

DEATHS OCCUR BY CARBON MONOXIDE POISONING

During the fall and winter months news reports frequently tell of someone being killed by carbon monoxide poisoning.

Hundreds of Americans — Texans included — are poisoned or die every year from the odorless, tasteless and colorless killer, says the Texas State Department of Health. As in most cases, these deaths are preventable.

Just last week four persons died in Canada of carbon monoxide poisoning when the exhaust of an automobile was piped under a house in an effort to kill skunks. Several persons recently in San Antonio were treated after being overcome by fumes at a charcoal plant, largely due to carbon monoxide.

Carbon monoxide poisoning can occur anytime, but it generally is

thought of as a cold weather threat since homes, automobiles and business establishments are "buttoned up" against the cold. Texans begin using more fuel to heat their homes offices and cars when fall arrives.

Everytime a person burns gasoline, kerosene, wood, natural or manufactured gas, coal, coke or oil — anywhere — in a heater, car, appliance, bonfire or grill, he has started a potential carbon monoxide factory. Hibachi grills, used with charcoal, are dangerous in closed up areas. A car engine, running in an average sized garage approximately five minutes, can produce a lethal concentration of carbon monoxide.

The poison slowly gets into a person's bloodstream, rendering him weak and groggy and finally results in death unless the exposed person is moved to fresh air before it is too

late. Hospitalization often is necessary for victims lucky enough to live.

How can you avoid poisoning? Check automobiles regularly for leaks in exhaust pipes, mufflers and their connections.

Have your heating systems checked thoroughly.

Never run an automobile in a closed garage. Even with doors open, fumes can move from the garage into the home. Properly vent all heaters.

Be watchful of fires in fireplaces so that smoke and fumes don't enter living areas. Windows may be opened to let in life-sustaining fresh air.

ALCOHOL MAJOR CONTRIBUTOR

A driver may become a traffic hazard only two minutes after taking a drink, according to a new book, "Alcohol... or Highway Safety?" published by Texas Alcohol Narcotics Education (TANE).

"If alcohol is consumed on an empty stomach, it may reach the brain within two minutes. If it is consumed rapidly, the effect on the brain centers may last up to five hours after ingestion of the alcohol," according to the new book, written by Lindsay R. Curtis, M.D., author of several books on alcohol and drug problems.

Drinking alcohol is the major contributor in 10,000 injured in car

crashes each day, 1,000 persons killed each week, and nearly \$1 billion in direct economic losses each month, Dr. Curtis said.

The book, designed for use in driver education classes, will also be distributed through churches and retail book outlets.

The book is illustrated with cartoons by Dean Hurst.

"Drinking drivers kill more than war. We need to face up to the realities of this needless slaughter, and do something about it. TANE hopes that this book will help, said Albert F. Tucker, TANE Executive Director.

WEEKEND GUESTS

Guests over the weekend and on Monday in the home of Mr. and Mrs. Abb Russell were Mr. and Mrs. Ernest Schrader of Wolfforth, Mr. and Mrs. P. L. Byrd of Colorado City, Mr. and Mrs. W. B. Pointer of Muleshoe, Mr. and Mrs. Edd Pointer of Lubbock, Mr. and Mrs. Jack Wright of San Diego, California, and Mr. and Mrs. Clarence Summerfield, D'Andra and D'Linda of Hamilton.

VISIT HERE

Mr. and Mrs. Aubrey Patterson and daughter of Farmersville visited in the home of Mrs. Ada Kimberlin Saturday night.

ROPE CHURCH OF THE NAZARENE

WELCOME TO ALL

Dave K. Powers, Minister **Elwood & Timmons**

Bible Reading Week is November 23 through November 30, 1969.

World wide Bible Reading will be from December 1 through December 31, 1969.

Thanksgiving World Missions Offering will be November 23, 1969.

The Annual Thanksgiving dinner will be held at 7:00 p.m. November 20 at the School Cafeteria.

HOME OVER WEEKEND

Brenda Thomas and her roommate were here for the RHS homecoming.

W. T. A.

West Texas Ambassadors met Saturday at 1:30 at the Lubbock First Church of the Nazarene. There were forty teens present. The purpose of WTA is to help teens formulate and discover their faith by learning about the church and its doctrines and then to express their faith through instruction in witnessing and singing. At each meeting the teens participate in an hour and a half witnessing project.

BNC TALK-IN

An opportunity for High School Seniors and Juniors and a Bethany Nazarene College representative to

meet together has been arranged for the First Church of the Nazarene, 4510 Avenue Q, Lubbock on Thursday, November 6 at 7:30 p.m.

Rev. Marselle Knight, Director of Public Relations, will represent BNC in this informal and informational discussion.

You are urged to be a part of this meeting to find out how BNC can become an important part of your life.

FBI EMPLOYMENT OPPORTUNITIES ATTENTION:

High School Graduates
 Business College and
 Junior College Students

The Dallas Office of the FBI through its Special Agent in Charge Mr. J. Gordon Shanklin, has advised of excellent job opportunities with the FBI in Washington, D.C. for young people, male or female, who are at least sixteen years of age, United States citizens, high school graduates, and able to pass a rigid investigation of loyalty, reputation, and character. No previous experience is required. Qualified applicants are being sought for the positions of clerk, fingerprint clerk, typist, and stenographer.

The entrance salary for a clerk is \$4,360 (GS-2) per year, with a raise in 90 days to \$4,917 (GS-3) per year, if their work is found satisfactory. Only a twenty word spelling test is required for clerk applicants.

Applicants for the clerk position are considered for the fingerprint clerk position which starts at \$4,917 (GS-3) per year. Those individuals found acceptable for the fingerprint clerk position and who progress satisfactorily in such position are considered for promotion to \$5,522 (GS-4) per year after six months and to \$6,176 (GS-5) per year after one year in fingerprint work and to \$6,882 (GS-6) per year one year later. This means it is possible for a fingerprint clerk who develops satisfactorily to reach a salary of \$6,882 per year after only two years of service.

A typist enters on duty at a salary of \$4,917 (GS-3) per year, and applicants for this position must be able to pass a ten minute typing test of 45 words per minute and a twenty word spelling test.

A stenographer is paid a beginning salary of \$5,522 (GS-4) per year, any applicants for this position must pass a three minute dictation test given at the rate of eighty words per minute; pass a ten minute typing test at the rate of 45 words per minute; pass a twenty word spelling test; and successfully pass a twenty question vocabulary examination.

Many young men and women continue their college education on a part-time basis in the Washington, D.C. area while working at these full-time jobs for the FBI. Young men who obtain a four year college

degree from an accredited college and who have been employed in a clerical capacity with the FBI for one year and meet the other requirements, are considered for the Special Agent position at a starting salary of \$10,252 (GS-10) per year.

The FBI provides counseling services to its new employees to assist them with housing, transportation, and other needs. If close friends or young married couples apply at the same time and are found acceptable, every effort is made to afford them appointments at the same time.

The FBI does not come under Civil Service in that the FBI has its own application form, tests, investigates and hires its own employees rather than drawing them from a Civil Service list or register.

Completed application, the interested applicant will be contacted promptly and arrangements made for personal interview and appropriate tests at a time and place convenient to the applicant.

Any individual interested in becoming a part of this highly respected organization of the Federal Government may obtain an application and additional information by writing or calling the Dallas FBI Office at the address and telephone number mentioned above. The many benefits of working for the FBI, such as annual leave, sick leave, health and life insurance and retirement benefits should be thoroughly considered in choosing a career.

—000—

FB CONVENTION

Completed applications should be sent to the Special Agent in Charge, FBI, 200 Mercantile Continental Building, Dallas, Texas 75201, telephone 741-1851, as soon as possible, as processing of such applications can commence as much as six months prior to an individual's availability. Upon receipt of a com-

Some 2,000 persons, including more than 800 voting delegates from 203 organized county Farm Bureaus, are expected to attend the 38th annual convention of the Texas Farm Bureau in San Antonio November 16-19, according to Sidney Dean of Victoria, TFB president.

—000—

AUSTIN — The Submarine Veterans of World War II will hold their 1970 State Convention in Bandera, Texas on May 29, 30 and 31. The veterans meet annually amid gala entertainment to visit, tell stories, and honor those of their ranks who did not return.

Having only one membership requirement — that you be a WWII submarine veteran — the organization is strictly a pleasure group which has no axe to grind, no political goals, no civic works, and no money raising — except a scholarship for children of sub vets.

Harold White, Vice Commander of the group, points out, "We are trying to contact all WWII sub vets — crewman and relief men. I would like anyone having knowledge of any of these people to contact me: Harold White, Rt. 1 - Box 105, Bandera, Texas 78003."

In looking for a record turn-out in 1970, White says, "We hope all the old pig boat boys will come and meet their old shipmates and have some real fun."

THIS WEEK IN CONGRESS

By Cong. Jim Collins

By a vote of 65-16 the Senate has overwhelmingly acted on behalf of the American sportsman and hunter by exempting rifle and shotgun ammunition from the record-keeping requirements of the 1968 Gun Control Act.

The recently passed legislation is similar to a bill I introduced on February 18, 1969. Due to opposition within the House Judiciary

Committee, my bill has not come before the House. The Senate has taken the lead to remove the penalizing restrictions of the 1968 Gun Control Act. It is now time for the House to act favorably on my bill. However, my bill goes one step farther than the recently passed Senate legislation.

My bill will exempt purchasers of .22-calibre rimfire ammunition from the record-keeping requirements. In a compromise move

the Senate failed to lift the restriction on this type of ammunition.

.22-calibre rimfire ammunition is the most commonly used. However, sportsmen and hunters will still be required to give the dealer their names, ages, addresses, drivers' license numbers and other information when they purchase .22-calibre rimfire ammunition. This ban must be lifted.

Sportsmen and hunters do not commit criminal acts of violence.

The 1968 Gun Control Act places cumbersome burdens on the law-abiding citizen but does little to crackdown on the criminals and their illegal, violent activity. Our priorities must be placed on capturing and prosecution of the criminal, not on penalizing the sportsman.

FOREIGN AID

During this inflationary period the American position on foreign aid give-away programs must be closely scrutinized and analyzed. Can the U. S. survive indefinitely as a strong nation if we continue dissipating our resources and giving away our wealth to nations all over the world?

Since January 1, 1969 new budget requests for additional foreign aid

have totaled \$10,528 billion.

There is a \$18,708 billion in unexpended balances which Congress has appropriated. So far it has not yet been spent. Yet now there are requests for an additional \$10 billion Congressional appropriation. If all requests are approved by Congress the total funds available new and from prior years, will amount to \$29,236 billion.

DON'T TRY TO BE A MEDICINE MAN

People occasionally ask me if they should alter their diets for fear of cholesterol.

I take it they are being influenced by publicity they've seen that suggests fats in the diet, particularly those containing cholesterol, may be a cause of heart disease.

Well, they may be one cause of some heart disease. There's a good deal of evidence that suggests this. But the evidence is far from conclusive. There are other factors, too, that are implicated in heart diseases. There is no reason to panic and we need some fats in our diet.

Cholesterol and Blood

The whole scientific controversy swirling around cholesterol concerns whether too much of it in your blood can in fact cause a heart attack, or set up conditions that in turn make a heart attack more likely. While a lot of evidence points that way, the fact remains there are people with high blood cholesterol levels who never have a heart attack. And there are people with low blood cholesterol levels who do. The body makes its own cholesterol. A proper level of cholesterol in the blood is normal.

The medical profession is not in full agreement about cholesterol. Meantime, we do know there are very good reasons for not tampering needlessly with the basic American diet that has rendered so many health benefits to our population. Also, we know heart disease probably has multiple causes. It is generally agreed that lack of exercise, heredity, smoking, obesity and high blood pressure are involved as much or more than diet. So are dietary factors other than fats, including

starches and sugars.

You can't do much about heredity since it isn't given to us to choose our parents. But if there's a history of heart disease in your family, you should take this into consideration. You can follow medical advice about how to live.

What to Do

You can do something about exercise. So can you, if you have enough will power, do something about smoking. High blood pressure and obesity? You should see your doctor about these, unless your overweight is not that serious. One can lose some excess weight by simply eating less of everything.

But don't tamper with your diet in terms of trying to affect delicate changes in the amounts and kinds of fats you eat. You've heard of animal fats and vegetable fats—also polyunsaturated, monounsaturated, and saturated fatty acids? See your doctor about these. If he thinks your risk of a heart attack is such that your diet should be modified, he'll say so. And he will know how to do it, taking into account all sorts of other things he knows about your general health or special problems you may have.

Guidance Is Important

Besides, without guidance you would probably fail to affect any significant change in your blood cholesterol level. This is the opinion of authorities who are experienced in such things. And also remember, as we said earlier, no one really knows the exact role of cholesterol in your blood in relation to your heart. Your doctor is the man to see about these things. Don't attempt to be your own medical man, or your neighbor's.

FOOTBALL SEASON AT ASTRODOME

Houston's Astrodome will be the site of 21 football games during the 1969 football season — the most football activity ever slated for the Astrodome.

The Houston Oilers will play 11 times, including four pre-season games, the University of Houston will play five games, negro college games will total three, and then the two post season games will be the Astro-Bluebonnet Bowl game on New Year's Eve and the AFL All-Star game on January 17.

Thanksgiving Day, November 27, will feature a football day-night doubleheader with the Oilers meeting the San Diego Chargers at 3:00 p.m. and Texas Southern University battling Prairie View A & M at 8:15 p.m.

The complete Astrodome schedule is as follows:

Oct. 25; 7:30 p.m. - University of Houston vs. Mississippi.

Oct. 26; 3:00 p.m.; Houston Oilers vs. Denver Broncos.

Nov. 1; 7:30 p.m. - University of Houston vs. Miami (Florida).

Nov. 9; 3:00 p.m. Houston Oilers vs. Cincinnati Bengals.

Nov. 15; 8:00 p.m. - Texas Southern University vs. Grambling College.

Nov. 22; 7:30 p.m. - University of Houston vs. Wyoming.

Nov. 27; 3:00 p.m. - Houston Oilers vs. San Diego Chargers.

Nov. 27; 8:15 p.m. - Texas Southern University vs. Prairie View A & M.

Nov. 29; 7:30 p.m. - University of Houston vs. Florida State.

Dec. 6; 1:00 p.m. - Houston Oilers vs. New York Jets.

Dec. 14; 3:00 p.m. - Houston Oilers vs. Boston Patriots.

Dec. 31; 8:00 p.m. - Astro-Bluebonnet Bowl game.

Jan. 17; 2:00 p.m. - American Football League All-Star Game.

TEXAS CROP REPORT — Yield prospects for most major crops continue to fall short of levels attained last year. The Texas Crop and Livestock Reporting Service says production of cotton, sorghum, rice, hay, sweet potatoes and peanuts is expected to be lower and sugar beets, corn, soybeans and Irish potatoes to be higher than last year. Lack of rainfall during the growing season in east, central and south Texas and lower harvested acres, notably for rice and peanuts, were cited as major factors in the decreased production.

Attitudes & Platitudes

Jerry Marcus

52,200 were killed and 4,200,000 were injured in motor vehicle accidents in 1967.

PARDON, MY ERROR!

THE CORNERSTONE

OF YOUR COTTON PROGRAM

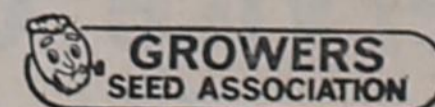

a special message for the cotton producer who wants to make more money

Are we exaggerating? Giving too much credit to the least cost item in your entire cotton production program? University researchers don't think so. Their studies show that quality of planting seed definitely affects net profit; that most "farmer saved" seed is decidedly inferior to pure seedstock, by as much as 116 pounds of lint an acre in some cases. Think about it. You can do two things to make more money: improve your product and lower production costs. The only common link between the two is quality seed.

There is no excuse for planting poor quality seed when you can get both guaranteed quality seed and supply in one economical package. You get both through SEED BANK, the

unique service provided by your own cooperative, Growers Seed Association. Growers has enough top quality, proven and tested seed to plant hundreds of thousands of cotton acres. Decide on the variety you want, apply at your local coop gin or elevator, receive your bank certificate and forget about it. Your seed will be ready next spring. Growers guarantees it in writing. Seed can also be custom treated.

But sign up now to be assured of the variety you want and the amount you need. Seed are sold first come, first serve, and the early freeze has created an unusually strong demand for planting seed. See your local coop for top quality JOHNNY COTTONSEED brand seed.

BE CAREFUL OF 1969 CAR PURCHASES

AUSTIN — Texas automobile buyers are urged to be particularly careful during the next few months to avoid purchasing 1969 model new cars which were severely damaged by salt water submergence during the frightful ravages of hurricane Camille in the states of Mississippi and its neighboring states last month, according to H. C. Pittman, Executive Vice President of the Texas Automobile Dealers Association.

"Many water-damaged cars have been salvaged from lots in Mississippi, Louisiana, Alabama and other Gulf Coast states, cleaned so the damage is not noticeable, sold at auction and now are turning up on Texas lots for sale to unwary Texas automobile customers," Pittman said. "The first of these so-called 'bargain' autos have begun appearing within the last two weeks in South and East Texas."

Engine parts and underbodies have been corroded and warranties will no longer be valid with manufacturers, Pittman stated. "This same sort of fraud on the car-buying public occurs following almost every hurricane in the Gulf Coast area," Pittman said. In Texas, there is no law requiring that the vehicle titles be marked with evidence that the cars have been damaged by immersion, and the TADA Executive Vice President issued extreme caution to car buyers to check the manufacturer's certificate of bill of sale to determine origin of the vehicles. Pittman said all makes of cars are involved and strongly urged buyers to double check on purchasing obviously underpriced 1969 new cars.

At least several hundred of these cars have been shipped into Texas to date and more are likely to find their way into the state unless the buying public is alert to the papers indicating origin of the car and the reputation of the dealer offering the car at the often under-market prices.

APPOINTED TO COMMITTEE

Lt. Governor Ben Barnes recently announced the appointment of five Senators to the Senate Interim Committee on the Texas Tort Claims Act.

Named by Barnes were Senators Oscar Mauzy of Dallas; H. J. (Doc) Blanchard of Lubbock; Charles Herring of Austin; A. R. (Babe) Schwartz of Galveston; and Jack Strong of Longview.

Authorized by Senate Resolution 1041, the study group will make a comprehensive study in to the effects of the Texas Tort Claims Act. The Committee's recommendations will be presented to members of the 82nd Legislature meeting in January, 1971.

RETURN FROM TRIP

Mr. and Mrs. Abb Russell and Mr. and Mrs. R. C. (Jack) Wright of San Diego, California returned to Ropes Friday after a weeks visit with relatives.

They visited in Colorado City with Mr. and Mrs. P. L. Byrd, and at Buchanan Dam with Mr. and Mrs. Edward Russell. Also present at the Russell home were Mr. and Mrs. Barney Russell of Estelene. Next they visited in Hamilton with Mr. and Mrs. Clarence Summerfield and girls, D'Linda and D'Andra, and in Moran with Mr. and Mrs. Omar Schooler and Mr. and Mrs. Ezra Weir. They also enjoyed a trip to Possum Kingdom while gone.

EARLY DESTRUCTION OF COTTON STALKS

The early destruction of cotton stalks as soon as possible after harvesting has been completed is strongly recommended by John Thomas, Extension entomologist. After the stalks have been shredded by a flailtype shredder, they should immediately be plowed under to a depth of at least six inches. Thomas says the practice will aid materially in controlling boll weevils and pink bollworms next year by depriving them of a major source of food. Area wide programs are most effective, he says.

IN LUBBOCK MONDAY

Mr. and Mrs. W. E. Walling were in Lubbock Monday visiting with her sister, Mrs. Bob Abbott, who is ill.

IN ROPES

Mrs. J. C. Whitfield of Lubbock visited Saturday with her mother, Mrs. Troy Morris.

ABNEYS HAVE VISITORS

Visitors last week in the home of Mr. and Mrs. E. J. Abney were his cousins, Mr. and Mrs. Clarence Ritchey of Chicago, Illinois.

DAY OF PRAYER

The Women's Society of Christian Service conducted their annual program and Call to Prayer last Monday, October 27, in the Sanctuary of the First United Methodist Church. Mrs. Berrilyn Whitehead sang a solo and Mrs. Joyce Shannon and Mrs. Elaine Odom sang a duet. The membership of the WSCS participated in scripture and thoughts read from their study guide and the program was directed by Mrs. Anna Green. The ladies enjoyed a covered dish dinner following the meeting.

The topics of some of the readings were the value of the woman in the Spiritual life and the life each person can live for Christ. The missionary secretary reported on the needs of the mission work in the United States, a local example of the Community Center in Lubbock was one such project of work the ladies took an offering for. There were eleven membes present and the work and study gave them all a spiritual uplift.

YOUTH SERVICE A GREAT SUCCESS

The Youth of the United Methodist Church conducted the worship service on Sunday, October 26th and led the congregation in a new form of worship which shows that the life of the youth is Christ Centered. There appeared on the program three "A" team football players, two "B" team players, one cheerleader, three band members and one Homecoming Queen candidate. This shows that a Christian Young

person is not a stay at home Bible reading sissy. They are vibrant young people living a life for Christ in deep involvement in the life that Christ gave them. John McCollister, a Tech freshman, brought the sermon on "Living a Life for Christ."

JUNIOR HIGH MYF PARTY

The Junior High MYF met Saturday night at the church and then went to Lubbock bowling. The youth activities of the church are much more than just coming to meetings. They live a life of fun and learn that Christ is in the world as well as a character from the pages of the Bible.

SENIOR HIGH YOUTH

The Senior High Youth experienced a debate on the "Value of Censorship" Wednesday night. They are very active in the search for a better understanding of the place for Christianity in a world made up of men.

METHODIST MEN AT SPADE

Members of the United Methodist Men traveled to Spade Wednesday night to see a program on the "Lay Witness Mission". Spade United Methodist Church recently experienced a Lay Witness Mission and the Ropes Church is planning one in the Spring. The Mission is designed to show that the laity of the church have a very vital position and work to do.

'SELF-MEDICATION' CAN BE DANGEROUS

If you're one of the persons who has a medicine closet jammed with leftover pills and capsules from previous illnesses, you may find yourself attempting self-medication, says the Texas State Department of Health.

"Self-medication" means the administration of drugs to yourself or your family without the advice of a physician. You may obtain these drug items at a pharmacy, or they may be leftovers from a previous treatment. In either instance, they may be dangerous.

When you use a left-over prescription, you may be using the wrong drug for the illness you are treating. It could make you worse. Borrowing drugs from a friend because they "look like" those given you by a physician also can be dangerous since many pills and capsules look alike. Even if you get the correct drug, the strength of the tablet may be different from that which you need.

Changing tablets from one container to another for storage can lead you to take the wrong drug. The result could be a disaster.

One reason for indulging in self-medication is that you have a stock of drugs in your home. Most are built up by failure to complete a course of medication on a doctor's prescription. The presence of a large stock of assorted drugs in your home is a hazard. In addition to the temptation for self-medication, there's the possibility that a child — your own or a visitor — may spot them and think they are "pretty colored candies." Children have a habit of getting into things

they shouldn't. Discarding unused drugs is good medicine.

Specific drugs are used to treat specific diseases. Even in a particular group of similar drugs, one of these drugs may be more effective against any particular disease. Your doctor is the best judge of the particular drug.

Special care should be taken with antibiotics. You should never administer them to yourself and you should always take them exactly in accordance with the instructions of your physician. If you have any antibiotics left over after a course of treatment, destroy them since they have only a limited period of effectiveness.

ALLENS HAVE VISITORS

Recent visitors in the home of Mr. and Mrs. Carl Allen were Mr. and Mrs. Glenn Pearcy and family of Hobbs, New Mexico; Joy Allen of Denton; and Mr. and Mrs. J. T. Allen and family of Ropes.

VISITS HERE FROM AMARILLO

Mrs. Tom Boles of Amarillo was here over the weekend visiting in the home of her parents, Mr. and Mrs. Robert Mayfield. She also attended the homecoming activities of Ropes High School.

CARD OF THANKS

Many thanks for the cards, visits and prayers I received during my stay in the hospital and since I have returned home. May the Lord bless each of you for your concern.

Mrs. Ray Martin and family

Overseas Mailing Dates

Christmas parcels mailed to Service men overseas should be mailed during the following dates:

1. SURFACE TRANSPORTATION — October 13 to November 8.
2. SAM MAIL (Space available parcel airlift) — October 20 to November 22. This mail is not to exceed five pounds or sixty inches in length and girth combined.
3. PAL MAIL — October 27 to November 29. This mail is over five pounds but not to exceed thirty pounds and sixty inches in length and girth combined.
4. AIRMAIL — December 1 to December 13.

(1) PACKAGING:
All parcels should be securely packed in boxes of wood, metal, solid fiberboard or strong double faced corrugated fiberboard. The fiberboard boxes should be securely wrapped in heavy paper which materially strengthens the package. Each box should be well tied with strong cord. Use sufficient packing material to prevent any rattling or

loosening of articles within the package. A slip showing the list of contents and name and address of sender and addressee should be enclosed in the parcels. Please check at the Post Office in regard to Customs Declaration tags before bringing in your parcels for mailing.

(2) PROHIBITED ARTICLES:
In addition to the articles normally prohibited in the mails, matches of all kinds and lighter fluid may NOT be mailed overseas. Cigarettes, other tobacco products, coffee and various other items are prohibited in parcels addressed to some military Post Offices. A check list is given in Part 127 of the Postal Manual, and we will be happy to check for you before you fix your parcel.

(3) ADDRESSING:
Addresses must be legible and complete, and should be prepared by typewriter or pen and ink. Be sure your A.P.O. and F.P.O. numbers are correct and shown on ALL mail.
