BLACKS IN THE NEWS

OFFICER WILLIAM H. BRITT RECEIVES CITATION FOR POLICE WORK

A Black in the news this week is a friend of young people. He enjoys being able to communicate with young people about the problems they are having. He works diligently as a member of the Lubbock Police Department. "You know five years ago, it appeared as though parents (Black) did not care much about what their young people were doing, but I see a drastic

change since then," says William H. Britt who was one of the three Black police officers who organized the "Soul Patrol" over KSFL Radio several years ago. Just recently, Officer Britt received a plaque from the Serv-U-Food, Inc. of Amarillo. It said: "Britt", William H. Britt, Serv-U-Foods, recognizes Britt as an outstanding friend

"EVERYONE SHOULD BE CONCERNED"

All residents of our community should be concerned about what has happened to little Johnny Turner, Jr. He has been missing since last Wednesday evening. There were some developments in the case late Monday evening of this week when a 28 year old Slaton man was arrested in connection with the disappearance of this six year old youth.

Bond for this man, who had been out on a similar situation, was placed at \$100,000. Because of what has happened to young Turner, people who are involved in these kinds of incidents should be refused to be bonded or the bond should be set so high until one is unable to reach it. It will be good measure and protection for the lives of other boys and girls in our community.

As we go to press today, let's hope the whereabouts of this young fellow has become a reality. We would have wished that he would have been found by now or at least someone would have known of his whereabouts.

Words can't express how the parents of this young lad feels this day and time. There has been a great deal written and said about what has happened. We're sure they are most appreciative of what has been done by the law enforcement agencies, concerned citizens and your many prayers. In their hearts, we feel as though there will always be a warm place for the people of Lubbock and Lubbock County, like you, who cared to do what you could. From the Lubbock Police Department to the Boy Scouts and citizens of the community who have walked and driven throughout the eastern part of the county looking for their loved one. We know they are saying "thank you!" For the many who rode horse back for many hours throughout the canyon, they are appreciative.

What has happen to little Johnny Turner, Jr., a first grader at Ella Iles Elementary School, could have happened to any young person in our community. It serves as a warning for all of us to be very cautious when we are around strangers in our community. When we see people who appear to be looking for something not good, we should be concerned about the safety of those who may become a victim-regardless of whose child is involved. It should also advise us to stop when we see young kids being mistreated by

an adult. It is only our duty as concerned citizens to get involved to help a young person in distress.

The same holds true for senior citizens, women, or anyone who needs help. This is our community, and it will take all of us to get involved and do what we can to make it a better place in which to rear a family. It is going to take all of us to see that future incidents, like the one which involved the son of Mr. and Mrs. Johnny Turner, Sr.

At the same time, we hope our judicial system will take note to what has apparently been committed by a person who has been on bond for a similar incident several months ago. He was released and is now being held for the kidnapping of young Turner. These kinds of acts should not be continued.

The "Lubbock Digest" prays that this young lad will be found soon. We hope he is found by the time this newspaper hits the streets, and we'll be wrong in our reporting. But, as we go to press, we hope something has been done to what has happened and why. This incident has gotten to the hearts of all. If one can only look in the eyes of the picture of this young fellow, above, one can not help but to get involved.

Wherever he is, we are praying for him and his family.

One of the incidents involved the kidnapping of a six year old first grader at Ella Iles Elementary School, Johnny Turner, Jr. who was missing last Wednesday, Oct. 26, at about 6:20 p.m. His mother, Mrs. Florence Turner, told police that she saw her son playing in front of the apartment, 1028 East 29th, Coronado Apartments, at about 6:20 p.m. A few minutes later, she called him, but he was gone.

Developments in the case began Monday evening when Lubbock police arrested a 28 year old Slaton man, Philip Carey Brasfield, who was free on bond on a child molesting case. He was charged Tuesday with aggravated kidnapping of young Turner.

The aggravated charge was filed before Justice of the Peace Charles Smith against Brasfield and bond was set at the \$100,000. Prior to the charges being filed, Main Avenue. Police Lubbock police had questioned Brasfield

for several hours following his arrest. While he has been in jail, searchers have combed Horseshoe Bend Canyon, between Slaton, residents of East Lubbock are still looking for Turner. Since the time of his disappearance, searchers on foot and horseback have looked throughout the brush of the canyons in the area around Lubbock. Brasfield's arrest came after Lubbock detectives got information and witness identification. Brasfield had been indicted last May on a child molesting charge and released on a \$10,000 bond. In another violent incident, a 50 year old man, Robert Oglesbee Blackman of 2806 Vanda Ave., was found dead behind an East Lubbock club early Sunday morning. He was pronounced dead about 7 a.m. Sunday morning by Justice of the Peace L. J. Blalack who ruled the death homicide. It is believed, according to police, that robbery may have been the motive in the slaying. Blackman had been shot once in the right side and had been dead approximately six hours before the body was discovered lying behind a club in the 3200 block of Past charges being filed, Main Avenue. EDITORIALS WHY NOT?

"OUR KIDS NEED OUR HELP"

by Eddie P. Richardson

It is important that people slow down and concentrate on our community. There are too many criminal acts being committed. There is just too much display of sin against God and humanity daily.

This writer must admit that he is not perfect, but there are some things we should do.

You know, no one reports anything or seems to care about what is happening anymore. Good morals and plain old good common human dignity and respect for others are apparently out and considered being "square."

We had better wake up and snap quickly to ourselves before it is too late.

Little kids walking the streets, and I do mean little kids---ages 8, 9 and 10---smoking pot, snorting, shooting, and taking anything with some sort of drugs in it. This is not just a rumour. I see these things with my own eyes. I have even gone as far as to raise hell with little kids when I catch them smoking weed on the streets. I've become a villain by doing so. I ask little kids almost every night, why aren't you home? Why aren't you getting your home work? They always reply: "I don't have any lesson tonight." They have even told me that they don't have to be home if they don't want to be there. This writer often ask them: "What time do you go to bed?" They simply answer, "One or two o'clock in the morning or when I get ready."

The real problem here is not the kids, but the parents. Maybe they should be jailed, fined or punished for their children. If they don't train, discipline, and keep them off the streets all of hours of the night and early in the morning hours, my suggestions is for teachers in the Lubbock Public Schools to keep piling the home work on them.

I know, in some cases, the teachers give those kids home work, but the kids just don't get it. In some cases, parents work late at night. This is especially true in the one parent situation. The kids take advantage of this by roaming the streets while the parent is making a living for them.

My big concern is the parents who just don't give a concern. They let the kids out of the house to get them out of their hair and bring up a future generation of criminals, thugs, and misfits to society. The deterioration of morality and family life is leading us into a heck of a mess.

We must go back to morals and family to salvage our future.

A change must come in our community. This column, "Why Not," will give a one year subscription to the Lubbock Digest or a \$10 cash prize, along

with an article in this newspaper of the best essay entitled: "What I Can Do to Make My Community A Better and Safer Place to Live Socially and Economically."

People often talk and say a lot of things, but when it comes to action most of us are quite. Talk is very cheap.

These issues must be addressed now. The Lubbock Digest has done so. The churches, community organizations, and everyone must get involved.

This column is not saying all young people are bad. We have some beautiful productive young Black people, but the other side overshadows them. The mi-

H.R. 5054 would eliminate the requirement to apportion appointments in the departmental service in the Washington metropolitan area. The legislation has been introduced by Congressman Herbert Harris (D-Va.) who is a member of Congressman William Clay's Subcommittee on Civil Service.

The requirement to apportion appointments in the Federal Civil Service was part of the Civil Service Act of 1883. It was placed in the statutes to assure that all States and territories would have representation at the headquarters of the National Government.

Clay said, "Criticism of the present apportionment requirement stems from the fact that many believe this law is now outmoded, exemptions to the rule are so numerous that it has been rendered meaningless, the law is too cumbersome to administer, and that it has no place within the merit system."

"Weapons and dollar handouts for reactionaries all over the world"

Reactionary governments that stand accused of persistent violations of elementary human rights by progressive world opinion receive enormous sums of money and arms deliveries from the USA.

In fiscal 1973-74 US military aid and weapons sales to foreign countries amounted to over 12 billion dollars. Between 1962 and 1973 the United States paid a total of 35.4 billion dollars in military aid to other countries. In 42 countries there are approximately 3,000 "special representatives of the Pentagon who exert much influence on the defence policies of the countries concerned."

Sen. Alan Cranston (D-Calif) recently objected that more than two thirds of the 7.5 billion dollars requested for fiscal 1975 are exclusively destined for dictatorships and authoritarian governments who, for their part, will mostly use the money "to safeguard repression and militarism."

The Wall Street Journal, 25 July 1975
Agencies in Washington used various subterfuges to conceal from the public the fact that 24.9 billion dollars was granted in aid to Chile, South Korea and other regimes in 1976.

In this manner, Seoul received interest-free loans to the tune of 1.6 billion dollars last year while the junta in Chile received 357 million dollars.

UNEXPECTED HELP ON QUOTAS

Black Americans may have received some unexpected help from perhaps a most unlikely source, in their struggle to achieve parity, equity and fair play in the restitution or restoration of due opportunities in education.

Specifically, Health, Education and Welfare Secretary Joseph A. Califano recently indicated that while quota requirements for blacks and Hispanics in higher education would not be imposed upon colleges, universities and graduate professional schools, goals would be used to determine fair play, this would be necessitated, he

noted, "because we must rely on numerical goals as benchmarks of progress."

Black Americans have been deeply aggrieved, sorely wounded and scandalously abandoned by past friends in their most recent efforts at achieving a just restoration of opportunities lost through past unfair denials or discrimination.

Most recently, the major

forecast (the future) for blacks to recognize the signs of the times, at least as far as quotas are concerned. The overwhelming mood of the country is anti-quotas. Thus any astute politician who must depend upon the public's support for his or her security or success would have to tread cautiously on the quota turf in the interests of fair play for black Americans.

We are in desperate straits indeed, in terms of a popularity for our own cause.

But black Americans have almost always fought unpopular battles, for our interest: have almost always been on the unpopular side.

Popularity of a cause is never a sure indication of merit. Without this recognition blacks would never have forged their way thus far toward full freedom.

The prevailing American mood has been toward keeping things as they are. This is not simply true of those in the seats of power. The masses of all Americans, so

the majority of our nation's citizens.

This condition must be seen as a given fact of life; and it must always be dealt with by black Americans in the most advantageous way that is possible.

It is in this context that we possibly may see the position

taken by Mr. Califano, ostensibly against quotas, as a ploy politically to our advantage.

Gloster Current, who has been serving the national office of the National Association for the Advancement of Colored People as administrator, stated: "Goal or quota, it is really the same thing."

While the statement is not precisely correct, it may be seen as true in the sense that goals will help to accomplish in a less structured fashion, much of both the same spirit and the same concrete results as quotas.

The difference may be seen as two-fold. One is that since goals do not have the compulsion of law, they will tend

Americans today, and especially those from the liberal community who have been our friends, would vehemently deny what would tend to be obvious to every black American.

This is the hard fact that all blacks have suffered dis-

crimatory denials which have tended to make life disproportionately more advantageous for white Americans as a whole.

Today, for example, we witness most daily the altogether sad scene of white Americans who prosper relatively more well simply because they are white (whether they are specifically aware of it or not) crying "Unfair!" and "Not so!" when blacks label them as beneficiaries of

upon them.

Thus in the light of the prevailing pattern of racism which is structured into the nation's life, the rule that often "discretion is the better part of valor" may be seen as having possibly come strategic merit.

The sad but incontrovertible fact is that most white

opportunities traditionally taken from black Americans.

As a kind of middle ground, then, while we keep quotas as our incessant goal, we may consider as welcome the back door approach to opportunity afforded by Mr. Califano's advocacy of "goals, not quotas."

Gunnar Myrdal has noted in his *An American Dilemma*, tend to be sluggish or lethargic in terms of social and political concerns.

The dead weight of the unconcerned always falls heavily on the side of things as they are. Thus through no consciously pernicious purpose, the side of prevailing injustice tends to be aided by

inevitably to fall short of the requirements of the law.

The other difference, which has a distinct and major advantage, is that goals do not rub so hard against the grain of those who do not mind "being nice" to black folks but who would resent, and so also subvert, every attempt to force or impose fair play

THEFT OVER \$5.00

STAN NEWMAN, 2601 Weber Drive, Apt. #A, reported to the Lubbock Police Department that he was working at the Town & Country Store, East 26th Street and Quirt Avenue, one day last week when he had a problem.

He told police a man purchased a \$5.00 worth of premium gas and left without paying for it.

"The fellow just drove off without paying," he said.

The man drove south on Quirt Avenue.

THEFT

LEE ARTHUR McDOW, 1714 East 14th St., reported to police that someone unknown removed a Rota Rooter and a cable from his car while it was parked at East 29th and Southeast Drive one day last week.

The cable, according to the police report, was attached to the Rota Rooter.

Also taken from a pickup was another 100 foot of cable.

These items were valued at \$275.

MINDING OWN BUSINESS

A Lubbock man reported to Lubbock police that he had been shooting dice, playing pool, and playing poker when he had some problems.

He told police that while he was at this particular residence of games, a man took his wallet from off the pool table.

After taking his wallet, according to the police report, the man took it outside and brought it back to him in a few minutes.

It is believed that the man could have lost the money while gambling.

He told police, however, that \$110 was taken from his wallet.

He did tell police that he believes his "kinfolks" took the wallet, but he could not remember their names.

How about that, a relative takes your wallet without your permission, but you can't remember his name.

HOUSE BURGLARY

LORESSIE NEWTON, 3313 East 15th, reported to Lubbock police that persons unknown broke into her residence through a torn window screen one day last week.

Taken from the residence were a 12 inch black/white te-

levision set, several packages of meat, and \$20 in cash.

These items were valued at \$110.

LOVE IS STILL A MIGHTY STRANGE THING

A Lubbock man reported to police that his ex-wife had stabbed him three times. He said she had just come into a cafe at 310 17th Street, Sedberry's Cafe, and just began stabbing him.

According to the police report, he was stabbed in the left leg.

She left the cafe and went to her apartment, and a few minutes later, the man went there to stab her. He did just that! The man stabbed her in the right side of her back.

Both told police they will file charges this week.

They were taken to a local hospital in the same ambulance.

Isn't it strange how love is?

News From Home Folks

In an almost unprecedented fashion, black leaders throughout America have been calling upon black New York voters to use every feasible means to "keep Moynihan's kind of thinking out of the United States Senate."

Black publishers, black scholars and black civic leaders are pressing upon New York State voters, both black and white, the fact that a possible victory for Mr. Moynihan is a slap in Africa's face and at black America's face, at which he harried repeated and unmasked insults.

Dr. Kenneth Clark, a member of the New York State Board of Regents and Professor of Psychology, has stated that blacks can only keep Moynihan by voting for his opponent, the incumbent and thoughtful Senator James Buckley.

Mr. Buckley has admitted that he has an uphill climb getting the black vote to come to the polls on this crucial vote for himself and for the future well-being of black Americans. Dr. Clark, after a lengthy interview with Senator Buckley, has urged blacks to first go to the polls throughout New York State and make certain that they vote for Senator Buckley.

Dr. Clark describes Buckley as "sincere, honest, and educable."

By contrast, Dr. Kenneth Clark and many others see a possible seat for Mr. Moynihan as a disaster for black Americans and a disappointment to our true friends abroad.

The Senator's Position Senator Buckley believes in action, not just words. As examples:

Those whose jobs he helped to save in the Brooklyn Navy Yard know from experience where he stands on jobs for black New Yorkers.

When a Senator helps save 3,100 jobs—most of them held by black workers—that's action, not rhetoric.

"His vote last year for a full extension of the Voting Rights Act shows black New Yorkers where he stands on the matter of civil rights for all Americans." For parents of black children who are not receiving an education in public schools, he offered legislation that would allow tax deductions for tuition paid by parents.

At the time he introduced this legislation he stated:

"I believe that free choice in education should be available to parents in Bedford-Stuyvesant and Brooklyn as well as in the suburbs. What is good enough for Groton and Exeter is good enough for Harlem Academies, public schools, and the Harlem Parents Union."

He also has introduced a bill that would enable black small businessmen to "get a piece of the action" through loan guarantees; he has spoken for and voted for unemployed black youth in asking that the minimum wage laws be changed so that black young men and women can get a chance to break into the labor market.

Buckley does not believe in "neglect," benign or deliberate. He believes in equitable black progress based on action.

Others Speak Out In Atlanta, Georgia, in Philadelphia, Pennsylvania, and in Albany, New York, other voices urge that every effort be made—even a black crusade—to stop what Mr. Moynihan represents.

Dr. Nathan Wright, award-winning author of scholarly books relating to urban life and Episcopal clergyman, spoke of the need for "whites who respect the black and Puerto Rican communities" to vote with these communities "in order to keep one whom they see as a racist menace out of the United States Senate."

Dr. Wright added that Senator Buckley is "essentially humane..." and he has the capacity to listen... descriptions which seem could never fit his opponent, Mr. Moynihan.

A group of black publishers meeting in Atlanta spoke ominously of any Moynihan victory. "Here in the South we must help get out the black vote in New York State."

The Jackson, Michigan Blazer tells of how one black aspirant for the U.S. Senate has begun heroically what gives every promise of being an uphill fight. The Blazer reports:

"Detroit—Michigan Secretary of State Richard H. Austin, Democratic candidate for the United States Senate, announced a series of steps "to refute once and for all the politically inspired harassment concerning contributions to my campaign from branch managers."

CHANGING PEOPLE

If I could change people... I'd make them sensible and just.

If I could change people... I'd teach them love in the mildest form.

If I could change people... I'd give them back their morals and judgment.

If I could change people... I'd give them a clean heart once more.

If I could change people... I wouldn't have to write this poem.

- MAKING HAPPENINGS: BLACK

(For your continuing calendar of major black events, please cut this column out and keep in your own notebook. Please mark the date of each entry.)

International News...

Cuba - Zimbabwe's revolutionary leader Joshua Nkomo reportedly rejected bids or prospects for a peaceful or negotiated transfer of power to blacks in Zimbabwe. He declared that Zimbabwe must be "liberated by armed struggle." Nkomo also stressed that no direct participation by other nations was expected.

South Africa - The 1.2 million blacks in Soweto Township continued their opposition to the Pretoria government which appeared to be growing in its conservatism. Cries of "Black Power" have grown in the face of what has been characterized as a "loss of faith in the white man" which has become deep-seated now.

United Nations - A small group of black Americans was reportedly being invited to Uganda by the Ugandan government. Included in the group for the proposed visit were Stevie Wonder, Bill Marshall, Minister Louis Farrakan, Dick Gregory, Lerone Bennett, Dr. John Hendrik Clarke, Dr. Nathan Wright and novelist John O. Killens.

Kenya - Uganda exiles from throughout Africa and from the U.S.A. and Britain were reported to have met secretly in Zambia to lay plans for the overthrow of President Idi Amin and his government.

Zimbabwe - "Rhodesian" Prime Minister Ian Smith promulgated new "law and order" regulations in an effort to stifle resistance. Freedom of speech was limited and authority was increased to place Zimbabweans into concentration camp type "protective villages."

YOU AND THE STARS

by sylvia hairston

November 7-14

The following is a special feature of You And The Stars which examines those sections of the current astrological chart of this nation which I feel may affect blacks and minorities.

Perhaps you may not agree with my conclusion, but I hope you will agree that this aspect of You And The Stars does make it especially for Black America.

During this period the Fall Equinox chart for the nation shows Jupiter, the planet of expansion, in a position which should insure a boon to economic recovery, increased wealth and greater and greater optimism and enthusiasm in business circles. This is a much more powerful aspect for this nation's chart than has been for some time. Labor unions will be opening their once-closed doors more and more to unemployed minorities and government contracts will write clauses that should insure employment. This is a period when a deeper cosmic truth has to be faced, when the struggle for an all-out

drive for that is taking place in this nation should be balanced.

Saturn making its way into the sign of Virgo near month's end—continuing this transit of the sector of "foundations" in the nation's chart for the balance of the year—is protective where changes and innovations are made. Saturn is slow in its action, and this slowing down period will allow for a breather.

In retrospect, this period will have proven to be a dramatic one for blacks and indeed for all those nations of the world with societies undergoing change. Change is always a trend when Neptune transits the sign of Sagittarius. Today events, situations and new alignments are being witnessed, that were unthinkable a decade or so ago.

Next week I will continue to look at those aspects of the nation's chart that will probably affect black America.

ARIES - March 21-April 20 Emphasis turns to marriage and partnerships during this period, and those of you who are interested can attract a romantic partner and even get married. Good news that will bring you pleasure is on

the way. Focus your Martian aggressiveness and drive on optimism; get together with friends for evenings of games and pleasurable events.

TAURUS—April 21-May 20 You have the forceful drive that you need now and your value for your job or career is almost limitless as others are inspired by your wisdom and manner. Your home may be the scene for the gathering of family and friends; parties and social events benefit from your sponsorship and a continuance of last month's zestful life is likely.

GEMINI - May 21-June 20 Your romantic and financial goals continue to take priority during this period and both areas look promising. Use this period to stabilize your domestic life; avoid overspending on luxury items at this time, as a restrictive cycle is about to begin in your residential sphere, when

Saturn enters Virgo mid-month.

CANCER - June 21-July 22 You will be more than usually aggressive in going after additional financial security as money in a concrete sense is spotlighted during this period. This holds true from now throughout the remainder of the year as aggressive Mars has entered your money sector, and the Sun is throwing rays in this area, giving you organizational ability and practicality you may have lacked recently.

LEO—July 23-August 22 Any hassle you may have had of a personal nature will be settled during this period.

Besides these personal matters, this month will proceed with exciting social activity and good things occurring under your roof. You will have more in the way of money and possessions, as Mars is giving you the drive and initiative that can make earning money easier. Long range security projects are possible for you now.

VIRGO - August 23-September 22 This is a stimulating but somewhat strange period for Virgo: you may profit through others' mistakes and so make incredible advances in your job or career area. Make an effort to get your finances in order early in this cycle, while aggressive Mars assists you. Salt some away in a savings account as in the upcoming cycle, the outgo tends to keep pace with the income. Good and sound judgment, and sense, will be needed as you enter the upcoming cycle.

LIBRA - September 23-October 22 Many opportunities will come your way during this period and there will be many decisions which you will have to make. You are full of ideas, wishes and dreams over which you meditate and may be inspired to do generous things. There is an unpredictable influence trend in your chart now due to Uranus in your money sector; there will be erratic financial developments from time to time, but mostly it promises to bring new opportunity and gain to your life.

Cheese Pinwheels offer a nutritious accompaniment for soups and salads. The yeast dough can be mixed up the day before serving as the initial rising takes place in the refrigerator.

TOMATO CHEESE PINWHEELS

In a large bowl thoroughly mix 1 cup flour, sugar, salt and undissolved Fleischmann's Active Dry Yeast.

Combine tomato juice, water and Fleischmann's Margarine in a saucepan. Heat slowly until liquids are warm. (Margarine does not need to melt.) Gradually add to dry ingredients and beat 2 minutes at medium speed of electric mixer, scraping bowl occasionally. Add egg and 1 cup flour, or enough flour to make a thick batter. Beat at high speed 2 minutes, scraping bowl occasionally. Stir in enough additional flour to make a soft dough. Cover bowl tightly with aluminum foil. Refrigerate 2 hours or up to 24 hours. When ready to shape, combine grated cheese and chopped chives.

Punch dough down. Turn out onto lightly floured board; divide dough in half. Roll each half of dough into a 12 x 15 inch rectangle into twenty 3-inch squares; place on greased baking sheets about 1 inch apart. Sprinkle about 1 rounded teaspoon cheese mixture over square. Pat mixture into dough. Cut squares diagonally from each corner to about 1/2 inch from center of each square. Pinch points to seal.

Cover; let rise in a warm place, free from draft, until doubled in bulk, about 15 minutes.

Bake in a hot oven (400 F.) about 10 to 12 minutes, or until golden. Remove from baking sheets and cool on wire racks.

Makes 40 rolls.

- 3 - 1/2 to 4 cups unsifted flour
- 2 tablespoons sugar
- 1-1/4 teaspoons salt
- 2 packages Fleischmann's Active Dry Yeast
- 3/4 cup tomato juice
- 1/2 cup (1/2 stick) Fleischmann's Margarine
- 1 egg (at room temperature)
- 2 cups grated sharp Cheddar cheese
- 2 tablespoons chopped chives

Novelty breads often look more complicated than they are. The accompanying recipe for Cheese Pinwheels is a case in point. The recipe uses the Rapidmix method developed by home economists in the test kitchens of Fleischmann's Yeast. Rapidmix eliminates the first step of dissolving yeast in warm water. The undissolved yeast is added with some of the dry ingredients. There is no kneading so the dough can be mixed in minutes. The initial rising is done in the refrigerator so it's a good idea to make the dough the day before serving.

ERIC FELTON LUBBOCK HIGH GRADUATE

A very aggressive player who started this year as a cornerback for the Texas Tech Red Raiders is Eric Felton, 6', 202 pounds. Last season, despite being hampered by an ankle injury, he made more than 35 tackles and intercepted 3 passes. Last Saturday at Austin against the University of Texas, Earl Campbell knew he was in the game. He is a graduate of Lubbock High School where he was named All-South Plains as a senior and twice All-District 4-AAAA. He was named the "Most Valuable Player" at Lubbock High as a senior. He is a senior recreation major.

MATADORS TAME TIGERS, 21-14

The Estacado Matadors and Snyder Tigers played a defensive game at Lowery Field last Thursday. It was a do or die game for both, but the Matadors came out victorious, 21-14.

The Matadors drew first blood in the first quarter with a few minutes remaining.

Michael Sims ran for 15 yards in the first quarter with 3:32 remaining in the first frame. Jimmy Scott kicked the PAT. Matadors led 7-0.

"We showed that we have character," said Louis Kelly, head coach for Estacado. "It was the best job that we have done under pressure this year."

The Matadors fell behind the fired up Tigers by a score of 14-13 late in the fourth quarter. With the fine punning of Kenzey Burrell, they marched down the field and put the game in their possession.

Burrell, who was hampered by an injured shoulder during most of the game, ran

for 32 yards on four carries during the final march.

After moving the ball to the Tiger 6, where the Matadors faced 1st and goal, Burrell took a pitch from Scott and raced around right end for the TD. The score gave the Matadors a 19-14 lead.

It was decision time, and the Matadors decided to go for two points to have an advan-

Todd put the ball in the end zone. They tried a two point play, but it failed.

Dunbar wins 28-20.

The Dunbar Panthers and Estacado Matadors kept right in the thick of things last week when they won their games at home. It made it possible for them to get a piece of the District 3-AAA pie, if they keep winning the remainder of their games the next several weeks.

That is if the Dunbar Panthers defeat Lake View.

Both teams will have their final games on the road with Dunbar playing Snyder on Friday evening; closing out the season with Lake View there on the following Friday, Nov. 11.

As of this week Lake View, who was idle last week, is still leading the pack with a 4-0 record in the district.

Also facing all of their remaining games on the road, Estacado will travel to Lamesa, who is tied for last place, Friday. Their last game of the season in district play will be against Sweetwater, who was defeated by the Panthers last week, 28-20.

Both coaches, Louis Kelly of Estacado, and Van Jefferson, are expecting their teams to finish strong.

They did just that! Burrell took another pitch from Scott as he had done in the previous play. Just as he was about to be hit by Tiger defenders, he threw a perfect strike to James Rose.

This is the way the score ended, 21-14, Matadors.

DUNBAR STOPS SWEETWATER, 28-20

With Kenneth James, flashy wingback of the Dunbar Panthers catching three passes, the squad from Sweetwater was stopped last Saturday night, 28-20. James was able to catch 30, 48 and 4 yarders.

This win by the Panthers kept them alive in the District 3-AAA race with Estacado, who beat them earlier this season, and undefeated Lake View.

After falling behind 7-0 in the first quarter on a 2-yard run by Sweetwater's big gun Everett Todd, Dunbar came back with a 1 yard plunger by Willie Anderson. The score was tied with 6:33 remaining in the quarter.

Bruce McNight gave the Panthers a lift when he intercepted a Sweetwater pass and ran the pigskin to the Dunbar 30. From that point, quarter-

back Daryl Greene tossed the ball to White, who ran the sidelines, but threw a halfback pass to James for 30 yards for a TD. Robert Tolbert was true with his second PAT, making the score 14-7 Dunbar with 5:48 remaining in the first quarter.

Sweetwater did not give up. They took the kickoff and marched down the field for

another TD. Mustang quarterback, Terry Henson, was perfect at this point with two PAT's. The score ended in the first quarter, 14-14.

In the second quarter, James took another pass from Anderson. It was a 48 yarder, and it gave the Panthers another score. Again Tolbert put the icing on the cake with another PAT. Dunbar, could have scored again but Anderson fumbled the ball out

of the end zone.

Again in the contest, James caught his third pass from Robert White in the third quarter. Kicking well all evening, Tolbert added his last PAT. The score, at this period, was Panthers 28, their opponents 14.

Sweetwater came back a gain to score their final points of the evening with Matt Patterson, quarterback, hitting Russell Gillilan with a 20 yarder. Todd put the ball

SUNDAY SCHOOL LESSON

MAKING MERCY A WAY OF LIFE

Luke 13:10-17

10 Now he was teaching in one of the synagogues on the sabbath. 11 And there was a woman who had a spirit of infirmity for eighteen years; she was bent over and could not fully straighten herself. 12 And when Jesus saw her, he called her and said to her, "Woman, you are freed from your infirmity." 13 And he laid his hands upon her, and immediately she was made straight, and she praised God. 14 But the ruler of synagogue, indignant because Jesus had healed on the sabbath, said to the people, "There are six days on which work ought to be done; come on those days, and be healed, and not on the sabbath day." 15 Then the Lord answered him, "You hypocrites! Does not each of you on the sabbath untie his ox or his ass from the manger, and lead it away to water it? 16 And ought not this woman, a daughter of Abraham whom Satan bound for eighteen years, be loosed from this bond on the sabbath day?" 17 As he said this, all his adversaries were put to shame; and glorious things that were done by him.

came as a Jew, in order to win Jews; to those under the law I became as one under the law-though not being myself under the law-that I might win those under the law. 21 To those outside the law I became as one outside the law-not being without law toward God but under the law of Christ-that I might win those outside the law. 22 To the weak I became weak, that I might win the weak. I have become all things to all men, that I might by all means save some. 23 I do it all for the sake of the gospel, that I may share in its blessings. **MEMORY SELECTION:** Be merciful, even as your Father is merciful. Luke 6:35.

WORDS OF LIFE

Biblical Inspiration For The Week

"Do not fear."-Mark 5:36
1. Do not be anxious. This is one interpretation of, or meaning for, our text. God does not want us ever to be anxious; for God is always doing for us the very best that is possible in and under the circumstances of each hour. 2. Do not be overly concerned. Concern is an intellectual state, while anxiety is an emotional state. "Do not get upset either in mind or in

spirit," says Jesus in effect in the words of our text. 3. Have confidence in God. In the end... God rules. Why not trust him now? It is He who has the last word. Good sense on our part would dictate that God be given or afforded the first word as well. This kind of course will save us from false fears and anxieties. Do not fear.

Prayer Poem

In 1849 the hymnist F. W. Faber wrote of God's goodness in this way:
*My God, how wonderful thou art,
Thy majesty how bright
How beautiful thy mercy-seat,
In depths of burning light.
O how I fear thee, living God,
With deepest, tenderest fears,
And worship thee with trembling hope
And penitential tears!* * * *
In church and home, when we are honest and faithful, "all things work together for good".

show that one should never give up. An all around news-person at KFYO, Ms. Boyd spends her busy week attending news conferences, writing stories, editing copy, broadcasting, and interviewing various personalities in the community. "It's a challenge, but I love every minute of it," smiles the attractive young Black sister.

When asked about other occupations, she is quick to say: "As far as being a teacher, I love kids, but I don't have the patience to work with a group of them from day to day." "As far as being a secretary, I don't like routine work, that's why I'm in this field. A field where there is something new and different happening all the time," she adds.

As far as hobbies, Ms. Boyd enjoys sewing and playing tennis. She's creative, articulate, and charming. She says: "Reading is probably my highest interest." As she says, one can never go wrong reading. It is very evident that she is a well read person.

"I have been blessed, because good things have happened to me," says the young lady. "Being at the right place, the right time, seems to be taking to me," she smiles.

Of course, I don't mind working hard for anything, because one must pay the price with a lot of hard work and faith," she says. She credits her views on life to her mother and father who didn't spare the belt on her.

Her advice to young people is that they can do anything they want to do if they are willing to work hard and pay the price. She concludes, "Young people should stick it out, listen to their parents, have self-confidence, and faith."

She is Pam Boyd, KFYO News. A young Black sister making a career out of broadcast journalism.

arrest of the offender. Britt advises young Black brothers and sisters to stay in school and get an education. "Do something and stick with it," he makes very clear for young people.

In asking how he communicates with young people, he says he has spoken to many young groups in Lubbock. "I enjoy taking the patrol car to the neighborhood or school campus, and letting the kids get inside," he says. "We really need a Black owned radio station in Lubbock," says Britt. At one time, he was involved in trying to secure an effort. "We haven't given up on the idea, because there is a great need for it in Lubbock," says Britt seriously.

"Black people has got to have some type of communications, via radio, to help inform them of the problems facing them in Lubbock," he continues. With a Black radio station, Britt believes that many of

the problems in the community would be solved. "Black people have got to hear the beat of the drums," he adds. "There are just so many opportunities for young Black people today if they would only take note to what's around them," he continued. "You know, many people didn't think I'd be on the police force these many years, but I hung in there," he concludes.

As of October 15, Britt celebrated his 15th year with the Lubbock Police Department.

Over the years, he has received several other awards, including the recent one in which Capt. Jack Thomas cited him for finding the location of the body of Robert Atkinson whose body was found in a weed patch in east Lubbock recently. In that commendation, he was also cited for the
