## Ropes Is Downed By Crosbyton 55-6

By: Kathy Lemon  
The Ropes Eagles suffered another defeat Friday night when the Crosbyton Chiefs came out on the top end of the 55-6 score.

After the Chiefs tallied 49 points in the first two quarters, the Eagles made their lone score when Clyde Parker ran the ball over the goal line late in the second quarter.

The Eagles made a great defensive comeback after half and let the Chiefs have only one touchdown. The game ended 55-6 with no scoring in the last quarter.

This week is open date so there will be no ballgame. October 20 is homecoming and Ropes meets O'Donnell at 7:30 for the first district game of the year. Be sure to be there!

The Homecoming Activities will be at 7:00 p.m. prior to the game.

## Gary Means Will Go To Dallas For District

Gary Means, son of Mr. and Mrs. Kenneth Means won the Local and Zone Punt, Pass and Kick competition in Levelland and Lubbock.

The Local Competition was held in Levelland on September 30 in which Gary completed a total score of 240 points.

The Zone competition was held in Lubbock on Saturday, October 7 at the Tech practice field. Gary won with a score of 279.

Gary will now go to Dallas for District competition on October 14.

The boys are given a starting line that they cannot go over. From the starting line is an accuracy is measured. The number of feet from the accuracy line is then taken off the number of feet in distance and the total is the score. The score for punt, pass and kick are then added for the total.

## Farmers Urged To Mail GSPA Membership Dues

Coy Grant, Hockley County Director of the Grain Sorghum Producers Association, appealed this week to each grain sorghum farmer to mail his 1972-73 GSPA membership dues promptly. The new fiscal year began October 1, 1972. Each farmer on the GSPA mailing list will receive his membership application through the mail.

The Grain Sorghum Producers Association is the organization that has established a remarkable success story while working for the grain sorghum farmers. GSPA's main goal is to make grain sorghum a more profitable crop to produce. Its work in this direction led to the 1970 Congressional action that tied grain sorghum government price supports to corn according to nutritional value. This has given grain sorghum farmers an increase in the loan rate of 18¢ per hundredweight since 1970 and also an increase in the support payment.

Working to increase the demand for grain sorghum around the world, the Grain Sorghum Producers Association has been a leader in developing new markets for U.S. feed grain and in particular, for grain sorghum. By inviting teams of key feed manufacturers, buyers and specialists from foreign countries to come and visit the grain sorghum production area, GSPA has helped to make grain sorghum

## 1,000 Expected At Mahon 'Appreciation Day' Barbeque

County Farm Bureau in Rep. George Mahon's 19th Congressional District will honor the veteran legislator with a "Congressman George Mahon Appreciation Day" October 24 at the Fair Park Coliseum here, according to H. L. (Hub) King of Brownfield, Texas Farm Bureau State director, District 2.

George Mahon

As many as 1,000 friends of the Lubbock Congressman are expected to attend the barbecue dinner which will get under way at 5:30 p.m. that day, King said. A bronze bust of Mahon will be unveiled at the dinner and presented to the Congressman and his family. Arrangements have been made to have the bust displayed permanently at the Texas Tech University Museum.

County Farm Bureaus in the 19th District began raising funds for the bust about two years ago. The sculptor is Mrs. Joe (Juandell) Wade, Lubbock.

"Although Farm Bureau is hosting this affair, we are issuing an invitation for all Congressman Mahon's friends both in and out of agriculture to come out and help pay tribute to this great American," King said.

Tickets for the barbecue are available at county Farm Bureau offices he said. The cost per ticket is \$5, he said.

The program for the event will be simple and short, King explained. A representative from each of the counties presenting the bust will give a brief statement touching on the life or legislative career of the honoree.

Others who will make brief statements include C. H. De Vaney, Washington, D. C., assistant legislative director, American Farm Bureau Federation; Warren Newberry, Waco, Texas Farm Bureau executive director; and Bill Reid, Lamesa, TFB District 6 director. De Vaney, former president of the Texas Farm Bureau, formerly farmed at Coahoma in Howard County.

King, who will act as master of ceremonies, will give a special tribute prior to the unveiling of the bust.

Other details of the program, such as entertainment, etc., will be announced later, he said.

Mahon's constituents from the 17 counties comprising the present 19th District are being invited to the affair, as well as those from the seven new counties which will come into the district in 1973.

The 17 counties include: Andrews, Borden, Cochran, Crosby, Dawson, Floyd, Gaines, Garza, Hockley, Lynn, Lubbock, Martin, Midland, Motley, Scurry, Terry and Yoakum.

## Looking at WASHINGTON

### The Air War— Washington— London— IATA—

Washington, D. C.—One of the great undercover transportational struggles of the age is that raging for the past year between scheduled airlines and their monopolistic price-fixing organization, IATA, and the charter flying companies.

London has now lined up solidly with the charter operators and Prime Minister Edward Heath bluntly told IATA delegates as much in a speech at their annual gathering in London at the end of September. Washington also has allowed the charter operators to live, traditionally, but has been somewhat less sympathetic to them in the Nixon years.

In fact, the last year has been grim for the charters and both on the Pacific and Atlantic runs U.S.-based charter companies have been forced out of business. This is because the airlines have cut fares in a competitive effort and because the charters face various handicaps as lone-wolf operators.

Some of the major airlines have their own charter companies, also, and they begin with an advantage over independents because the airlines use their ticket offices and personnel to recruit charter flights.

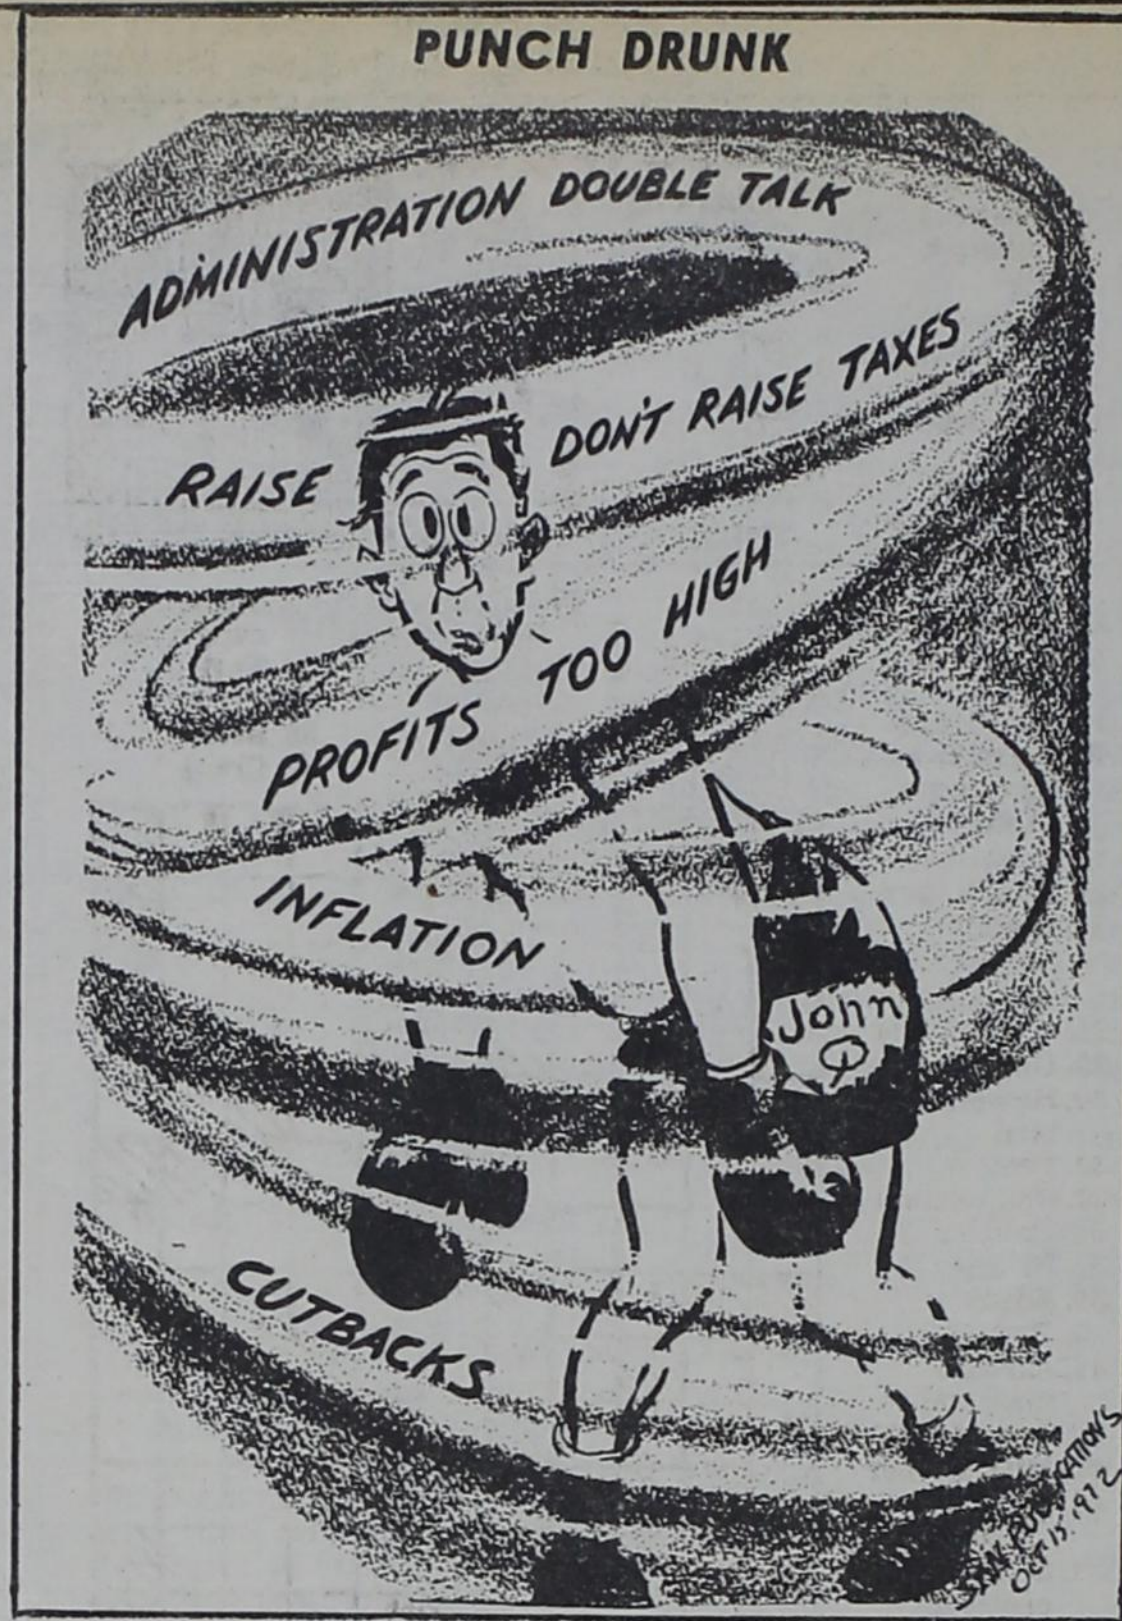

The two original U.S. international lines, Pan-Am and TWA, have keenly felt charter competition, but TWA, unlike Pan Am, has managed to continue to make a profit. (National Airlines has entered the transatlantic

derby on the Atlantic, as have several domestic U.S. lines, such as Delta and United, flying southward and across the Pacific.) Had Pan-Am and TWA not been locked into the monopolistic, high fixed fare IATA system, they would long ago have lowered fares and retained some of the volume they have lost.

But unlike Pan Am and TWA, most members of IATA are government owned airlines, and these lines often prefer to stifle competition through governmental action assuring them a monopoly. This is why, even though wages are lower in Europe, airfares are very much higher, mile for mile, than in America.

London's strong support of the charters could prompt the CAB and the Nixon Administration generally to take a stronger stand in support of more air competition. But Pan Am in wailing about charter competition as it loses tens of millions annually, even as the charters have begun to fail because of lowered fares and the dilemma is a tough one for the Administration.

The truth is, probably, that some airlines which had adjusted their operational expenses to the old fixed, high fare system of IATA or expanded too rapidly must make drastic economies to get back to reality. IATA cartel practices created the unrealistic atmosphere.

## State Capital NEWS

By: Bill Boykin

BOYKIN

Ten members of a 12-member jury can decide civil cases under new rules of civil litigation procedure adapted last week by the State Supreme Court.

Unanimous verdicts are now required of juries, and the change is regarded as one of the most far-reaching in many years.

An effort in the last Legislature to authorize 10-2 jury verdicts fell under weight of defense attorney opposition.

Retiring Supreme Court Chief Justice Robert W. Calvert called the revised rules "the greatest reform measure during my term (22 years) on the court."

Rules deal with appeal motions, depositions, evidence discovery motions, and other matters.

Calvert said changes would do away with some elements of the adversary system and open up evidence. Rules will take effect February 1, 1973.

Unanimous verdicts still will be required in criminal cases, but in civil litigation 10 or more jurors can decide a case. Five-to-one verdicts will be permitted in municipal, justice of the peace and county courts at law where six-man juries now decide cases.

Some attorneys said the key rules change would eliminate hung juries in civil cases, speed up trials and ease the backlog of civil cases jamming metropolitan courts. Others said the changes in discovery of evidence will reduce the number of actual trials. The latter change will allow all parties to a case to see what both sides have as evidence.

Another change would allow the State Supreme Court to reverse or modify a lower court finding or enter a new decision without awaiting formal arguments of contesting parties.

Gov. Preston Smith continued to open the special session call to new subject matter before any final action was taken on competitive insurance rates or gubernatorial fiscal powers.

Last Tuesday he dropped 16 more bill proposals on lawmakers for attention in a session due to wind up October 17. Among them were the following:

An \$8 million appropriation for a Fort Worth school for the mentally retarded, changing hunting and fishing license fees, allowing bond financing of voting machines in counties over one million population, allowing subdivisions to issue bonds for air control facilities and lease the facilities to private interests, amending retirement statutes to allow credit for certain military, state employment and judicial services, allowing the State Board of Control to make purchases for political subdivisions and defining "child" under juvenile court procedures as one over 10 and under 17 years of age.

Key legislators began to question whether the variety of subjects permitted the focus of legislative and public attention on insurance reform which Smith **SUPERPORT COMING?**--Texas may be getting a new offloading terminal for supertankers whether the legislature approves a state commission to plan and construct one or not.

Oil company spokesmen told a joint House-Senate committee they propose to have their own facility (known as "seadock") operative by 1975 or 1976 and feel there is no need for a state expenditure.

A bill submitted by Governor Smith to create a state authority to formulate plans for the offshore terminal won support of many witnesses who claimed a vital segment of the Texas economy depends on a superport's being constructed along the coast.

A governor's office report said marine transportation and deep water ports are essential to maintaining the state's maritime trade.

**VOTER REGISTRATION HIGH**--Voter registration for the November 7 general election ended at midnight Saturday, with indications the total number of Texans eligible may reach a record 4.8 million.

At that, however, the total percentage of eligible voting age Texans may be less than 1968 and 1970.

There are now about 7.5 million Texans of voting age. The expected 4.5 million to 4.8 million sign-up would represent a 60 per cent showing. A 4 million registration in 1968 and a 4.1 million figure in 1970 amount to about 64 per cent of the eligible population.

An estimated 660,000 voters have been added to rolls since

## Editorials

### Big Ten

The best argument against the continuing effort (by the French Government) to make French the international language, rather than English, is to be found in the latest figures on the number of people speaking the various languages of the world.

French isn't among the top ten, which are Mandarin Chinese (605 millions), English (333), Great Russian (206), Spanish (192), Hindu (192), German (120), Arabic (109), Bengali (108), Portuguese (108) and Japanese (105).

Mrs. Jacqueline Marx, of Sao Paulo, Brazil, a language expert citing these totals, says English is the logical choice. She also suggests some countries might profitably give up their native tongues, spoken by only a few million people, so that their citizens could then take advantage of the great literature, science, fiction and other written knowledge available in English, for example, much of which will never be available in many of the little languages, and international culture, communication and economic advantages.

the voting age was lowered. There are an estimated 1.5 million now eligible to vote who were not eligible in the 1968 presidential election.

**COURTS SPEAK**--Texas Supreme Court handed down more than 100 rulings as it opened its new term last week. Among them were the following:

\*Upholding a Fort Worth district court injunction prohibiting students at Tarrant County Junior College from disruptive conduct.

\*Affirming a Laredo woman's claim to damages because a J. C. Penney store detective took her to a police station on unfounded suspicion.

\*Agreed to adding \$50 to a father's child support payment until he catches up with a \$2,000 delinquency.

\*Held Southwestern Bell Telephone Company must pay gross receipts taxes on income from electric companies and cable TV pole rental.

\*Concluded an El Paso photo supply store must pay for four million labels even though it intended to order only 4,000.

**APPOINTMENTS**--Governor Smith named Associate Justice Joe R. Greenhill chief justice of the State Supreme Court on retirement October 4 of Judge Robert W. Calvert, and selected Hawthorne Phillips of Austin to fill Greenhill's place.

R. J. Balch of Seymour was appointed district judge of the 50th district.

Robert J. Glasgow of Stephenville was named 29th district attorney.

John B. Latchford is new field operations director of Texas Water Quality Board.

Dr. Joseph C. Schooler was elevated to director of Texas Research Institute of Mental Sciences, Houston.

**AG OPINIONS**--Atty. Gen. Crawford Martin told the State Highway Commission it can go ahead with construction of its controversial new state headquarters building on a site near the Capitol.

In other new opinions, Martin held:

\*The amount a state agency can contribute for insurance for employees is limited to \$12.50 multiplied by the number of full-time employees on its payroll.

\*The comptroller is authorized to spend money out of funds for the payment of salaries of positions in state government which have been exempted from the position classification plan by executive order of the governor or direction of the legislature.

## Leading The Way

St. Petersburg, Florida, is leading the way in the fight on tobacco smoke and the discomfort it causes millions. The city has passed an ordinance limiting the places where smokers are allowed to suck burning tobacco.

If puffers want to smoke in department stores they must now go to designated areas. On city buses, on elevators, in dance halls and theaters, addicts are no longer allowed to force everyone to breathe their stale smoke.

More cities--and states--should follow this example. Many, such as those who have had Hong Kong flu, suffer serious discomfort when forced to breathe cigarette; pipe or cigar smoke.

European trains have long had smoking and non-smoking compartments and airlines are at last beginning to act to protect non-smokers from this discomfort. The worst abuse comes in small, enclosed areas, such as buses and aircraft, where the air is quickly contaminated. Any non-smoker who has ever survived seven or eight hours on an overseas flight, disembarking with red eyes and other allergic reactions, appreciates this late hope of deliverance.

## American Men & Sex

European women who met Americans romantically during World War II and the international set has long known it but Dr. Joseph R. Trainer of the University of Oregon has put it bluntly and publicly: U.S. men are lousy lovers.

They eat too much, sit in front of TV too much, often drink too much, according to the physiology professor. The result is that American males are too often "overweight, over-tobaccoed, over alcoholized and undersexed."

Many Americans also began with something of a handicap in that the nation's Puritan heritage tended for several generations to inhibit sex, and repressions, often abnormal, affected some.

Dr. Trainer says poor health and habits lead to poor sex performance and practically all counselors, psychologists, clergymen, etc., agree that sexual harmony is important (not all important) in marriage. Now Dr. Trainer reports that divorce often results because of sexual maladjustment or insufficiency--and points the finger at U.S. males.

While it takes two to establish good sexual relations, and while loud, aggressive, Lat or Puritan wives are plentiful on the American scene, the indictment of U.S. males is timely and should be heeded by those who fit the indictment. Self-improvement projects should, of course, be launched at home!

# TV COMMENTARY

FOR THOSE who have forgotten just how tough things were during depression years, "The Waltons" will jar loose painful memories. This family drama reminds one how scarce money was in the good old days. The show is seen on Saturdays.

CHILLING TALES are abundantly available for those who enjoy teasing their skin with goosebumps. To list some programs for the chillbump set: "Sixth Sense," "Night Gallery," "Ghost Story," and "Thriller." An occasional scream tickling movie is thrown in by networks for good measure.

AFTER 19 YEARS ON TV, Walt Disney studio begins another season. It is not a mere cliché that quality endures. At least, not in this case. The "World of Disney" is good entertainment.

# LOUISA'S LETTER

Dear Louisa,  
I have a two year old daughter and she has a habit of saying a bad word when anything goes wrong. When I say anything to her about it she says "Mommy, I just said ---." Do you think I should ignore her or what? My three year old got a word from a little girl friend and I told her I was not going to let her play with the little girl so she quit using it. But I have a problem with my two year old.

pay to make too much over words they use because such an action impresses it on the child's mind and she sees it as a way of getting more attention. The best thing to do in such a situation is to remain calm and say that you don't think that is a pretty word for a little girl to use. Then suggest some words and make a game of it. The next time she comes out with the old word--and she will--pay no attention to her.

J.- Kan.  
Answer:  
Little children pick up words they hear and have no idea of what they mean. But when they say something that causes a stir they get attention and that is what many children like. It doesn't

Spanking is not the answer to this problem but lots of patience and understanding will usually solve it, if given time.

electric heating estimate

More SPS customers switched to electric heat last year because they found out, through a free estimate, they could operate an electric heating system for little more than they were spending already. Do you think they made a wise decision? Ask any of them. They're our most convincing salesmen. And, ask us for an operating cost estimate. It's free. It's accurate. It's a real eye-opener.

## Ropes Racing Teams End Season At Plainview Speedway

By: Berrilyn Whitehead

The racing season ended with a bang for the Ropes racers and fans this year.

James Means, sponsored by Doc's Garage and Means Flying Service topped off the season by buying an old used junk car and winning the Demolition Derby at Plainview Speedway. James received top prize money and the largest trophy any of this gang has ever seen. James did real good in his regular racing throughout the year in car No. 44 and also won a trophy dash at Lubbock.

Sammy Means also purchased a car for the Demolition Derby but had the misfortune of running out of transmission fluid. Maurice Whitehead ended his season by winning a second and third in his No. 88 sponsored by Doc's Garage.

Maurice ran a street stocker this year and gave an exciting race each week with the usual good and bad luck.

John Bain driving No. 47 sponsored by M. R. Nickel Contractors had a very good year. John won a very good percentage of his races and a trophy dash. John's car was ruined before the season ended and changed to No. 14. John made a real fine show-

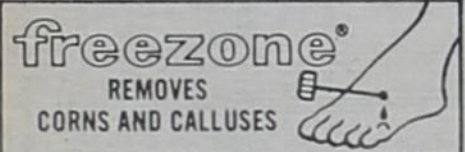

con't from page 1

The seven counties which will come into the district in 1973 are: Bailey, Castro, Deaf Smith, part of Ector, Hale, Lamb and Parmer.

"Rep. Mahon is the only person to have served as Congressman from the 19th District, having been elected in the early 'thirties when it was formed," King said. "We are grateful that this special occasion will give us an opportunity to show appreciation for the fine representation Congressman Mahon has given this district, as well as for his national leadership as chairman of the powerful House Appropriations Committee."

ing in a car he wasn't used to for the last of the season.

Mickey Smith driving No. 11 and sponsored by Cyanamid and Smith Auto also had a very good year. Mickey, like the other teams, had some very good weeks and some not so good.

Mickey had his car ready for this weekend's activities but broke an axle Sunday. No. 11 also raced in Grandell, Texas and finished the 100 lap race which was exciting for us all.

Mickey raced fast and hard through the year and also won in

a trophy dash.

Harrell Whitehead in No. 99, sponsored by Doc's Garage, Riney Riney's Texaco, Means Flying Service and KDAV Radio, ended the year with a 2nd, 3rd, 4th, and a trophy in the trophy dash. Harrell raced in Hobbs, Plainview and Lubbock and placed at every track and won a trophy dash in Lubbock.

No. 99's year was very good with some hard driving and good luck throughout the season.

Harrell also pulled his car to Crandell, Texas but was knock-

ed out in the hot laps.

## PLAINVIEW FARMER SAYS USDA MISLED COTTON FARMERS

Plainview farmer Frank Moore says cotton farmers were misled by the U.S. Department of Agriculture last spring when they were advised to plant more cotton. "The farmers followed recommendations of the USDA", in the spring of this year and increased their acres of cotton considerably. Now they are blessed with a bumper crop but cursed by low prices. And after this recommendation had been followed by farmers, the Nixon administration is doing nothing to relieve the disastrous price situation. "The price on some cotton has dropped to 12 cents per pound since the record crop was announced."

Moore is co-chairman of Rural Texans for McGovern-Shriver. He said, "I see where Red Woodson, Farm Bureau President, is trying to talk Secretary Butz into authorizing a price support program for cottonseed. Not only is the price for cotton very low this year, but also, the price on seed is way down. Texas farmers are only receiving 52.6 percent parity on their cotton seed. This is a particularly harsh blow because of the low price of fiber this year."

Moore said he though farmers would be less likely to listen to the USDA in the future in light of the bad advice given on cotton and because of the wheat scandal. "They will certainly not want to listen to anyone in the Nixon administration for advice on their farms," Moore concluded.

# DON'T TAKE RURAL TEXANS FOR A RIDE...

## ...AND DON'T TAKE US FOR GRANTED.

### HERE'S WHAT NIXON IS DOING TO RURAL AMERICA

**WHEAT SCANDAL** - Giant wheat exporters made huge profits at the expense of individual wheat farmers, many in Texas, on Soviet trade.

**TAXES** - Wall Street Journal says federal laws favor the corporation or investor who farms on the side for a tax write-off.

**FARM ISSUES** - Under Nixon, parity dropped the lowest since 1933. Nixon held up payments of nearly \$400 million for feed grains in 1970, forcing farmers to borrow at highest interest rates in history.

**CONGLOMERATE SCANDALS** - Big Business first, the public second - that's the Republican philosophy. Anti-trust suit against ITT dropped at the same time ITT pledged \$400,000 to finance Republican Convention.

Harry S. Truman said, 'The Republicans admire our government so much they want to buy it.'

Let's face it. The Republicans just haven't changed much since the days of our grandfathers. They still favor Big Business over the average working man and woman. And while they're taking us for a ride, they keep telling us what a 'dangerous radical' Senator McGovern is.

That's what they said about Harry S. Truman.

### HERE'S WHAT McGOVERN IS DOING FOR RURAL AMERICA

**HIS STANDING** - George McGovern has been elected time and again as a Democrat from a Republican farm state . . . because they know where he stands.

**TAXES** - His tax proposal would end the loopholes for tax-loss farming by giant corporations and the wealthy individuals who compete unfairly with family farmers. McGovern's proposal calls for the same tax on capital gains as on earnings.

**FARM ISSUES** - He sponsored and co-sponsored: Meat Import Limitation Law; Dairy Import Act; Wheat, Feed Grain, and Soybean Emergency Reserve Bill; Rural Development, Rural Job Development, and Rural Telephone Acts; Farm Credit Act; and other pieces of important legislation.

**HIS BELIEFS** - George McGovern knows that the answers to many of our most pressing problems in America today can be found by developing genuine opportunities for everyone in our small towns and rural areas throughout the country.

Let's not be taken for granted by the Nixon Republicans. Rural America has always fared best under a Democratic administration. If you want to stand up and do something good for rural America, the answer is to help put a Democrat in the White House. We need George McGovern . . . and George McGovern needs us.
