Foster's Weekly
Weather Bulletin

Washington, Mar. 8.—Every newspaper that publishes my work has exclusive right to publish within its assigned territory. But many other newspapers, within territory already assigned, have asked for permission to publish my forecasts. Being refused, some of them have tried to injure my work in order to hold their subscribers. Some have published that I am dead and my daughter doing this work; others that I never was anything but a woman. Then for years they said I was a St. Joseph, Mo., negro, giving his name; that negro did know more about the weather two or three days in advance than some white men do; but he was a short-range forecaster, and that is out of my line; the U. S. Weather Bureau people are the principal forecasters of that method. But I object to being dead and if they will let me live seven years longer I will agree to give the world, at the end of that time, free of cost, a perfected system of weather forecasting that will be worth billions of dollars. Local forecasts follow:

Sec. 5. Slaton and vicinity:—South of 39, between 90 and Rockies' crest; lowest temperatures near Mar. 9 and 17; highest near March 13; average near normal; most severe storms and most moisture near Mar. 10.

April will bring a change in evaporation. Since middle of April, 1922, at least two-thirds of the moisture for this continent has come from the Caribbean Sea north and northeast of Venezuela; next five or six months it will come from the Pacific Ocean. That means a material important change in crop-weather. First half of April weather will be bad for man and beast. It will be much like first half of February. But it will be good crop-weather. The change of evaporation for April will make so many crop-weather changes—some for better, some for bad—that I cannot cover them in a general weather letter. Then about the middle of October another change will occur. A very important change will also occur in 1924. I have not yet secured the date, but it will probably affect the whole continent east of Rockies' crest.

If you belch up a bitter tasting liquid, suffer from heartburn and sour stomach, you need the tonic properties of Herbine. It is a purifying and strengthening medicine for the stomach, liver and bowels. Price 60c. Sold by Slaton Drug Co.

NOTICE OF ELECTION
THE STATE OF TEXAS,
COUNTY OF LUBBOCK

Whereas, by virtue of power and authority vested in me by Article 2934 of Title 49 of Vernon Sayles' Revised Statutes of the State of Texas, I, H. C. Jones, Mayor of the city of Slaton, Texas, do hereby order that an election be held within the City of Slaton, Texas, at the City Hall of said City of Slaton, Texas, on the 3rd day of April, A. D. 1923, for the purpose of electing two commissioners of said city to serve for two years and until their successors shall have been duly elected and qualified, said election to be held in accordance with Chapter Two, Title Twenty-two of the laws of the state of Texas, of 1911, and amendments thereto, and the Constitution and laws of the State of Texas.

I hereby appoint A. M. Watson as manager of said election, and he shall select two judges and two clerks to assist him in holding the same.

The polls at said election shall be open on said day from eight o'clock a. m. to six o'clock p. m., with the privilege of a recess of one hour from twelve o'clock to one o'clock. Should the polls not be promptly opened for the reception of votes by eight o'clock a. m., the time thus lost shall be extended beyond the hour of six o'clock p. m., so as to secure the full period of nine hours for voting purposes.

Every person not disqualified by law who shall have attained the age of twenty-one years and is entitled to vote for members of the legislature of this state, and is duly registered, and shall have resided within the corporate limits of said city for six months next preceding the election, shall be allowed to vote.

The manner of holding said election shall be governed by the general laws of the state regulating general elections, except as otherwise provided by the statutes, above referred to.

There shall be an official ballot used at said election, and all voters shall write or print on their ballots the names of the candidates voted for for commissioners.

A copy of this shall be sufficient notice in said election, and thirty days notice of the time and place of holding said election shall be given by posting up three written or printed notices of the same at three public places in said city and by publishing such notice in a newspaper of general circulation published or at least one year previous to the date of this order in the City of Slaton, Texas.

Witness my official hand and seal of the City of Slaton, Texas, this 3rd day of March A. D. 1923.

(Seal) H. C. JONES,
Mayor of the City of Slaton.

Attest: W. B. Russell, Secretary.

MAN ACCUSED MARRYING TWO IN NINE DAYS' TIME

Married at Abilene on January 20, at Midland on January 29 and engaged to other girls in different cities, the matrimonial adventures of Robert E. Biddy have come to an end and he is now awaiting the action of the Midland County Grand Jury after a chase that led through Coleman, Brady, Abilene and other towns, finally ending with his arrest at Stamford.

A traveling salesman for road machinery and tractors, Biddy made his headquarters at Sweetwater. He is charged with marrying Miss Grace Anne Pettit of Abilene on January 20th and Miss Alice Haley, member of a prominent Midland family on January 29. He was issued a license at Eastland to marry a third, and was engaged to a Sweetwater girl during this period as well, it is charged.

At the request of Midland County authorities, Sheriff Yarbrough of Nolan County traced Biddy to Coleman and Brady and missed him by two minutes at Abilene and finally located him at Stamford. Yarbrough brought him to Sweetwater Friday night and turned him over to Midland authorities, who took him to that city to await the action of the grand jury there, which is now in session. Biddy is also said to have a wife in Indiana.

PASSING THE BUCK

The salaries paid by railroads are often exorbitant, and still the people have to pay them, in increased freight rates. The highest salary recorded is that of Julius Kruttschmidt, chairman of the board, Southern Pacific, \$100,000. Next highest is that of A. H. Smith, president New York Central, \$92,580; C. H. Markham, president of the Illinois Central, \$75,000; William Sproule, president Southern Pacific \$75,000; E. Pennington, president Minneapolis, St Paul and Sault St. Marie, \$75,000; and the others range from \$50,000 up.

WHY THE HAPPIEST MAN IN THE WORLD

A Georgia paper claims to have found the happiest man in the world. The man lives in north Georgia. He has six fiddles, ten children, thirteen hounds, a deaf and dumb wife and a moonshine still that has never been spotted by the enforcement officers. No doubt the Georgian is a happy man, says an exchange, but we believe we know a genus hobo who is getting more joy out of life than the Georgian. Our hero is a negro, about six feet high. He preaches in the summer time and shoots craps in the winter. He can wear an overcoat in August without discomfort, and a seer-sucker in January without feeling the cold. Anybody's shoes will fit him and his neighbors all raise chickens. He wields the razor so savagely that every negro in the community is afraid to kick one of his dogs, or smile at one of his wives.

Farmers take a warning
And listen to my rhyme
If you are going to have an auction sale
See Johnson on time.

For if you don't you surely know
That money you will lose
So take a minute right now
And read this as it goes.

Now there are many auctioneers
And some are pretty fair
But when it comes to getting the money
You will never find them there.

They will tell you what they can do
But nothing they have done
So what's the use of listening to
Any of those windy ones

They will tell you that they
Will cry your sale for 5 or 10 or so
But they will never tell you that
They put you \$200.00 in the hole.

So when you go to have a sale
Just think of what I said
And drop a card to me kind friend
And you will find that I am not dead.

**TO CLEAN UP HOTELS
AND ROOMING HOUSES**

One of the worst evils of today arises from the conduct of our hotels and rooming houses. Porters and bell-hops almost universally bootleg liquor. Texas is reeking with gambling and probably 75 per cent of it is conducted in hotels and rooming houses. Since the red-light districts were driven out much of their traffic has gone to the hotels and rooming houses.

Sheriff Henry Nix of Hunt County, vice president of the Texas Sheriff's Association, is responsible for the statement that 75 per cent of bootlegging, gambling and prostitution is carried on through hotels and rooming houses, and says if given the benefit of this bill the officers can clean up any county in the state.

No one need say that the managers do not know what is going on in their houses. They do. Federal officers say that many of the hotels are taking regular weekly supplies from bootleggers. On New Year's Eve many of the leading hotels of the state. High school girls were made drunk. Such conduct is common.

Judge Abney of Marshall has introduced House Bill No. 269, to correct these evils. Judge Abney is a sane, safe legislator, and would not advocate a bill unless it was sound legislation. He is one of the ablest lawyers in the House.

Senator P. A. Turner of Texarkana, has introduced into the Senate a bill with the same purpose in view as the Abney House Bill has.

A careful study of the two bills leads us to believe that the Senate bill is far more effective than the House bill. We suggest that the readers of the Home and State write their Senators and Representatives to support Senate bill in lieu of House bill.

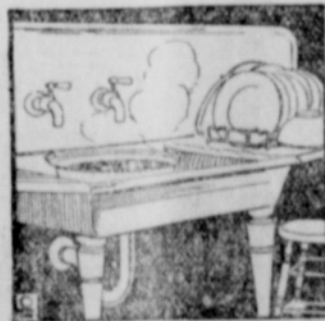

But hotel men are strongly organized at Austin and looking after legislation. They may be expected to ask the defeat of these bills. They will have the assistance of the gamblers of the state, and the influence of bootleggers will be on that side. And

RESOLUTIONS OF RESPECT

In memory of our departed sister, Mrs. S. H. Bain, who died March 2, 1923.

Again that unwelcome, yet relentless visitor, death, hath entered the portals of our lodge room and summoned a dear sister to the beautiful home beyond. Her zealous work in the interests of our beloved order, and her life, laden with gentleness and kind deeds, has won for her the plaudit of the Good Master, and will cause her name to be cherished in the affectionate memory of our lodge.

And Whereas, the all-wise Father hath called our beloved sister to the New Jerusalem, where "happily she hath heard the signal of her release on the bells of the Holy City, the chimes of eternal peace." And she having been a faithful and ardent worker in the teaching of friendship, love and truth, therefore be it

RESOLVED, That Slaton Rebekah Lodge, No. 46, in testimony of its loss, and to express its Rebekah love, drape its charter in mourning for thirty days, and that we tender to the family of our deceased sister our sincere condolence and that a copy of these resolutions be sent to the family.

"The House By the Side of the Road"

Let me live in a house by the side of the road
Where the race of men go by,
They are good; they are bad; they are weak,
they are strong,
Wise, foolish, so am I.

Then why should I sit in the scorner's seat,
Or hurl the cynic's ban?
Let me live in a house by the side of the road,
And be a friend to man.

—Although we haven't the talent to dress our thoughts in the fancy rhyming clothes that the author of the above lines employed, yet they express our sentiment exactly. Our ambition is to be your friend as well as your car's friend.

—Studebaker Cars and all working parts carried in stock.

—U. S. and Michelin Tires and Tubes.

—Cars washed, polished and greased in the right manner.

—McQuay Norris Piston Rings for all cars, trucks and tractors.

—Frankly we are in business to succeed financially, but we realize that the almighty dollar stacks up badly alongside such things as friendship and confidence, that's why we are going to give you good friendship service as well as business service.

—To serve you better, we will be open from five a. m. until twelve mid-night, except Sunday, we close from ten a. m. until twelve noon on each Sunday. This new service will begin Monday, March 12th, at which time we expect to have our new building finished and equipped.

—Do not leave your car in the street in sun or rain that you drive to your business in the morning, and do not leave it by the curb at the mercy of thieves when you attend the show. We are only across the street from the theatre, leave your car with us, forget it, and enjoy the evening. Everything will be there when you return for it. No charge, and we are glad to have been of service to you.

—We will also have a well equipped Ladies' Rest Room, that we want the ladies to take advantage of this comfortable place. Remember we have Slaton's Old Fashioned Hospitality.

DESIRING vs. RESOLVING

—There's quite a distinction to be made in these two terms.

—Many a man "wishes he had a million dollars" but not many wish it hard enough

TO BUCKLE DOWN TO IT AND MAKE IT.

—To be sure the majority of those who do resolve to make a million, work a lifetime and then fail to do it, but—

—If a man tries, SINCERELY tries, the chances are they will never have to "pass the hat" for him.

—If he sincerely tries to make good he uses all possible fair means. One of these is a practical, working relationship with A GOOD BANK.

—If you have money we want it; if you want money we have it.

THE 1923 COTTON CROP

The "Size" Vs. the "Price."

—If Texas had made one million more bales of cotton in 1922 it would have lowered the price perhaps five cents per pound, and if the entire South had increased its cotton crop in proportion the entire cotton crop would, in all probability, have brought approximately one hundred million dollars less than it did.

—Sifting it down to brass tacks it amounts to this; that if we had raised one million more bales we would have been one hundred million dollars poorer than we are.

—This is not saying "don't raise cotton," but it is a plea for more stock and poultry, for more feed and more "living at home."

JUBILEE SPECIAL KILLED FOUR PEOPLE AT SNYDER

One night a happy family off on an evening trip to a neighbor's home and the next a mass of broken, twisted steel, leather and bleeding humanity. Four more lives are sacrificed on the American altar to the god of speed.

Ben Whitehead, aged 43, his wife, slightly younger, a grown son and little daughter were instantly killed as the Snyder Special train bearing the hundreds of tired, happy, excursionists from the West Texas Jubilee celebration at Sweetwater struck a Ford touring car at a grade crossing three miles south of Snyder on the Santa Fe railroad, Friday evening about 7 o'clock.

The car was moving in the opposite direction to that of the train and the driver evidently misjudged the speed of the oncoming train. Indications pointed to the possibility that the driver realized his mistake and tried to stop the car but too late. The motor, frame work of the car and the bodies of the two men were carried by the pilot of the locomotive until the train was brought to a stop thereby possibly avoiding a serious wreck while the bodies of the mother and daughter were thrown clear of the track.

Mr. Antom, superintendent of the Slaton division was on the train and took personal charge of the situation remaining over night in Snyder to complete the investigation and supervision of the desposition of the bodies.

BEHIND THE SCENES.

When you sit in a comfortable seat in a theatre and enjoy yourself, do you ever think what it is that makes the show run so smoothly?

The things you don't see, the things done behind the scenes, they makes the show a success.

And so it is with plumbing and heating. Not what you see, but what you don't see gives you the comforts you enjoy so much.

The bathroom is cleanly white; the faucets glisten; the radiators are like handsome pieces of furniture. They are what you see, they are the show. But behind the scenes, out o' sight, are the things that give you water hot and cold, that carry away waste, that flush the closet, that warm your rooms to the right temperature.

And the placing of these things, arranging them so that they will do their work, is a particular science.
