## NOSIN..... WITH POLLY

Farming on the Texas Plains is a way out in front of farming as most parts.

(This is an understatement according to Mr. A. P. Latham who recently moved to the community from Woodson, Texas not far from Ft. Worth.) It seems Latham and a couple of his brothers were enroute to Silverton, New Mexico from Woodson to look for a farm. Latham owns there. Somewhere here on the Plains they spied a tractor plowing away without the aid of any manpower. Latham brought his car to a screeching stop. He and his brothers jumped out and ran all over that field looking for a fellow whom they felt certain had fallen off that tractor after a heart attack. After all efforts to locate a dying man seemed futile they went back to look that tractor over again. (You guessed it.) Sure enough it was one of those "know it all tractors" that allows its master to farm from the coffee shop. Latham who had farmed all his life had never heard of one of those educated tractors who knew how to plow by itself, according to his daughter, Linda, who let me in on this story.

These early morning breakfasts are taking its toll on the female species who have always had to kick her husband out of bed every morning. Take the Marvin Ellis for instance. Marvin has missed a breakfast yet, but Allen isn't working this week and laid up with a broken leg.

## What You Should Know About Your Chamber of Commerce

The Earth Chamber of Commerce was granted its charter on February 6, 1956.

Three new directors were elected in March, 1956 to replace those three whose terms expired at that time. Directors now serving their terms are: Delma McCarty, Pres., Clifford Layman, Vice Pres., Paul Wood, Treasurer, Marvin Ellis, Bill Bryant, Carroll Backwell, Phil Cannon, Ross Middleton, Cecil Lemmons and the Jaycee's president, Richard Stockstill. An election will be held in March, 1957 to replace those three directors, Paul Wood, Marvin Ellis and Bill Bryant, whose terms expire at that time.

The Directors of your Chamber of Commerce have worked toward strengthening the organization. Earlier in the year of 1956, attention was directed towards the aiding of the City of Earth in the completion of the Highway Program. In August, a contract was entered into between the Earth Chamber of Commerce and the Retail Merchants Association of Muleshoe, Texas for the purpose of establishing a Credit Bureau in Earth. The contract specifies the working conditions, division of income and provides option for the Earth Chamber of Commerce to purchase the business at some future date.

A secretary, Mrs. Wilma Taylor, was hired to perform duties demanded by the Credit Bureau and the Chamber of Commerce. Office equipment was purchased by the Chamber of Commerce and office space was obtained.

Feddler and Solicitor cards were printed and distributed to all local business houses notifying solicitors that they were to secure a permit from the Chamber of Commerce office, as an agreement with local merchants, before conducting any business in the City of Earth.

Contracts were made in an effort to secure additional farm labor for this area during the early fall. Correct numbers, for all property in the City of Earth, have been obtained and the Chamber of Commerce will begin the process of numbering all residence as soon as these numbers have been received.

Work will soon begin, in conjunction with the local post office, in a move to combine all mail routes in our immediate area, such as the Dimmitt, Hart, Olton and Muleshoe routes, into an Earth route, so that patrons of our trade territory will have an Earth, Texas address.

Other business before the Chamber of Commerce is the move to add Earth as an additional stop for the Littlefield, Hereford bus route, which is now routed through Springlake, excluding Earth as a stop.

An effort has been made to impress the State Highway Department of the need for spending a portion of the funds allotted for Highway Improvement in Lamb County on Highway 70, and Farm to Market No. 1055, north and south from Earth.

Locating a correspondent for the Lubbock Avalanche Journal and The Amarillo Daily News, in order that daily papers may carry more local news with an Earth, Texas slant.

Securing preview plans for the building of a swimming pool, to be built and used by the community in the City Park of Earth. This is a community project and needs the cooperation of the entire community in order to be completed in time for use this season.

Brochures are being made up for the Chamber of Commerce to be distributed to other cities and spots, which will be more aggressive and helpful in this area as residents or industries if they know more of the resources to be found here and the prosperous aspects the community has to offer. Metal plates are being printed

to be displayed on your automobile, bearing this fact: "THE BIGGEST LITTLE CITY ON EARTH, EARTH TEXAS."

### 14 Reasons Why YOU Should Belong To YOUR C. of C.

Editors Note: Below are listed fourteen sound reasons why you as an individual or business firm should belong to YOUR Chamber of Commerce.

1. Because through the chamber of commerce the individual citizen can best discharge his obligations to the city in which he lives and makes a living.
2. Because I reap benefits in my personal affairs through the concerted planning, council and action that is best obtained through the work of the chamber of commerce.
3. Because I realize that every man owes a debt to his community that cannot be paid in taxes — a debt of personal service.
4. Because the chamber of commerce unites the public spirit of any city and directs it into useful and constructive channels.
5. Because it links the people of the entire community together in a common enterprise, and it makes possible great public and business-forward movements.
6. Because my business judgment tells me that whatever is best for this city and my neighbors is too valuable an asset for me to pass up.
7. Because as a member of the chamber of commerce I am afforded an opportunity actually to work for conditions I have long hoped for.
8. Because membership in the chamber shows my sympathy with an organized effort to better my city and improve the conditions of life within it.
9. Because it is unfair and unjust for me to derive benefits from a community - serving organization and not give it my active support.
10. Because the chamber of commerce holds up an ideal of civic development and commercial advancement that tends to the encouragement of what is helpful and the elimination of what is harmful.
11. Because I want to play my part in the organized development of my community and to carry my share of the public burden.
12. Because the chamber of commerce is business insurance — an institution that is accomplishing great good for my city at a time when concerted action means more than ever before.
13. Because I realize that attention to my business is not enough. No individual business will prosper greatly unless general conditions are improved. The chamber of commerce is part of a nationwide business movement working to that end. As an individual I want to pool my efforts with others for greatest results.
14. Because this is the proper time for business to present a united front. I have never been a quitter in my own affairs, and I am not going to quit now and let others carry the community load.

## Farmers Receive Large Benefits From Railroads

AUSTIN — Farmers in drought stricken Texas benefited by \$1,159,073 during the first 9 weeks of the period in which the railroads reduced freight rates on shipments of hay by 50 per cent.

The rate slash was made in October at the request of President Eisenhower. During the first 9 weeks the privately owned railroads moved 92,885 tons of hay into Texas at a million dollar plus savings to the farmers and ranchers, the Texas Railroad Association reported here today.

The rates were voluntarily reduced in eight western states, but the heaviest volume of business for land owners in the eight states was in Texas. The total saving was \$1,600,260, of which two-thirds benefited Texans.

Oklahomans saved \$272,786 and Kansans were aided by the railroads by \$205,226.

"As far as we know, no other private industry has extended aid to the farmer in this emergency," said Kenneth McCalla, general counsel of the Texas Railroad Association.

"This is comparable to the President's requesting all retail stores to sell to the drought-stricken farmers and ranchers at a 50 per cent reduction. Of course, no such request has ever been made, but it has been sought of the railroads several times and they have responded gladly. The result, in past years, has been a saving of more than \$22,000,000 to farmers and ranchers."

**DON'T BREATHE A WORD BUT —**

by VIOLA HALL

To start this week with a laugh Here is a poem our speaker, Wayland Boyd told at the Football Banquet Saturday night.

Mary had a little skunk, his coat was black as ink, and every where that Mary went He carried a little ———

By the way every one really enjoyed listening to Mr. Boyd, he was very good.

Some couples that were at the banquet or together afterward were: Kay H. and Jerry T. Norma J. and Otis K. Pat A. and Max G. Elaine R. and Jimmy H. Gaye W. and Bobby A. Bud C. and Carla C. Kenneth L. and Sue N. Sharon H. and Joe Eld W. Kay W. and Ken-ny H. Judy Kay W. and Tracy A. Molly T. and Keith L. Janis P. and Gene S.

Evelyn Clayton and Melvin Lewis one of our old steadies. They were together Wednesday, Friday, Saturday and Sunday.

Pat Armstrong and Max Go-forth were together Wednesday Friday, Saturday and Sunday. We are glad to have you back with us. Pat after your illness.

Our Jr. High kids are really getting around these days. Larry Tunnell and Minnie Wheat double dated with Jerrell Hadaway and Linda Beasley Saturday night. Hope you remember what it was about.

Cute Little Minnie Wheat really gets around because she was with Rayburn Ott Friday night. That's all right, Minnie!

Sharon Hay and Joe Wheat were with Barbara Lott and A. C. Lewis Thursday night. They saw "A Kiss Before Dying". I hear it really scared you, Sharon. Also at the Banquet Saturday night and at Church Sunday with Barbara and A. C.

We know we didn't catch these two. Because I fouled out. Jenna V. Brock and Don Sanderson were together Saturday night.

Francis Phipps and Macky McCarty are two that really burn the road. They were together after the banquet Saturday night, doubled with Neida and Doyle Sunday night. They saw "High Society". Heard it was real good and Friday they were in Amberst.

Linda Kelley and Bobby Green are another great pair. They were together Friday, Saturday and Sunday nights.
