They returned to Colorado well pleased with the outook here and in September of the ame year came back with their cattle and located near where the Turkey Frack headquarters now stand, built a dugout and wintered there. The following fall Mr. Powers moved down on the Washita, where he remained until 1884. From thence they moved to Fort Stanton, New Mexico, and in a short time, on account of the failing health of Mrs. Powers, they went on to California. After forking hay in the state of the Golden Gate through one season, Ace decided that this was not a proper vocation for a gentleman of his habits and hit the road back to the panhandle, arriving here in 1895. He bought what is now known as the Simmons ranch of M. M. Chase and again took up the business of storal raising. Two years later he sold this property to I. P. Mulock and, coming up the Palo Duro about ten miles, ranch on which he has since made his iome, and where he reared a large family of fine boys ard girls. For one person who has made money quickly

there are a thousand who have built up a fortune slowly by means of conservative investments.

A.M.

Any sane man would rather lend money at interest, than have it taken from him. The Government must have money. It is a case of Loans or Taxation.

Whatever the future has in store, those people who have purchased Government securities have least to fear and most to congratulate themselves upon.

What you waste will buy a Bond.

For a person who knows nothing of finance, stocks, shares or bonds, there is one good safe investment—Bonds.

Place your money with the United States

Treasury—the safest place in the world.

Save money, buy Bonds, accumulate them, and one day you will be able to buy that "something" you have always wanted.

Last, but by no means least, buy Bonds be cause your country needs the loan of your money—and such a demand amounts to a sacred obligation.

Buy Bonds of the Victory Liberty Loan and do it today!

FARMER- STOCKMEN HAVE YOU SEEN THE

Fordson ... Tractor

In developing the FORDSON Tractor the aim has been to produce a small tractor which will be low in tirst cost, reliable, and above all—efficient.

Being small, light and economical the FORDSON tractor is adapted for use on small farms as well as on the largest. It will pull all farm implements and do the work generally done by horses on the farm. In addition, by its belt pulley the tractor will drive farm machinery such as a thresher, ensilage cutter, etc., making the FORDSON a truly universal tractor.

Experience has pointed to the small, light tractor as being the one machine which will fill all varying conditions satisfactorily.
