SAFETY STANZAS

The curfew tolls the knell of parting day
 A line of cars winds slowly o'er the lea:
 The pedestrian plods his absent-minded way,
 And leaves the world quite unexpectedly.

Jack and Jill passed on a hill
 As fast as they could scaper
 What awful luck! They met a truck!
 The funeral is next Thursday.

The shades of night were falling fast
 When through an Alpine village passed
 A youth who rode with might and main
 To get across before the train—
 A crash—He died without a sound—
 They opened up his head and found—
 Excelsior.

Folks who drive like lightning
 Should remember, please,
 Lightning very often
 Ends up striking trees.

He tossed an "old smoko" on top of old trash,
 His job and the others' were lost in a flash!
 For smoking's a pleasure but fire brings you grief—
 And a rule breaking smoker is worse than a thief!

You probably know what you are going to do,
 But give us a signal, we'd like to know too.

If you ride like the wind with some queasy squirt
 Death is your reward and just dessert.

God told three devils, as they divided the kill
 "You take the drivers who pass on a hill."

It's very, very true and it's very, very sad!
 Before the gods destroy a driver—they first make him mad.

If you speed into a curve and gasp a dying groan
 No one will hate you if you do it alone.

Highlights And Sidelights From Your State Capitol

By VERN SANFORD
Texas Press Association

By Vern Sanford
 Texas Press Association
 AUSTIN, Tex.—Saturday will
 sell the tale.

That thought is undoubtedly
 uppermost in the minds of gubernatorial
 candidates Allan Shivers
 and Ralph Yarborough, and thousands
 of Texas voters who have
 followed the fiery campaign from
 Lacey to its high-tempo climax.
 As August 28 approached, Governor
 Shivers and Judge Yarborough
 stepped up their respective
 campaigns. Both made special
 appeals to the thousands of
 "essential balloters" who shunned
 the polls in the first primary.

In rallies and radio broadcasts
 over the state, the governor told
 listeners that good, sound state
 government was the only medium
 through which Texas could
 continue its prosperity.

"This is no time to start
 experimenting. This is no time to
 throw the state government into
 complete turmoil," Shivers said
 as he pictured Texas' present
 financial and economic picture as
 bright.

Shivers said that the state is
 now free of depression, that industry
 and employment are
 "booming."

Most families are now better
 set financially with money in the
 bank, and the state government
 has a balance of \$27 million with
 which to work improvements,"
 he governor explained.

He underlined the evils of government
 leaders trying to buy
 public support with public money
 as "leading down the road of
 waste, extravagance, and corruption."

Shivers also lashed out at the
 claim that he had broken a political
 pledge given at the 1953
 Democratic Convention.

"My opponent has charged that
 I pledged to support whomever
 was nominated at the 1952 Democratic
 Convention," he said.

Shivers' road from the convention
 record that the only pledge
 made was to put the Democratic
 national nominees' names
 on the Texas ballot. That was
 done, he said.

In a skirmish over the labor-
 union vote, the Governor accused
 Yarborough of being "ashamed"
 that every strong CIO box went
 for the Austin attorney in the

first primary.
 Shivers, who has claimed that
 outside labor organizations are
 supporting Yarborough, said that
 Yarborough had now turned his
 back on his supporters by claiming
 that the union boys had

Shivers also reported that 59
 members of the State House of
 Representatives had announced
 their support of him for governor.

Takes Dim View
 While Shivers' picture of the
 present administration was a
 bright one, Yarborough's was the
 opposite.

In a theme developed in the
 early days of the governor's
 campaign and followed steadily,
 he lashed Shivers and the state
 administration with curt and
 critical accusations.

Yarborough pitched in a new
 charge as he drove and flew
 over the state.

Large billboards over Texas
 urging motorists to drive safely
 were paid for by an oil company.
 Yarborough stated, a direct
 violation of law because Shivers'
 name was on the billboards.

He said it was a violation for
 a corporation to contribute to a
 political campaign.

In stamp speeches Yarborough
 also had nothing but criticism
 for state government.

He re-warmed charges, developed
 earlier in the race, that a
 long tenure in office had caused
 corruption in the capital and that
 Shivers was conducting an "un-
 truthful" campaign.

Yarborough reiterated accusa-
 tions that state printing contracts
 were illegal.

At Gonzales he asked 150 court-
 house square listeners to make
 sacrifice in time and effort to
 "preserve their freedom and lib-
 erty" by voting for him.

He also declared the need for
 a drought-relief program and
 promised if elected to draw up a
 plan.

Could Pose Problem
 The possible problem of having
 a state gov't not belonging to one
 political faction and a Texas
 democratic party organization of
 another strain is causing loss of
 sleep for some party leaders.

The problem is this:
 Shivers, as a conservative dem-
 ocrat, presently heads the state's
 party organization which also is
 conservative democrat.

In addition, his followers took
 control of the party convention to
 be held September 14.

If Yarborough, as a liberal-
 loyalist, wins the August 28th run-
 off, the situation for the next two
 years could see the head of the
 state Democratic Party at odds
 with his party's official organiza-
 tion.

White, Porter Sour
 State Agriculture Commissioner
 John C. White has charged that
 the Texas drought relief plan for
 stockmen may prove a failure if
 "Republican political ambitions"
 are not separated from the pro-
 gram.

While accused Jack Porter
 Republican national commit-
 teeman from Texas, and other
 Republican leaders with blocking the
 effectiveness of the program.

Porter in turn stated that White
 was angry "because Now Dealers
 are being replaced with people
 who believe in sound principles of
 government."

White said that in his three
 years of drought relief work it had
 never been necessary to clear
 anything through national
 committees of either party.

He had earlier stated that the
 WPA, administering the program,
 was being made to depend on the
 Republican committee for its pol-
 icies in drought relief.

EARTH SUNDAY and MONDAY

Feature for feature, you'll find this bin
 the most efficient 2-in-1 bin at any price.
 And here's another big saving—it's pre-
 fitted so you can erect it yourself. Takes
 only a few hours, with our own tools.
 This attractive, extra-sturdy all-steel
 bin is fireproof, weatherproof, and rat-
 proof . . . a real addition to any farm!

11 reasons why the Guardian is your smart buy!

ALL STEEL GALVANIZED GRAIN BIN

- 1—Ventilator cap, absolutely moistureproof and weatherproof, yet comes off in a jiffy for conditioning or ventilating and filling.
- 2—Special manhole, combines ease of filling with complete protection from weather and moisture. Not necessary to remove roof section for filling.
- 3—Footers on each side give these roof ribs extra strength. This feature, together with rolled edges, provides strongest possible roof.
- 4—Ladder rungs are important safety feature when working on roof—also reinforced roof prevents buckling and strain.
- 5—Improved door casing specially designed to keep out moisture. Tie rods assure maximum strength, even when bin is full.
- 6—Simple, more convenient, single door is scientifically reinforced. Sturdy catches hold door secure, top and bottom.
- 7—Galvanized walls have 2 1/4" corrugations. . . for greatest strength, will not bulge or burst under severest pressures inside or out.
- 8—Flange, formed by turned under sidewall, makes moistureproof joint with floor.
- 9—Removable panel makes conversion to forced air drying an easy matter. Fan assembly goes on in place of panel.
- 10—Easy to empty bin. Grain can be shoveled, or removed with an auger.
- 11—When used with forced air for conditioning, a perforated floor must be used. Two perforated floors are available, one elevated as shown below, and one (not shown) which goes on the bottom of the bin on top of concrete or block foundation.

Conditions and Stores Your Crops Safely!

Every farmer who grows grain must have adequate on-
 the-farm storage—or be at the mercy of speculators.
 But storage, alone, is not enough! By merely putting
 in the perforated elevated floor, shown here, and in-
 stalling a blower unit, this bin is quickly converted for
 conditioning and drying moist crops. (Perforated floor
 optional.)
 No longer need you wait on the weather! Now you
 can harvest your crops as soon as they're mature . . .
 and bring any excessive moisture content down to safe
 limits. You clear your fields earlier. Properly condi-
 tioned grain won't mold or spoil. And you can store it as
 long as you wish—have better grain for your own use,
 and get better prices when you sell.
 This bin costs so little, there's no reason for you to
 wait another day! Stop by or call your Guardian dealer
 now!

TIME AND MONEY

OWOSSO, MICH. (AP)—Each time John Penyska opened his mouth in Circuit Court it cost him 30 days in jail. The judge told him to pay his ex-wife, Sally, back alimony or servz 30 days in jail.

Penyska said he'd take the

days and protested when the judge told him time in jail wouldn't wipe out the debt.

"Maybe 60 days would be better," the judge suggested to the bitterly protesting Penyska.

"Make it 90 as long as I'm going to jail," Penyska said. The judge did.

Larue and Connie returned home with them after visiting for two weeks in Ft. Worth and Archer City.

Young Pitchers Must Study Strike Zone, Says Walters

By Bucky Walters
You cannot learn how to pitch out of a book. If you want to become a pitcher here are four things to remember:

1. Play the game. You need practical experience. Learn by doing.
2. Learn how to get the ball over. Make the batter hit the ball.
3. Divide the strike zone in half. You can do this by putting stakes up in your back yard. Place them one foot apart. Then put one string from one stake to another string to each stake to shoulder high.

Learn how to hit the strike zone with straight balls. Master one pitch. When you find yourself between these strings divide the third string from left to right in the middle of the top and lower zone. This will give you a fair idea of which to pitch high and low strikes.

4. After you master the strike zone with a straight or fast ball you should work on the change of pace. Pitch. Don't fool around with any trick pitches. Just throw the ball with a little something on it. When you find a groover, the ball can be thrown there almost at will.

Don't fool with a curve until you are developed physically. It takes practice to get a good curve.

After these basic steps the number one thing should be condition. Running is one thing that can't hurt you. It will help your legs, wind and endurance.

Here is Bucky Walters as he looked to National League batting in 1940. The star of the Cincinnati pitching staff won 22 games as the Redlegs won the pennant and the World Series. Now he's coach for the Milwaukee Braves.

Ten Men Nominated For Nine REA Director Posts

The annual membership meeting of the Lamb County Electric Cooperative will take place September 8 at 2 p.m. in the Littlefield Community Center.

One of the main pieces of business to be transacted at the meeting will be the election of nine directors for the coming year. Ten men have been nominated for the nine positions—one of them by petition of members and nine by the nominating committee. Six of the committee's nominees are presently on the board, three are new.

The three new men nominated on the board are: H. G. Walker, L. G. Fox, C. M. Sanders. Doss Maner, Owen Kirk and V. H. Dier.

The petition signed and submitted by some of the members of the cooperative nominated Roy Thurston.

Members of the nominating committee were F. L. Locke, Bruce Wren, Ray Hulce, R. M. Herman, Joe Fisher, E. C. Glass, and G. H. Potret.

In addition to the election, there will be other items of business to transact and there will be reports from the officers. Hundreds of dollars worth of merchandise prizes will be awarded to lucky members attending.

Everyone will get a door prize. Mrs. G. F. Barleson of Lubbock is visiting Mr. and Mrs. J. V. Tidwell this week. Mrs. Barleson is Mrs. Tidwell's mother.

13 Percent Is Moisture Limit For Sorghum

The CSS Commodity Office sent a bulletin to all warehousemen last week warning them that moisture tests would be made on grain sorghum which they accept and store under the government's price support program. They cautioned that the moisture test must agree with the warehouse receipt and that if it exceeds 13 percent, the grain is not eligible for loan.

The 1954 final grain sorghum support rate for Lamb County is \$2.21 per hundred pounds.

Charles D. Jones Candidate for County Clerk of Lamb County

To My Many Friends and Voters of Lamb County:

I am asking for you to vote for me for the office of County Clerk in the second primary August 28th, 1954, on the fact that I need the job and to make a place for myself in the county, a place where I want to make my home.

I do not ask for your vote on the fact that I spent nearly four years in military service. I consider it an honor and a privilege to fight for my country, and my family, that they might enjoy a free country and the ideals of the American way of life.

For my honesty, integrity and character I give you references of what all the employers that I have worked for think of my work, my honesty and my industrious activities, I invite your personal investigation of my character.

I challenge any man who says I cannot and will not handle your County Clerk's office in an honest, fair, impartial and businesslike manner. I will give each and everyone of you the best, quickest and most efficient service that can be given from this office.

In consideration of your time and trouble, I will not pass out cards on election day.

Your vote and influence will be greatly appreciated and I will be forever grateful.

Yours for good service in
the County Clerk's Office.
Charles D. Jones

Rainbow Parfait Is Luscious Tasting And Beautiful Looking

How about a taste of the creamiest, most melt-in-your-mouth dessert you've ever tasted? Rainbow Parfait is an easy, inexpensive and colorful dessert, no exaggeration! Enjoy this new marvelous-tasting combination of mint, raspberry and vanilla flavors.

- INGREDIENTS:**
- 1 1/2 cups uncooked white rice
 - 1/2 teaspoon salt
 - 2 cups water
 - 1 cup milk
 - 1/2 cup beef or cane sugar
 - 1/4 teaspoon flavoring
 - Green food coloring
 - 1/2 teaspoon vanilla
 - 1 cup whipping cream, chilled
 - 1/2 tablespoon beef or cane sugar
 - 1 cup just-thawed raspberries or strawberries

METHOD: Put rice, salt and water in a 2-quart saucepan. Bring to a vigorous boil over a high heat. Turn the heat as low as possible. Cover and cook over this low heat for 1 1/2 minutes. Stir in the milk. Cover and cook over a low heat 10 minutes. Stir

occasionally. Stir in the 1/2 cup sugar. Divide the rice mixture into two parts. To one part add the mint flavoring until the desired degree of flavor is obtained. Add green food coloring until a mint green color is obtained. Cover and chill. To the other part of the rice mixture, add the vanilla. Cover and chill. To serve, whip the cream. Fold in the one tablespoon of sugar. Fold some of the whipped cream into the mint flavored rice mixture and some of the whipped cream into the vanilla rice mixture. Save some whipped cream for topping the dessert. Layer the mint rice, the raspberries (they are especially good) or strawberries, and the vanilla rice in parfait glasses or other dessert dishes. Top with whipped cream.

If parfait glasses (8 oz.) are used, this recipe will make six servings. A good idea is to place a generous amount of the mint rice in the bottom of each parfait glass. Top with some of the berries. Add a generous layer of the vanilla rice and top with more of the berries. Garnish with whipped cream.

The Lessellie Marionettes have appeared at children's theaters, fairs and expositions throughout the nation. For several summers the puppeteers conducted a class in puppeteering at Pennsylvania State College. They have lectured for art shows and have arranged puppet exhibitions for art galleries. Recently they have made several motion pictures using their dolls and have appeared on several television programs.

This will be the first time any such puppet show has been presented at the regional Fair in Lubbock, President Charles L. Adams said. It is designed especially for the many youngsters who will attend this 37th annual exposition.

Additional free acts will be announced later. For the gala opening of the 5,500-seat Fair Park Coliseum, the Fair will present a Grand Ole Opry show twice daily. Heading the cast of outstanding Western entertainers will be Webb Pierce. Among the extra attractions will be the appearance of Slim Whitman and other top-notch singing stars.

Sagebrush Fried Chicken— The Best of the Old West

Here is a different way to serve chicken—but probably easier than any you've ever tried! Once you fix chicken this way, you'll have it again and again. Crispy and brown, fried to a "T," it's served over yellow corn and rice. The rice is browned to develop a nutty flavor, perfect with fried chicken. Green pepper and yellow whole kernel corn are mixed with the browned rice—and oh, what a perfect combination with fried chicken!

- INGREDIENTS:**
1 frying chicken
1/2 cup flour
2 teaspoons salt
1/2 teaspoon pepper
Fat for frying chicken
3 tablespoons butter or margarine
1 cup uncooked white rice
1/2 cup onion, finely chopped
2 tablespoons chopped green pepper
2 cups water
1 teaspoon salt
1/2 teaspoon pepper
1—16 oz. can (2 cups) whole kernel yellow corn, drained

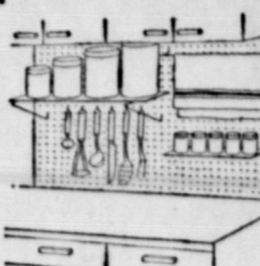

METHOD: Cut chicken into serving pieces. Wash in cold water. Pat dry. Mix flour, salt and pepper in a paper bag.

Place one piece of chicken in bag at a time and shake to coat with the flour. Heat 1/2 inch fat in a skillet until a drop of water just sizzles. Brown meaty pieces first, adding less meaty pieces last. With tongs or spoons, turn to brown evenly.

When lightly browned, 15 to 20 minutes, reduce heat, cover tightly and cook slowly until tender, about 40 minutes. Turn as necessary to brown evenly. Uncover the last 10 minutes to crisp the skin.

While chicken is cooking, melt butter or margarine in a saucepan. Add the rice and onions and cook until the rice is browned. Slowly add green pepper, water, salt and pepper. Bring to a vigorous boil. Turn the heat as low as possible. Cover and leave over this low heat 14 minutes. Turn off heat. Stir in the corn. Cover and leave over for 10 minutes or until ready to serve. Put corn and rice on a hot platter. Arrange the fried chicken over the corn, or place servings of the chicken on dinner plates and arrange the corn and rice on the plates. Garnish with tomato slices if desired. This recipe makes 6 generous servings.

Here's a Handy Do-It-Yourself Kitchen Trick

HANG THINGS anywhere this way.

HAVING a kitchen tool, utensil or ingredient within easy reach is a secret to happy cooking. The home handyman can do much to make this possible by erecting a panel of perforated hardboard—a material available by the sheet at all well-stocked lumber yards.

When mounted on strips, these panels accommodate patent hooks for shelves and utensils. Their positions and arrangement can be changed at will. Paint the panel to match the kitchen.

Here's Food Fun on a Budget

If You Have More Time than Money, You Still Can Eat Well and Plenty

By CECILY BROWNSTONE
Associated Press Food Editor

YOU HAVE MORE TIME THAN MONEY? Then use your time to help out your budget—to make your family's meals taste delicious and wholesome, look gay and inviting. Spend time shopping. Watch out for the best food buys of the week. Make your menus changeable. You'll probably find "specials" on foods you've never used. Never mind if they are new to you, try them. Develop cooking skill and make your meals interesting, your money stretch.

Look out for alternate foods. There is evaporated and non-fat dry milk as well as fresh—and budget-wise cooks use all three forms. They know, too, that both evaporated and non-fat dry milk can be whipped. Brown eggs cheaper than white in your neighborhood? Buy the brown; the color of an egg does not affect its flavor or food value. Meat? There's more than steak, chops and roasts on the hoof! Learn to use thrifty cuts; they may need long and careful cooking—but didn't you say you had more time than cash? Do you put fish on your menus often? Find regional varieties that are modest in cost.

Take time to save food. Saving money in the kitchen is a long-range project. If you throw out crusts of bread every week, you'll end by wasting pounds of bread every year. Dry the bread, grind it into crumbs, and use to extend many dishes. Never pour the liquid from canned or cooked vegetables down the drain; if you do you'll be throwing away valuable nutrients. Use the liquid in soups, sauces and gravies. Save beef, chicken, duck and ham fat; take the time to render them. These fats may be used many ways. Cook bacon over low heat so those drippings are pale in color, fresh and sweet—ready to use.

Grow herbs. In summer, herbs can take their place in the garden; in winter, they can grow in pots indoors. Or warm weather's bounty may be dried for later use. Herbs make many low-cost dishes entrancing. Know how marvelous fresh chopped dill tastes in a simple sauce over ordinary fish fillets? How basil in tomato dishes or a salad will make your tasters ask for more? Ever put rosemary on cube steaks?

Use spices to give foods zest. Take the time to rub a little chili powder into a pot roast before browning. Know the tang chili powder gives to French dressing? Or how about celery salt? Have you ever used it in soups, gravies and sauces, with fish?

Spend time making your meals gay, your food attractive. You don't need expensive linen, crystal or silver. Simple place mats, made at home from colorful cottons, can be changed often, are easy to launder, and add variety and freshness. Arrange food with care. Garnishes and an eye to color help here. For example, paprika and parsley aid pale foods such as fish and potatoes; thrifty casseroles benefit from golden-brown toppings of tiny buttered bread cubes or grated cheese. When you eat out, notice how a professional chef fixes food, then understudy him at home!

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

forms—the statutes as enacted by the Legislature, the ordinances of each city and town, and the court decisions in cases similar to the one to be decided.
A negligent or intentional act is necessary in order to impose legal liability for damages. Where both parties to an accident are negligent, the court will very likely say that both are at fault, and that each must pay for his own damages.
Two of the most important legal rules pertaining to accidents are those having to do with "proper look-out" and "proper control".
Driving in a lawful manner and complying with all ordinary traffic rules is not always sufficient. In addition, the driver is expected by law to be alert to all that is happening around him.
If an accident should occur and the driver has not been alert—he may be charged with "improper look-out" as a traffic violation and also held liable in damages to the other driver. The courts call a "proper look-out" such a look-out as a reasonably prudent driver would have kept under the same circumstances.
Of equal importance is the rule of "proper control". This rule means pretty much what those words imply—that the driver should have his car under such degree of control as to be ready for any emergencies as might arise. It may be breached even though no violation of ordinary traffic laws is involved.
For instance, a driver may be complying with the legal speed limit but still be driving at a rate of speed which is unsafe under the existing circumstances.
Even though legal speed limits are expressed in terms of a certain number of miles per hour, conditions may arise which prevent the driver from maintaining "proper control" of his automobile at that speed. On a rainy day on a slick street or highway, or in heavy traffic, the reasonably prudent driver will know that he should reduce his speed considerably below the legal maximum.

A Pioneer Views The Reunion Thru Eyes Of J. Evetts Haley

by W. T. Clayton

This may be the queerest angle that has ever been brought to your attention about a pioneer reunion, but somehow as I sat here yesterday and listened to Mrs. Vandervoort talk, I just needed a look round about and saw Author and Alma Barton from Springlake, Jack and Bess Hinson, Springlake, and the Wilkes Whites from Springlake then looked up at Bill and remembered the words of J. Evetts Haley as he gave recognition to his names when writing of the early days of the Llano Estacado. "Pioneer are the names of some of these old stand-bys-Keno, Dusty, and wing, Baldy, Tio, and Strawberry," he pays tribute to them and many other faithful horses for his roughest trails, longest hours, and hardest ranges with unflagging love and zest for their life and work together. Now this reunion is made up of people who have shared together, day by day, the pioneer trail with love and gratitude.

In the summer of 1887 it was decided that the XIT ranch was so large that by dividing it into smaller ranches the cattle could be handled more rapidly and efficiently.

Springlake was one of these divisions of the XIT. Just close your eyes and get a mental picture of this plains and where buffalo, antelope and mustangs once ranged then open your eyes on the reunion yesterday—sleek autos, well dressed ladies and gentlemen surrounded by wonderful irrigated farms, with a good program, good food, good reminiscing. Until next year good bye.

State Department Official Is Sudan Festival Speaker

SUDAN—Officials of the Sudan Festival have announced that S. Asst. Sec. of State, Thurston Burton, will be principal speaker at the annual festival to be held Sept. 11 this year. Another important guest is to be Congressman George Mahon, who has also notified officials that he will be present.

Preparations for the festivities are going full speed ahead following a meeting of the festival committee when Sudan Civic and social organizations were given assignments.

A committee composed of representatives of different clubs will assign countries of the United Nations to various Sudan business firms. The committee is composed of Mrs. Bob Masten, of Epsilon Sigma Alpha sorority; Mrs. Doyle Watkins, Tuesday Ferguson Club; and Mrs. Forrest Ferguson the 1950 Study Club. The business firms will decorate store windows to depict the history and costumes of the nations they represent. Townspeople will also dress in costumes portraying United Nations countries.

The 1953 Study Club will have charge of the "Parade of Nations" pageant as in the last two years. Mrs. E. J. Store is president of the club. Serving on the committee will be Mrs. Edgar Chance, Mrs. R. S. Gatewood and Mrs. J. T. Lybrand. Reed Larkham will assist them. Mrs. Weaver Barnett and Mrs. Joe Foster will be in charge of the state committee in design and decoration.

C. O. Gregory, Superintendent of schools, was named chairman of the band committee. Invitations will be sent to area bands in order that they may participate in the festival parade.

The festival committee named Mr. and Mrs. J. W. Miller to secure an organist and Herb Potter and Noel D. Lumpkin a committee for securing a loudspeaker.

Sudan and area residents will be called upon to fill permanent committee places. Those who wish to volunteer their services may contact either of the chairmen, Drew Watkins or Joe Salsbery.

Glenna and Roxie Rutherford, Iris Montgomery and Mickey visited in Carlsbad, N. M., last Thursday night. They toured Carlsbad Caverns Friday.

Thanks, Friends

In behalf of my family and myself, I would like to express our sincere appreciation for the encouragement, support, and many kind and gracious favors shown me while campaigning for County Clerk. The people have been wonderful, and I appreciate each and every vote I received in the July 24th Primary.

I would like to ask for a continuation of your help and support in the run off primary, and to any person that did not support me in the first primary — regardless of reason — I earnestly and humbly ask for your vote and support in the second Primary on August 28.

I am a graduate of North Texas State College in Denton, Texas having worked my way through school and graduated in the upper 10 percent of the class. I have worked for Good-year Tire and Rubber Company in

Dallas Division Accounting Office as an Accounts Payable Clerk and Auditor, as bookkeeper for 2 years in cotton gins; and for the last 1 1/2 years have been employed by an insurance inspection company. A large part of my duties on this job consisted of working with deed records, oil and gas lease records, criminal records, death and birth certificates, and the other various records in the County Clerk's office, and feel that this experience will be invaluable to me if elected.

I will continue my campaign asking for the job strictly on the basis of my merits and qualifications to discharge the duties of the office in a capable and efficient manner as I fully realize the responsibilities placed on the person serving in this capacity.

Sincerely yours,

Max and Mary Ann Hulse, and Cheryl Ann

LET'S TALK LIVESTOCK

BY TED GOULDY

Fort Worth—Most observers on the market at Fort Worth are of the view that there is a strong probability that more cattle will be fatted in Texas during the next six to eight months than for a year.

Many of the cattle will be grain-fed and many others will be carried on grain pastures with probably some supplemental feeding. Already reports are coming in of the movement of sizeable numbers of "wheat pasture" type calves and yearlings into the winter wheat grazing areas of the Texas Plain and Panhandle.

Conditions have been made quite promising in some sections that have received heavy showers recently. The shower activity has been continuing and while the benefits are not general, there has been enough aid to breed some optimism. Optimism is the commodity that cattlemen thrive on. Another fact that portends big feeding operations are the big

feed crops that are going to be made in sections of the West Texas Plains. In some sections conditions are reported the best in years. Storage is at a premium and there are plenty of cattle around. This means lots of cattle will likely be fatted in the Plains and Panhandle.

We are told that the "nubbin" corn produced in many part of the Eastern third of Texas will also be fed to cattle. This corn was of too poor quality to be salable, and when ground with cob, shuck and all the stepped up with some protein and some area to increase the digestibility, it will put pounds on cattle.

Our information is that many farmlots of from half a dozen to a couple of dozen head of cattle will be fed this way and some of the larger feeders will be "in" again this year.

The bankers are loosening the purse strings on farmers in the Corn Belt and more stockers and feeders are moving into those states.

Order buyers at Fort Worth say that they have more orders for the "good kind" than they are able to find in the runs lately.

Many of these are going into Illinois, Indiana and into the Western Corn Belt. However, the demand is spreading to the Eastern Corn Belt and over into the South

East as some relief from heat and drought has been reported in some sections there.

It looks like a big year for cattle feeding in the West. Fort Worth's dealers and order buyers report heavy demand continues from Arizona and the West Coast. One order buyer said, "I'd think Arizona would be running over with cattle. Thousands have been shipped there."

The West Coast operators are filling feeding pens and are still taking lots of the "plains" kinds of stockers and feeders off the yards at Fort Worth every week.

The feeling seems to be general that cattle prices have been pretty well established with the better fat steers and heifers due to sell around the \$20 to \$25 range. This more stable situation seems to be predicated on the present earning power of the consumers and the proportion of their expendable income that will be spent on meat.

On Monday's market, prices were strong, spots higher and calves were 50 cents and more higher than last week's close.

In the hog yard, the top was \$23.50 and sow old for \$14 to \$18.50.

Sheep and lamb found the market generally steady with choice Spring lamb up to \$19 and feeder lamb at \$15 down.

Mourning Dove Season Opens Here Sept. 1

The season on Mourning Doves opens Sept. 1 in all area counties with the exception of Bailey county, according to district game warden Pat L. Donnelly. The season will be open for hunters Sept. 1 to Oct. 10, inclusive.

The season will be closed two years in Bailey county. Donnelly said hunting hours are from 12 o'clock, noon until sunset each day. Bag limit is ten birds per day and the possession limit is ten birds.

Under the Texas State Law, Donnelly said, a person is required to place his game birds on storage within three days after the close of the season for the species that is being stored. There is no limit for retaining same.

Federal regulations provide that Migratory game birds may not be retained for longer than 90 days after the close of the season for the species of Migratory game bird that is being held. Hunters may use a bow and arrow are a shotgun, not larger than 10 gauge, capable of holding not more than three shells.

A hunting license is required anyone over 17 years of age who hunts outside the county of his residence.

TEXAS is on FIRE with a CRUSADE ...to hold Texas for Texans!

From time to time in the history of this great freedom of ours, it has become necessary for the people to rise up in righteous indignation against great grasping threats from without!

AT THIS MOMENT THE PEOPLE OF TEXAS STAND AT SUCH A CROSSROAD! The issue is clear: Whether we will hold TEXAS for Texans or surrender our great TEXAS heritage to out-of-state labor bosses, pinkos, the promisers and their henchmen.

Travis, Bowie, Crockett, Houston—all great names in the fight for Texas Liberty—gave their lives for TEXAS! The least we can do to hold their faith is to give our vote.

THEY KEPT TEXAS FOR TEXANS—WE MUST KEEP THEIR TRUST ON AUG. 28th!

Vote for Shivers

...We helped hold Texas for Texans!

Some One Needs You

Lesson for August 29, 1954

IS RIGHT belief all that is needed to make a Christian? In several places in the New Testament a plain NO is given to this question. For one thing, there is the example of Jesus. The first biography of him we have is the thumb-nail sketch from Peter's sermon at Caesarea, spoken (of course) years before the gospels were written down.

"He went about doing good," Dr. Foreman says. "Jesus not only was good, he did good. He spent his time helping people. What can we say of a 'Christian' who makes no effort to do as Christ did? Then James and John, different types though they were, agree on the same point. James says flatly that faith without works is dead, and a look at the whole paragraph where he says this, shows that the 'works' he is thinking of are just the giving of 'things needed for the body,' to those who are ill-clad and in need of daily food. As for John, he makes the same point: if a man sees his brother in need and closes his heart to him, how can the love of God be in such a man?"

Need for Bread

Some one needs you. This is as certain as that you are a human being. Nowhere in the New Testament is it suggested that any one should be so super-generous as to make a pauper out of himself. But all through the New Testament it is strongly suggested that if there is a need in the world that we can supply, we do not have to ask ourselves, 'What shall I do?' but only 'How can I help?' The simplest needs are physical. There are children in our own families; there are the perpetually poor, the unemployables, the defectives, in every community. There are people without work, hard-up people, even in the best of times. These are people you can see.

And you do not have to travel farther than the nearest church to be reminded of hungry people who will never see but whom you can help through that church. In Korea, for example, missionaries in every church that is at work there have been spending a large part of their time, in these last few years, in famine relief. Through "Church World Service," CROP and other interdenominational agencies you are offered the chance to help widows and orphans who without your help would simply starve. When your church helps to support "agricultural missions" you are helping people in backward countries to farm more intelligently and feed more people on the same amount of land.

Not by Bread Alone...

But man does not live by bread alone, though to be sure he does live by bread. Just because he is man and not brute, he has needs which are mental and spiritual. Every minister of a prosperous congregation knows families that have needed help to pay their bills; they have all the money they need and all that money can buy. But these may be among the most needy families of the congregation, their lives may be empty, or filled with fear and despair. Physically well-fed, spiritually starving people are all around us. In these days in particular there is need for cheer and courage. We are certainly living in the darkest hours of human history, and many believe these are the last hours of the human race. At such a time men's hearts melt within them.

Sharing and Bearing

There are also the needs of those who have missed the mark, who have been (to quote Paul) "overtaken in a fault" and need above all to have their spiritual health restored, they need to "get right" with God and man. Here again is a need which Christians supply not only to those whom they personally know, but through the missionary work of the church which they support — to others around the globe. Wherever, in mid-Africa or in a lonely western mining camp, or anywhere else, the message of Christ is brought by those who are supported by churches such as those in your community, there the Christians in the home churches are helping the deepest human needs perhaps better than they could if they were there themselves. Each of us has his own load of responsibility to bear; but also each of us can share some of the burdens of the heavy-laden, near and far.
