### Ice Cream Supper at Doans

We are requested to announce that the Doans Rebekah Lodge will give an ice cream supper and musical entertainment in the Doans Park on the night of May 9th., for the benefit of the order. Everybody is invited to attend the entertainment.

The membership of the above order at Doans is one of the largest enrollment, and the committee appointed by the Lodge for the arrangement of their program desires special mention of

the musical program they will render on the night of the supper.

If you want the latest and best in photography and cutest folders, cards, etc., come to Sink's Studio, in fact, it is the place to get the best of everything in his line.

H. C. Mason and wife have returned from Terrell where they went to be with the former's father who was seriously ill, they report him much improved and now out of danger.

### Carpenters All Busily Engaged This Week

#### Hammers Distinctly Heard Over Town Building a Larger and Better Odell

Three different carpenter crews are busily engaged this week constructing a new gin, a Methodist church and erecting another residence.

All carpenters of the town are employed, and a force of six or seven carpenters came in this week from Oklahoma to build the new gin for J. C. Pace of Mangum, Oklahoma.

The workmen engaged on the Methodist church have made a big showing with their work this past week, and have a good portion of the frame work now up for the building.

Another force of workmen are building the J. P. Hamilton home in the east part of town, have also shown progress with their work this week.

The carpenter's hammer can

be distinctly heard all over different portions of the town just now, all of which should be sufficient evidence to convince those away from here that a larger and better Odell is being built, and that Odell is anything but a dead town. Come to Odell.

#### The Prayer of a Horse

To thee, my master, I offer my prayer; feed me, water and care for me, and when the day's work is done provide me with shelter, a clean, dry bed and stall wide enough for me to lie down in comfort. Talk to me, your voice often means as much to me as the reins. Pet me some times, that I may serve you the more gladly and learn to love you. Do not jerk the reins, and do not whip me when going up hill, or through the sand. Never strike, beat, or kick me when I do not understand what you want, but give me a chance to understand you. Watch me, and if I fail to do your bidding see if something is not wrong with my harness or feet. Examine my teeth when I do not eat, I may have an ulcerated tooth, and that, you know, is very painful. Do not tie my

head in an unnatural position, or take away my best defense against flies and mosquitoes by cutting off my tail, or limit my range of vision by blinders so that I am frightened by what I cannot see. And finally, O, my master, when my youthful strength is gone, do not turn me out to starve or freeze, or sell me to some cruel owner to be slowly tortured and starved to death; but do thou, my master, take my life in the kindest way, and your God will reward you here and hereafter. You will not consider me irreverent if I ask this in the name of him who was born in a stable. Amen. Contributed.

#### Notice to Odd Fellows

Unless otherwise requested I will be at Doans, Fargo and Odell on their first regular meeting night in July, for the purpose of installing the officers elect for the ensuing term of I. O. O. F.

Now brothers, the law demands and I shall expect that every one shall know his charge.

The Reporter calls its readers attention to the series of articles that it is publishing each week on home patronage.

Reports from Kansas are that their prospects for a crop is very gloomy on account of dry weather.

Occasionally, but not often some old self centered character will succeed in laying up a good size pile of the spon dulix, during his allotted time on earth, by managing to keep all that comes his way, but a man of such temperament rarely ever has many friends, among those who enjoy the pleasure of this life. For to live rightly is to help others to live.

After a brief interval from so much news paper publicity and from being so popular a target for many of the leading cartoonist of the day, the charge made against Teddy Roosevelt of being a drunkard, by a news editor, brought him in the lime light again for a period. Teddy considered the charge of being a wine bibbler and tippler of alcoholic drinks, to serious an accusation against one of his standing, especially when he is prom-

using himself a prominent place with the progressive party in 1916.

Of course it is perfectly all right for every body who can to own and drive an automobile, and the Reporter is really glad to see them getting to be quite numerous in the country, for in an as far advanced and prosperous a country as our is, if not some of the citizens did not equip themselves with this fast means of traveling, the country would be considered backward and slow in keeping apace with the times. But we fear there are some in this section of the country, who have bought cars, are not considerate enough of the danger and trouble they sometimes cause those whom they meet on the road who are driving a shy team, and instead of giving them as much of the road as possible, and stopping the machine still, when they know the team to be afraid of a car, some will often speed up their car when they meet any one, as if to more strikingly leave the impression of the importance in owning an auto.

**WHO PAYS TAXES TO KEEP THIS TOWN GOING**  
By Holland

When a new bridge is needed, a road must be repaired, a court-house is to built, where does the money come from? Do the mail order houses pay for it? Hardly. They will not even send a contribution to help buy a bell for the new church or help a Fourth of July celebration. They pay no taxes in this town, and they are not concerned in its prosperity. The town must be supported by its residents and those who live in the immediate vicinity. If they insist on sending their money away then they are helping to kill their town, and they are making it harder for them to pay the taxes necessary to maintain local government and to make local improvements. You owe something to yourself and you owe something to your neighbors. You can't injure your neighbors without injuring yourself. When you send money to mail order houses you are hurting your town, your neighbors and your self.

### Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

## TAKE CARDUI The Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women.

Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

#### Wilbarger County Has Large Families

The average size of a Texas family is 4.9 compared with 5.4 ten year ago. The average family in Wilbarger County contains 5.2 persons and we have 2293 fam-

ilies residing in this county according to a census report which has just been issued. Wilbarger is one of the 117 Texas counties whose families are larger than the State's average and if all the families in the State were as large as those of our county Texas' population would be nearer the five million mark.

### PANAMA-PACIFIC INTERNATIONAL EXPOSITION, SAN FRANCISCO, 1915.

Copyright, 1913, by Panama-Pacific International Exposition.

DESIGN of the Motor Building at the Panama-Pacific International Exposition. This structure will be one of the largest of the exposition palaces, approximately 275 feet front by 800 feet deep, covering about 210,000 square feet, or more than five acres. The dome, which surmounts the center of the front portion of the building, is 130 feet high and surmounted with a turret composed of the prows of modern motor boats, each carrying a searchlight. This point will be used by Mr. Ryan, the chief of illumination of the exposition, for the purpose of lighting up the grounds and adjacent buildings. Other groups at the base of the building will convey, allegorically, the uses of electricity, gas and other mechanical devices which compose the motor. Its modernity is in harmony with the nature of the exhibits which it will house, and its triumphal character is emblematic of that triumph of modern transportation, the automobile. The groups of statuary surmounting the attic will be allegorically carried out to typify the triumph of the motor over the elements. The main group in front will be a sort of quadriga of automobiles typifying the conquest over the land. On the sides will be allegories of the motor boat and the aeroplane, respectively, typifying the victory over the sea and air. On either side of the entire length of the building there will be a frieze 10 feet high in bas relief, giving the history of transportation from the early log cart up to the most modern development of the automobile.
