COUNTY LANDFILL MORE THAN BIG HOLE IN THE GROUND

County residents who have not visited the sprawling county landfill located between here and Denver City may be in for a surprise. The county facility is a state of the art facility which has been costly to develop, but is actually saving tax payers money in disposal of our two cities mountains of trash.

When E.P.A. and state agencies informed city officials in 1991 they would have to build a new dumping facility to meet stringent environmental regulations, it was apparent neither Plains nor Denver City had funds for covering the old sites and new construction. After much deliberation of city and county officials, a plan was mapped out to build a new solid waste disposal plant with cost sharing between the three entities. The county purchased 160 acres of land from the state for \$80,000, and construction began in April of 1993, and the new plant was operational in October of that year.

All four County Commissioners contributed machinery and personnel in the huge dirt moving project. Some 100,000 cubic yards of dirt were excavated and relocated.

The primary purpose of any landfill is to sanitarily dispose of refuse in a manner which prevents contamination of an areas source of ground water. For this reason, the Local Sandyland Underground Water Conservation District office was chosen to administer the daily operation of the landfill, and Gary Walker, Sandyland manager, was assigned additional duties as landfill manager when he obtained his state issued permit.

PLEASE TURN TO "LANDFILL", PAGE 2

DIGGING DIRT, MOVING IT TO NEXT LOCATION

One of the main roles the County Commissioners Court plays is approving and funding the landfill yearly operating budget, currently running about \$150,000 per year. This modest sum called for an increase of our county tax rate of less than one-half cent. A recent trip to the fill found all four precincts involved in massive dirt work necessary as trash accumulates. In the interview with Judge Dallas and Gary Walker for this article, Walker stated, "I can't emphasize enough the tremendous contribution the Judge and all four Commissioners have made in the sites construction, and its week to week operation". He added, "Without their help and foresight in developing this program, we would not have a landfill which is serving as a role model for other towns, all of them facing the huge problem of trash disposal and ground water protection".

Next time you see your garbage bill from City Hall, before you start to moan and groan, think how you would feel if the fee were raised to forty, even fifty dollars. Thats exactly what a number of neighboring towns are doing. The busy landfill is currently disposing of an

COWBOYS CIRCLE WAGONS 'ROUND INDIANS 46-12

Our Cowboys shaky start Saturday night against Morton sent an early chill throughout a good turn out of home fans. After the opening series of offensive plays, which found the Cowboys going nowhere, the Indians took the ball on the 19, and the following play found Indian back Marquis Patton speeding to the end zone, and Morton led 6-0.

The Cowboys took the following kickoff on the 37, and in four plays were stopped short of a first down.

Our defense came to life, stopping the Indians with a nine yard loss, and the next play David Bitolas gathered in an errant Indian pass, and three plays later bounced into the end zone giving the Cowboys a 7-6 lead which would not be threatened the remainder of the night.

The Indian attack was stymied in their next possession, and they foolishly punted the ball to Steven Bitolas, who with good blocking and excellent moves, dashed eighty yard to give the Cowboys a 13-6 edge.

Cowboy defender Lee Roy Vasquez stopped the Indians following offensive efforts with a timely fumble recovery.

In the second quarter, David Bitolas scored again

FORMER RESIDENT PROMOTED

Joe Beal, former resident and graduate of Plains High, has been promoted to GTE Facility Manager in Del Rio, Texas. In his new position, Beal will be responsible for all company operations in the Del Rio area, including some 18,000 customer access lines.

Joe is the son of Helen Beal, 300 First Street, and J.W. Beal, Lovington Hwy. In high school, he took part in all sports activities, and coached Babe Ruth baseball teams, and later attended Sul Ross State University in Alpine. He has three sons, Josh, Jarrod, and Jeff.

V. BERNAL BLOCKING FOR D. BITOLAS

on an eight yard run, with The Cowboys up 19-6. The defense again proved very stingy, and halted the Indian attack. A spectacular throw from QB Victor Bernal and an equally spectacular catch and run by Shannon ward for 69 yards moved the lead to Cowboys 25, Indians 6.

The next series featured solid defense from the Cowboys, and on fourth

down, Joey Guerra spoiled the night for the Indian punter with a crunching block of both ball and kicker.

The Cowboys could not move in their next possession, and punted to the Indians. After a series of plays, Guerra stopped a fake punt cold, and the Cowboys had the ball on the 46. A Bernal to Brad McMinn pass was good for seven yards and another

ANNUAL FARM TOUR PLANS ANNOUNCED

The staff of Plains' Soil Conservation Service (SCS) office and directors of the Yoakum Soil and Water Conservation District will sponsor the 1994 Yoakum County Farm Tour Wednesday, September 21.

Mario Avila, District Conservationist, calls all interested tourists attention to the trips new starting point. "We have previously started the tour from Stanford Park here in the city. This year, buses will leave from the COUNTY PARK at 8:30 am". He added, "The park is located Hwy 214, at the intersection of that highway and FM 213".

Several stops at points of interests are planned, and Avila said "Several speakers will make presentations at these stops, including Dr. Kater Hake, cotton specialist with the Experiment Station at Lubbock, and Charles Coffman, Biologist with the SCS in Lubbock".

Tour refreshments will be provided by AVI Irrigation, Seminole. A catered lunch following the tour will be sponsored by Plains State Bank, Yoakum County State Bank, Brownfield State Bank, 1st National

Bank of Denver City, Scott Irrigation, Seminole, and Associated Delinting, Littlefield.

If you would like more information about the tour, call the local SCS office here, 456-3703.

Editors Note

The following statement is a requirement of the USDA on all official articles of that government agency;

"The United States Department of Agriculture(USDA) prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs and marital or familial status. (Not all prohibited bases apply to all programs). Persons with disabilities who require alternate means for communication(braille, large print, audiotape, etc.) should contact the USDA office of communications, 202-720-5881 (voice) Or 202-720-7808 (TDD)

To file a complaint, write the Secretary of Agriculture, USDA, Washington, D.C., 20250, or call 202-720-7327 (voice) or 202-690-1538 (voice) or 202-690-1538 (TDD). USDA is an equal employment opportunity employer."

CONTINUED FROM PG. ONE

LANDFILL

average sixteen tons of trash each weekday. That translates to a very messy 8.5 million pounds of trash per year. Our two cities pay disposal fees of five dollars per ton, as do individuals hauling trash to the fill. The State of Texas receives \$1.50 of the fee for each ton. At the start of this article, tax payer saving was mentioned. Consider the plight of some of our area towns without an approved landfill. New facilities at Brownfield and Plainview and the build up process charge trash dumpers \$41 and \$46 per ton respectively. The city of Morton, without any legal dumping facility, must haul its refuse to Lubbock, and pay that city whatever council members decide on. This stiff fee is in addition to the tremendous expense incurred in hauling truck after truck of garbage many miles each day. In Plains, city residents pay a dumpster fee of ten dollars per month. If we had to haul our trash to one of the above sites, or to the only other alternative site in the Midland-Odessa area, our dumpster monthly fee would increase almost five fold. Kenley Powell is the

landfill scale and office man, and Pete Flores manages the actual trash disposal process. Trash is weighed, then dumped in a constantly changing location, where it is inspected, then flattened with a compactor which exerts seventy pounds of pressure per square inch. Before the disposal crew leaves work each day, the trash is covered with a minimum six inches of compacted soil. This operation is repeated each day, until the built up layers of trash fill the working pit without an approved level. The dump area is then moved, and the build up process started over again. Only eighty acres of the site is permitted for waste disposal, with a storage capacity estimated adequate for some 157 city years.

FROM THE HACK

Many years ago, a local fisherman, accompanied by his daughter we will call Sue, fell from his boat one cold November day on Lake Leon. He will remain incognito, as I dislike lawsuits and guns pointed at me, but here is his explanation of the event.

"Yes, I did fall from my boat, but only under very unusual circumstances. First of all, despite vicious rumors to the contrary, I was not drunk, repeat, NOT DRUNK!"

He continued, "True, I do keep a wee supply of Scotch on my boat, but strictly for medicinal purposes, in case of snake bite or hepatitis, whichever should come first. And yes, I did have a wee dram or so of this medicine that morning, simply because I always anticipate being bitten by a snake."

"Casting about those fertile waters, I flung my lure with amazing accuracy to a likely spot, but the lure never touched the water. From nowhere a huge water turkey appeared, swooped down on my lure, grabbed it in its foul smelling mouth, and sped skywards."

"I instinctively set the hook hard, and managed to jerk the flopping creature into the water, where it flapped and squawked horribly."

"My young daughter was delighted, and gleefully shouted, 'Oh boy, he's a good one, can we keep him, daddy?'"

"Suddenly, as I struggled with the winged demon, the water erupted under it, like a mini volcano, and a huge black bass, so big I SWEAR he could have swallowed a buck deer, leaped from the water,

A BOARD WITH MANY RESPONSIBILITIES

The Soil and Water Conservation Board (SWCD) of Yoakum County has the responsibility of helping educate the young and old in ways to conserve our natural resources; land, air, water, plants and wildlife. Our local board members are L.J. Sanders, rancher, David Turnbough, farmer, Larry Morrow, farmer, Linda Powell, rancher, and Neal Newsom, farmer.

SWCD members are either farmers or ranchers within the county they live. They are unselfish persons who are willing to give of their time for the sake of their fellow county residents.

Being an active board member requires a great deal of time and effort. They work closely with the Soil Conservation Service and other local, state and national government agencies.

Time must be invested to remain informed of issues which affect the county. They must study, attend meetings and seminars on issues impacting county residents.

Our SWCD sponsors the "Conservation Farmer of the Year" award in conjunction with the Plains and Denver City Lions Clubs. They also sponsor conservation poster and essay contests in both

attacked the hooked bird, getting half of it in its cavernous mouth.

"now I was battling both fish and fowl! I strained on my stout rod, and the two battling creatures began to actually tow my small boat across the tree littered water, faster and faster."

"Daughter Sue was frantically stuffing film in her Brownie camera, shrieking 'Hold on daddy, I'm Gonna get us in National Geographic!'"

"Then, disaster loomed ahead. The giant fish and bird were pulling us directly into a huge tree stump. I bellowed, 'AHOY! Don lifejackets! Prepare to abandon ship!' But alas, too late."

"The terrific strain on my 100 pound test line was too much, and it suddenly snapped like a rifle shot. The sudden lack of momentum caused me to falter, and very garcefully, I fell forward with a neat half gainer into the frigid water, but not before grasping the bottle of Scotch, should there be any snakes in the water."

"I could prove this story, but unfortunately, the only successfully developed picture in the entire roll of Sue's film showed me holding the Scotch as I sank from sight!"

BIKE RIDERS OF ALL AGES NEEDED!!!

The community's bicycle riders are urged to participate in the St. Jude Childrens Research Hospital sponsored "WHEELS FOR LIFE BIKEATHON" in Stanford Park Saturday, September 17.

Both volunteer workers and riders are needed to raise funds for the famed research center for its fight against childhood cancer and other catastrophic childrens diseases.

Sponsors are asked to make donations to the riders for their efforts. All riders will be presented a certificate, and can win other prizes, according to the miles they travel.

Chair person Cindy Gray says, "The greatest prize for the riders will be the pride they can take in giving children a chance to live a better life." She may be reached for more information at 555-6526.

Cowboy TD, for a 32-6 lead at halftime.

In the third quarter first series of plays, Morton suffered a minus two yards. Plains quickly got on the scoreboard again with another Bernal to Ward 45 yard bomb, and the Indians were down 39-6 with the PAT.

The remainder of the third quarter found the Cowboys and Indians hammering back and forth, with both teams supplying hard hits on one another, but no scoring.

Early in the fourth, Ralph Ramirez made a fine interception of an Indian pass, and with excellent blocking by the offensive line and hard running by Steven and David Bitolas the Cowboys were soon on the Indian twenty one. Steven Bitolas sped into the end zone from there, giving the Cowboys a bulging 46-6 edge.

The Indians gave one last offensive gasp late in the last quarter, finally scoring again with a good run by Patton.

Head Coach McMinn and his staff credited the play of the special teams with supplying the key turning point in the ball game, the eighty yard punt return and score by Steven Bitolas.

The defensive units had another good night. Ken McAdams was credited with eleven tackles, followed by eight each from Lee Roy Vasquez and Joey Guerra. Vasquez also scored a fumble recovery. David Bitolas had three fine interceptions, with another from Ralph Ramirez.

Bernal had a good passing night with nine completions in thirteen attempts, producing 207 yards. Ward had four receptions totalling 126 yards and two TDs, while McMinn caught five balls for eighty one yards and one score.

Both Steven and David Bitolas had good running performances, with Steven gaining 107 yards in five carries, and David accounting for 69 in ten attempts.

The Coaches agreed it was another good effort from the team, expressing their pride in how hard they are working towards what is hoped will be an excellent year. It will be a tough outing this next Friday, when they make the trip to Sundown. The Roughnecks, class 2-A, have a matching 2-0 record, and the contest marks their Homecoming.

Let's all be at Sundown Friday night...GO COWBOYS GO!

CROSS COUNTRY RESULTS

The Cowboy-Cowgirl cross country runners had an excellent outing Saturday at the Ector I.S.D. meet. The Cowboys, running in Division II against teams from Ozona, McCamey, Angelo Central JV, Andrews JV, Stanton and Brownfield, tied with Ozona for first place honors.

Individual finishers were Jeremy Dearing, 4th, Jason Robertson, 6th, Jamie Caballero, 11th, Kipp Blount, 12th, Hector Gallegos, 22nd, Edward Escobar, 62nd, and Gideon Traweek, 74. "This was a very strong finish considering the number of contestants from so many schools," head coach Everett McAdams stated.

He was equally pleased with the Cowgirls strong showing, earning fifth place honors against Stanton, Sundown, Lake View JV, Garden City, Permian JV, Coahoma, Dawson, Brownfield JV, Hobbs JV, and Coahoma B Mc Adams and Asst.

OUR BIG, LOUD COWBOY MARCHING BAND

Attending a Cowboy football game fifteen, twenty years ago, an often heard remark went something like, "We've got a nice little band, I just wish we could hear them when they play!"

That type of remark is certainly not heard in the stands these days. This group of talented and hard working students make NOISE, and it is noise of great quality.

Band Director Byron Morgan, who held that position at Idalou High before coming here in 1987, told of earlier fan comments, laughed, and said "Yes, we strive hard for the really big sound". The Cowboy marching band is a proud organization, and their pride is well justified. The credentials of past achievements crowd display areas of our modern band hall.

Band members work hard preparing for each football game, spending hours practicing marching drills, music and special routines.

Our marching band has traveled the long competition trail to state contests in Austin numbers of time. Their finest hour, perhaps, was in 1991, when the talented group won the marching band contest in Texas Memorial Stadium before some

Coach Osborn were especially impressed by Junior High runner Lisa Parrish, running on the Cowgirl Varsity, who finished 8th in the tough field. The Junior High team finished in 5th place overall. Cowgirls varsity runners scoring included Mary Ann Gonzales, 45th, and Tanya Hernandez, 44th.

Next Saturday the cross country runners will compete at the Meadow High meet.

40,000 spectators. This is a spectacular achievement when you realize there are approximately 130 Class A schools competing in area contests, some 16 bands eventually reaching the capitol city. The marching Cowboys and Cowgirls came close again in 1993, finishing a close second to the top spot band.

Since Morgan assumed director duties, his talented musicians have earned a host of honors, far too many to list here. A trip to the band hall will reward you with an impressive display of plaques and trophies. You will even see a fancy proclamation honoring the band, from the State House of Representatives, signed by then Speaker Gib Lewis.

Asked what the current 107 member marching bands greatest strength is, Morgan stated, "Probably our brass section. Our trumpets are really strong, and the kids on low brass are real leaders." Striving for that just right sound, the brass instruments have been silver plated for even better tones.

The director expressed his thanks to the drum majors, who play a big role in leading the musicians, Sophomore Tessa St. Romain and Junior Jeremy Dearing.

The often intricate maneuvers formed by the band at game halftimes were once much more difficult to design and layout. Director Morgan now is able to use a state of the art computer program to speed up and perfect the routines.

Athletes win sporting events, true. But famed UT football coach Darrel Royal once said "I don't know about all that home field advantage stuff. I do know where ever we play, I want that big ol' Longhorn band blasting out the Texas fight song". Our fans, coaches and athletes want our great Cowboy Marching Band with them wherever they go, too. And they can really blast out our fight song, too.

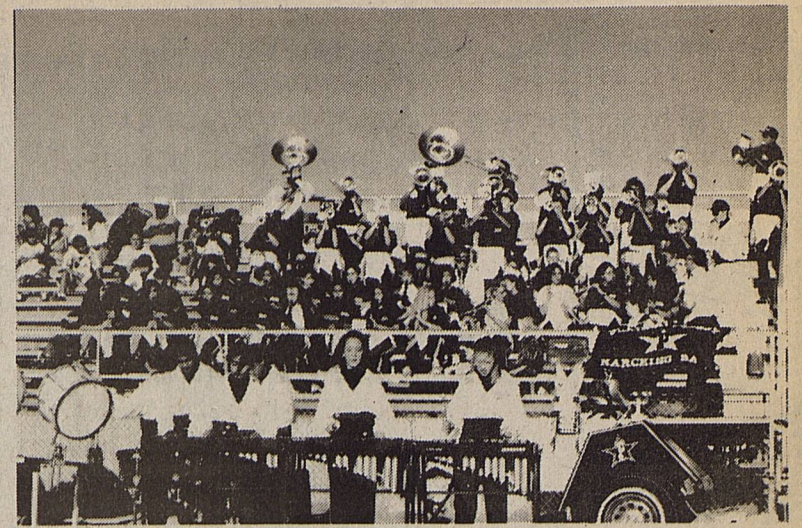

As of this date, I will not be responsible for any debts other than my own, nor any credit agreement without my signature. James E. Wright.

COWGIRL VOLLEYBALL TEAMS DOING WELL

VARSITY

The Cowgirls defeated Balmorra, Grand Falls, and Wink en route to the championship of Wink Lady Wildcat Invitational Volleyball Tournament last weekend.

Cowgirls Stacey Jones and Kyley Bearden were selected to the All Tournament team and Valerie Blair was recognized as Most Valuable Player of the tournament host in the championship match, taming the Lady Wildcats 15-9 15-4.

The Cowgirls dominated the first match against Balmorra with 15-1 15-6 outcome. The Cowgirls topped Grand Falls 15-13 15-1 in semifinal action to advance to the championship round.

The Cowgirl volleyball teams made a clean sweep Tuesday night, September 6th when the 9th grade, junior varsity, and varsity squads all notched victories over county rival, Denver City. The Cowgirls built a 13-2 lead in the first game, but let the Fillies close the gap to 13-12 before securing the win on two Fillies miscues. Down 2-5 in game two, the girls hustled to a 15-9 finish.

JUNIOR VARSITY

The Junior Varsity, 8-2, came from behind to subdue the Denver City Fillies in straight sets, 15-13 and 15-6.

The JV continues to improve each week, with good effort from all the girls.

9TH GRADE

The 9th graders showed plenty of hustle and desire in evening their record to 3-3 with their 13-5, 15-10 15-13 come back victory over the DC junior varsity September 6.

8TH GRADE

The 8th Graders avenged their season opener losses to Denver City with back to back victories over the Fillies in the Cowgirl gym, last Thursday afternoon. The 8th Grade B team rallied from a one game deficit to tame the Fillies 8-15 15-11 15-11.

The 8th Grade A team went a full three games with Denver City A in their most recent contest and hustled to a 11-15 15-8 15-9 victory.

7TH GRADE

The 7th Grade A & B teams defeated Denver City in straight sets last Thursday in the Cowgirl gym. The B team started things off with a 15-10 15-13 triumph.

The 7th Grade A team initiated their season with a 15-6 15-8 win over Denver City A. They met in Plains last Thursday with the Wranglers coming out on top once again 15-9 15-8.

STUDENT OF THE WEEK

Jeremy Dearing, son of Mr. & Mrs. Melvin Dearing, is student of the week. He was nominated by Byron Morgan. "Jeremy is always helping with everything. Whether it's helping the Band or one of the coaches, he is always dependable," Mr. Morgan said. "Jeremy is a good leader and goes far beyond the duties of Drum Major." Coach McMinn also spoke highly of Jeremy because he came by one afternoon after school and helped mark the football field without being asked.

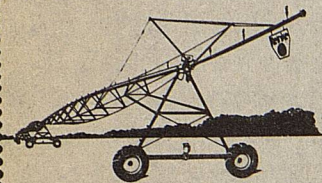

Jeremy is serving as Drum Major of the Cowboy Band for the 2nd consecutive year. He is a member of the Cross Country team. Jeremy is also one of the top academic students in the Junior Class.

First in Customer Satisfaction

- 1968 First reversible electric drive center pivot.
- 1968 First system with a collector ring allowing the system to pivot continuously.
- 1968 First to span over 100 feet.
- 1968 First with patented V-jack truss system - later copied by the industry.
- 1968 First to use interchangeable pipe and truss components.
- 1968 First to use O-ring gaskets between pipe flanges to reduce friction loss and provide a stronger joint.
- 1969 First gear driven, towable rubber tire center pivot system.
- 1971 First system with 4 1/2" pipe design for low water supplies or small acreages.
- 1973 First to use Cor-Ten A corrosion resistant steel in mainline pipe.
- 1974 First successful aluminum center pivot - still the standard of quality in the center pivot industry.
- 1975 First to use the channel leg tower design.
- 1976 First to use high strength steel to reduce unwanted weight.
- 1978 First to offer dual input shafts on wheel drive gears.
- 1978 First to offer expansion chambers on wheel drive gears and center drive gears.
- 1982 First to use double wall tower boxes to protect electrical components from moisture and temperature fluctuations.
- 1985 First to use V-ring gasket between pipe joints to reduce friction loss.
- 1987 First bow string truss over 200 feet. Longest span in the industry 232 feet.

HOWELL-HAAG WED IN PARK

Wedding vows were exchanged Friday evening, September 2 between Denisa Lorene Howell and Albert Rayfield Haag.

The bride is the daughter of residents James and Margaret Altman, and the grooms parents are Ralph and Beverly Haag of Dickinson, North Dakota.

The ceremony was held in the gazebo at Stanford Park, and was attended by some forty guests.

The newlyweds planned to honeymoon in Lubbock and in the near future, move to Ft. Collins, Colo.

At the reception following the rites, friends and guests enjoyed the large three tiered wedding cake prepared by Dana Davis, the brides sister. Punch was served by Rebecca Forbus and Angie Altman.

Judge Melba Crutcher united the couple in marriage. The brides brother, James Daniel Altman and wife Renee' renewed their wedding vows that evening. James Daniel has joined the army, and is in basic training.

The brides maid of honor was Myra Crutcher, Denver City, and Jay Halverson of Hobb, N.M. served as groomsmen.

The bride wore a two piece white, mid-calf suit, and carried a bouquet of pink and burgundy roses and carnations.

WEEKLY FILM TIME

The weekly film time at the library Wednesday was enjoyed by the following pre-school age children; Morgan Willis, Ryan Crump, Holden Welch, Curtis Ortega, Amber Friesen, Lauren Hise, Jonathan Penner, Rhaela Stall, Trent Hawthorne, Brett Hawthorne, Joanie Bell, Jaaron Bell, Kevin Gass, Kenyon Powell, Maria Magdalena Andozola, Landon Earnest, Dakota Earnest, Jacob Brink, Kimber Williams, Stephanie Addison, Christopher Addison, Alexander Penner, Cody Mayes, Lauren Davis, Ashten Blomstedt, Katelyn Young, Katie Winn, Heather Penner, and Cody Blomstedt.

Filmtime starts at 10:00 am each Wednesday, and all children must be picked up by 11:00 am.

ROTAN-McWHIRTER UNITED IN MARRIAGE

Darinda D. Rotan and Macky Braden Mc Whirter were united in marriage on September 3rd. at 7:30 pm in the fellowship hall of the First Baptist Church in Levelland, Tex. Reverend Steve Vernon preformed the ceremony.

The bride is the daughter of Gene and Leannah Darr. She is the granddaughter of Mrs. Mary Bob Leveridge and Mrs. W.L. Darr of Cisco.

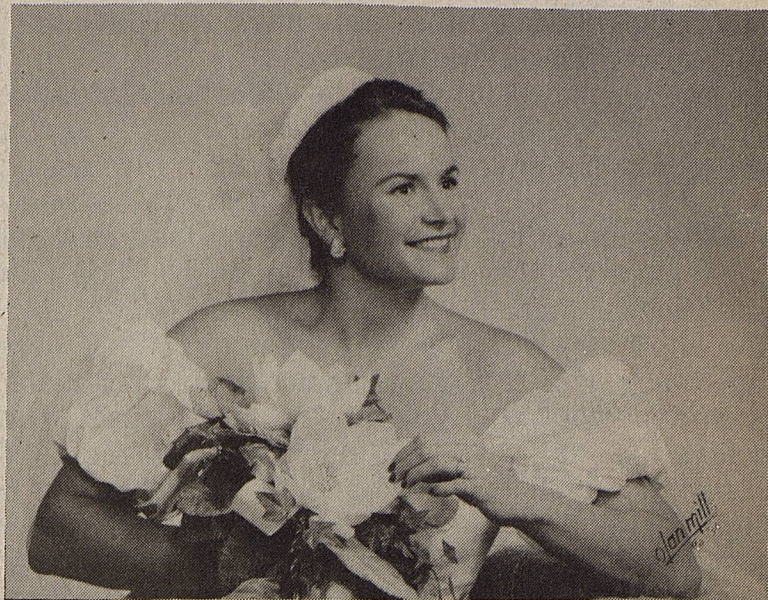

The groom is the son of Macky and Connie McWhirter of Plains. He is the grandson of Mrs. Lennie Martin of Brice, Texas.

Candle lighters for the beautifully arranged double ring ceremony were Kris and Sarah Humble. Ushers seating the couples grandmothers and guests included Robert King, Lebert Powell, Todd Burgess and Keith Earnest

The bride, preceded by ring bearers Marshal Wade and Conner Newsom and flower girl Faryn Bryant, was escorted and presented to the groom by her father.

Special songs were performed by Kristy Porterfield, Ruby Moultrie, and the groom, who sang "If There Hadn't Been You".

The bride wore an elegant gown of moire taffeta with full sleeves, accented by

WEDDING SHOWER AT LIBRARY

tulle and Alencon lace, made by Sharon Williams. Her crown headpiece with iridescent pearl beading was designed by Polly Palmer.

DeEtte Farrar, sister of the bride, served as matron of honor, and Blake McWhirter, brother of the groom, served as best man.

A reception for friends and family of the couple followed, where the wedding cake and mock champagne punch were served.

Following a honeymoon in Puerto Aventuras, the couple will reside in Levelland.

A wedding shower honoring Ms. Corrie Spencer Johnson will be held in the librarys Heritage Room Sunday, September 18th, 3:00-4:30 pm.

Gift selections are available at Renaissance Flowers and Gifts, Jerris Boutique, and Bayer Lumber.

FINE ARTS CLUB MEETS

The regular monthly meeting of the Plains Fine Arts Club was held September 1 in the home of Carolyn Culwell. Serving as hostesses were Ms Culwell, Christy Brink, Dolores Davis, and Martha Palmer.

Club members and guests enjoyed a religious music program furnished by singers from Hillside Church of Christ, including Vernon & Debra Hise, Garret & Becky Blomstedt, Ray & Sonya Young, Jerri Ellis, Judy Fitzgerald, Martha Palmer & Christy Brink.

Guests present were Vaughn Culwell, G.W. Cleveland, Jack Palmer, Freddy Ramos, Eric Banfield, Vennum Fitzgerald, Vernon Hise, Garret & Becky Blomstedt, Ray & Sonya Young and Jerri Ellis.

Following the program, members made plans to hold baked potato fund raising sales during basket ball season

Next scheduled club meeting is October 6, 7:00 pm at the Lois Miller Home.

WEDDING SHOWER PLANNED

A wedding shower honoring Shannon and Herman Gonzales will be held in the home of Mr & Mrs David Guetersloh Sunday, Septemner 18, from 2:00-3:30pm.

Gift selections are available at local merchants and J.C. Penney, Lubbock
