. Endless thousands of bright, fine fellows whose wish bone is where their back bone ought to be, are excusably afraid, halting, timid, clinging with the drowning man, grasp to their slender salaries, because they think business is a mystery and they can never learn to succeed in it.  
 You must be more, have more and do more in this life or you will always be seeing other men that are getting more out of life, more of this world's enjoyments and comforts than you. We can point you to hundreds of young men and women no smarter than you that are now successfully and happily engaged in a business of their own, because they attended our institution and secured a business training and prepared themselves to go into business office and work along with trained men and become masters of the art of doing business.  
 Business is not a happy-go-lucky, haphazard sort of thing. If you understand it thoroughly, you are sure to succeed. If you have never been trained for it, it is all left to luck and guess work.  
 Write for our catalogue today and read the unsolicited testimonials from many of our former students, who were at one time working at low salaries and are today demonstrating their success and the value of our training. Opportunity never comes to him who waits. It comes to him who goes after it with all there is in him, with a deep, burning, intense iron resolve of his inmost being. Read our catalogue carefully. Why not be one of the 3000 that will go out of our institution this year into a good business office? Procastination is a thief of time. Fill in the following blank and send in by return mail. It may be the turning point in your life. You cannot afford to be satisfied with your present position in life. You can do much better.

## Scholarship For Sale

Scholarship from the Draughton Business College of Fort Worth for sale at the Star Office. Everybody is taking a business course. Get in line for a position to serve Uncle Sam.

## Chronic Constipation.

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets afford a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation. ### FROM FRANCE

Dear Dad:—  
 Saturday night finds me feeling good. Why shouldn't I dear Dad when I have received so much mail today? Don't get excited but I got 32 letters today. They were not all new mail, some dated back as far as September. I got several papers and two letters from you. I am going to forward the papers to Fred Peisker. I found thru our files that he was here in this post while I was in the hospital and he went to the hospital himself and was transferred to another hospital near here. I have written him but have received no answer as yet. Well Dad I sure enjoy the papers, but most of all dear Dad are the letters you write. You always tell all the news and just the things I want to know.  
 I was sorry to hear of Wiley Murray's death. If you could get the name of the hospital he died in and the number I might be able to get a picture of his grave and it might be of some consolation to his Dad and sister. I am situated in the midst of the hospital district and if I knew just where he died I could get the Red Cross to send me this. Don't regret a cent you ever gave the Red Cross Dad they are so generous and help many a poor fellow to bear his burden. While I was in the hospital here those three weeks they were around every day giving us cigarettes, tobacco, playing cards, candy, razor blades, most anything you want they will bring it to you. They have sure done some wonderful work over here.  
 I was out at the cemetery here in Blois last Wednesday. The nurse who waited on me while I was sick and I have been going out pretty regularly since I have been able to be about. We went out to see the grave of the fellow who died in our ward on Christmas morn. She wanted to get the number of the grave and send it to his mother who lives in Norfolk, Va. There have been 240 patients died here since the war. All graves are marked with a cross and bear the name of the dead and his company and regiment.  
 Dad I think I will try living in Philadelphia when I get discharged. That city appeals to me more than any other I have found. I have got most two years yet to change my mind, so I don't know yet what I will do. Bridgeport, Conn. is a good city and so is Washington. If I don't stay in the North I will go to California.  
 What you hear about us getting \$150.00 a month for staying over here after the war, is not true. That is what they have the Army Service Corps for. They relieve the men that have been over here for a long time. They don't have Army Service Corps men in the Marine Corps, so we will have to stay over here until we get all our men out of the hospitals. The Army is jealous of the Marines and we having to serve under them they give us the worst of the deal anywhere. I could tell you lots of times where the Army has put it over us just because we were serving under them, but I know the censor would not pass it, so I will have to keep it.  
 Hope you are feeling much better Dad and that you will soon enjoy the very best of health. Lots of love to mother and Mary.  
 Your son, Paul Sullivan.

Dollars and Cents.

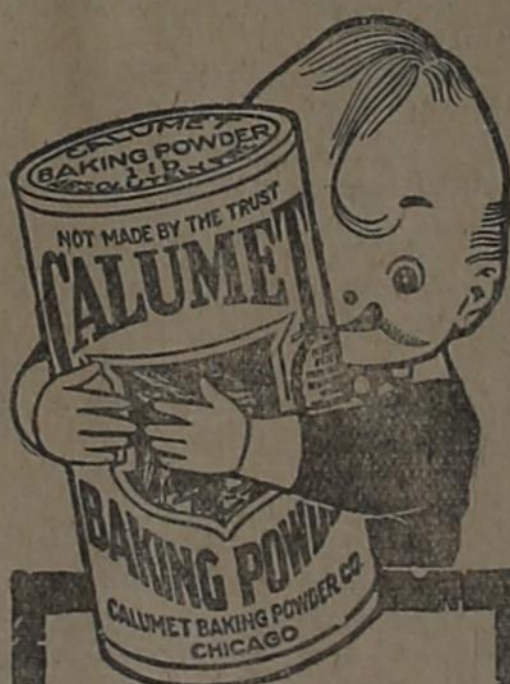

Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months. ## When You Can't Sleep

and you get up as tired as when you went to bed, it is a sure sign that your nerves are out of tune. If this continues long, a nervous breakdown and a train of ills are bound to follow.

The experience of Mrs. H. L. Redman, of New Haven, Conn., will interest you. She says:

"For several months I suffered from extreme nervousness and sleeplessness. My nerves were completely unstrung. After doing light housework I was completely fatigued, and loss of sleep made the nights long and tiresome. I began taking DR. MILES' NERVE TONIC and the first night I slept soundly all night. I can truthfully say DR. MILES' NERVE TONIC completely cured me."

DR. MILES' NERVE TONIC is a safe, reliable medicine for all nervous disorders, such as sleeplessness, nervousness, hysteria, headaches, neuralgia, etc. It is non-alcoholic and contains no harmful drugs. It has been helping nervous, distracted, discouraged sufferers back to health for 30 years. Ask your druggist about it.
