## TAKES PLENTY OF BUILD B-29s

THE WAR in the Pacific 1 is the most costly war America has ever engaged in. It's simple arithmetic. A mountain of special, costly equipment is needed. A B-29 Superfortress used in the bombing of Japan costs \$600,000 in War Bonds. And this is just one of the many

extra costly implements of war needed to achieve final victory in the Pacific.

That's why the 6th War Loan Drive is so important. That's why you must back it as generously as you have every other war loan drive. Invest in the next raid on Japan...

We're all human.

We all like to go dancing or see a show or buy an extra suit or dress occasionally.

But this war still has a long way to go. There are still 75 million Japs who don't believe in surrendering.

So during this 6th War Loan, how about putting all that luxury money into something a little more permanent-an extra \$100 War Bond at least-to help get this thing really over and bring those boys of
