TENT HOME FOR MOTORISTS.

The up-to-date cross-cou torist may now equip himself with a most elaborate roadside home, described and pictured in Popular Mechanies Magazine. Weighing complete only 124 pounds, the entire equipment may be lashed to the running board; yet, when erected, it will furnish four bedrooms, a 7 by 11-foot dining room, with a similar room for general purposes, and a 20 by 63/4-foot garage. Screened windows with storm flaps keep out mosquitoes and bad weather. Another feature which recommends this new accessory is the fact that the tent is accessory is the fact that the tent is not dependent on the auto for support. Hence the family may take an evening ride to the local movies, or other trip, after the labor of pitching tent and cooking supper.

PLAN TO REPEAT ATTACK OF 1916

Railway Employees' Chiefs Appear at Washington With New Threat to Congress.

ASK \$1,000,000,000 MORE PAY

Also Demand Nationalization of Other Industries, Following Example of Russian Soviets.

Washington.—It is just three years since the four leaders of the railway brotherhoods, having refused arbitration of their demands, sat in the gallery of the United States Senate and held their watches on the Senators while the memorable vote was being taken on the Adamson Law that gave them \$60,000,000 additional wages a year. When the vote was counted and announced the four labor chiefs rushed out to the telegraph office and withdrew the order for a nation-wide

That such a scene may be again en acted on a much greater scale is indicated by the startling developments at the nation's capital in the past few days. Now the 350,000 men in the brotherhoods have been joined by more than a million other railrond workers—shopmen, trackmen, tele graphers, clerks, station agents—and the demands are many times what they we're three years ago.

A Thousand Million Dollars.
On top of a thousand million dollars of added wages granted by the Government in the past year and a half, the allied workers are asking for another increase of a thousand million dollars.

But more than this, this great body of railroad employees has served at ultimatum on the Government that al the railroads of the country must be taken away from their owners and turned over to the employees to be operated by them on a communistic profit-sharing plan.

The plan is as daring as any conceived by the Russian-Bolshevists, and behind it is the threat of a nation-wide strike, with the leaders of the men sitting in the Senate gallery, watches in hond counting the vote

To Tie Up All Transportation.

"We will tie up the railroads so that they will never run again if we do not get what we want," announced one of the labor spokesmen, standing within a stone's throw of the Capitol, and this amazing announcement, like an ultimatum from a leader of the Russian Soviet, was instantly flashed over the telegraph wires to every part of

the country.

Since the first Brotherhood bombshell exploded in Washington at the end of July, the fact has leaked out that the brotherhoods are gathering a propaganda fund of \$10,000,000 for an intensive drive on Congress. Three million dollars, it is announced, has already been collected from the members of the unions. This will be used in campaign work in the Congressional districts, with the purpose of enlisting the votes of the members of Congress, or of defeating them for re-election if they do not vote as the brotherhoods dictate. Money will also be lavishly spent, it is stated, in sending speakers throughout the country to stir up the enthusiasm of organized labor for the brotherhood plan of

communistic railroad operation.

"Nationalizing" All Industry.

"If we don't get what we want out of this Congress we will put this Congress out and put another one in that will give us what we want," Is the matter-of-fact announcement of the central propaganda office of the

Back of the immediate purpose to gain control of the railroads is an even deeper scheme to gain control of all great industries, taking them from their owners and putting them under the direct management of the organized workers, as has been done in Russia, and as they are attempting to do

The reports of the United States Railroad administration show that the Government, since it took over the roads in December, 1917, has increased railroad wages by considerably more than a thousand million dollars, and about \$500,000,000 a year is being taken out of the National Treasury to meet the deficit caused by the great increase in labor cost.

Big Wage Increases.

The principal advances in wages have been: To shopmen, \$360,000,000; to unskilled luber, \$225,000,000; to the train brotherhoods, \$200,000,000; to clerks, \$125,000,000; to telegraph and station agents, \$100,000,000; to miscellancous classes, \$110,000,000.

clerks, \$125,000,000; to telegraph and station agents, \$100,000,000; to miscellancous classes, \$110,000,000.

All of these groups are now demanding additional increases of from 30 to 50 per cent. When the Government took control of the roads the average earnings of all railroad workers, including several hundred thousand unskilled workers, was \$1,000 a year. The average is now more than \$1,500 and the new demands would raise it to \$2,000.
